# Annual Flower Chart

The greatest degree of success with flowers is acquired by knowing the likes and dislikes, the natural habits and the best treatment of each individual variety. We hope this chart will help you to this knowledge.

[illegible]

Floyd Bradley and Ernst Roggli, the Pansy Seed grower in Switzerland.

**Templin-Bradley has every facility for serving your garden needs, quickly and accurately.**

Electric seed germinators of our own design give us accurate results.

Our own Trial Grounds where type tests are conducted.

Our own Nursery assures you carefully grown plants.

A corner in our Seed Department handling 7,500 orders a day in our busy spring season.

U.S. Postal clerks, right in our own building cancel stamps and route packages direct to trains.

# For Your 1935 Garden

To Our Customers:—

It is a pleasure to send this new catalog to those of you who have been our customers and to new friends who are asking for copies for the first time.

This year is the 59th since Mr. Templin sent out his first catalog of seeds and plants and my 23rd in the service of the Templin-Bradley Co. In the long span of years, we have made a host of friends because we have never wavered from Mr. Templin's original idea that only the best seeds and plants are worth planting.

More and more people are turning to their garden for recreation, food and healthful exercise and for the beautiful flowers and landscaping effects that only a nice garden can give. Garden Clubs, radio, newspapers and magazines everywhere are bringing people to a realization of the pleasure and profit a garden can give.

It is only thru the medium of a good, comprehensive mail order seed and nursery catalog such as this one that you can obtain the wide assortment of seeds and plants that you need for your garden. The Templin-Bradley catalog will make your planning and buying easy. You will find especially helpful, the Annual Flower Seed chart on page 6, the Perennial Seed and Plant chart on page 78 and the new Vegetable Seed Chart on page 42.

You cannot buy equal quality elsewhere for less money. As you read thru the catalog you will note marked price reductions for larger quantities of seeds and plants, thus we pass on to you the saving we make in handling larger quantities. It is economy on your part when you send us your order for your planting requirements.

All of the seeds and plants we offer have been carefully grown from tested, parent stock. All of our growers are men of long experience, watchful for quality and productivity. Our test gardens in Medina and here in Cleveland give us further check on the habits and quality.

Located as we are, practically in the center of population of the United States, parcel post, express and freight service to every corner of the country is very fast.

With this catalog, comes our best wishes for a most successful garden in 1935.

**Prices Include Delivery** On every thing in this catalog except where noted, prices include delivery to your mailbox or express office. This means you have no extras when you buy here.

**When Do We Deliver?** Seed will be shipped as soon as your order is received. Begonias, Cannas, Dahlias, Gladiolus, Summer Flowering Bulbs, will be shipped from here, either with seeds or separately, later, if there is danger of freezing. Perennial Plants, Ferns, Lilies, Mums, Peonies, and Iris, Phlox, Shrubs, Vines, Roses and Small Fruits will be shipped direct from our Painesville Nursery at proper planting time.

**When to Order** I am sending this catalog to you early enough so you can make up your order with the least amount of rush. We like to have the orders come in as early as possible so we can spread our work over a longer period than if everyone waited until planting time. But if you cannot order early, send your order in any time and we will take good care of it.

**How to Order** Two order blanks just alike are bound in this book, perforated, so you can tear them out easily. We like to have you use the order blank in ordering because it insures accuracy in filling your order when we receive it. When you are ready, tear out one of the order blanks—print or write your full name and full address in the spaces provided at the top. Then list all the flower and vegetable seeds you need. Do the same with the bulbs, shrubs and plants you wish to order. You will see a column on the order blank, headed "Variety Number." Every variety in the catalog has a number just in front of the name. If you wish, you only need to fill in those numbers on the order blank instead of writing out the names of varieties. We do like to have you use the numbers, even though you use the names, too, for it speeds things up here when we fill your order and helps us to be accurate. A tough, self-addressed envelope is enclosed with the catalog. Use it when you mail us your order. You may pay by Money Order, Check, or if you must send cash or stamps, be sure to register the envelope.

## The Templin-Bradley Guarantee

We guarantee the safe arrival of all seeds and plants you order from us, that they will be as represented and in condition to grow satisfactorily if planted and cared for properly.

Any item or items not found to be satisfactory, will be replaced free of charge or we will refund the price you paid us for same. It is agreed that we shall in no case be liable for more than the actual price paid for items found to be unsatisfactory, if any. We do not guarantee fertilizers, insecticides or other manufactured articles.

# All-American Flower Selections

## For Your 1935 Annual Flower Garden

All-American  
Award of Merit  
1935

**What the "All-American" Means.** For the past three years, the All-American Selections Committee, of the American Seed Trade Association, has been conducting trials of all new varieties of flowers submitted by plant breeders from all over the world. These trials are located in ten widely scattered test gardens from the Atlantic to the Pacific, in the charge of experts. By voting on the merits of each variety in each location, the best possible judgment of merit can be obtained and all articles bearing the name "All-American," in this catalog have passed the test of these judges. We recommend that you try as many of them as you can, for it is the new things in your garden that add so greatly to its interest. Mr. Bradley has worked very closely with members of the Committee, so this project is very close to The Templin-Bradley Co.

**54 Antirrhinum, University of California** **Rust Proof**  
All-American 1935 Certificate of Merit. The highest award ever given to any flower by the All-American Selections Committee. This rust proof "Snap" is the result of years of intensive work by our growers in conjunction with the University of California. This strain is more than 75% rust proof after being put through the most rigid tests, under conditions that were created in every way to try and produce rust on the plants. If your Snaps have been subject to rust, try this new strain this year and grow wonderful flowers with healthy foliage. **Best Antirrhinum Colors Mixed.** Pkt. 25c.

**427 Calendula, Orange Shaggy**  
All-American 1935 Gold Medal. Orange Shaggy is a very distinct new break in Calendulas. The petals are long and deeply fringed or laciniated. Rows of these long fringed petals overlap each other in a rather irregular fashion and build up a bloom with a shaggy appearance. These blooms have great grace and beauty, the color is deep orange, shading to a lighter orange in the center, giving the flower a two-tone effect, the stems are long, and the plants 18 inches high. **See Natural Color on page 2.** Pkt. 25c.

**514 Celosia, Flame of Fire**  
**Pyramidalis.** All-American 1935 Special Mention. The picture at the left shows the fine pyramidal form of this attractive new Celosia which grows 18 to 20 inches tall, carrying large flame-colored plumes on the top of the plant. It is quite branching, each branch having a proportionately sized plume. Every plant grows to the exact size and shape, making it desirable and effective for a border planting. Each plant looks like a "Flame of Fire." Pkt. 25c.

**626 Cosmos Orange Flare**  
**Klondyke.** All-American 1935 Gold Medal. Orange Flare is one of the most talked of and admired novelties this year. The color is a vivid orange, and the foliage is a soft light green which gives the plant a mass of gorgeous color. The stems are long and wiry and the plant grows 3 to 4 feet tall. It is much earlier than most Cosmos, trials show it to be in full flower in less than four months after planting, from late July until frost. **See Orange Flare in Color on page 2.** Pkt. 25c;  $\frac{1}{8}$  oz. 50c.

**687 Dianthus, Laciniatus Splendens**  
All-American 1935 Special Mention. Free flowering and easily grown, The Dianthus family furnishes us with one of the most popular border plants. This new Laciniatus Splendens is the most striking Dianthus yet produced. The flowers are very large, more than 2 inches in diameter, in a brilliant shade of crimson, with a large boldly contrasting white eye. **See cut at left.** Pkt. 25c;  $\frac{1}{8}$  oz. 45c.

**1270 Larkspur, Rosamond** **All-American**  
1934 Gold Medal. Also granted an Award of Merit by the Royal Horticultural Society of London. Rosamond is the most distinct Larkspur to be introduced in many years. It is two weeks earlier than other Stock-Flowered varieties. It is of uniform height, and the plants bear good spikes covered with fully double flowers. The color is new, a pure deep, rose self-colored. Individual florets are large and closely placed on the stems. Pkt. 15c;  $\frac{1}{8}$  oz. 40c.

**1359 Marigold, Yellow Supreme**  
All-American 1935 Gold Medal. This new Marigold is the result of years of careful breeding. It is similar to "Guinea Gold" but of a pure lemon-yellow color, fully Carnation-flowered, nearly 3 inches across, quite early and a very profuse bloomer. For better description, **see natural color on page 2.** Pkt. 25c;  $\frac{1}{16}$  oz. 35c.

## Double Nasturtiums

See Front Cover for Color

**1439 Scarlet Gleam** **All-American Gold Medal 1935**  
Scarlet Gleam when grown in a large space has been likened to a huge fiery carpet. It is the most intense dazzling scarlet, plain petaled, deep throated, with individual petals at least twice the size of ordinary Nasturtiums. The doubleness is caused by an overlapping of the smaller petals toward the center of the flower. Scarlet Gleam is equally useful and beautiful, for both garden use and for cut-flowers. Pkt. 25c;  $\frac{1}{8}$  oz. 40c.

**1438 Golden Gleam** **All-American Gold Medal 1933.** This wonderful Nasturtium produces great quantities of beautiful large flowers, often measuring 2½ to 3 inches across. They are so sweet-scented that a bouquet of them will fill a room with fragrance. The plants are vigorous and bushy, with rich green foliage and bloom throughout the summer and fall. For best results, Golden Gleam should not be over watered. Growing a bit dry is preferable. Pkt. 10c;  $\frac{1}{2}$  oz. 25c.

**1440 Gleam Hybrids** **All-American Award of Merit 1935.** The flowers are fine large, sweet scented doubles, of the same type as Golden Gleam and Scarlet Gleam. The habit of growth is the same, with semi-dwarf plants throwing short runners from well rounded, free flowering bushes. The stems are long and the foliage a lovely green. The color range includes an evenly balanced blend of the glorious assortment of brilliant shades of salmon, golden-yellow, orange-scarlet, cerise, cream-yellow, orange, maroon, crimson and many spotted varieties. It is a Glorious Mixture. Pkt. 20c;  $\frac{1}{8}$  oz. 30c.

**1425 Front Cover Collection**  
**Gleam Nasturtiums** **1 Pkt. each 50c**  
**3 kinds**

Double Gleam Nasturtiums, See Front Cover

# And Other 1935 Flower Novelties

## All-American Flower Selections Continued

### 1593 Petunia, Martha Washington

All-American Award of Merit 1935. A ruffled Petunia 9 inches high, a perfect ball, covered with lovely blooms of blush pink, veined with rich wine-red, deepening in the throat to a dark violet. It resembles a Pelargonium, hence the name Martha Washington. Pkt. 25c.

### 2068 Verbena, Violet Bouquet

All-American Special Mention 1935. A charming new Petunia of rich violet, tinged with garnet, changing to deeper violet as the flower ages. Cream eye. Flower heads  $2\frac{1}{2}$  to 3 inches, individual florets  $\frac{3}{4}$  inches across. Symmetrical plant, 25 flowers open at a time. Pkt. 15c.

2360 All-American Flower Collection. 14 Varieties. Value \$3.05 for \$2.50

### 2070 Verbena, "Eyeful"

All-American Award of Merit 1935. See this in Natural Color, page 2. Medium sized flowers of intense scarlet with contrasting white eyes. Very compact growth making it useful for bedding or border plants. It is showy and startling in color, the sparkling red and the great beauty giving it the name "Eyeful." Pkt. 20c;  $\frac{1}{16}$  oz. 40c.

### 2294 Zinnia, Fantasy

All-American Award of Merit 1935. See several blooms in color, page 2. The very informal, shaggy appearing flowers are graceful and interesting, quite different from the usual stiff, formal Zinnias. The rounded, medium sized flowers have shaggy, ray-like petals which give a delicate and refined appearance. The color range includes the brightest shades of red, yellow and orange, and the pastel shades of pink and cream. Fantasy Mixed Colors. Pkt. 25c;  $\frac{1}{8}$  oz. 45c.

Orchid Flowering Dahlia

## Other 1935 Flower Novelties

### 173 Aster, Crego Blue Flame

Crego or Giant Comet Class. If you are a lover of blue flowers, try this new Aster. It is a bright Navy Blue, distinct from any other dark blue or purple Aster now offered. The flowers are large and double. Pkt. 10c;  $\frac{1}{8}$  oz. 35c.

### 659 Dahlia, Orchid Flowering

A new type of Dahlia, flowers are of a distinctive character and coloring and provide a wonderful range of color. (Picture at right above.) Mixed. Pkt. 15c;  $\frac{1}{16}$  oz. 60c.

Marigold, Royal Scot

### 428 Calendula, The Jewel

A real Jewel. The new variety Jewel is one of the finest introduced in years. The flowers are deep orange in color, rounded shape, with good form and great depth of petals. The plants are semi-dwarf, free flowering and desirable for both bedding and for cut-flower use. Pkt. 20c;  $\frac{1}{8}$  oz. 40c.

### 1375 Marigold, Royal Scot

Modern as the crack Scottish Railway train from which it takes its name. The large, well formed double flowers are produced in abundance on plants from 24 to 30 inches tall. See color plate on page 2. Pkt. 15c;  $\frac{1}{8}$  oz. 35c.

### 1599 Petunia, Tyrian Rose

The color is a bright Tyrian Rose and the flowers are large, measuring  $2\frac{1}{2}$  to 3 inches across, with a creamy throat, making a beautiful combination of color tones. The plants are 12 to 15 inches tall, compact and bloom profusely. Pkt. 15c;  $\frac{1}{32}$  oz. 40c.

### 1698 Rubekia, Kelvendon Star

A half-hardy Annual and a rampant grower, 3 feet in height and should be planted 18 inches apart. Flowers are of a golden yellow with a rich brown disc, surrounded by shining mahogany. See picture at right. Fine for cut-flowers. Pkt. 25c;  $\frac{1}{16}$  oz. 40c.

### 1369 Marigold, Mexican Dwf.

Orange Hailing from Mexico, the original home of many of our garden flowers, this handsome new type of Marigold grows 15 to 18 inches tall, and bears large double flowers of a bright orange. The petals are broad, deeply crinkled at ends. The flowers are 4 inches in diameter and so very double that they resemble oranges. Different from African Marigold, being more branching and free flowering. Sown indoors in March, and planted outdoors in May, it will bloom from July until frost. Makes an excellent subject for the mixed border. Pkt. 25c;  $\frac{1}{16}$  oz. 60c.

Rubekia, Kelvendon Star

### 1733 Scabiosa, Blue Cockade

See Natural Color on page 2. Received an Award of Merit from the Royal Horticultural Society of London. This outstanding novelty is the purest deep azure blue ever found in any Annual flower. The formation of the flower is far above any existing Scabiosa as it has a much greater depth, almost conical. Half-hardy. Height 3 feet. Pkt. 20c;  $\frac{1}{16}$  oz. 35c.

### 2293 Zinnia, Desert Gold

This Desert Gold contains all the rich yellow and golden shades of the Crown O'Gold Mixture. Our grower has segregated all the golden flowers and we are able to give you Zinnias that will thrill you with their golden rays. Desert Gold is of the Giant Dahlia Flowered type, the flowers often measuring 5 inches across. Mixed. Pkt. 15c;  $\frac{1}{8}$  oz. 40c.

Zinnia, Desert Gold

Calendula, The Jewel

2361 Nine Novelties \$1.25  
1 Pkt. each of above 9 kinds

Alyssum, Popular Border Plant

## Alyssum

The Alyssum is most popular of all for dwarf compact borders and edgings. Quickly in bloom from seed, it is a mass of color all summer. The plants are also useful in porch and window boxes. The flowers have a delicate fragrance.

**21 Sweet White Benthami Maritimum.** This is the popular semi-trailing sort so nice for boxes and hanging baskets. If planted as a border it spreads out 18 to 24 inches. Flowers white and sweet scented. Pkt. 5c; 1/4 oz. 15c; oz. 35c.

**22 Little Gem Carpet of Snow.** The best white, of dwarf neat compact habit, the plants running very uniform. The flowers completely cover the plants. Plants only 6 inches high. Pkt. 10c; 1/4 oz. 25c; oz. 65c.

**23 Lilac Queen** Like Little Gem except in color, which is a delicate lilac, the color being more pronounced in cool, moist weather. Pkt. 10c; 1/4 oz. 25c; oz. 65c.

**24 Procumbens or Dwarf Bouquet** A very select, compact sort about 2 1/2 inches high and 12 to 18 inches in diameter. The blooms are thickly massed almost completely hiding the plant. Fine specimen for rock garden. Pkt. 10c; 1/4 oz. 30c; oz. 75c.

**25 Lutenscens** Creamy yellow flowers on compact plants 6 to 8 inches high. Pkt. 10c; 1/4 oz. 30c.

### 3 Abronia

**Umbellata Grandiflora** also called Sand Verbena because of its Verbena-like flower heads, fragrant bright rose with white centers. A charming little trailing plant that does very well in poor dry sunny soils or in sunny rock gardens. Pkt. 10c; 1/4 oz. 20c.

### 5 Abutilon

**Flowering Maple or Chinese Bellflower.** A very pretty house plant or summer bedding plant. Grows 3 to 4 ft. tall with very ornamental leaves and lovely bell-shaped flowers. If the seed is started in early spring the plants will bloom the first summer outdoors and can be taken into the house in the fall for winter bloom. Fine Mixed Colors Pkt. 20c.

**8 Acroclinium** See Everlastings Page 17.

### For Your Garden

"The Book of Annuals" by Hottes  
180 Pages, 155 Illustrations. Price \$1.60.

### 9 Adonis, Pheasant's Eye

**AESTIVALS, Flos Adonis. R. G.** A pretty plant with feathery foliage and rich deep crimson flowers, borne early in the summer. Seed rather slow to germinate. Start in April sowing directly where plants are to stand. Pkt. 10c; 1/4 oz. 20c.

Arctotis, Lavender Daisy

## Ageratum or Floss Flower

An attractive edging plant easily grown and literally covered with bright blooms from midsummer until frost. Foliage is very dark rich green and forms a pleasing contrast to the bright blue flowers.

**17 Blue Ball** Dwarf compact bush covered with bright clear blue flowers. A single plant when in full bloom resembles a big blue ball 10 to 12 inches, tall not as dwarf as Blue Cap. See this flower in natural color on page 24. Pkt. 10c; 1/8 oz. 35c.

**14 Swanley Blue** A very valuable addition to the "Blue" garden. Plants compact and grow 15 to 18 inches high with about same spread, and thickly studded with downy, bright blue flowers. An excellent variety for cutting. Pkt. 5c; 1/4 oz. 25c.

**18 Imperial Dwarf White** Best white flowered Ageratum, very pretty in mixed plantings with the blue. Semi-dwarf plants 15 to 18 inches tall. Pkt. 10c; 1/4 oz. 30c.

**15 Little Blue Star** A good real dwarf variety with small blue flowers with rosy tint. Pkt. 10c; 1/8 oz. 40c.

**13 Blue Cap** The plants are very dwarf, tiny mounds covered with deep blue flowers. It looks to be a great improvement over any other dwarf Ageratum. Only a few inches high like Little Blue Star but has much larger flowers of richer blue. Beautiful for edgings and borders. Pkt. 25c.

See  
Ageratum  
in Color  
on Page 24

Ageratum, Swanley Blue

## Amaranthus

### Pretty Foliage Plants

**28 Molten Fire** As the name implies the upper leaves are blazing bright red, the lower leaves maroon. Pkt. 20c; 1/8 oz. 30c.

**29 Caudatus** "Love Lies Bleeding." Long, drooping, blood red panicles. Very easily grown. Height 2 to 3 ft. Pkt. 5c; 1/4 oz. 20c.

**30 Tricolor** "Joseph's Coat." Very brilliant coleus-like foliage the red, yellow and green beautifully blended. Pkt. 5c; 1/4 oz. 25c.

**32 Pigmy Torch** A new Amaranthus exceptionally valuable for low borders or beds, as it grows only 9 to 10 inches high, with rich crimson foliage. Pkt. 10c; 1/4 oz. 30c.

**33 Collection** 1 pkt. each of 4 varieties of Amaranthus for 25c.

**12 Agathea, Blue Marguerite Daisy** Coelestis. Bears clear sky blue daisy-like flowers. Bushy plants 2 to 3 ft. tall that bear profusely if grown on good soil and sunny location. An excellent greenhouse plant. Pkt. 10c; 1/8 oz. 25c.

**Agrostis Nebulosa** Cloud Grass. See Ornamental Grasses.

### 19 Alonsoa, Maskflower

**Warscewizii.** Little, bright scarlet flowers, fine for Rock Gardens and cut-flowers. 18 inches high. Start seed indoors in March, outside in May. Like protection from hottest sun. Pkt. 10c; 1/4 oz. 20c.

**34 Ammobium** See Everlastings Page 17.

If you are bothered with Dogs, Cats or Rabbits  
"Dogsoff" is what you need  
Season's Supply, 69c

## Arctotis, Lavender Daisy

See Flowers In Color on Page 23

One of the loveliest of Daisies, and one of the most desirable annuals for cut flowers as well as for show in the garden. Arctotis is also called the Blue-Eyed African Daisy but it should not be confused with our Golden African Daisy or Dimorphoteca.

**129 Grandis** Large, showy, daisy-like flowers of bluish white with a central disk of steel-blue, while the reverse of the petal is pale lilac. Pkt. 10c; 1/4 oz. 20c.

**128 Hybrida Mixed** One of the most beautiful novelties offered in recent years. The flowers are like Arctotis Grandis in form but come in rich colors, each with dark centers. Shades of pink, rose, yellow, and orange are all present. Excellent for cutting or garden display. Pkt. 10c; 1/8 oz. 40c.

Anchusa, Blue Bird

## Annual Anchusa

**35 Capenis** (Also called Cape Forget-me-not). An annual form of the popular Anchusa, growing 18 to 24 inches high, and bearing a profusion of flowers like Forget-me-nots, though larger. The plants are freely branched, making good cut flower spikes, and the flowers are produced all summer. Pkt. 10c; 1/4 oz. 25c.

**36 Blue Bird** A dwarf compact annual form of Anchusa growing about 18 inches tall and bearing its flowers in a luxuriant bouquet at the top of the plant. The flowers are of a vivid indigo blue and produce a very brilliant effect. Pkt. 15c; 1/4 oz. 30c.

PERENNIAL ANCHUSA, See page 31.

### 40 Anagallis

**Grandiflora Blue** Pretty little rock or edging plants 6 to 8 inches tall, bearing from July until frost many pretty little turquoise-blue flowers. Pkt. 10c; 1/4 oz. 25c.

**132 Artemisia, Summer Christmas Tree** Sacrorum Viridis. Forms a very ornamental pyramid shaped tree 3 to 5 feet high, resembling an Evergreen Fir. Foliage is rich dark green. You will find it attractive planted as single specimens or as a border like Mexican Fire Bush. Pkt. 10c; 1/4 oz. 30c.

## Floyd Bradley "How Book"

48 Pages of Garden Helps  
Free with \$2.00 Orders or  
25c per Copy

4300—8 oz. Can of Watch-em-Grow only 50c.

## Asparagus Ferns

Asparagus Ferns are not hard to grow from seed, though two years is required before the plants are of good size.

**137 Sprengerii** Emerald Feather. An excellent type of fern for hanging baskets, window boxes, etc. Pkt. 15c; 100 seeds 30c.

**139 Plumosus Nanus** Lace Fern. A very ornamental pot plant and much used for cutting because of the graceful feathery foliage, which remains fresh for a long time. Pkt. 15c; 100 seeds 30c.

Asparagus Plumosus

# Antirrhinum or Snapdragon

Without doubt the Antirrhinums are among the most desirable flowers for general garden culture. With the glorious new varieties that have been recently introduced, there is little left to be desired in coloring and size of plant and flower spike. "Snaps" are not hard to grow. For earliest blooms start seed inside for later transplanting, but you can have good results by planting seed directly outdoors when soil is warm. The seed is fine, so cover lightly and keep moist. You will have more and finer flowers if you pinch back the tops of the plants when they are 3 or 4 inches high.

## Maximum or Giant Type

See Color Plate Page 34.

This new type of Giant Flowering is a great advance over the old Snapdragons. They are magnificent in size and coloring, fully twice the size of the old types and with a color range that defies description. Plants 3 feet tall. Do not fail to include some of these in your garden.

- 42 **Cerberus.** Crimson with white tube.
- 43 **The Rose.** The most popular rose-pink.
- 44 **Canary Bird.** A fine clear canary yellow.
- 45 **Old Gold.** A blending of gold and bronze.
- 47 **Apple Blossom.** Delicate pink and white.
- 48 **Cattleya.** A rosy lilac.
- 49 **Purple King.** Deep glowing garnet purple.
- 50 **Indian Summer.** A rich glossy copper color.
- 51 **Snowflake.** A pure white variety.

Price, any of above, Pkt. 10c; 1/8 oz. 35c; Any 5 Pkts. for 40c. 60 Collection. 1 pkt. each of 9 above varieties 70c.

41 **Maximum Mixed** A grand color assortment made up from above and others of the best varieties. Pkt. 10c; 1/8 oz. 30c.

## New Majestic Antirrhinums

The Majestic Antirrhinums are the very latest development in this popular Annual. The spikes and individual flowers are extra large like the Giant type, but the plants are semi-dwarf and bushy, 18 to 24 inches tall and a mass of color, making a splendid plant for bedding and borders. They bloom profusely and are fine for cut-flowers. You will like the assortment of rich colors we offer you here.

- 110 **Orange King.** Rich terra cotta shades and orange with contrasting yellow lip.
- 111 **Red Chief.** Well named. A bright, rich deep scarlet.
- 112 **Twilight.** Delicate Apricot, rose and salmon.
- 113 **Eldorado.** A very rich tone of deep golden yellow.
- 114 **Rose Marie.** A delightful light salmon rose.
- 115 **Majestic Avalanche.** A pure white.

Prices any of above Pkt. 15c; 1/16 oz. 45c.

108 **Collection.** 1 pkt. each of above 5 Majestic Snaps 50c.

109 **Majestic Mixed.** Includes all above colors. Pkt. 15c; 1/16 oz. 40c.

## Florists Forcing Strains

For forcing into bloom in the greenhouse during the winter, we have made a mixture of the best florists strains available. This mixture contains all the best shades in pink, rose, gold, bronze, yellow and white. These may also be grown out of doors the same as the other types of Snaps. They produce tall plants and long spikes of large flowers. 123 **Florists Mixed Colors.** Pkt. 25c; Large Pkt. 75c.

Antirrhinum  
Maximum The Rose

Antirrhinum seed may be sown in late Fall and will give you earlier bloom.

Majestic Antirrhinum

## 61 Medium, Semi-Dwarf

These are somewhat smaller than the Maximum type both in size of flowers and height of plants. The plants are bushy and compact, about 15 inches tall, very free flowering, bearing long, dense spikes of blooms. We offer you here a mixture of all the best shades and colors available.

**Medium Mixed.** Pkt. 10c; 1/8 oz. 25c.

72 **Tangerine-Medium** A very outstanding new variety in brilliant, fiery orange of great intensity of color. The flowers are freely produced on long spikes. An excellent flower for bedding and for cut-flowers. Pkt. 10c; 1/8 oz. 25c.

## 117 Rock Hybrids

Early flowering hybrids forming compact little plants suitable for Rock and Alpine Gardens. 8 inches tall, reselected mixed colors of rose, pink, purple and mauve. Pkt. 15c; 1/16 oz. 45c.

Plant of Medium  
Antirrhinum

## Early-Flowering Improved

These beautiful new Snapdragons, while from the tall large flowering group, are so much improved as to be a distinct strain. The plants grow uniformly 2 to 2 1/2 feet tall and they come into bloom 3 weeks earlier than other Snapdragons. In addition, the spikes are exceptionally long and fine, more flowers being open at a time on each spike.

76 **Mixed Colors** An unusually fine mixture of light pink, deep pink, yellow, scarlet and white. All the colors now available in this type. Pkt. 15c; 1/8 oz. 25c.

## Tom Thumb Dwarf

This delightful dwarf variety of Antirrhinum grows only 8 or 9 inches tall and is especially useful for edging or for beds. Very attractive color mixture containing almost every shade known in Snapdragons.

116 **Tom Thumb Mixed** Pkt. 10c; 1/8 oz. 25c.

## Rust-Proof Antirrhinums

After years of collaboration with the University of California, our growers are now producing a strain of rust-proof Antirrhinums which we are offering to you here. These Antirrhinums have been subject to the most rigid tests. Conditions have been created in every possible way to try and produce rust but they have stood the tests and are better than 75% rust proof. Order some of this new strain and enjoy the beautiful flowers with their healthy foliage free from rust.

## 54 University of California Mixed Rust Proof Antirrhinums

This mixture contains a wonderful range of all the most popular colors of Antirrhinums. Pkt. 25c.

# Plant Templin-Bradley Asters

## Asters Satisfy

Do you like to have your garden colorful in the late summer and early fall when the other annuals are beginning to lose their brilliancy? Then plant plenty of our lovely ASTERS. They come in so many colors and shades and in so many types that it is possible to have a real array of beauty. They bloom from July to October, give you a profusion of bloom for the garden and because of their long and graceful stems, make ideal cut-flowers. Select several different types and colors from the choice varieties of Asters listed on these two pages and be happy with the flowers they will provide for you. Asters satisfy.

### 287 Mixed Wilt-Resistant Asters

A splendid well balanced mixture of wilt-resistant strains containing all the colors and types listed on these two pages. This mixture should give you a continuous supply of wonderful blooms for cut flowers throughout the entire season. You will enjoy studying the types. Pkt. 10c; 1/8 oz. 30c.

## American Branching Asters

Wilt-Resistant

These have been the standard of perfection for a long time. They produce great quantities of attractive large double flowers, long stems. Plants 2½ to 3 ft. tall. Blooming in mid-season, the plants are vigorous and well branched. We offer these in the following colors:

142 Purple 143 Crimson 144 Sensation, Scarlet  
145 Coppery Rose 146 Dark Lavender 147 Shell Pink  
148 White 141 Mixed Colors

Prices on separate colors or Mixed: Pkt. 10c; 1/8 oz. 30c.  
150 Collection. 1 pkt. each of 7 colors American Branching, 55c.

## Early Beauty Asters

Wilt-Resistant

See These in Color on Back Cover

The early Beauty type comes into full bloom at the same time as the American Branching and are unexcelled for cutting. The plants are 2½ to 3 feet tall with many branches and exceedingly long stems. The stems are 15, 18 and even 24 inches long. The flowers are good sized, rather compact with incurved petals, the center petals being somewhat curved and whorled.

152 Purple 153 Crimson

154 Black Prince  
155 Carmine Rose  
156 Lavender  
157 September Beauty  
158 White  
151 Mixed Colors

Price on any color or mixed Early Beauty Pkt. 10c; 1/8 oz. 30c.  
160 Collection. 1 Pkt. 6 colors for 45c

## Ostrich Feather

Wilt-Resistant Asters

A lovely type of Asters with large, full, fluffy flowers with irregularly twisted petals, resembling Ostrich plumes or feathers. Plants 2½ ft. tall

and of robust growth. Long stems make them fine for cut-flowers. Blooms in mid-season.

182 Purple 183 Light Blue 181 Mixed. Price, Pkt. 10c; 1/8 oz. 35c.

## Other Choice Asters Wilt-Resistant

281 **Heart of France** The finest red Aster, as alluring as the richest Ruby and retains its color to the very end. The petals appear changeable, sometimes showing a glow, sometimes a warm velvety texture. Plants 1½ to 2 feet tall. Early. Pkt. 10c; 1/8 oz. 35c.

283 **Ball's Purple** Medium early, large flower, tufted center, branching type. Bright purple. Pkt. 10c.

284 **Ball's White** Same as Ball's Purple except in color. Pure snow-white. Pkt. 10c; 1/8 oz. 35c.

285 **Giant Branching Phlox Pink** Rich clear light rose-pink. Pkt. 10c.

246 **Astermums** Well named Astermums because the shaggy flowers are really more like Chrysanthemums than like Asters. Plants about 2 feet tall, upright branching habit, flowers large, double, well-formed and a little earlier than Giant Comet. Mixed colors. Pkt. 10c; 1/8 oz. 30c.

260 **King or Needle** An American type of distinctive beauty, unlike any other Asters grown. The plants are 1½ to 2 feet tall, strong growers, with long stems crowned with large, double flowers 5 inches across. The petals are long and quilled, resembling a Cactus Dahlia. Our mixture contains all the popular Aster colors. Pkt. 10c; 1/8 oz. 30c.

## Improved Crego or Giant Comet Asters

Wilt-Resistant

These are a great improvement over the old Crego or Comet type of Asters. They are like Japanese Chrysanthemums with their long twisted and curled reflex petals. The flowers often measure 3½ to 4½ inches across and very double. The plants are fine, tall, large and well branching, bearing great bouquets of the long stemmed beauties. Bloom mid-season and late. 2½ feet tall.

172 Royal Purple 173 Blue Flame  
175 Crimson 176 Deep Rose  
178 White 179 Salmon Queen

Prices on any separate Color or mixed: Pkt. 10c; 1/8 oz. 30c.

180 Collection: 1 Pkt. each 8 colors 60c.

## California Giants

See Back Cover Color Collection

Large, full flowers of the Crego type with broad, graceful petals, borne on long heavy non-lateral stems. Plants 3 feet tall, blooming from mid-summer until frost.

California Giants are in great demand for cut-flowers, both by the home gardener and the Florist. Try some of these this year.

212 Dark Purple 213 Light Blue 216 Deep Rose  
217 Peach Blossom 218 White 211 Mixed Colors

Prices on any of above colors: Pkt. 15c; 1/16 oz. 30c.  
220 Collection. 1 Pkt. each of 5 above colors for 60c.

304 **Extra Quality Mixed Asters** Very carefully prepared—containing all of the separate types we list, and others as well. It will give you a beautiful Aster collection for the price of one packet—types early, midseason and late, and all the colors known to Asters.

Plant a quantity of this mixture and see what delights are in store for you. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

298 **Dwarf Bouquet Asters** These are little gems of flowers, plants 12 inches high, compact little bushes, covered with flowers in a great variety of colors, each plant a bouquet in itself. Fine border plant. Mixed Colors. Pkt. 10c; 1/8 oz. 40c.

293 **Surprise Golden Salmon** Opens pure salmon-yellow, changes to salmon-rose. The blooms resemble the Peony-Flowered Asters, fully double round 3 inches across. Good keeping qualities, making them valuable for bouquets. The plants are long stemmed, fairly tall and are heavy bloomers. Pkt. 15c; 1/16 oz. 35c.

294 **Peerless Yellow** A delicate shade of yellow in beautifully formed flowers of the American branching type. 2 feet tall, good-sized flowers, petals slightly incurved. Pkt. 15c; 1/8 oz. 40c.

# For Beautiful Bouquets

## Wilt-Resistant Asters Sure To Succeed

For several years our growers have been working on a strain of Asters resistant to the Fusarium wilt disease which has caused so much trouble to both amateur and professional growers in recent years. The plants may be stricken with the wilt at any stage in their growth and yet no method of control of the disease has been discovered. The only assurance of healthy plants and flowers is to plant the Wilt-Resistant strains of Asters.

We are now satisfied with the results of the intensive work that has been put into producing Wilt-Resistant Strains of Asters and offer you here many of them. In every Aster family, we are dropping the old strains in favor of Wilt-Resistant, just as fast as our work has been completed.

## Two New Asters

**299 Lilliput Flowered** Areal dwarf small flower-ed Aster, plants only 15 to 16 inches high, bushy and with medium length stems. Prettily formed, button-like flowers with quilled center petals. This type makes wonderful cut-flowers and are very colorful for the garden border. Mixed colors. Pkt. 10c; 1/8 oz. 35c.

**291 Super Giant Los Angeles** The last word for size and beauty in Asters. The flowers are really like magnificent Chrysanthemums as the illustration below shows. The color is pure shell pink, a favorite shade in Asters. Pkt. 15c; 1/16 oz. 30c.

## Queen of the Market

### Wilt-Resistant Asters

These well known early flowering Asters are of the branching habit, about 20 inches tall and come into bloom very early. The flowers are fully double and the stems long.

162 Dark Blue 163 Scarlet 164 Crimson  
166 Peach Blossom 167 Flesh Pink 168 White

161 Mixed. Prices on separate color or mixed. Pkt. 10c; 1/8 oz. 30c.  
170 Collection. 1 pkt. each of the above 6 colors for 50c.

## Mammoth Peony-Flowered Asters

This superb new Aster is of immense size, fully double flowers, borne on long stout stems quite free from laterals. It is an improved Beauty type and is the best keeper of all Asters. All these good qualities make the Mammoth Peony-Flowered Aster a choice flower for cut-flowers both for the home gardener and for the florist. Plants 2 1/2 to 3 feet high, mid-summer until frost.

202 Purple Robe 203 Azure Fairy 204 Rosebud  
205 Silvery Rose 206 Peach Blossom 207 Maiden's Blush  
208 Swansdown 201 Mixed

Prices on separate colors and mixed. Pkt. 15c; 1/8 oz. 40c.  
210 Collection. 1 Pkt. each of the above 7 colors for only 90c.

## Giant California Sunshine

Called the Most Beautiful Aster in the World

See Color Plate on Page 23

This is a most artistic flower with its single row of outer petals and its tufted center of shorter petals. The color harmony is startlingly beautiful, a dual-tone effect being obtained through the contrasting tints of the disc-like center and the outer row or guard petals.

This type of Sunshine Aster is a great improvement over the standard Sunshine or Anemone-Flowered group being much larger and finer as to formation and coloring. The shades of colors are exquisitely beautiful and delicate.

222 Purple 223 Light Blue 224 Lavender 225 Enchantress Pink  
226 Deep Rose 227 Apple Blossom 228 White 221 Mixed Colors

Prices on any separate color or mixed. Pkt. 15c; 1/16 oz. 30c.  
230 Collection. 1 Pkt. each of 7 colors of Sunshine Asters for 90c.

## Chinensis Single China Asters

Wilt-Resistant

If you like single flowers, these China Asters will please you. They are unsurpassed for decorative effect in bouquet use and are of strong and healthy growth and profuse bloomers, making a showy garden plant. The plants are 2 to 2 1/2 feet tall and the flowers are Daisy-like, with petals wide and closely placed.

232 Dark Blue 233 Lilac 231 Mixed Price, Pkt. 10c; 1/8 oz. 25c.

Double Balsam

**350 Brachycome** Swan River Daisy. A delightful little bush about 9 inches high giving bountifully of its dainty blue flowers all summer. Like violet blue stars flowers practically cover the foliage. Pkt. 10c; 1/8 oz. 25c.

## 305 Balsam, Lady's Slipper

A most beautiful annual, forming near symmetrical tree-like plants and a profusion of wax-like flowers, in the most brilliant colors. They are of easy culture, but don't plant the seeds before the soil is warm. Plants 1 1/2 to 2 ft. high. For best development plant in full sun in rich soil. If you sow seed late in the summer the small plants may be potted in the fall and used for winter bloom indoors. We offer you the double Rose and Camellia flowered strains which have beautiful double rose-like flowers in a great variety of rich colors. Pkt. 10c; 1/4 oz. 20c; oz. 50c.

## 312 Golden Bartonia

A fine hardy easy to grow annual. The foot high plants carry masses of golden yellow cup-like flowers from July to September. Nice for cutting, as a border, or a golden bed. Pkt. 10c.

## Browallia

**361 FLATA, MIXED BLUE AND WHITE.** A favorite annual growing 18 inches high and bearing during the summer and autumn pretty blue or white flowers. Will also bloom nicely in the house if lifted in the fall and cut back. Grows in any good soil. Pkt. 10c; 1/4 oz. 30c.

**365 SPECIOSA MAJOR.** This variety grows about 18 inches tall with violet blue flowers 1 1/2 to 2 inches across. Pkt. 20c.

Browallia

across. Pkt. 20c.

## Begonias See Color on Page 52

Also cut at left

**Tuberous Rooted.** These beautiful bedding plants may be produced from seed, and will produce bulbs that you may keep for years. Started early indoors will produce blooming plants the first year.

**334 SINGLE MIXED COLORS.** Includes all available shades. Pkt. 10c.

**335 DOUBLE MIXED COLORS.** Few plants exceed them in beauty. Pkt. 50c.

**321 Begonia Semperflorens** Everblooming, Mixed Colors. These are not only splendid House or Pot Plants but are equally desirable for outdoor bedding. Of compact sturdy growth about a foot high, and completely covered with blooms. Pkt. 15c.

**355 BRIZAMAXIMA.** Quaking Grass. See ornamental grasses Page 15

If you have had trouble growing Asters, try our Wilt-Resistant Strains.

# Calendulas Scotch Marigold

See Calendulas in Color on pages 2 and 24

If you like a gala atmosphere in your garden, plant Calendulas. They have no rivals for brilliant color and will fill your garden and house with their charming beauty all summer and early fall.

By careful plant breeding through the past years, Calendulas have been greatly improved in size and color and we are able to offer you a wonderful selection of varieties in all the gay shades of orange, yellow and lemon. They come in different types too, double, loose and quilled petals.

See Novelty Page 9. Calendula No. 428 The New Jewell—A New Beauty

## 421 Sensation or Campfire

A new Calendula of vigorous growth and strong stems needing very little disbudding to produce the finest flowers. The blooms are flat and undoubtedly the largest of any Calendula. The color is brilliant orange with a scarlet sheen, and a full yellow center. Pkt. 15c; 1/8 oz. 25c.

See Sensation in Color on Page 24.

## 419 Orange King

A deep orange with dark center very popular with all who have grown it. A favorite with florists and just as fine for the outdoor garden. Flowers are of very good form, fully double and borne on excellent stems. Excellent for forcing. Pkt. 10c; 1/4 oz. 20c; oz. 35c.

## 417 Lemon Queen

A beautiful clear lemon yellow. Flowers are large, of excellent form, well rounded fully double and produced on tall strong stems. Pkt. 10c; 1/4 oz. 20c; 1/2 oz. 35c.

## 441 Ball's Gold

A special florist's strain of Calendula by many considered the finest of all. In color a rich golden yellow lighter than Ball's Orange. Pkt. 15c; 1/8 oz. 40c.

## 443 Ball's Orange

A companion to Ball's Gold with same good form and size, but rich orange in color. Extra longstemmed. Pkt. 15c; 1/8 oz. 40c.

**423 Radio** Radio Orange. Distinct from other Calendulas with its quilled or comet petals. The flowers are glowing orange and nearly globe-shaped, showing practically no center until old. Pkt. 10c; 1/4 oz. 25c.

## 424 Radio Golden Beam

A golden yellow form of Radio. Pkt. 15c; 1/8 oz. 25c.

Calendula Radio

## 426 Pastel Shades of Bedding Mixture

As this mixture is made up of the dwarf growing types of Calendulas, it is especially adapted for bedding or border use. It contains many new shades of apricot, salmon, cream and white as well as orange and lemon shades. A very attractive mixture. Pkt. 10c; 1/4 oz. 30c.

Calendula, Orange Shaggy

Calendula, Chrysantha

## 401 Cacalia, Tasselflower Devil's Paint Brush

A brilliant orange and scarlet flowered annual worthy a place in every garden. While not a large flower its brilliancy of color makes it especially noticeable wherever grown. It is admirable for combining in bouquets and is a splendid rockery subject. The flowers are like small tassels borne on long stems. The plants grow about 18 inches tall and bloom from June to frost. Pkt. 10c; 1/4 oz. 25c.

Calceolaria

Growing Calceolarias from seed is not difficult. Use shallow pans or boxes filled with good garden soil mixed with Peat Moss and some sand. Cover the finer seed very lightly. Water very lightly and keep them only moist. Transplant the small plants into small pots and later into large pots.

**404 Dwarf Giant Hybrids** They are gorgeous beauties with their odd pouch or pocket shaped flowers, and are indispensable for a complete collection. Our strain produces many of the spotted or "tigred" flowers, and is of compact growth, about 1 foot high. Pkt. 35c.

Calceolaria

## Cactus From Seed

Growing cactus from seed is a very interesting undertaking. The best soil in which to start these seeds is a thoroughly decomposed sod broken up and screened with an equal amount of sand added. It is most important that good drainage be provided in preparing the pans or pots for the seed. Full cultural directions will be sent with each packet of seed.

**403 Mixed Varieties** We offer a fine mixture of the many sorts that can be successfully grown with ordinary conditions. Pkt. 25c.

## Calceolaria, Slipperwort

## Carnations See Dianthus Page 16.

## Canterbury Bells

A new strain of this popular biennial flower in which has been developed the ability to bloom in a few months from seed thus making it entirely satisfactory to use as an annual subject. Resembles its biennial parent in flower and plant, except that it grows but 2 to 2 1/2 ft. tall and each plant producing several spikes of bloom.

**486 Mixed Colors.** Blue shades, rose and pink and pure white. Pkt. 15c.

**487 Liberty Bell.** Intense violet or deep blue. Pkt. 20c.

**488 Angelus Bell.** A beautiful art shade of deep rose. Pkt. 20c.

## Calliopsis Annual Coreopsis

Calliopsis is one of the finest midsummer annuals to grow in mass planting or in clusters here and there in the garden or border. They are so profuse and continuous blooming that they will furnish much for cutting and still always maintain a wonderful display in the garden.

**466 Tall Mixed** One of the leading plants for the flower garden, making a very showy border, producing flowers in nearly every shade of yellow, orange, crimson and brown, on long wiry stems, fine for cutting. Pkt. 10c; 1/4 oz. 20c.

**467 Golden Wave** Drummondii. Grows 18 to 20 inches tall with large flowers golden yellow with brown red ring. Pkt. 10c; 1/4 oz. 25c.

**469 Dwarf Drummondii Mixed** A fine color mixture of the Dwarf Drummondii type, including yellow, orange, brown, red, crimson, in many shades and color combinations. Pkt. 10c; 1/4 oz. 20c.

Calliopsis

## Canna, Indian Shot

**481 Crozy's Hybrids.** Did you know that Cannas will bloom in less than four months from the seed? The colors do not come quite true from seed, but our strain has been selected from the best hybrids. The seed is very hard shelled, so file or nick the coat and soak in warm water a few hours before planting. For quickest results start inside, transplanting out when weather is warm. Pkt. 15c; 1/4 oz. 30c.

## Candytuft

One of the most useful and popular annuals. Completely covered all summer with neat clusters of flowers well suited for bouquets; of dwarf spreading habit making it especially desirable as a border or edging plant. Very easily grown and thrives in nearly any soil, although a sandy loam is most desirable. They bloom profusely and their fragrance especially commends them as cut flowers.

**471 Giant Hyacinth** Very large bold elongated heads of pure white florets. The most desirable for cut flower use and a very fine variety for use as edging plant. Will grow to 12 or 15 inches in height. Pkt. 10c; 1/4 oz. 30c; oz. 75c.

**475 Umbellata Mixed** An excellent bedding or border variety of Candytuft of dwarf compact growth. Free flowering in shades of white, lavender, rose and crimson. See Color Plate on Page 5. Pkt. 10c; 1/2 oz. 25c.

Gt. Hyacinth Candytuft

# The Finest Celosias

The Celosias include some of the finest and showiest flowers than can be grown in the outdoor garden. They are easily raised from seed, either planted directly outdoors or started inside for later transplanting. The Celosias make beautiful cut flower bouquets.

## Chinese Wool Flower

**Celosia Childsi.** Distinct forms of plumbed Celosia. Plants average 2 feet in height, branching freely, each shoot bearing beautiful ball-shaped flower-heads, resembling a ball of wool.

**501 CELOSIA CHILDSI MIXED COLORS.** Pkt. 10c; 1/8 oz. 30c.

**515 Celosia Trio** Collection of 1 pkt., each Cockscomb, Woolflower and Ostrich Plume. Catalog numbers—491, 501 and 507.

30c Value for 20c.

Chinese Woolflower

## Celosia Plumosa

The plants are of pyramidal form, bearing many graceful feathery plumes of brilliant reds and yellows, 3 ft. tall. They are easy to grow in any fair garden soil.

**514 Flame of Fire Celosia Pyramidalis.** This attractive new Celosia grows 18 to 20 inches tall, with pyramidal form, carrying large blaze-colored combs on the top. It is very branching and each branch has a proportionately sized comb. The entire plant looks like a "Flame of fire." Every plant grows to the exact size and shape, making it unusual and desirable for effective planting. Pkt. 25c.

**507 PLUMOSA MIXED, Thompsonii Magnifica.** Pkt. 10c; 1/4 oz. 35c.

## 513 Plumed Knight Celosia

One of the most wonderful flowers ever grown the result of over 20 years of patient toil. Produces waving plumes in dozens of color shades—rose, silvery pink, salmon, red, purple, orange and yellow. Special packets 25c.

Celosia Plumosa

## Cockscomb

**491 Celosia Cristata Dwarf Large Flowering.**

This type forms large heavy combs or heads as illustrated. Our strain is dwarf, 12 to 15 inches, with extra large flowers of crimson, rose or yellow. Pkt. 10c; 1/8 oz. 30c.

**492 Dwarf Empress Purple Leaved.** Improved type of Dwarf Cockscomb. Dark crimson, 15 to 18 inches tall. Pkt. 10c; 1/8 oz. 40c.

**493 Miracle Tall Cockscomb**

Tall unbranching stems, 24 to 30 inches tall, bearing immense solid heads or combs of unusual size and coloring. Colors range from creamy white thru yellow, orange, pink, red, scarlet and purple. Extra fine mixed. Pkt. 15c.

Cockscomb

## The New Dwarf Feather Celosias

Shown in Color on Page 24.

A new dwarf type of this beautiful flower which grows but 15 to 18 inches tall and produces a mass of brilliant colored feathery plumes. This new type is excellent for bedding or bordering and supplies unlimited quantities of most excellent material for cutting. These attracted more attention and admiration in our trials last summer than any other flower.

**511 DWARF FIERY FEATHER.** Beautiful plumes of brilliant fiery red. Pkt. 25c.

**510 DWARF GOLDEN FEATHER.** Large plumes of rich golden yellow. Pkt. 25c.

**512 Mixed Colors.** Pkt. 25c.

## Castor Beans

Strong, sturdy growing tropical like plants, having ornamental greenish-bronze foliage, desirable as center plants for canna beds and to hide unsightly places.

**1694 Zanzibarensis.** The largest and freest growing of this family. Foliage from bright green to bronze. Pkt. 10c; oz. 25c.

**1695 Red Spire.** A very showy variety with large bronze leaves and bright crimson seed pods. Grows quickly 6 to 8 ft. high. Pkt. 10c; oz. 40c.

## Annual Chrysanthemums

**Annual Chrysanthemum or Painted Daisy.** Easy growing annuals forming pretty bushy plants with a profusion of showy flowers, excellent for cutting. For best results plant in rich soil and space the plants well apart so that they do not crowd each other.

**516 SINGLE MIXED.** Includes all the showy varieties such as Morning Star, Eastern Star, Evening Star, Northern Star and many others in shades of golden yellow, pink, red and white. Pkt. 10c; 1/4 oz. 20c.

**517 DOUBLE MIXED.** These make splendid bedding or cut flower plants. Pkt. 10c; 1/4 oz. 25c.

**515 SINGLE AND DOUBLE MIXED.** An excellent mixture for the garden, containing both single and double flowered sorts. Pkt. 10c; 1/4 oz. 20c.

**560 Eldorado** A beautiful big golden yellow daisy with dark center. Excellent for cutting. Received special mention by the All American Committee of Selections. Pkt. 10c; 1/4 oz. 25c.

## Cineraria

**561 Giant Dwarf Mixed** What we offer is the large flowered type in dwarf compact plants not over a foot high. Sow the seed from May until September. Pkt. 25c.

**562 Multiflora Nana** A very distinct type of Cineraria, more dwarf and compact with a great profusion of small flowers in endless variety of shades. Pkt. 25c.

## Clarkia Elegans

The Clarkias are splendid annuals easy to grow and should have shade from the sun at least in the hottest part of the day. Seed may be started directly outdoors in spring. Plants about 2 ft. high, bearing leafy racemes of double flowers which all open up when cut and placed in water.

**582 Apple Blossom** **584 Salmon Queen**

**585 Vesuvius** **586 Dorothy**

**581 Elegans Double Mixed Colors**

Annual Chrysanthemum

Clarkia Elegans

Prices on Separate Colors and Mixed Clarkia. Pkt. 10c; 1/4 oz. 30c.

**591 Cleome "Spider Plant." Giant Rose.** A vigorous plant 3 to 4 feet tall and bearing clusters of rose colored flowers of a curiously attractive appearance. The flower stamens resemble spider legs. Cleome is much used as bee pasture. Pkt. 10c; 1/4 oz. 25c.

**601 Coleus Exhibition.** Coleus is a plant with richly colored leaves of maroon, green, crimson and yellow. It is the most popular bedding foliage plant grown from seed. The large variegated leaves of this strain are beautiful. Sow indoors. March or April. Pkt. 25c.

**Cynoglossum Summer Forget-Me-Not.** A very desirable annual that blooms in a few weeks from seed. The bushy little plants about 18 inches high are covered with a mass of dainty deep blue flowers, similar to the spring Forget-Me-Nots. Blooms profusely from June through September. It thrives in hot, dry locations where few flowers grow. Makes choice cut-flowers for dainty bouquets. **650 Amabile Blue,** Pkt. 10c; 1/4 oz. 25c. **651 Amabile Pink,** Pkt. 10c; 1/8 oz. 30c.

## Centaureas

### Cyanus Bachelor's Button

Also called Cornflower, Ragged Robin and Blue Bottle.

These are among our most popular old fashioned garden annuals and deservedly so, as they are easy to grow, make very pretty bouquets and boutonnières, and they go very well with other flowers. Florists grow many of the double varieties for working in their flower pieces. We offer the double flowering in the following colors:

**517 DOUBLE BLUE.** A favorite in the Blue Garden and a rich deep blue.

**518 DOUBLE WHITE.** Fully double. Florist's strain.

**519 DOUBLE ROSE.** A very attractive shade.

**520 DOUBLE MAROON.** A new shade, deep rich red.

**521 DOUBLE MAUVE QUEEN.** A new and attractive shade.

**522 DOUBLE RUBY.** Very rich and beautiful. New variety.

Price: Any above. Pkt. 10c; 1/4 oz. 25c.

**524 COLLECTION BACHELOR BUTTON.** One pkt. each 6 colors for 50c.

**516 TEMPLIN-BRADLEY'S BEST MIXED BACHELOR BUTTONS.** Includes all shades of the double flowered. This mixture will certainly give you some pretty bouquets. Pkt. 10c; 1/4 oz. 25c. See Color Plate, page 23.

Double Bachelor's Button

## Giant Sweet Sultans

Centaurea Imperialis

These beautiful long stemmed flowers with their soft velvety heads make very enchanting bouquets. They measure 2 to 2 1/2 inches across while the entire plant stands about 2 1/2 to 3 ft. tall. You can grow them readily in any fair garden soil, and your friends are sure to admire them.

**526 SNOWFLAKE.** Pure White.

**527 ROSE.** Brilliant shade.

**528 YELLOW.** (Suaveolens.)

**529 DELICATE LAVENDER.**

**530 AMARANTH RED.**

**531 PURPLE.**

Price any of above, pkt. 10c; 1/4 oz. 30c.

**537 COLLECTION.** One pkt. each, 6 colors for 50c.

**525 Imperialis Mixed** The above and other shades, a splendid mixture of these beauties. Pkt. 10c; 1/4 oz. 30c.

Imperialis, Sweet Sultan

**541 Centaurea Americana** American Lilac, Basket Flower. The largest of all Centaureas. A native variety, bearing large thistle-like blooms of delicate rosy-lilac. The flower heads are 3 to 4 inches across, the plants 3 feet tall. It produces a great display of gorgeous blooms in July and August. Pkt. 10c; 1/4 oz. 25c.

**538 Centaurea Gymnocarpa**

Listed Page 16 as Dusty Miller

Celosia "Flame of Fire" is new this year. A 25c pkt. will brighten your Garden.

# Cosmos

Cosmos are one of the most popular tall growing annuals used for backgrounds and screens. The plant formation and the foliage is pretty—and the flowers in Red, Pink, Rose and White make excellent mass bouquets. For earliest results start seed indoors, though the plants will flower in late summer and fall from sowings made outdoors. They grow 4 to 6 ft. tall, and may be spaced 3 to 4 ft. apart.

## Early Mammoth Single

**Large flowering.** The best type for the North as it blooms earlier than the late Giants. The flowers are large, in shades of crimson, pink and white. There is no other of the tall annuals that serve their purpose as well as the Cosmos. They are graceful and attractive during all stages of their growth.

**607 MAMMOTH SINGLE WHITE**  
**608 MAMMOTH SINGLE PINK**  
**609 MAMMOTH SINGLE CRIMSON**  
 Price, any above. Pkt. 10c; ¼ oz. 25c.  
**610 COLLECTION. 1 Pkt. each color for 25c.**  
**606 MAMMOTH SINGLE MIXED.**  
 Pkt. 10c; ¼ oz. 25c.

Large Early Flowering Cosmos

Cosmos, Double Crested

## 618 Double Crested Cosmos

The flowers are unique and exceedingly pretty. Center double with a row of broad outer petals. We have the earlier flowering strains of doubles, the best strain obtainable. In this the flowers are frequently entirely double or else the disk-florets become tufted or crested. The foliage of this type is less finely divided. The seed of the Double Crested should be started indoors early. **Mixed Colors. Pkt. 15c; ½ oz. 35c.**

## 624 Miniature Yellow Cosmos

only 18 to 24 inches tall. The foliage is fernlike and the flowers bright yellow, 1 to 1½ inches in diameter. A nice novelty for you. **Pkt. 10c; ¼ oz. 25c.**

## Orange Flare Klondyke Cosmos

**All-American  
Gold Medal  
1935**

**626 Orange Flare** is one of the most startlingly beautiful novelties of today. The color is a vivid orange and the foliage a light green, making an unusually attractive flower for show. The stems are long and wiry and the flowers so brilliant that it is especially desirable for cut-flowers. It grows 3 to 4 feet tall and blooms from late July until frost. **Pkt. 25c; ½ oz. 50c.**

Klondyke Orange Flare

See Orange Flare **In color page 2**

## Early Express Cosmos

In Early Express Cosmos, we have a variety that will bloom in from 45 to 50 days after the sowing of the seed and will bloom continuously from then until frost. The flowers are of medium size and the colors good. Plants 2½ to 3 feet tall.

**611 Express Pink 613 Express Crimson**  
**614 Express White 612 Express Mixed**  
 Price on separate colors or mixed. **Pkt. 10c; ½ oz. 20c.**

Early Express Cosmos

## Carnations Dianthus, Pinks

### 681 Double Marguerite Carnations

These lovely, fragrant Carnations produce fine double flowers from seed sown in the garden early in the spring, blooming in about four months. When well started transplant to stand 12 inches apart. They are quite hardy, flowering until late fall and can be potted for winter blooming. **Mixed. Pkt. 10c; ½ oz. 30c.**

### 687 Laciniatus Splendens

The most striking Dianthus ever offered. The flowers are very large, over 2 inches across, in a brilliant crimson, with a large, bold white eye. Free flowering and easily grown. **Pkt. 25c; ½ oz. 35c.**

**All-American  
Special Mention  
1935**

Double Carnations

### 686 China and Japan Pinks

One of the most popular and most satisfactory annuals grown. Of easy culture, comprising a large variety of types and brilliant colors, many of them deeply fringed. Our mixture contains many varieties of Chinese and Japanese double and single types. **Pkt. 5c; ¼ oz. 25c; ½ oz. 40c.**

### 697 Tom Thumb Brilliant

A very bright scarlet, fully double flower, that will make a brilliant display. Grows 5 to 6 inches tall. **Pkt. 15c; ½ oz. 40c.**

China and Japan Pinks

**698 Annual Sweet William** A valuable new annual blooming type of the popular Sweet William, originated by crossing the common Perennial variety with the Annual Japan Heddewigi Pink. **Pkt. 10c; ½ oz. 25c.**

### 700 Sweet Wivelsfield

A new hardy annual, the result of a cross between Dianthus Allwoodii and Dianthus Barbatus. Very free flowering over a long season, from June to frost. The color range is unusual, including deep rich reds and purple, through all shades and combinations of pinks to white, both solid colors and with markings. See illustration on page 14. **Pkt. 15c; ½ oz. 35c.**

Dianthus Sweet Wivelsfield

**595 Collomia Coccinea.** Small plants 9 inches to 1 ft. tall producing large heads of bright scarlet red flowers. Grow as a hardy annual. **Pkt. 10c.**

**605 Cosmidium Burrigeanum.** Flowers quite like Calliopsis, velvety brown each petal with a broad tip of golden yellow. Blooms continuously all summer. Plants 2 ft. tall. **Pkt. 10c; ¼ oz. 20c.**

## Datura

**Horn of Plenty,  
Cornucopia,  
Trumpet Flower**

### 661 Fastuosa Double Mixed

Bushy plants growing 2 to 3 feet tall bearing large trumpet or cone-shaped delightfully fragrant flowers, often 6 inches long, in several colors, white, purple and yellow. Many flowers are double. **Pkt. 10c; ¼ oz. 25c.**

## African Daisy Dimorphoteca Aurantiaca

**716 Golden Star** Rare showy annual from South Africa and yet a flower easily grown in any fairly good soil. The little plants make a fine, low border, almost hugging the ground, and spreading out to a width of 8 to 10 inches. The large daisy-like salmon orange flowers glisten in the sun like molten gold. **Pkt. 10c; ½ oz. 30c.**

**721 Pluvialis Ringens** A beautiful new form of the Dimorphoteca or African Daisies. Compact plants 8 to 10 inches high, bearing daisies of a most attractive color combination. The petals are pure glistening white, the center bluish brown, and right around the center at the base of the petals is a zone of bright blue. **Pkt. 10c; ½ oz. 25c.**

**717 Mixed Hybrids** A very beautiful assortment of colors is produced by these new Hybrids. Shades of golden yellow, orange, salmon, pink, white and others run riot in a bed of this variety. Produces an abundance of most excellent cut flowers. **Pkt. 10c; ½ oz. 35c.**

### 706 Didiscus Queen Anne's Blue Lace Flower

**Coeruleus.** This is a shade of heavenly blue that has decided value in the cut flower bouquet or in the open garden. Flower is almost ball-shaped, a compact mass of dainty individual florets, the whole charming and graceful. Plant the seed early in a cool, rather moist part of the garden. **Pkt. 10c; ¼ oz. 35c.**

African Daisy

Didiscus Queen Anne's Blue Lace Flower

## Dusty Miller

**538 Centaurea Gymnocarpa**

Extensively used for edgings and borders for taller plants, especially Cannas, Salvias and Geraniums. The leaves are silvery white and fern-like. Dusty Miller is also very desirable for hanging baskets and porch boxes. The plants grow 12 to 15 inches tall. **Pkt. 10c; ¼ oz. 25c.**

## Other Centaurea

On Page 15

## 628 Cyclamen

One of the most charming house plants, blooming freely during the winter and spring. The flowers are fragrant and richly colored. Our strain will give you a mixture of the best colors. **Mixed, Pkt. 20c.**

Dusty Miller

Dahlia Grown from Seed

Euphorbia  
Snow on the Mountain

## Grow Dahlias from Seed

Dahlias are easily grown from seed and although they do not come true to color of the parent many new and fine varieties are seedlings. Seed started early in the house will bloom the same season.

Each plant will produce tubers which should be taken up in the fall and planted out again the following spring. The flowers of seedling dahlias improve each year for three or four years.

**656 DOUBLE MIXED.** Seed taken from the finest double flowers of Cactus, Decorative and Peony types. The seed should grow some wonderfully colored varieties for you. Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 55c.

**660 SUPERFINE SELECTED.** This seed has been hand-selected from cross-pollinated blooms of the best named varieties of Decorative and Cactus types, the highest quality possible to secure. Pkt. 30c; Large Pkt. 75c.

**657 Dwarf Mignon.** A beautiful class of Dahlia with sturdy compact little plants only 12 to 15 inches tall. They bloom from seed much more quickly than the large types, and bear large single flowers in a great variety of colors. Pkt. 10c; 1/8 oz. 25c.

**658 Templin-Bradley's Dwarf Hybrids.** The bushy plants are 18 to 24 inches high and are remarkably free flowering, in a wide and most charming color range. The flowers are good sized and semi-double. They are early blooming, producing flowers in four months after the seed is started. Pkt. 15c; 1/8 oz. 40c.

**659 Orchid Flowering Dahlia** A new type of Dahlia, flowers of a distinctive character, graceful form and in all the colors known to Dahlias. Mixed colors. Pkt. 15c; 1/8 oz. 60c.

## Chinese Delphinium Butterfly Varieties

The Chinese Delphinium or Delphinium Chinensis are perfectly hardy perennials but are sometimes classed as Annuals because if the seed is sown early they will fully develop and bloom the first year. Their flowers are borne as loose sprays rather than in spike form. They are fine for garden display or cutting.

**2781 CHINENSIS, BLUE AND WHITE.** A distinct type with plants 3 ft. tall, and graceful stems with flowers loosely arranged. Develops to full size the first year from seed started early indoors. Blue and White. Pkt. 10c; 1/4 oz. 30c.

**2782 DWARF BLUE BUTTERFLY, R. G.** A brilliant blue variety of dwarf compact habit, flowering readily from seed the first year. 15 in. tall. Pkt. 10c; 1/8 oz. 30c.

**2783 CHINENSIS CAMBRIDGE BLUE.** A most excellent "Belladonna Blue" form of the Chinensis type. A rich clear blue of fine brilliancy, flowering to a great extent the first year if started early. Grows 2 to 3 feet tall. Pkt. 10c.

### 8 Acroclinium

An everlasting flower of much merit. Plants 2 feet tall bearing many semi-double daisy-like flowers in pink and white shades. Petals of distinctly strawy texture but very silky in appearance. Flowers are easily dried for winter bouquets and are excellent addition to any collection. Pkt. 10c; 1/4 oz. 20c.

**34 Ammobium, Winged Everlasting** *Alatum Grandiflorum* called the "Winged Everlasting" because of its airy silvery white, yellow centered flowers. One of the strawflowers so pretty when dried for winter bouquets. Pkt. 10c; 1/4 oz. 25c.

### 1016 Helichrysum Mixed

The most popular Everlastings. The best known and most desirable because of the great improvement in recent years. This Monstrosum or large double is the best type. The plants grow 2 to 3 ft. high and are literally covered with these large double brilliant flowers. In all the gay colors and shades. Mixed Colors. Pkt. 10c; 1/4 oz. 25c.

## Eschscholtzia, California Poppy

The state flower of California and one of the most attractive low growing annuals. The foliage is finely cut, fern-like, and silvery green in color. They start to bloom a few weeks after the seed is sown.

**801 Golden Yellow** Flowers bright golden-yellow shading darker at the base of petals. The original California Poppy. Pkt. 5c; 1/4 oz. 15c; oz. 35c.

**802 Grandiflora Hybrids** Large flowering varieties in the most exquisite shades of gold, copper, bronze, scarlet, purple and crimson. Pkt. 10c; 1/4 oz. 30c.

**808 Ramona Hybrids** A new strain containing many lovely shades. The plants grow compact and upright, with flowers beautifully frilled. Pkt. 10c; 1/8 oz. 25c.

**809 Double Eschscholtzia** The flowers are like little silken flags, beautifully fluted and crinkled, double and semi-double. The colors are rich yellow, orange and salmon. Mixed Colors. Pkt. 10c; 1/8 oz. 25c.

Price Pkt. 10c; oz. 20c.

**S87 Dwarf Tom Thumb Striped,**  
Pkt. 15c; oz. 30c.

## Everlastings Strawflowers

### Grow Your Own Gay Winter Bouquets

#### 971 Gomphrena Globe Amaranth

Very showy bush plants, bearing attractive clover-like flowers in rose, purple and white. Another good flower to be dried for winter bouquets. Pkt. 10c; 1/4 oz. 25c.

#### 1693 Rhodanthe, (Everlasting)

**Mixed Colors.** One of the prettiest of the everlastings, the flowers star like and dainty with their silken petals, in shades of pink and white. Height 1 ft. Easily grown in a good soil and sunny place. Pkt. 10c; 1/4 oz. 25c.

#### 841 Mixed Everlastings

We have made a very special mixture of all kinds, types and colors of Everlastings, all those listed here as well as many others. You will enjoy this mixture for it will give you many winter bouquets of great variety. Pkt. 15c; 2 pkts. 25c.

## Two Fine Euphorbias

**831 Snow on the Mountain** *Euphorbia Variegata.* Bushy plants growing 2 to 3 ft. high, surmounted with broad fleshy green leaves, veined and margined with white. Pkt. 5c; 1/4 oz. 20c; oz. 60c.

**832 Annual Poinsetta** *Euphorbia Heterophylla.* In plant growth similar to Snow on the Mountain but the upper foliage is marked with red instead of white. About the middle of summer the top central leaves turn to a rich orange scarlet, giving the appearance of the wonderful greenhouse plant the Poinsetta. Pkt. 10c; 1/4 oz. 30c.

## Annual Gaillardia

**Blanket Flower.** Very showy annuals of easy culture.

Blooms from early summer to frost. Flowers on long stems.

**915 DOUBLE AND SINGLE MIXED.** A grand assortment of both singles and doubles in many shades of orange, bronze, maroon and crimson. A mixture that will delight you. Pkt. 10c; 1/4 oz. 25c.

**902 INDIAN CHIEF.** A rich bronzy red single flowering variety, beautiful for cutting. Pkt. 10c; 1/4 oz. 25c.

### 917 Gamolepis Tagetes

A pretty annual 8 to 10 inches high, producing many bright yellow and orange flowers, daisy like in form. Excellent for sunny border or rock garden and easily grown. Pkt. 10c; 1/4 oz. 30c.

### 921 Geranium

**Zonale.** We have an extra nice strain of the largest and finest colored varieties in mixture. They will bloom the first year from seed started in the early spring inside for transplanting outdoors in June. Pkt. 15c.

Helichrysums Mixed

Statice Suworowi

### Statice Limonium

Not only as a beautiful flower for the garden but one of the best for drying for winter bouquets, as when dry it retains its true colors which is a rare thing among the everlasting flowers.

**1753 SINUATA MIXED.** An excellent variety for cut-flowers. Three colors, bright blue, rose and white. Pkt. 10c; 1/4 oz. 20c.

**1759 BONDUELLI.** Strong growing variety producing many heads of bright lemon-yellow. Pkt. 10c; 1/4 oz. 25c.

**1760 SUWOROWI.** Russian or Rattail Statice. A nice type of Statice with graceful spikes of soft rose flowers. Easy to grow and attractive. Pkt. 10c; 1/8 oz. 30c.

**1754 SINUATA TRUE BLUE.** A beautiful clear deep blue. Pkt. 10c; 1/4 oz. 25c.

**2130 Xeranthemum** A very charming everlasting flower. Plants grow 2 feet tall and produce many bright and pretty flowers of silky texture. Rose, white and purple mixed double. Pkt. 10c; 1/4 oz. 25c.

Gerbera, Transvaal Daisy

## 928 Gerbera Transvaal Daisy

**Jameson Hybrids.** The Gerbera is a half hardy perennial and we recommend growing it as an annual by starting seed indoors very early or grow it entirely as a house plant. The blossoms are daisy-like, often 3 inches across and borne on excellent stems for cutting, and in a variety of beautiful colors—pure white to orange, salmon, rose, ruby red and violet. **Pkt. 25c.**

## Gilia, Thimble Flower

A very graceful annual with fine feathery foliage and nice stems for cutting. Very charming in the garden as it is very free blooming and of very attractive colorings. May also be dried as an everlasting flower.

**941 CAPITATA, Lavender Blue.** Erect plants 1½ to 2 ft. high. The flowers are globe-shaped and of a delicate lavender blue. **Pkt. 10c; ¼ oz. 20c.**

**942 TRICOLOR.** Also called Bird's Eyes. Grows about 1 foot high. Flowers violet, pale lilac or rosy with dark purple throats and yellowish tubes. A fine rockery plant. **Pkt. 10c; ¼ oz. 20c.**

## 981 Grevillea—Silk Oak

**Robusta.** A very graceful and pretty foliage plant used for table decoration and in the outdoor garden in the summer. It grows rapidly from seed and is pretty in all stages of growth. We have seen some excellent specimens in fern dishes. **Pkt. 10c; ½ oz. 25c.**

## Grasses—Ornamental

**11 Agrostis Nebulosa Cloud Grass.** Produces airy graceful heads so pretty for mixing with flower bouquets. 18 to 20 inches tall. **Pkt. 10c.**

**358 Briza Maxima Quaking Grass.** The prettily shaped seed clusters are carried on such slender graceful stems that they wave in the slightest of air currents. Valuable for winter bouquets. About 1 foot high. **Pkt. 10c.**

**1172 Job's Tears (Coix) A very interesting ornamental grass.** The seed is frequently used as an old-fashioned remedy for sore throat and teething babies. The seed is strung on a linen thread and worn around the neck as a chain. **Pkt. 5c.; oz. 20c.**

**1565 Pennisetum Ruppelianum, "Fountain Grass."** Exceptionally fine ornamental grass for borders around Canna and Caladium beds or pools. Grows 2½ feet tall. **Pkt. 10c. ½ oz. 25c.**

## Hunnemannia Buttercup Poppy

**1075 Sunlite** A new strain with semi-double flowers of clear canary yellow, as bright as the sunlight. The extra row of petals adds greatly to the beauty of the flowers. **Sunlite** received the **Award of Merit** from the All American Selection Committee. Sow the seed when the soil is warm and it will grow and bloom quickly. **Pkt. 10c; ½ oz. 35c.**

**1074 Golden Buttercup Poppy Bush Eschscholtzia.** Imagine great long stemmed buttercups over attractive lacy foliage and you have a picture of this Poppy, the only poppy suitable for cutting. They bloom all summer and make such pretty bouquets that if you once try them you will want them always in your garden. **Pkt. 10c; ¼ oz. 25c.**

## Ice Plant See Mesembryanthemum Page 19

## 1121 Impatiens

**Sultans Balsam. Best Hybrids.** A charming plant for the house, blooming almost continuously. The flowers range in color from light pink to reds, and purple violet. The plants are about 18 inches tall. Impatiens is a very satisfactory outdoor bedding plant if placed in partial shade. **Pkt. 15c.**

# Godetia, Satin Flower

**962 TALL DOUBLE AZALEA FLOWERED.** Double Schamini Type. This splendid type of Godetia grows about 2 ft. tall, providing fine long stemmed cut flower spikes. The flowers are like Azaleas in beautiful shades of crimson, rose, and pinks. **Pkt. 10c; ¼ oz. 25c.**

## Godetias, Dwarf Double Azalea Flowered

The dwarf double Godetias are beautiful plants for growing in pots, porch boxes or in the garden. Their colors are brilliant and when blooming they are simply a mass of color as may be seen in the illustration. They are dwarf and compact and while they do well in partial shade in the garden they are at their best as a pot plant.

**958 CARMINEA.** Delicate pink with crimson blotched center.

**959 BRILLIANT.** Glowing dark crimson.

**960 CORNELIA.** Lively bright salmon shade.

**961 DWARF MIXED.**

Price any color or mixed. **Pkt. 10c; ¼ oz. 30c.**

## 955 Godetia, Sybil Sherwood

A new and outstanding introduction to the Godetia list, Sybil Sherwood is a beautiful single flowering variety of most exquisite color, a glorious shade of bright salmon pink softened by an undefined edging of white. Plant is robust, growing 18 to 20 inches tall, has strong stems for cutting and so free flowering that the foliage is practically hidden by the bloom. **Pkt. 25c.**

Godetia, Satin Flower Tall Double Azalea Flowered

## 971 Globe Amaranth See Everlastings Page 17

## 946 Gloxinia

**Exhibition Mixture.** A mixture, unrivalled for variety and color, of this splendid house plant. Large bell shaped flowers in beautiful colors. **Pkt. 25c.**

## Gypsophila, Annual Baby's Breath

One of the most popular Bouquet Flowers. Very easily grown annuals, 12 to 15 inches high. Always useful for combining with other flowers in bouquets or small vases. Make several plantings to have the flowers always in the best condition.

**991 GRANDIFLORA WHITE, PARIS MARKET STRAIN.** The flowers are pure white, very small, star-like, and produced in feathery sprays. We have an extra Select Large Flowering Strain. **Pkt. 5c; oz. 25c.**

**992 ELEGANS CRIMSON.** Similar to Common White except in color, which is a pretty rosy-crimson. **Pkt. 5c; ¼ oz. 15c; oz. 40c.**

**993 MURALIS ROSE.** A dwarf variety growing only 6 inches high, with delicate rose-pink flowers. Fine for rock gardens or edgings. **Pkt. 10c; ¼ oz. 20c; oz. 60c.**

## 1016 Helichrysum See Everlastings Page 17

## 1031 Heliotrope, Giant Mixed

The delightful perfume of this plant makes it great for bouquets. Also it is a very pretty house or summer bedding plant, being in bloom all season. Will bloom in the summer from seed started indoors, or the seed may be sown right outdoors in May. Large flowered mixed colors. **Pkt. 10c; ½ oz. 35c.**

Godetia Dwarf Double Azalea Flowered

**1134 Ionopsidium ACAULE Violet Cress or Diamond Flower.** A delightful miniature plant very rapid growing and free blooming. Flowers are violet in color, small but freely borne and early. Season of bloom may be prolonged by keeping flowers cut. Plant grows about 3 inches tall, forming dense tufts of foliage which is fairly smothered with the dainty little blooms. An unusually fine plant for rockeries or ground cover. **Pkt. 15c.**

## 1228 Kochia or Fire Bush

**Giant Summer Cypress.** A charming and most effective decorative plant, with a habit resembling one of the compact evergreen shrubs. It has light green feathery foliage, which changes to crimson in the fall. May be grown as single specimens or as an ornamental hedge. The plants grow 2 to 2½ feet high with a spread of about 15 to 18 inches. You may plant the seed when soil is warm, just where the plants are to stand and thin them out later. Or you may start the seed indoors transplanting outdoors later. **Pkt. 10c; ¼ oz. 20c.**

Hunnemannia, Sunlite

## BE SATISFIED

### With Your Seed Results

#### READ THIS LETTER

Buskirk, N. Y.  
Templin-Bradley Co.,  
Cleveland, Ohio.

Gentlemen:

I have exhibited flowers at the Floral Dept. of the County Fair for the past seven years.

Last year I won 14 first and 4 second prizes out of 22 entries with flowers grown from Templin-Bradley seeds.

I have tried other seedsmen but none have given such good satisfaction as you.

Yours truly,  
Mrs. Allan Russell

Fire Bush

# Annual Larkspurs

The annual Larkspurs are beautiful free flowering annuals. The flowers come in many colors and are produced on long spikes, the plants growing normally about 2½ to 3½ feet tall. They make lovely bouquets and garden displays. Being hardy annuals, the seed may be planted in the late summer or fall to hasten next seasons bloom.

## Giant Imperial or Delphinium Type

In this class of Larkspurs, the plants grow upright though freely branched at the base, producing many fine long stemmed branches for cutting. Their type of growth allows closer planting without influencing the amount of their bloom. The plants grow 3 to 4 feet tall.

- 1280 **Blue Bell** A new shade of deep Sky-blue.  
 1276 **Blue Spire** Intense deep oxford blue.  
 1279 **Carmine King** Carmine rose, deepest of the pinks.  
 1272 **Exquisite Pink Improved** Light delicate Pink.  
 1282 **Miss California** Deep pink on salmon ground.  
 1274 **Los Angeles Improved** Brilliant rose on salmon ground.  
 1275 **White Spire** Beautiful glistening pure white.

Price any of above varieties. Pkt. 10c; ⅓ oz. 30c.  
 1271 **Mixed Colors** A fine mixture including all the above and other rare colors. Pkt. 10; ⅓ oz. 25c.

Larkspur, White Spire

Dwarf Emperor Larkspur

Giant Imperial  
In Color, Page 24.

## Tall Double Stock Flowered

The plants grow 3 to 4 feet high and bear long cutting spikes of beautiful double flowers.

- 1270 **Rosamond** Beautiful pure rose, a shade entirely lacking in Larkspurs up to this time. Plants uniform in height, individual florets are large and very double, closely placed on the stems. Comes into bloom two weeks earlier than other Stock-flowered Larkspurs. Pkt. 15c; ⅓ oz. 40c.

- 1261 **Mixed Colors** Includes a great variety of colors, blues, reds, pinks and white of the tall double flowered type, considered the best of all. Pkt. 10c; ¼ oz. 25c; oz. 75c.

- 1257 **Lantana, Dwarf Mixed** This pretty plant carries Verbena-like heads of flowers in white, rose, orange and intermediate shades. It is constantly in bloom so an excellent house or bedding plant. Our dwarf strain produces compact plants 10 to 12 inches high. Pkt. 10c; ¼ oz. 25c.

- 1311 **Lavatera Annual Mallow.** Very attractive plants growing about 2½ ft. tall and producing large cup-shaped flowers most of the summer. The flowers resemble Mallows or small Hollyhocks. Sow in the garden in May and thin out to stand a foot apart. Mixed colors, rose and white. Pkt. 10c; ¼ oz. 25c.

## 1319 Leptosiphon, French Hybrids

A pretty little edging plant growing only a few inches high, forming dense cushions of foliage, surmounted by flowers in many colors; cream, yellow, orange to brown, lilac and purple. Pkt. 10c; ⅓ oz. 20c.

- 1318 **Leptosyne Stillmani** A daisy-like flower related to Coreopsis. Flowers, golden yellow, 2 to 3 inches across, borne on good long stems, and the flowers last well in water. Plant 18 inches tall with finely cut foliage. Plants grow quickly, blooming in about 6 to 8 weeks from seed. Pkt. 10c; ⅓ oz. 25c.

## Linaria

- 1327 **Fairy Bouquet** Awarded a gold medal by the All American Selections Committee. Fairy Bouquet is a little beauty. The plants are about 8 inches high covered with the pretty airy flowers, like miniature snapdragons, in a great mixture of shades. Blooms quickly from seed and is ideal as a filler for bouquets or for bedding or potting. Pkt. 15c.

- 1326 **Maroccana Hybrida** Excelsior Mixed. A hardy annual with small dainty flowers like miniature Snapdragons, colors ranging through crimson, gold, pink, rose, maroon, dark blue and chamois. Plant 12 to 18 inches tall and blooms in about 8 weeks. Pkt. 10c; ¼ oz. 20c.

## Lobelia, Dwarf and Trailing

See Color Plate on Page 51

For best results sow Lobelia seed indoors in boxes or pots covering the seed very lightly and keeping the surface moist.

- 1335 **Crystal Palace Compacta** This is the best strain of dwarf Lobelia, the plants only 5 or 6 inches high, fairly covered with rich deep blue dainty flowers. A fine little border or pot plant, and it is used also for porch boxes and baskets. Pkt. 10c; ⅓ oz. 25c.

- 1336 **Sapphire Trailing** A beautiful new strain of trailing Lobelia, so useful for porch boxes and baskets. The plant is strong growing and the flowers extra large, a rich deep blue with a white eye. Pkt. 10c; ⅓ oz. 30c.

- 1340 **Blue Stone** A dwarf compact variety with large gentian blue flowers without the white eye. A very fine strain. Pkt. 10c; ⅓ oz. 30c.

Annual Larkspurs—Stock Flowered

New King or Giant Lupines

## Matthiola

- 1391 **Bicornis** Evening Scented Stocks. Bears lilac color flowers, which in the morning, evening or after a shower emit most delicious perfume. Plants 15 to 18 inches high. Pkt. 10c; ½ oz. 25c.

Matricaria Capensis

## Dwarf Larkspurs

- 1301 **Emperor** An improved class, more dwarf and compact in growth, making a fine bedding variety. Plant grows about 2 feet tall, producing an abundance of spikes, bearing double flowers of the stock flowered type. Mixed Colors. Pkt. 5c; ¼ oz. 20c.

- 1302 **Enchantress** A beautiful new variety of the Dwarf Emperor class. The compact, bushy plant is literally covered with soft, salmon-pink flowers. A splendid variety for potting or bedding. Pkt. 15c.

## 1328 Linum, Flax

**Scarlet Annual Grandiflorum.** A brilliant flowered annual plant 1 to 1½ ft. high, carrying rosy crimson flowers. They make pretty beds or borders. For continuous display make several plantings. Pkt. 10c; ¼ oz. 20c.

## Annual Lupines Hardy Lupines

Easily grown, free flowering annual, with long, graceful spikes of pea-shaped flowers, richly and variously colored; Fine, dark, glossy foliage. Valuable for mixed borders. Prefers some shade. Height 2 feet.

- 1344 **Mixed Colors** Blue, pink, rose and white. Pkt. 5c; ½ oz. 20c.

## New Giants or King Lupines

A new and improved sort, growing 3 to 4 feet tall and branching from the ground with four to six spikes to a plant. A big advance in size and beauty over the standard Annual Lupines.

- 1342 **King Blue** Rich oxford blue with a white stripe in the standard of each flower. Pkt. 15c; ⅓ oz. 40c.

- 1343 **King White** Very sweet scented, glistening white. Pkt. 15c; ⅓ oz. 40c.

- 1350 **King Mixed** Shades of blue, rose and white. Pkt. 15c; ⅓ oz. 30c.

## Malcomia See Virginia Stocks page 26

## Matricaria Double Feverfew

The small double flowers resembling button Chrysanthemums are produced in showy clusters.

- 1384 **CAPENSIS, DOUBLE WHITE.** Plants grow from 2 to 3 feet high, almost completely covered with pretty, small, double white flowers. Very well adapted for bedding or mixed border. Pkt. 10c; ¼ oz. 20c.

- 1385 **EXIMEA, GOLDEN BALL.** The dwarf compact little plants grow 9 to 10 inches high, producing an abundance of fully double golden yellow flowers. This dwarf variety makes an unusually fine edging or border plant for taller annuals. Pkt. 10c; ⅓ oz. 40c.

## Mesembryanthemums

- 1396 **Ice Plant** Crystallinum. The foliage and stems are covered with crystal-like formations that glisten in the sun. Nice for hanging baskets, porch boxes and for rockeries, being trailing in growth. Pkt. 5c; ¼ oz. 20c.

## Mimosa—Sensitive Plant

- 1410 **Pudica** A curious little plant 12 to 15 inches tall, bearing small pinkish white flowers. Foliage fern-like. The leaves when touched close up but if undisturbed for a short time again regain their natural form. Pkt. 10c; ¼ oz. 25c.

## Mimulus—Monkey Flower

- 1412 **Queen's Prize Tigrinus Grandiflorus.** Plants dwarf and bushy about 10 inches tall and bear large flowers. Range in color through white, yellow, golden, rose, crimson and maroon blotched and striped. Pkt. 10c; ⅓ oz. 25c.

Dwarf French Legion of Honor

same size as Legion of Honor, but the flowers are in a variety of shades of reddish-brown and golden-yellow. Some are like golden balls, others are mahogany with the daintiest fringe of yellow. Pkt. 10c; 1/4 oz. 25c.

**1366 DWARF DOUBLE AFRICAN MIXED.** Much more dwarf and compact than the tall sorts. Therefore, not as liable to fall over. The flowers are large, ball shaped and in shades of lemon, yellow and orange. Pkt. 10c; 1/4 oz. 25c.

Border of Gold Tagetes

### 1380 Border of Gold

This sunny little flower belongs to the marigold family, growing 12 to 15 inches high and making a compact plant. The foliage is fern-like and dainty. Planted in a row all during the summer and fall you will have a golden stripe of bloom. This plant always attracts a great deal of attention from visitors to our Trial Grounds, as the brightest golden yellow stands out so that it actually compels attention and admiration. Pkt. 10c; 1/8 oz. 25c.

### 1359 Yellow Supreme

See Page 2 for Color and Page 8 for Description

## The Best Marigolds

See Marigolds in Color on Pages 2 and 24

Marigolds are old favorites and just as popular now as they were years ago. They are easy to grow, and give many bouquets of cut flowers as well as nice garden displays. A vase or bowl of these rich yellows in combination with a few blue Larkspur or Cornflowers is very striking.

### Dwarf Varieties

8 to 15 Inches Tall

**1371 DWARF DOUBLE FRENCH MIXED.** The plants are bushy and about 9 inches high. Largely used for borders. Flowers golden-yellow, with brown markings. Pkt. 5c; 1/4 oz. 20c.

### 1370 Legion of Honor

A single-flowering French Marigold, forming compact bushes 9 inches high. Largely used for borders. Flowers golden-yellow, with brown markings. Pkt. 5c; 1/4 oz. 20c.

### 1374 Dwarf Double French

**Monarch Strain.** The dwarf French Marigolds have always been valuable for garden display as well as cut flowers. The new Monarch strain shows improvement in its dwarf compact growth, the increased size and doubleness of the flowers and its splendid assortment of colors. Plants uniformly about 1 ft. high. Received the award of merit from the All American Selections Committee. Pkt. 10c; 1/8 oz. 25c.

Tagetes Signata Pumila  
A Distinct Type of Marigold

### Tall Varieties

24 to 30 Inches Tall

**1355 TALL DOUBLE AFRICAN AND FRENCH MIXED.** The African type has large flowers of a uniform color, yellow or orange and the double are more or less globe shaped. The French Marigolds are combinations of mahogany, brown, yellow and gold. They are single and semi-double. Mixed. Pkt. 5c; 1/4 oz. 20c.

**1375 Royal Scot** The most striking Marigold yet introduced. See Novelty Page and Color Page 2 for description. Pkt. 15c; 1/8 oz. 35c.

**1362 Orange Prince** A tall double African variety. Bears large, perfectly double flowers of a rich deep golden-orange, a single plant often having 50 or more splendid flowers. Pkt. 10c; 1/8 oz. 25c.

**1364 Orange Alldouble** A new and improved strain of African Marigold in which the flowers are practically 100% double. The plant growth and habit is identical with Orange Prince, but the form and doubleness of the flower in this new strain has just about reached perfection. Pkt. 10c; 1/8 oz. 35c.

**1365 Lemon Alldouble** Similar in growth and characteristics to Orange Alldouble except in color, which is bright lemon yellow. Pkt. 10c; 1/8 oz. 35c.

**1360 Primrose Queen** A delightful shade of creamy primrose, with a tone of gold. Large double quilled flowers. Pkt. 10c; 1/8 oz. 25c.

**1378 Guinea Gold** This rich beauty has received so much favorable publicity that it hardly needs further description. We show the flower in color on page 24. Guinea Gold is certainly well worth your growing, for the immense amount of cut flowers it will give you. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 45c.

Tall African, Orange Prince

## Mignonette

**Reseda Odorata.** This annual is an old time favorite and with the introduction of new types is one of the most universally grown flowers for fragrant bouquets, bedding plants and pot culture.

**1401 LARGE FLOWERING.** A highly improved strain of the common variety, producing an abundance of very fragrant flower heads. Pkt. 5c; 1/2 oz. 25c.

**1402 GOLDEN GOLIATH.** Immense spikes of golden yellow. Of strong yet compact growth, the giant trusses of flowers borne on erect strong stalks, excel all others. Pkt. 10c; 1/8 oz. 25c.

**1403 NEW YORK MARKET.** A select strain desirable for florists. Under favorable conditions plants will grow to 2 or 2 1/2 feet tall, producing long compact flower spikes. Flowers red. Pkt. 15c; 1/8 oz. 60c.

**1405 BISMARCK.** Improved Machet. A large flowered variety of reddish shade with dense spikes. Distinct crinkly foliage. Heavy delicious fragrance. Excellent for potting. Pkt. 10c; 1/4 oz. 25c.

Mignonette

## Nicotiana

**Flowering Tobacco.** A lovely class of fragrant annuals that bloom freely throughout the summer and fall. Plants are bushy, 2 to 3 ft. high and branching. They open towards evening emitting a very pleasant odor.

**1483 AFFINIS WHITE** or tuherose flowered tobacco. A very continuous and profuse bloomer, with waxy white flowers. Plants of branching, bushy habit, starting to bloom a few weeks after sowing. 2 1/2 to 3 ft. Pkt. 10c; 1/4 oz. 25c.

**1484 AFFINIS HYBRIDS.** Like above in growth, a splendid mixture of rose, red, white, and blue. Pkt. 10c; 1/4 oz. 25c.

**1482 CRIMSON KING.** A compact growing variety with rich crimson flowers. Pkt. 10c; 1/4 oz. 25c.

Nicotiana

## Annual Phlox

This splendid genus of plants is unrivaled for richness of color, profusion of bloom, duration of bloom and general compactness, and whether in clumps or masses looks equally beautiful. It is one of the finest annuals in cultivation, and should occupy a prominent place in every garden.

### Drummondii Grandiflora Phlox

12 to 15 Inches Tall

**1625 ALBA.** Pure White. **1627 ATROPURPUREA.** Very rich deep maroon.

**1628 SPLENDENS.** Rich red with white eye.

**1629 CHAMOIS ROSE.** Beautiful pink with deeper rose eye.

**1630 CINNABAR SCARLET.** Very bright orange scarlet.

**1631 ISABELLINA.** Chamois shade of yellow.

**1632 LILAC.** Lavender, white eye. **1637 ATROVIOLOACEA.** Deep purple.

Price any color, Pkt. 10c; 1/8 oz. 25c.

**1626 GRANDIFLORA MIXED.** All colors mixed. Pkt. 10c; 1/8 oz. 20c.

Grandiflora Phlox

**1633 STARRED AND FRINGED.** This beautiful type is quite distinct. The flowers are either star-shaped or fantastically fringed, really two distinct types. Many bright colors. Pkt. 10c; 1/8 oz. 25c.

**1634 BRILLIANT DWARF MIXTURE.** The dwarf Phlox grows only 4 to 6 inches tall. Our mixture contains a grand display of brilliant as well as soft rose and cream tones. Pkt. 10c; 1/8 oz. 35c.

**1635 DWARF FIREBALL.** Bright scarlet, brilliant as a border. Pkt. 10c; 1/8 oz. 35c.

**1636 DWARF SNOWBALL.** Pure white. plant with Fireball. Pkt. 10c; 1/8 oz. 30c.

Oenothera Afterglow

**1456 Nemesis** Templin-Bradley Hybrids. A splendid little plant of compact growth about 1 foot high. Nemesis may also be used as winter flowering plants by starting the seed in pots in the fall. This is the best strain of Nemesis with large flowers and many rich and rare colors, from creamy white through orange to carmine. Pkt. 10c; 1/8 oz. 30c.

**1463 Nemophila** "Baby Blue Eyes." Insignis. A cute little Annual growing about 8 inches high and producing an abundance of bright blue, cup-shaped flowers in clusters. Very dainty for cut-flowers. Pkt. 10c; 1/4 oz. 15c.

### 1490 Nigella or Love-in-a-Mist

Also called Devil-in-a-Bush. Compact, free flowering, with pretty light blue flowers, nestled in feathery foliage, resembling a mist. The seed pods are curiously shaped and attractive. Plants grow 15 to 18 inches high. Very easy to grow. Pkt. 10c; 1/4 oz. 20c.

**1498 Nycteria** Capensis. The charming white flowers open at night and are very fragrant. The plants are 9 to 12 inches high and are nice for edgings, rockwork or for potting. Pkt. 10c; 1/8 oz. 25c.

### 1508 Oenothera, Afterglow

**Evening Primrose.** Evening Primroses should be in every garden because of their enchanting habit of opening their flowers in the evening and allowing you to enjoy their delicious fragrance. Afterglow is a pretty new variety with large flowers of buttercup yellow each with bright red calyx. 18 to 24 inches high. Pkt. 10c; 1/4 oz. 25c.

**1624 Phacelia, CALIFORNIA BLUE BELL.** Campanularia or Harebell Phacelia. Grows neat little bushes, 9 to 12 inches tall, and bearing all summer pretty gentian bell-shaped blue flowers with white stamens. Very easy to grow, nice for blue borders and rockeries. Pkt. 10c; 1/4 oz. 25c.

**1638 Poinciana, BIRD OF PARADISE.** Gillies. Stately tall growing plant reaching up 8 to 10 ft. The flowers are large, bright and yellow and borne in trusses. They are made even more beautiful by the rich crimson stamens and pistils which are long and incurving. Pkt. 10c; 1/8 oz. 30c.

## Nasturtiums

Flowers in Color on Front Cover and page 23. For summer display in large or small beds, nothing can surpass Nasturtiums. They start to bloom early and keep up a continuous display of bright colored flowers until hard frost in fall. You can grow them in practically any garden soil. Plant the seed after soil is warm, covering an inch deep and dropping a couple of seeds every 3 inches. They should not be transplanted. Cut the Nasturtiums freely and they will bloom better. Do not pull them from the vines but snip them off.

### Dwarf Nasturtiums

These are especially desirable for borders and beds forming neat compact plants 1 to 1½ ft. across. The more you pick the more they will bloom.

- 1427 King Theodore.** Rich Dark Red.  
**1428 Yellow.** Bright.  
**1429 Empress of India.** Scarlet.  
**1430 Ruby King.** Bluish Rose.  
**1431 Crystal Palace.** Rich yellow blotched with red.  
**1432 Pearl or Moonlight.** Very light yellow.  
 Price any of above. Pkt. 10c; oz. 20c; ¼ lb. 60c.  
**1435 Collection.** 1 pkt. each above 6 varieties 50c.  
 A splendid mixture. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.00.

**1436 FANCY LEAVED DWARF.** Very dwarf compact plants but the foliage is distinct and curious—variegated and marbled silvery white, and including the waved emerald green leaves. Flowers are showy. Mixed colors. Pkt. 10c; oz. 20c.

Nasturtiums Add Color to Your Home

### Double Nasturtiums

See Front Cover and Page 8.

**1438 Golden Gleam** Immense golden yellow double, sweet scented flowers. A real outstanding novelty of great beauty. Pkt. 10c; ½ oz. 25c.

**1439 Scarlet Gleam** Dazzling scarlet, delightfully sweet scented, double and extra large. Like a fiery carpet. Pkt. 25c; ½ oz. 40c.

**1440 Gleam Hybrids** The result of years of scientific breeding and selection. The most remarkable achievement in plant breeding. Magnificent color range, see front cover. Pkt. 20c; ½ oz. 30c.

### Tall Nasturtiums

**1441 BEST TALL OR CLIMBING.** For trailing over porch lattice or arbors, or for covering old fences or unsightly places, also for vases, we consider the tall varieties most desirable. There is also a greater variety in colors, including the brilliant Lobbianum type. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$1.00.

**1442 TALL IVY AND VARIEGATED.** Combining two desirable new climbing types, the Ivy with bright green foliage, veined light, and the Variegated with green leaves mottled with creamy-white. Flowers brilliant mixed colors. Pkt. 10c; oz. 20c.

**1443 TRAILING TOM POUNCE.** The best Nasturtium for porch boxes because of its trailing habit (vines 2 feet long.) At times you hardly see the foliage because of the wealth of flowers. Flowers are a little smaller than the ordinary Nasturtium, very bright yellow and scarlets. Pkt. 10c; oz. 20c.

Nasturtium Golden Gleam

## Annual Poppies

Poppies will grow most anywhere and you should scatter seed wherever there is any space in your garden, they are so bright. Make several plantings to have fresh flowers throughout the summer. They will not stand transplanting.

### Shirley Poppies

The Shirley Poppies are all very attractive because of their good sized, beautiful silken flowers.

**1651 SWEET BRIAR.** Double Shirley. The color is a deep rose-pink, like a wild rose, and formed like a large double begonia. It is much larger than the standard Double Shirley varieties. Pkt. 10c; ½ oz. 25c.

**1652 THE DAZZLER.** Double Shirley. A new Double Shirley Poppy of fine size and form. The color is a rich orange-scarlet, very attractive and unusual. Pkt. 10c; ¼ oz. 35c.

**1654 SINGLE SHIRLEY MIXED.** Silk or Ghost. The effect of this mixture of these new Poppies, is what you would expect to see in a Chinese garden, where vivid, glistening, still artistic harmonizing colors hold sway. Pkt. 10c; ¼ oz. 20c; oz. 60c.

**1655 DOUBLE SHIRLEY MIXED.** Eldorado. Same mixture of brilliant shades as the single mixed but the doubles last longer. There will be some singles and some semi-doubles. Pkt. 10c; ¼ oz. 25c.

### Other Annual Poppies

**1649 PEONY FLOWERED.** Double. The flower heads are very double and often measure 3½ to 4½ inches across. The petals are shaggy and Peony-like. All colors Mixed. Pkt. 10c; ¼ oz. 20c.

**1650 TALL SALMON SHADES, IRRESISTIBLE.** Double. A new strain of Annual Poppies. The flowers are larger than the Peony and Carnation flowered Poppies. The salmon shades are particularly pleasing and worthy enough to draw the Award of Merit from the Royal Horticultural Society. Pkt. 10c; ¼ oz. 25c.

**1653 FLANDERS FIELD.** Single. The beautiful native Poppy that covers the war fields of France and Belgium. A glorious scarlet Poppy. You must have some of them in your garden. Pkt. 10c; ¼ oz. 25c.

**1648 TEMPLIN-BRADLEY BRILLIANT MIXTURE.** For a brilliant and gaudy effect, plant large quantities of this mixture, containing all the bright colors known to Poppies. Pkt. 5c; ¼ oz. 15c; oz. 35c.

**1074 GOLDEN BUTTERCUP POPPY,** Hunnemanna, Eschscholtzla, See Page 18.

Double and Single Poppies

### Pansies

In color on page 24  
 Descriptions on page 25

### Rose Moss Portulaca Sun Plant

For brilliant coloring, nothing can excel a bed of Portulaca, with its silky flowers glistening in the sunlight. No bedding plant equals the Portulaca for places exposed to the hot sun.

**1641 Double** Comprising many brilliant colors. Seventy-five per cent should produce perfectly double flowers resembling small, fully open roses. Pkt. 10c; ½ oz. 40c; ¼ oz. 65c.

**1640 Paris Beauty** Larger flowered than the old fashioned, and one of the brightest, showiest low border flowers in existence. Colored with the gayest purple. Pkt. 10c; ½ oz. 25c.

### Single Flowering

The single-flowering Portulaca is unsurpassed for carpet bedding where a brilliant effect is desired. Our strain contains white, yellow, pink and scarlet.

**1642 Single Mixed Portulaca.** Pkt. 10c; ¼ oz. 25c.

### Primulas

**1661 PRIMULA OBCONICA.** One of the most beautiful Primulas for pot plants and also for the summer border. Fine large flowers in many colors. Start the plants in a light window, using a porous loam but one containing no leaf mold or peat. **Giant Mixed.** Pkt. 25c.

**HARDY PRIMULAS.** Hardy varieties of this desirable garden plant are listed on page 40.

### Pyrethrum

**1688 PYRETHRUM AUREUM.** Golden Feather. A dwarf growing little plant only a few inches high, with golden foliage, which makes it an attractive border or formal bedding plant. Though half-hardy, it is best treated as an annual. Pkt. 10c; ¼ oz. 25c.

**Pyrethrum Plants** See Page 70  
 In Color, See Page 51

### Ornamental Fruits

**1751 Jerusalem or Cleveland**

**Cherry** Ornamental pot plant bearing large, bright red cherries. A lovely house plant. Pkt. 10c; ½ oz. 25c.

**1752 Ornamental Peppers**

**Capsicum.** Interesting little bushy plants bearing brilliant and curious fruits in many shapes and colors. Pkt. 10c; ¼ oz. 25c.

Double Portulaca

### Floyd Bradley "How" Book

To help you with your garden problems, we have compiled this 48 book of garden "HOWS." 48 pages of valuable information to use before as well as after planting.

Annual, Perennial, Vine, Shrub, Bulb and Vegetable charts. Plant propagation, soil, fertilizing and pruning, all these and many more things carefully explained in this book. 25c per copy or FREE with \$2.00 orders.

### A Book To Help You

**4743 1001 GARDEN QUESTIONS ANSWERED** by Hottes. Answering everyday garden questions in a practical way, covering practically every field of gardening. 320 pages. Cloth \$2.10. Paper \$1.60.

# Beautiful Petunias

See Petunias in color on opposite page.

Petunia, Double Fringed

An effective planting of Dwarf Giant Petunia Rosie.

Petunia, Dwarf Compacta Pink Gem

## Giant Flowering Double Fringed

The finest Double Petunias. Immense blooms, ball-shaped and 4 inches across. Selected strains, producing practically 100% true doubles.

Make showy bedding plants. Tall, spreading with fairly long stems.

**1566 Rose Pink and White** New Double Giant Fringed. This is a beauty. Imagine a great big ball of double Petunia of bright pink having each petal edged with a frill of pure white. The effect is charming. It comes quite true as to color and doubleness. Pkt. 50c.

**1579 Super Double Fringed** We believe this strain is as near 100% perfect as has yet been attained. It produces a very large number though not 100% of great big doubled and fringed flowers. There will also be a few semi-double and singles. On page 23 in color is a sample of the kind of blooms you may expect, and certainly that is beautiful. The seed is worth many times its weight in gold. A wonderful assortment of colors. Mixed Pkt. 60c.

**1576 Standard Double Fringed Mixed** As lovely as Double Hollyhocks. Many colors; large, yet delicate and fluffy. Pkt. 40c.

**1567 Victorious** All Double Dwarf Giant Mixed Colors. A new strain, more dwarf and compact than the other double varieties. Every plant in our trials produced double flowers, the larger percent being of the Giant Ruffled type and in most beautiful assortment of colors. Pkt. 50c.

## Large Flowering Single Fringed

These have large flowers, though not as large as the Giant Ruffled. The flowers are very prettily fringed and ruffled and are freely borne. The group includes all colors, both light and dark. As a general rule the varieties come very true to color.

**1581 Heliotrope Blue** Heliotrope or steel-blue with veinings of purplish black. Pkt. 20c.

**1582 Theodosia Rose** The brightest rose-pink, the beauty being enhanced by the yellow throat, veined brown. Pkt. 20c.

**1588 Viola** An immense flower of deep, violet blue with beautifully waved velvety petals. Very desirable. Pkt. 20c.

**1593 Martha Washington** Pkt. 25c.

All American 1934, See Page 8.

**1585 Templin-Bradley's Large Fringed Mixed** A very fine color mixture of the above varieties, from bright lively pinks to deep purples. Pkt. 20c; 3 pkts. for 50c.

## Dwarf Single Fringed

Distinct from the other fringed and ruffled Petunias, especially in the habit of growth. This type grows bushy, compact plants only about 12 to 15 inches tall, and they are prolific of medium sized prettily fringed flowers. The dwarf compact growth makes them obviously better adapted for beds or borders, or as pot plants.

**1591 Setting Sun** Bright rose pink. Pkt. 40c.

**1599 Nana Erecta Tyrian Rose**

**1934 Novelty.** Color is bright Tyrian Rose, the flowers measure 2 to 2½ inches across, free-flowering, giving a continual array of the most brilliant rose. Pkt. 15c; ½ oz. 40c.

**1594 Dwarf Single Fringed** Mixed Colors Pkt. 25c.

## Small Flowering or Lilliput Double Fringed

As the name implies, the flowers are comparatively small, normally 2 to 2½ inches across, but they run a large percent double. The plants are quite dwarf and compact which makes them very desirable for bedding and for potting.

**1577 Double Rosy Morn** "Rosa Bonheur." The flowers are like rosy-pink Carnations. Fine for porch boxes. Pkt. 30c.

**1578 Lilliput Double Mixed** A mixture of shades of pink, crimson, striped and blotched red and white. Pkt. 30c.

## Balcony Petunias

The plants of this group are very free flowering. They are well adapted to bedding as well as for boxes or hanging baskets, but the long pendulous branches make them especially fine for porch or window plantings. Richly colored, with large plain petaled flowers.

**1602 Balcony Rose** **1604 Balcony Blue**  
**1603 Balcony White** **1605 Balcony Crimson**  
Price of any above colors. Pkt. 10c; ½ oz. 30c.

**1607 Balcony Netted Blue Gem** Steel blue with attractive netting of deep violet. The flowers are large and freely borne on long branches. Pkt. 15c.

**1601 Balcony Mixed** A well balanced mixture of lovely colors. Pkt. 10c; ½ oz. 30c.

Petunia Setting Sun

## Single Bedding Petunias

More generally planted than any other class of Petunias, because of their free flowering habit and their ability to do well under practically all conditions. In this group are found practically all colors known to Petunias. The normal height is 18 to 24 inches.

**1595 Elk's Pride** Royal Purple Darkest Petunia Pkt. 15c.

**1611 General Dodds** Atropurpurea. Velvety blood red. Pkt. 10c; ½ oz. 40c.

**1610 Howard's Star, Improved** Maroon, white star. Pkt. 10c; ½ oz. 50c.

**1609 Hybrida Mixed** A mixture of pleasing shades. Pkt. 10c; ½ oz. 25c; ¼ oz. 45c.

**1612 Templin-Bradley's Special Hybrid's Mixed** A select mixture, an improvement over common Hybrida. Pkt. 15c; ½ oz. 35c.

## Giant Flowering Single Ruffled

The largest flowered of all Petunias, the immense blooms often measuring 5 to 6 inches across. The petals are ruffled and in most varieties the throats of the flowers are beautifully netted or veined. The plant growth varies, the original types being tall and spreading, but as described below, recently dwarf compact strains have been developed.

These ruffled giants are rare and lovely and every garden should have one or more varieties. These varieties do not usually come 100% true to color, some colors being especially difficult to fix.

**1572 Dwarf Giant Rosie** A dwarf variety with mammoth flowers of rosy lavender, beautifully netted. See large picture at top of page. Pkt. 30c.

**1583 Giants of California Mixed** Many fine shades of rose, pink, lavender, purple with veined throats of different colors. Pkt. 15c; Large pkt. 75c.

**1586 Ramona, Mixed** Dwarf Giants. Similar to Giants of California except in growth. The dwarf strain making more bushy and compact growth. Pkt. 25c.

**1570 Ruffled Monsters Mixed** The flowers are very large and ruffled. Mostly colored in the desirable red and dark shades, neatly marked and veined. Half dwarf and erect in growth. Pkt. 25c.

## Dwarf Bedding Compacta

These varieties have been selected for a more compact and dwarf plant growth than the Hybrids. While the different colors vary somewhat, the plants normally are very free flowering, bushy and about 9 to 12 inches tall. As low borders or ribbon beds, they are unexcelled. Suitable for the Rock Garden also.

**1616 Bluebird** Deep blue. Pkt. 10c; ½ oz. 50c.

**1621 Cockatoo** Deep velvety purple. Pkt. 10c; ½ oz. 30c.

**1617 Rosy Morn** Best bright rose-pink. Pkt. 10c; ½ oz. 50c.

**1619 Rose of Heaven** Lively rose-pink. Pkt. 10c; ½ oz. 40c.

**1620 Silver Blue** Heavenly blue, silvery sheen. Pkt. 10c; ½ oz. 50c.

**1618 Dwarf Inimitable** Many colors, mostly blotched and striped. A fine mixture. Pkt. 10c; ½ oz. 35c.

**1622 Pink Gem** A little gem of a Petunia, literally covered with rich deep pink flowers, 5 to 6 inches high with 25 to 30 blooms to each plant, flowers 2 inches across. The first real dwarf or miniature Petunia. Pkt. 15c; ½ oz. 60c.

**1600 Nana Compacta Mixed** For the time we are able to give you a splendid mixture of many distinct colors in the true Dwarf or Nana Compacta class. 8 to 10 inches tall and one foot in diameter. A ball of growth. Pkt. 15c; ½ oz. 30c.

Rosy Morn

# Templin-Bradley's Popular Annual Flower Seeds

1426 Dwarf Mixed Nasturtiums. Pkt. 10c; Oz. 20c.  
Plant plenty for cut flowers. See page 21.

# Pansies

## Roggli's Swiss Giants

Pictured In Color on Opposite Page

Deep down in the heart of everyone is the desire to see Switzerland, the country of beautiful lakes, flowers and snow-capped mountains. Few have the opportunity to spend days in the heart of the Swiss Alps, but all of us can bring a bit of Switzerland into our houses and gardens if we but plant these lovely Swiss Pansies.

Roggli's Swiss Pansies are the result of years of intensive plant breeding, developing this wonderful strain of Giant Pansies with the immense size, 3½ to 4 inches in diameter, and seemingly, embodying all the rich golds, reds and blues that are to be found in the lakes and mountains of Switzerland.

The separate colors are descriptive of their homeland and the mixture contains a very fine range of colors, with a large percentage of rich dark shades.

Roggli's Swiss Giant Pansies  
Are Unexcelled

**1514 ALPGLOW.** Rich garnet red, darker markings.

**1518 RHEINGOLD.** Golden yellow, brown blotches.

**1545 ROGGLI'S SWISS GIANTS MIXED—Deluxe Strain.**

Prices on all Roggli Pansies. Pkt. 25c; ⅓ oz. \$1.00; ⅜ oz. \$1.75.

**1547 THUNDERSEE.** Deep blue.

**1549 BERNA.** Violet-blue, darker markings.

## Giant Flowering Pansies

Separate  
Colors

The largest of the American grown Pansies. We offer you eight varieties, in colors that will give you a fine selection if you too follow a color scheme in your garden planting.

**1532 SNOW WHITE.** Pure glistening white.

**1533 GOLDEN QUEEN.** Bright golden yellow.

**1534 CARDINAL.** Brilliant red, black blotches.

**1535 KING OF BLACKS.** Rich velvety, near black.

Prices on any of above 8 Kinds. Pkt. 10c; ⅜ oz. 30c.

**1536 LORD BEACONSFIELD.** Purple, white, lavender.

**1537 PRINCE HENRY.**

**1538 PRINCE BISMARCK.** Bronze shade, black eye.

**1539 ADONIS.** Light blue with white eye.

### 1529 A New Strain of Pansies

Templin-Bradley's Rainbow Mixture

This strain has a greater range of color than any other strain we have ever offered. Furthermore, the flowers are enormous in size, when properly grown you will find flowers 4 to 5 inches from top to bottom. The plants are compact but of vigorous growth, producing good length of stems.

And the colors are marvelous. You will find those of bronze and reddish tinge, many with distinct rings, deep blues, purples and the light gold and yellow shades as well. Pkt. 25c.

### 1527 Miracle Pansies

**American Strain of Mastodon Mixed.** This pansy strain was developed by Steele's Pansy Gardens and is considered the best of the American strains. The plants are bardy, very early flowering, bear huge blooms on long stems and the colors are beyond description. Pkt. 25c.

### 1552 Winter-Blooming Giant Pansies

**Sometimes called World's Record.** A very early flowering hardy strain. They will bloom several weeks earlier than other pansies so are invaluable for spring bedding. The flowers are of good size and include a splendid assortment of colors. They are delicately fragrant, indicating the violet strain. Pkt. 10c.

### Templin-Bradley's 1526 Giant Exhibition Pansies

The Giant Exhibition is a wonderful mixture of Pansies. It is our own blend of which we sell a great quantity to the most critical pansy lovers and to those who grow for market. In order that you may have the pleasure of growing some of the very best pansies in existence at a nominal expense, we are searching each season—almost to the ends of the earth, among pansy specialists for the very best of their new strains. Included are the ruffled types, the striped and mottled, the blotched as well as solid colors are mixed together to make our Giant Exhibition. Price, pkt. 15c; 3 pkts. 40c.

### 1528 Popular Bedding Mixture

These are the popular saucy-faced beauties that everybody loves, comprising the finest varieties in all colors. Just what you want for a pretty bed. You will be delighted with this mixture. Pkt. 10c; ⅜ oz. 25c; ¼ oz. 45c.

**CULTURE**—Pansies do best in a rich loamy soil, moist but not wet. Beds should be worked up loosely 8 inches deep and humus, or well-rotted manure worked in. Seed may be sown in the garden as early as the ground can be worked up fine or may be started inside in boxes for earlier plants. After sowing cover very lightly with fine soil or sand and keep moist, this is important for pansy seed if allowed to dry out during the first 15 or 20 days will invariably die. Pansies may be sown in the same manner in July or August and carried through winter by mulching with straw or leaves.

## Rudbeckia

**1697 My Joy** A delightful new and desirable variety of this popular annual. The attractive flowers are of rich orange yellow often over five inches in diameter and having a much smaller central cone. Plants are vigorous and strong-growing, furnishing fine strong stems for cutting. Pkt. 10c; ⅜ oz. 50c.

**1698 Kelvendon Star** A half-hardy annual and a rampant grower, 3 feet in height and should be planted 18 inches apart. Sow seeds indoors in February or March. Plant seedlings outdoors as soon as ground is warm. Will bloom from July until frost. Flowers of golden yellow with brown central disc, surrounded by shining mahogany. Pkt. 25c; ⅜ oz. 10c.

## Salpiglossis Velvet Flower

See Color, Page 51

Most attractive annuals, large petunia-like flower in richest color display. The flower coloring is rich indeed—purples, crimson, and each flower veined with a glint of gold. The plants grow 2 feet tall and bear long stems. There is no other flower that has the same purple and gold color combination. Visitors at our Trial Grounds always remark about the magnificent beauty of these flowers.

**1704-A LIGHT BLUE** **1704-B YELLOW GOLD**  
**1704-C FAUST BLACK** **1704-D PURPLE AND GOLD**  
**1704-E VELVET RED** **1704-F ROSE AND GOLD**

Price any Color Pkt. 10c; ⅜ oz. 25c.

**1703 FINE MIXED.** Pkt. 10c; ⅜ oz. 20c.

### 1701 Saintpaulia African Violet

**Ionantha.** A very useful and charming pot plant that is now in very popular demand. Flowers resembling violets of a very rich violet-blue color enhanced by the golden anthers, which lend a beautiful contrast. Foliage is similar to the Gloxinia. Very easily grown from seed, flowering in six months and continuing all winter. Pkt. 25c.

Salpiglossis, Velvet Flower

**1693 Rhodanthé** Everlasting See Page 17

**1694 Ricinus** Castor Bean See Page 15

**1640-Rose Moss** Portulaca See Page 21

**1647**

Templin-Bradley's Supreme Mixture  
A Basket Full of Beautiful Thoughts

### Templin-Bradley's 1540 Supreme Mixture

"Pansies for Thoughts" is an age-old saying but in this case we have reversed the words and have given "Thoughts for Pansies." In this mixture we have thought out the best mixture of Pansies in all the finest types, colors, sizes, markings and substances available.

Let's make this a Pansy summer and fill our gardens, baskets and homes with the adorable little faces of these colorful Pansies. Their beauty will thrill you. **1540 Supreme Mixed Pansies.** Pkt. 30c; Large Pkt. 75c.

Scabiosa Loveliness

Ursula

Schizanthus, Butterfly Flower

## Salvias Scarlet Sage

Salvia is too well known as one of the best bedding and border plants to need description here. Start the seed indoors. With a little effort you can raise many plants from a packet of seed.

**1711 Harbinger** One of the finest Salvias. Will bloom early and continue till frost. About one foot tall, compact, with rich green foliage and vivid scarlet flowers, freely borne. **Pkt. 20c; 1/8 oz. 60c.**

**1707 Bonfire** Clara Bedman. Plant of globular form, 1 1/2 to 2 feet tall, upright spikes of dazzling flowers. Uniform growth, profuse bloomer. **Pkt. 10c; 1/8 oz. 45c.**

**1706 Splendens Scarlet** Most popular bedding variety. A scorching scarlet. **Pkt. 10c; 1/8 oz. 30c.** These are tender perennials but are best treated as annuals. Start the seed early indoors or in hotbed.

## Blue Salvias

**1713 Farinacea Blue** This beautiful variety is fine for cutting or for bedding. Tall graceful spikes. **Pkt. 10c; 1/8 oz. 45c.**

**1715 Blue Bedder** Strain of Farinacea Blue but more dwarf and compact, free bloomer and deeper in shade. **Pkt. 20c.**

## Sanvitalia

Creeping Zinnia  
See Page 29

## Saponaria, Bouncing Bet

**1720 ROSE AND WHITE.** A pretty plant growing 2 feet high and covered with small pink and white flowers, somewhat like large Baby's Breath. Very pretty in the garden and desirable as cut flowers. **Pkt. 10c; 1/4 oz. 20c.**

## Scabiosa, Mourning Bride

These lovely flowers are sometimes called "Sweet Scabious" and "Pin Cushion Flowers." Their delicate coloring and their dainty form with their long graceful stems make them especially adapted for cut-flowers on the dining table. They also look attractive in mixed bouquets.

The flowers are 1 1/2 to 2 inches across and the plants 2 to 3 feet tall. Owing to the delicious sweetness of Scabiosas, they attract the most beautiful types of butterflies to your garden.

### LARGE FLOWERING TALL DOUBLE

- |                             |                             |
|-----------------------------|-----------------------------|
| <b>1724 Peach Blossom.</b>  | <b>1725 Shasta, Pure</b>    |
| <b>1726 Azure Fairy.</b>    | white.                      |
| <b>1727 King of Blacks.</b> | <b>1728 Sulphur Yellow.</b> |
| <b>1729 Crimson, Fire</b>   | <b>1730 Rose.</b>           |
| <b>King.</b>                | <b>1723 Mixed Colors.</b>   |

Prices on above varieties and mixed. **Pkt. 10c; 1/4 oz. 25c.**

**1737 Collection.** 1 Pkt. each of 7 varieties, 70c value for only 50c.

### NEW TALL DOUBLE

**1733 Blue Cockade** See natural color on page 2. Received an Award of Merit from the Royal Horticultural Society. This outstanding novelty is the purest deep azure blue that can be found in any annual. It is absolutely devoid of even a suggestion of rose. The formation of the flower is far ahead of existing varieties, it has great depth, almost conical. An excellent cut-flower. Half-hardy. Height 3 feet. **Pkt. 20c; 1/8 oz. 35c.**

**1731 Loveliness** Varying tones of delicate salmon - rose. Delightfully fragrant. **Pkt. 10c; 1/4 oz. 25c.**

**1732 Cattleya** The color is a rich rosy lilac of the beautiful orchid tone, a new shade in Scabiosas. **Pkt. 10c; 1/4 oz. 25c.**

**1722 New Giant Hybrids** The flowers in this new strain are much larger than the standard Scabiosas, often measuring 2 to 2 1/2 inches across, completely rounded and double. An unusual range of lovely colors. **Pkt. 15c; 1/8 oz. 30c.**

## Dwarf Scabiosas

Only 8 to 9 inches tall—Fine for Rock Gardens

**1734 Coral Rose** Neat and compact in growth. Color is rose, with salmon over-tone. **Pkt. 10c; 1/8 oz. 20c.**

**1735 Tom Thumb Mixed** Lovely colors. **Pkt. 10c; 1/4 oz. 25c.**

Sunflower Stella

Salvia Splendens Scarlet

## Schizanthus Butterfly Flower

One of the most charming flowers for the garden in summer and for the house in winter. The plants are of compact branching growth 1 1/2 to 2 ft. high, covered with a multitude of butterfly flowers of the most entrancing designs. For outdoor bloom sow seed in May. If you have a greenhouse you can sow the seed in August. Give lots of light and you will have plenty of bloom after the holidays.

**1738 CHOICE MIXED.** A fine strain of this excellent annual flowers containing many beautiful contrasting colors. **Pkt. 10c; 1/4 oz. 25c.**

**1739 GIANT FLOWERING HYBRIDS.** A new and improved strain of the Giant Flowering type. Excellent color assortment. This is exceptionally fine for greenhouse growing, but also superior to the common mixed when grown out of doors. **Pkt. 15c; 1/8 oz. 60c.**

## Garden Sunflowers

**1801 Red** Like immense Gaillardias. Height 5 to 6 feet, flowers 4 to 7 inches across, in shades of brown, red, yellow. **Pkt. 5c; 1/4 oz. 20c.**

**1802 Double Chrysanthemum** While many come single, a proportion of them will come fully double like big Chrysanthemums. **Pkt. 10c; 1/4 oz. 25c.**

**1803 Stella** The best of the miniature type. A wealth of golden yellow, single flowers all summer. Fine for cut-flowers. See above picture. **Pkt. 5c; 1/4 oz. 20c.**

**1804 Sunflower Collection** 1 pkt. each of the above 3 varieties, 15c.

## Tall Sunflowers

**4077 Sunflower Mammoth Russian** The large flowered tall growing variety. **Oz. 5c; 1/4 lb. 10c; 1 lb. 25c; 3 lbs. 60c.**

**1984 Tithonia** Mexican Sunflower. See Page 29.

Double Stocks

Salvia Farinacea Blue

## Stocks, Gilliflower

These popular old hardy annuals have been greatly improved during the past few years. The varieties we list below will give you a fine selection for bedding and potting.

They come in a great variety of soft colors and are very attractive for cut-flowers both by the florist and the home gardener. They bloom in late summer, fall and winter.

**1765 Ten Weeks Dwarf, Large Flowered Mixed Colors.** The favorites for outdoor bedding because of their dwarf, compact growth and large double flowers. Our strain shows only a few singles. **Pkt. 10c.**

**1767 Giant Imperial** Improved Bismarck. A fine variety for greenhouse use, the plants growing large and branching, with long flower stocks, 2 1/2 feet tall. **Double. Mixed Colors. Pkt. 15c; 1/8 oz. 35c.**

**1791 Giant Excelsior or Column** In contrast to the branching types, these Excelsior Stocks produce one large flowering spike 3 feet long on each plant. **Double. Mixed Colors. Pkt. 20c.**

**1353 Virginian Stocks** Malcomia Chelidonium. Dwarf plants 8 to 12 inches tall, bearing petaled rose or white flowers, somewhat resembling ordinary stocks. Useful for rock gardens, edgings, massing or naturalizing. **Pkt. 10c; 1/4 oz. 20c.**

## Ursinia

**2036 Anethoides** A native of Africa, a novelty in American gardens. Plants form tufts of leaves, flowers borne above on long wiry stems. Daisy-like flowers 1 1/2 inches across, of rich yellow, with purple center. (See cut above left.) Flowers remain open all day. Plants 1 foot high. **Pkt. 15c; 1/8 oz. 35c.**

## Blue Cockade Scabiosa

See Natural Color, Page 2.

**1410 Sensitive Plant** Mimosa. See page 19.

**2442 Smilax** Climbing Vine. See page 30.

**Snapdragons** Antirrhinums. See page 11.

**Solanums** Ornamental Fruits. See page 21.

**Statice** Everlastings. Strawflowers. See page 17.

**Strawflowers** Everlastings. See page 17.

## 1761 Stevia Serrata

Form nice bushy plants about 2 ft. tall and bearing numerous fragrant pure white flowers. Grow outdoors in summer and indoors in winter, and have the flowers for cutting and mixing with bouquets of other blooms. **Pkt. 10c; 1/8 oz. 30c.**

# Lovely Sweet Peas

## Most Desirable Varieties Of Finest Quality

For distinctive beauty and exquisite fragrance the Sweet Pea has no rival. We sell more packets of Sweet Peas annually than any other flower. You can have Sweet Peas in your own garden just as fine as those of the florist. Pick the flowers frequently for abundant bloom. One ounce will plant a single row 25 feet long.

**CULTURE OF SWEET PEAS.** Prepare a deep trench, removing top soil and loosen subsoil, working into it some well rotted manure, replace top soil, leaving it 4 to 5 inches deep. Sow Sweet Pea seed in bottom of trench, 12 to 15 seeds to the foot for each row, then cover seed with 2 or 3 inches of soil and as vines grow, gradually fill up to the level.

Sweet Peas must be sown early in the spring to get the best results, just as early as you can possibly work your soil.

### 1807 Templin-Bradley's Medal Mixture

If you have a limited amount of space for your Sweet Peas and yet wish to have the best named varieties in the most colorful and gorgeous display of Sweet Pea beauty and daintiness, plant this Templin-Bradley Medal Mixture.

We have combined thirty or more choice named varieties of the Butterfly or Orchid Flowering Spencer Sweet Peas into the finest mixture to give you the best known in the Sweet Pea world. This will give you an unlimited supply of beautiful flowers for dainty bouquets. Pkt. 15c; Oz. 35c; ¼ lb. 75c; Lb. \$2.25.

## Giant Spencer Summer Flowering Sweet Peas

**Thrifty, vigorous, large waved or frilled flowers**  
**Blue**

**1840 Reflection** Clear corn-flower blue. English variety of lovely blue. Remarkable purity of color. Long stems.

## Lavender and Mauve

**1841 Powerscourt** Clearest lavender. British National Sweet Pea Society had classed this as the best lavender for the past seven years.

**1851 Chieftain** Pure satiny mauve or deep lavender.

## Purple

**1850 Olympia** Lovely large blooms of gloriously rich royal purple. An unusual color in Sweet Peas.

## Picotee

**1835 Youth** Exceptionally large, pure white, edged soft pink. Very fragrant.  
**1836 Sunkist** Clear rich cream, edged deep pink. A real beauty.

(A) Mary Pickford, (B) Reflection, (C) What Joy, (D) Gold Crest, (E) Pinkie, (F) Ruddigore, (G) Sybil Henshaw. Any Pkt. 10c.

7 Pkts. 70c Value for . . . 50c

## Orange and Salmon

**1830 Mammoth** A glorious Sweet Pea of vivid glowing orange-scarlet. Lovely planted with Reflection, No. 1840.

**1831 Tangerine Improved** Rich salmon-orange. Popular color. Beautiful under electric light.

**1832 Gold Crest** Bright orange with an overlay of salmon.

**1833 Pirate's Gold** Deep golden-orange. Strikingly beautiful for cut-flowers. Quite romantic.

**1816 Smiles** Distinct shade of glistening salmon, shaded shrimp-pink. As charming as its name. Smiles make us happy.

## Scarlet

**1815 Welcome** Most dazzling deep scarlet. Bold, sun-proof flowers.

**1817 Ruddigore** Magnificent English Sweet Pea with bright scarlet blooms. Warm and glowing color.

**1818 Campfire** Extremely vivid scarlet. Large and sun-proof. Well named for its flaming brightness.

## Crimson and Maroon

**1845 Red Boy** Pure crimson, deep and rich. Boldly expanded flowers.

**1846 Sybil Henshaw** Blood-red. A startling color.

**1847 The Sultan** Deepest maroon with a trace of violet. Unequalled in depth of color. Rich and velvety.

### 1806 Butterfly Spencer Mixed Sweet Peas

Our mixture contains many choice varieties, the best in their respective colors. They are all large and wonderfully frilled and waved and will give you a splendid assortment of shades and colors in this delightful class of Sweet Peas. Pkt. 10c; Oz. 20c; ¼ lb. 50c; Lb. \$1.50.

## Early Flowering Spencer Sweet Peas

A new race of Sweet Peas with the large waved flowers of the Spencers but coming into bloom 3 to 4 weeks earlier than the above varieties.

Excellent for greenhouse planting. Fine for garden planting when mixed with the later kinds, giving a long blooming season.

**1930 ANNIE LAURIE.** Rich tone of pure rose-pink.

**1901 AVIATOR.** Bright glowing crimson.

**1874 BALL'S BLUE.** Bright mid-blue. Good color.

**1921 BALL'S ORANGE.** Best clear, deep orange.

**1876 BLUE BIRD.** Pure violet-blue.

**1906 COLUMBIA.** Salmon-rose standards, white wings.

**1891 GLITTERS.** Deep fiery orange. Gorgeous.

**1862 HOPE.** The best standard black-seeded white.

**1936 MAJESTIC ROSE.** Immense deep brilliant rose.

**1910 MRS. CALVIN COOLIDGE.** Salmon-pink.

**1915 SATIN ROSE.** Lovely soft satiny rose.

Prices on above. Pkt. 10c; ½ oz. 35c.

**1887 Lavanda** Fine clear, pure lavender. Extremely large and well waved, with long stems. Produces more than the usual blooms per plant. Pkt. 15c; ¼ oz. 35c; ½ oz. 60c.

**1861 EARLY FLOWERING MIXED.** A splendid mixture of the above named varieties and many others, giving you a great variety of colors and tones. If you wish a fine lot of Sweet Peas with little space and a limited expenditure, plant this mixture with our Butterfly Spencers Mixed, Pkt. 10c; ½ oz. 30c; oz. 50c.

Grow Your Own Beautiful Bouquets

## Cream and White

**1810 Model** Elegant, large, pure white. For the lover of white flowers.

**1811 What Joy** A charming tone of rich primrose yellow, shading to cream. Nearest approach to a yellow Sweet Pea.

## Pink and Cream Pink

**1825 Mary Pickford** "America's Sweet-heart," an overwhelming favorite, as lovely as its namesake. It is rich creamy pink, suffused with salmon.

**1826 Magnet** Delicate cream-pink, keeps well in water.

**1827 Fluffy Ruffles** Light cream-pink with a sheen of bright lilac. Fluffy, ruffled petals.

**1828 Pinkie** Large and adorable Sweet Pea. Clear, deep rose-pink.

## Rose and Carmine

**1820 Rosabelle** Large clear rose. Great depth of color.

**1821 Doreen** Strong growing, bright carmine. Unusual shade.

**1822 Damask Rose** Exquisite flower of beautiful rosy carmine. Large and well formed.

Prices on Any Named Varieties of Spencer Sweet Peas.

Pkt. 10c; Oz. 25c; ¼ lb. 75c.

**1960 Grandiflora Mixture** A fine well balanced mixture of the plain petalled type of Sweet Peas. Large and free flowering. An excellent assortment of colors that will give you beautiful flowers and a continuous supply of cut-flowers all summer. Pkt. 5c; Oz. 15c; ¼ lb. 40c; lb. \$1.25.

### 1967 Dwarf Cupid Spencers Mixed

An entirely distinct type, growing only 6 to 8 inches high, forming a dense mass of green and a profusion of flowers in many colors. The flower is similar in form to the regular Spencers and the colors are equally beautiful and varied. Fine for bordering walks or beds and are often planted in front of the standard Sweet Peas to add mass effect. Pkt. 10c; ½ oz. 25c; Oz. 40c.

## Inoculate Sweet Peas With Nitragin

Nitragin is an old reliable Inoculator. It is well known and used by Agricultural Colleges. Packed in a rich soil-like granular medium easy to mix with

your seed. Contents are always fresh. Use on Sweet Peas, Beans and Garden Peas. Directions on package.

**1340 GARDEN PACKAGE.** (For several lbs. of seed) 25c.

**1341 20 POUND SIZE.** (For 20 lb. of seed) 50c.

Plant enough Sweet Peas to have fresh flowers on your table every day.

Giant

## Giant Dahlia Zinnias

See Flowers in Color on Page 31.

The Dahlia Flowered Zinnias are immense in size, often 4 to 5 inches and more in diameter. They are borne on tall strong plants with long stems, the flowers resembling Decorative Dahlias.

The separate colors of this type are not quite 100% true, there being a little variation in shade. We believe our strains are the finest on the market.

**2212 Luminosa.** Shades of bright deep pink with a light suffusion of salmon.

**2213 Golden State.** Very rich orange yellow.

Yellow in the young flowers turning to orange.

**2202 Canary Bird.** A delicate shade of primrose.

**2203 Crimson Monarch.** The best rich red.

**2204 Exquisite.** The favorite Rose Pink.

**2205 Oriole.** Rich Orange and Gold Shades.

**2206 Polar Bear.** The best White flowered.

**2207 Lavender Dream.** Lavender, turning to purple.

**2208 Old Rose.** A real old rose shade.

**2210 Purple Prince.** A deep rich intense purple.

**2211 Golden Dawn.** A beautiful shade of yellow.

**2214 Scarlet Flame.** Bright scarlet-orange.

**2216 Illumination.** Deep, rich rose.

Price any above Pkt. 10c; 1/8 oz. 35c; 1/4 oz. 50c.

**2219 Color Plate Collection.** Page 31.

Six 10c Pkts. for 50c.

### 2201 Gold Medal

#### Dahlia Flowered Zinnias Mixed

A very fine color assortment of the above varieties in well balanced color proportion, a mixture that will give you a beautiful array of these beautiful bright colored flowers. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.

### 2287 Pumila Picotee Delight

This is the result of crossing Pumila Salmon Rose with Giant Picotee, presenting a very distinct and desirable type. Delight is a vigorous and floriferous Pumila type. The petals of the flowers are ruffled and curled, many have fringed petals, edged with gold tips. The color ranges through the most pleasing shades of salmon, cream, buff, yellow and lavender.

**Mixed colors.** Pkt. 10c; 1/8 oz. 30c.

### 2290 Pumila Picotee Salmon Rose.

Most popular separate color of the Delight class. Rich salmon-rose. Pkt. 15c; 1/8 oz. 35c.

Pumila Picotee Delight

A Plant of California Giant Zinnias

# Giant Zinnias

## Old Garden Favorites and yet New Kinds Every Year

Zinnias, the historical flowers of Old Mexico, have been favorites in every garden for as long as there have been home gardens.

In our grandmother's day, Zinnias were gay and colorful but only the common type, small flowers and a few primary colors were to be had. Today, we have Zinnias of huge size, of medium size and the tiny little baby types. Through years of scientific work and intense study, our growers have developed Zinnias that are almost beyond belief in size and beauty of color.

We have classified on these two pages, the many types of Zinnias so that you may order the height and color particularly suited to the spot you wish to plant with these colorful flowers.

Zinnias Bloom from July Until Frost

## Mammoth Giant or California Giant Zinnias

A newly developed type which carries the same robust habit as the Dahlia Flowered Type. When the flowers are half grown they make a very fine cut flower and when in full bloom they reach enormous size with a flatness that gives them a most graceful appearance.

**2242 MISS WILMOTT.** A pleasing shade of pink.

**2243 ORANGE KING.** Cadmium or burnt orange.

**2244 SCARLET GEM.** A rich glowing scarlet.

**2245 CERISE QUEEN.** Cerise rose.

**2248 VIOLET QUEEN.** Rich violet purple.

**2249 GRENADIER.** Bright dark red.

**2250 DAFFODIL.** Canary yellow.

**2251 BRIGHTNESS.** Bright deep rose pink.

**2252 PURITY WHITE.** Best white zinnia.

**2253 SALMON QUEEN.** Salmon rose.

Price any above. Pkt. 10c; 1/8 oz. 30c; 1/4 oz. 50c.  
**2241 MIXED COLORS.** A fine color assortment containing all the above varieties and other shades. Pkt. 10c; 1/8 oz. 25c; 1/4 oz. 40c.

## Various Large Flowered

### 2291 Scabiosa Flowered Zinnia

A new and very distinct type of Zinnia growing about 30 inches tall and producing an abundance of flowers in many colors. The outer petals are long and flat while all the inner petals are short tubular florets forming a crest or crown somewhat resembling the Scabiosa. Pkt. 15c.

**2282 Victory Quilled** This type has petals quilled like the Cactus Dahlia. The flowers are large on tall plants. Mixed Pkt. 10c; 1/8 oz. 30c.

**2283 Picotee** The petals are tipped with a contrasting color giving the flower a very pretty and unusual effect. Mixed. Pkt. 10c; 1/8 oz. 30c.

### 2292 Crown O'Gold Mixture

A new development in the Giant Dahlia Flowered Zinnias in which each petal of the flower is overlaid with a deep golden yellow at the base while carrying out the individual flower color at the tip. The colors include old rose, cream, yellow, carmine red, pink, etc. Mixed Colors: Pkt. 15c; 1/8 oz. 40c.

### 2221 Giant Double Zinnias Mixed

This type though not quite as large flowering as the Dahlia Zinnias still are "Giants" borne on plants 2 1/2 to 3 ft. tall. The flower is deeper than the Dahlia Flowered with petals more formally placed. They are great favorites for cutting or garden display. Mixed Colors. Pkt. 5c; 1/4 oz. 20c.

Giant Double Zinnias Mixed

Fantasy Mixed Zinnias—Color Page 2

## Some Real Beauties

### 2294 Fantasy Mixed

See Color page 2. The most fascinating new type of Zinnias introduced to the flower world in many years. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal Zinnias to which we are accustomed. The cuts show the type of flower. The ranges includes the brightest shades of red, yellow and orange as well as the popular pastel pinks and cream. This should be the sensation of the year. Mixed colors. Pkt. 25c; 1/8 oz. 45c.

**2293 Desert Gold** For the lover of gold colored flowers, here is a real addition to your gold garden. This Desert Gold contains all the rich yellow and golden shades of the Crown O'Gold Mixture that we have been listing in the past. Our grower has segregated all the golden flowers and we are able to give you Zinnias that will thrill you with their beauty by daylight and under artificial lighting. For flower description, see Novelty page 9. Pkt. 15c; 1/8 oz. 40c.

### 2288 Templin-Bradley's "Little Jewels"

These Little Jewel Zinnias are reproduced in natural color on the inside front cover. Did you ever see such a gay and gorgeous display of color? Truly the real flower is just as much brighter as nature is brighter than printer's ink.

These small flowered Zinnias have a charm all their own. They lend themselves to bedding where a brilliant array of colors is needed. The stems are long enough to make the most wonderful bouquets, whether you wish just a tiny vase of flowers or a huge bowl of them. The mixture contains many combinations of colors in red, mahogany, rose, yellow, salmon and gold. Height 18 inches. Mixed colors. Pkt. 15c; 1/8 oz. 40c.

## ZINNIAS—Easy To Grow

**CULTURE**—Zinnias can be planted in the garden where they are to grow but for early bloom they should be started inside in boxes earlier than they could be put outdoors. One or two transplantings is beneficial to them for it induces more root growth and produces a stronger plant. Zinnias will do well in nearly any soil but too rich a soil will cause more plant growth and fewer blooms. If you wish especially large blooms from your Dahlia flowered Zinnias or others snip off all but two or three of the side branches and buds and those left will attain a much larger size.

## Lilliput or Pompon

12 To 15 Inches Tall

This type has been so improved lately that gardeners everywhere are becoming more fond of it each year. The plants are quite dwarf and compact, but they bear very profusely. The flowers are small, about the diameter of a quarter, fully double and borne on good stems.

2272 Canary Gem 2273 Golden Gem  
2274 Salmon Gem 2275 Scarlet Gem  
2276 White Gem 2277 Crimson Gem  
2278 Flesh Pink 2279 Rose Bud  
Price, any of above colors. Pkt. 10c; 1/4 oz. 35c.

2280 COLLECTION. One packet each of above 8 colors for 60c.

2271 MIXED COLORS. Pkt. 10c; 1/4 oz. 30c.

## Lilliput and Baby Zinnias

2286 Red Riding Hood 12 inches tall, of compact form and covered the entire season with little button-like double scarlet flowers, not over 1 inch across. Highly effective as a border plant. Brilliantly beautiful. Pkt. 10c; 1/8 oz. 30c.

2289 Early Wonder Mixed 12 to 15 inches tall. A new race of dwarf early flowering Zinnias, bearing many flowers on long stems. The stems start from the ground, have no laterals and very few leaves, making them fine for cut-flowers. The colors are shades of salmon, pink, cerise, orange, red and lavender. Plant these for your early Zinnias. Pkt. 15c; 1/8 oz. 30c.

2295 Tom Thumb or Baby Zinnias Only 4 to 6 inches tall. Cute little Zinnias that are suitable for Rock Garden, edging or for pot plant use. The plants are covered with perfect little double flowers of red, orange, yellow, pink, rose and other pastel shades. See cut at right. Pkt. 10c; 1/8 oz. 30c.

1717 Dwarf Creeping Zinnias *Sanvitalia Procumbens*. A low growing, trailing plant about 6 inches tall and producing a wealth of small double yellow flowers all summer. Very compact. Perfect for Rock Gardens, edgings and stone wall crevices. Pkt. 10c; 1/8 oz. 30c.

Tom Thumb or Baby Zinnias

## Pumila Double Zinnias

This is the best type for bedding, growing compact plants 1 1/2 ft. tall with a multitude of good sized perfectly double flowers.

2262 Fireball, Bright red.

2263 Golden Ball, Golden Yellow.

2264 Snowball, White.

2265 Salmon Rose. A beautiful shade.

2266 Canary Yellow, Light yellow.

2267 Pinkie. Light rose pink.

Price, any of above, Pkt. 10c; 1/4 oz. 30c; oz. 55c.

2270 Collection. 1 Pkt. each, 6 Colors, 50c.

2261 Mixed Colors. Pkt. 10c; 1/4 oz. 25c. Oz. 75c. See Color Plate on Page 23.

## 1995 Torenia Fournieri

*Grandiflora*. Bushy plants about 12 inches high, bearing curious but very pretty flowers during late Summer and Fall. Fine for beds or for potting and porch boxes. This variety has blue flowers with bright yellow in the throat. Pkt. 15c.

## 1984 Tithonia Speciosa

*Golden Flower of the Incas or Mexican Sunflower*. A tall shrubby plant, useful in the border or among shrubs, bearing large bright single Zinnia like flowers of dazzling orange scarlet. Blooms over a long period. Pkt. 10c; 1/8 oz. 30c.

Verbena Mammoth White

Verbena Fireball

## Verbenas - Wonderful for Bouquets

Very free flowering annuals of low spreading growth, forming a carpet of bright colors when in bloom, from July to frost. For best results, seed should be started early inside and transplanted to the garden in early May.

### 2059 Beauty of Oxford Hybrids

A beautiful new hybrid, a cross between Verbena Luminosa and Beauty of Oxford. The individual florets are large and arranged in mammoth heads. The color shades from clear rose-pink to rose-red, with a touch of salmon-pink. Pkt. 15c. 1/8 oz. 40c.

### Mammoth Flowering Giants

This is the largest flowering class of Verbenas.

2052 Luminosa Shades of flame, salmon and coral pink.

2053 Lucifer Intense deep cardinal-scarlet.

2054 Mammoth Blue Light to deep blue with white eye.

2055 Rosea Stellata Vivid rose-pink with white eye.

2056 Mammoth White Pure white and fragrant.

2057 Salmon Pink Lovely shade of salmon pink.

2058 Etna Geranium red with creamy eye. One of the prettiest.

Price on above varieties. Pkt. 15c; 1/8 oz. 40c.

2060 Helen Willmott One of the finest of all Verbenas. While not quite as large flowering as the others of the Mammoth group, it comes very true to color in bright deep pink. The growth is more compact, less spreading, so it is beautiful as a border. Pkt. 15c.

2051 Mammoth Giants Mixed A n e x - cellent mixture of Giant Verbenas, of all colors listed above and other distinctive colors. Pkt. 10c; 1/8 oz. 30c. See Color Page 23.

## Various Verbenas

2065 Erecta, Royal Bouquet A new strain of Verbenas of robust compact habit and free blooming. Plants rather upright, 15 to 18 inches tall. Flowers in mixed colors. Can be used for cutting as well as for bedding display. Pkt. 15c; 1/8 oz. 35c.

2061 Verbena Venosa A splendid bedding type. plants quite erect, one foot high. It is a luxuriant grower and the plants are well covered with bright flowers of purple and heliotrope. Very effective used with Alyssum as a ground cover and back-ground for the Verbenas. Pkt. 10c; 1/8 oz. 30c.

2062 CITRIMODORA. ALYOSIA Lemon Verbena. A favorite in old fashioned gardens. Has fragrant lemon scented foliage. A tender plant which may be grown in the outdoor summer garden and then potted for indoor garden in the winter. Pkt. 15c; 1/8 oz. 50c.

2063 ERINOIDES LILAC. Moss Verbena. Spreading bushy plants with pretty finely cut foliage, bearing flowers of purplish-rose or deep lilac. Pkt. 10c; 1/8 oz. 30c.

## 2081 Vinca, Periwinkle

Vinca

One of the finest border plants imaginable. Grows 1 1/2 feet tall, compact and bushy with dark shiny foliage, making an effective back-ground for flowers. White, pink and with crimson eye. Pkt. 10c; 1/4 oz. 30c.

## Dwarf Compact Verbenas Hybrid Compacta Erecta

This new class of Verbenas is entirely distinct from the older forms. The plants are bushy and compact as the illustration of Fireball shows. They are wonderful for borders or bedding.

2064 Fireball The first of the dwarf Verbenas to be introduced. It runs practically 100% true, with plants 6 to 8 inches high, covered with bright scarlet flowers. Certainly well named as it is as bright as a ball of fire. Pkt. 10c; 1/8 oz. 30c.

2066 Cameo Pink In growth, very similar to Fireball with flowers of clear flesh-pink. A very dainty color. Pkt. 10c.

2067 Crown Prince Flowers of deep crimson with small white eyes. Of compact habit, only 6 to 8 inches tall. Pkt. 10c; 1/8 oz. 35c.

## 2071 Hybrid Grandiflora Mixed Colors

This Hybrid Grandiflora Mixture contains a riot of gay and lovely colors. It will make a brilliant bed and will provide cut-flowers for your house from July until frost. They are not quite as large as the Mammoth flowered but of good size and larger than the common Hybrids. Pkt. 10c; 1/8 oz. 30c.

## Venidiums

2046 Fastuosum A gorgeous Daisy of brilliant orange from Africa. Plants 3 feet high, flowers 3 to 4 inches across. 90 days from seed. These orange flowers with purple-black center make a striking display. Pkt. 20c.

Canary Bird Flower

## Beautiful Climbing Vine Seeds

**Annual Varieties** Nothing adds more to the attractiveness of the home grounds than a well chosen selection of Climbing Vines. They grow rapidly and are indispensable for covering arbors, old fences and for hiding unsightly buildings.

### 2367 Balsam Apple, Momordica

Growing quickly to a height of about 10 ft., this vine bears ornamental fruits of golden yellow, resembling an apple. When the fruit is ripe it opens revealing a bright red interior. **Pkt. 10c; ¼ oz. 20c.**

### 2366 Balloon Vine, Love-in-a-Puff

A rapid growing climbing vine, having pretty, light green foliage, with inconspicuous flowers. The seedpods are like miniature balloons. Vines grow 8 to 10 ft. high. **Pkt. 5c; ¼ oz. 15c.**

**2447 Black Eyed Susan** *Thunbergia*. A delightful slender growing vine from Africa. Can be easily trailed to a trellis and is very attractive when grown in this way. Unusually good as a trailing vine for hanging baskets, vases, porch boxes, or rockeries. Large single flowers in white, yellow and orange with distinct black eye. Blooms from July to October. **Pkt. 10c; ¼ oz. 25c.**

**2372 Canary Bird Vine** A pretty and rapid growing climbing vine. The charming little canary yellow flowers remind you of a canary bird with wings half extended. Very useful on trellises or as a screen to cover old fences or other unsightly objects. Flowers appear in sprays early and continuously during the season. **Pkt. 10c; oz. 25c.**

**2373 Cardinal Climber** A very showy, distinct and valuable rapid climber with dark green, fern-like, deeply lacinated foliage and clusters of fiery cardinal-red flowers 1½ inches in diameter. The vines grow 10 to 20 feet and bloom all season long. Very ornamental. **Pkt. 10c; ¼ oz. 25c.**

**2378 Cobia Scandens** Cup and Saucer Vine. This rapid growing vine is very attractive and useful. Although not an annual it should be treated as such in the North. The vine grows to a height of 15 to 20 feet, flowers large and bell shaped, color ranging from pink to purple, blooms followed by plum-shaped fruits. Best started early indoors. **Pkt. 10c; ¼ oz. 30c.**

**2380 Cypress Vine** One of the daintiest of vines having fern-like foliage and pretty star-like flowers, scarlet and white mixed. Very desirable for covering small ornamental trellises. Also a good climber to grow in pots during winter. Grows 15 to 20 feet. **Pkt. 10c; ¼ oz. 20c.**

**2442 Smilax** One of the prettiest of all vines for baskets, porch boxes or conservatory where its graceful twining glossy green foliage is unsurpassed. Also much used for cutting as it lasts several days when used for bouquet trimming. Vine grows about 6 ft. **Pkt. 10c; ¼ oz. 25c.**

Ipomea, Heavenly Blue

Common Morning Glory

**2376 Climbing Mixture** You surely get your money's worth in this package as it contains a general mixture of most of the varieties of Annual Vines that we list. **Pkt. 10c; ¼ oz. 25c.**

Cardinal Climber

### 2399 Hyacinth Bean, Dolicho's

Of extra rapid growth, making a dense and attractive screen, flowering freely in racemes or upright spikes not unlike Hyacinths. **Pkt. 5c; oz. 25c.**

### 2395 Ipomea Heavenly Blue

A trellis, arbor, or doorway covered with this vine is one of the most beautiful sights imaginable. Bright sky blue flowers, almost as big as saucers, are freely borne on the rapidly climbing vines. The vine is late flowering and the seed should be started in pots indoors. **Pkt. 10c; ¼ oz. 35c.**

### 2405 Ipomea Double Rose Marie

A beautiful new addition to the annual climbing vines. This new Ipomea is vigorous and rapid growing, producing beautiful double flowers of a delightful shade of deep rose. Rose Marie is early and free flowering and promises to become extremely popular. **Pkt. 10c; ¼ oz. 30c.**

### 2397 Japanese Hop Vine

*Humulus*. A beautiful rapid climbing vine for verandas, arbors, or screens. Foliage mottled green and yellow. Once planted the seed will come up each spring. **Pkt. 10c; ¼ oz. 25c.**

### 2416 Maurandia Vine

A beautiful slender growing climber, which blooms first season from seed started early. In the South it is hardy but in the North, use as an annual or take up and transfer to the house, where it will be very pretty. A fine variety for window boxes or hanging baskets. The foliage is pretty and the flowers tube shaped in mixed colors, purple, blue, white, rose. **Pkt. 10c.**

### 2418 Mina Lobata

A very pretty climber or luxuriant growth. Foliage is rich green, leaves heart shaped, large and deeply lobed. Flowers are borne in sprays and are rich scarlet when in bud turning to an orange color as they mature. A rapid grower quickly covering a trellis. **Pkt. 10c; ¼ oz. 35c.**

### 2419 Moonflower

Large dense foliage and rapid grower, climbing 20 to 30 feet. Immense pure white flowers often 5 to 6 inches in diameter, open in the evening and on cloudy days. A very rapid covering can be obtained with the Moonflower. **Pkt. 10c; ¼ oz. 20c.**

### 2392 Ornamental Gourds

Very novel and interesting annual climber with ornamental foliage, and singular fruits of many shapes and colors that are always a delight to the children. When ripe shells can be hollowed out and dried, and are useful. Many varieties mixed. **Pkt. 10c; oz. 20c.**

### 2368 Scarlet Runner Bean

This ornamental grows 8 to 10 ft. high, and bears sprays of bright red pea-like flowers, which are followed by pods of edible beans. Beans when ripe are dark red blotched with purple. **Pkt. 5c; oz. 15c.**

## Four Excellent Morning Glories

**2421 Common Tall** Very easily grown and should be included in every garden. They climb rapidly, bloom freely all summer and will thrive in nearly any location. Make an excellent screen on a trellis or fence. A mixture of many colors. **Pkt. 10c; oz. 20c.**

**2422 Imperial Japanese** Without doubt the handsomest of all Morning Glories. They quickly cover a large area, and bloom profusely. Foliage very desirable and interesting on account of its varied forms and good color. Blooms immense and in many colors from white to dark purple, solid colors, striped, flaked and spotted. **Pkt. 10c; oz. 25c.**

**2423 New Giant** This is a recent introduction from Japan, with immense flowers in a splendid variety of bright colors. Flowers are twice the size of the common morning glories. **Pkt. 10c; ¼ oz. 20; oz. 50c.**

**2424 Rochester Blue** A very pretty quick growing variety with beautiful flowers 4 to 5 inches across, deep violet blue in the throat blending to an azure blue and margined with a broad white band at the edges. One of the prettiest varieties. **Pkt. 10c; ¼ oz. 20c.**

**2426 Morning Glory Collection**  
1 pkt. each of the above 4 varieties for 25c.

Moon Flower

## These Hardy Vines Can Be Grown From Seed

### 2362 Allegheny Vine

*Mountain Fringe Adlumia*. A very graceful climber with fine feathery foliage like Maiden Hair Fern. The plant is really a biennial but reseeds itself. It likes a shaded sheltered situation, and moist soil. The flowers are numerous, in form like the Bleeding Heart and in colors—white and purple. About 15 ft. high. **Pkt. 10c; ½ oz. 30c.**

### 2364 Ampelopsis Veitchii

*Boston Ivy*. The best vine to grow on stone or brick walls, because it adheres to the surface so closely. During the summer the leaves are rich green and form a dense mat overlapping themselves. After fall frosts the leaves change to bright tints of scarlets, orange and yellow. **Pkt. 10c; ¼ oz. 20c.**

### 2413 Kenilworth Ivy

*Linnaria Cymbalaria*. A trailing vine, free flowering and very nice for baskets, window boxes or rockeries. The flowers are borne throughout the summer and are of dainty lavender and purple. Vines 3 to 6 ft. **Pkt. 10c; ½ oz. 40c.**

### 2410 Japanese Kudzu Vine

*Pueraria*, "Jack-and-the-Bean-Stalk." The fastest growing hardy climbing vine in existence. Often growing 8 to 10 ft. the first year from seed and later sometimes as much as 50 ft. in a single season. Perfectly hardy everywhere. The foliage is dense, making good shade. The flowers are in small racemes of rosy purple, borne in August. **Pkt. 10c, ¼ oz. 20c.**

### 2498 Collection Hardy Vines

1 pkt. each 4 varieties 30c.

Ampelopsis Veitchii

Choice Varieties of Hardy Vine Roots Are Listed on Page 75.

Coreopsis (above) Campanula

The term Hardy Perennial is used to distinguish that class of plants whose life cycle is not completed within one or two years, but grow year after year, increasing in beauty and size and are hardy enough to withstand the severe weather of the winters. Great Horticulturists and Plant Breeders in many parts of the world have spent their lives developing and improving many varieties of these lovely flowers. Not until our trial grounds have proven that we are giving you something that will benefit your garden, do we offer you a new variety or strain. The Perennial Seeds we offer to you on the following pages will please you and will make your garden a thing of beauty for many years.

## Perennials from Seeds

(See Roots on pages 67-71)

The simplest and most commonly used method of growing Perennial plants is by making a small seed bed right in the corner of your garden.

Early in May, select a rich light soil, raise the bed above the surrounding ground by slightly trenching

around it, thus insuring drainage.

Work the soil fine, sow the seed in rows 2 inches apart, cover lightly. Shade the soil by covering the bed with paper or burlap, remove it when plants appear. Never let the bed become dry.

When plants have three leaves, transplant to three inches apart. Let them grow again until large enough to place in their future homes in the garden. Try a few Perennials each year and eventually have a lovely Perennial Garden.

The letters R. G. after the name means the variety is especially fine for Rock Gardens.

### Achillea, Milfoil

**2505 THE PEARL. Ptarmica Double.** If sown early Achillea will bloom the first season. When established it gives you quantities of fully double pure white flowers like little snowballs, all season from spring until fall. Fine for cutting. **2 ft. Pkt. 10c; 1/8 oz. 30c.**

**2506 AGERATUM YELLOW. R. G.** Yellow, sweet scented flowers and Ageratum-like leaves. **1 1/2 to 2 ft. Pkt. 10c; 1/8 oz. 30c.**

**2507 MILLEFOLIUM ROSEA.** Rosy red flowers in dense heads and finely cut, deep green foliage. Does well even in adverse conditions, blooming fully in June and to some extent for balance of Summer. **1 1/2 to 2 ft. Pkt. 10c; 1/8 oz. 35c.**

**2508 TOMENTOSA YELLOW. R. G.** A dwarf variety growing 6 to 8 inches tall, with mats of fern-like foliage and umbels of golden yellow. Bloom July to September. **Pkt. 15c; 1/8 oz. 50c.**

Achillea

Alyssum Saxatile

### Aconitum, Monkshood

Carry tall spikes of hooded flowers, valuable for cutting and garden display. Thrive best in rich moist soil in partial shade. The seed is slow to germinate.

**2510 NAPELLUS DARK BLUE.** Flowers of rich deep blue produced July and August. **4 to 5 ft. Pkt. 10c; 1/8 oz. 30c.**

**2512 WILSONI.** Producing its violet-blue flower in September. Strong grower and very hardy. **5 to 6 ft. Pkt. 15c; 1/8 oz. 45c.**

### 2516 Adonis Vernalis

These bright yellow flowers like large Buttercups are out in April and May. The plants grow 15 to 18 inches tall, and carry attractive fern-like foliage. After blooming the plants die down to the ground. Best to sow seed in summer or early fall. **Pkt. 10c; 1/8 oz. 30c.**

Agrostemma

### Agrostemma, Mullein Pink

**2521 CORONARIA, ROSE OF HEAVEN, Atrosanguinea. R. G.** Has brilliant blood red flowers like small single pinks, open from June to August. Early sown seed will bloom the first year. A fine cutting flower, and a clump in the border is very showy. **2 ft. Pkt. 5c; 1/4 oz. 20c.**

### Anchusa, Bugloss

**2533 ITALICA GRANDIFLORA.** Dropinore. Lovely deep blue flowers which are trumpet shaped and borne freely from May until mid July. You can plant in partial shade. **3 to 4 ft. Pkt. 5c; 1/4 oz. 25c.**

### Anemone, Windflower

**2541 CORONARIA, ST. BRIGID. R. G.** The Anemones are among the prettiest of perennials and the St. Brigid strain with large, double and semi-double flowers, with their wide color range are called the best of all. The flowers are 1 to 1 1/2 inches across. Flowering in May and June. **1 ft. Pkt. 10c; 1/8 oz. 30c.**

### Aubretia Deltoides

The Aubretias are beautiful low growing spring flowering plants, very valuable in rock gardens or as edgings and borders. Transplant in fall where they are to bloom the following spring.

**2607 LILAC BLUE. R. G.** Charming lilac-blue or lavender blooms on dwarf compact plants. Blooms freely during April and May. **6 inches. Pkt. 15c.**

**2606 LARGE FLOWERED HYBRIDS. R. G.** Plants 6 inches tall producing a wide range of colors. **Pkt. 15c; 1/8 oz. 40c.**

Aconitum Napellus

### Hardy Alyssum

**2528 SAXATILE COMPACTUM. Basket of Gold. R. G.** Well named as the plants are masses of golden yellow flowers in May. Plant and flowers quite similar to annual Alyssum. A fine border plant. **9 to 12 in. tall. Pkt. 10c; 1/4 oz. 30c.**

**2529 ARGENTEUM. R. G.** Pretty yellow flowers and silvery foliage. An excellent rock garden variety of dense growth and blooming all summer. June to August. **12 to 15 in. tall. Pkt. 10c; 1/8 oz. 50c.**

**2530 SERPYLLIFOLIUM. R. G.** A most desirable variety for the rock garden. Producing tiny plants only a few inches high with silver gray foliage and bright yellow flowers. One of the earliest blooming. **Pkt. 15c; 1/8 oz. 40c.**

**2531 ROCK GARDEN SPECIES MIXED. R. G.** A mixture of the rarer dwarf varieties such as Montanum, Rostratum, Corymbosum, etc. Bloom from April to August. **Pkt. 10c.**

### Anthemis, Golden Marguerite

**2548 KELWAYI.** Bright golden yellow, daisy-like flowers on long stems with finely cut foliage. Blooms June to September. **2 ft. Pkt. 10c; 1/4 oz. 25c.**

**2549 MONTANA.** White flowers, very fine blooming, nice for massing in the border. Blooms all summer, one foot high. **Pkt. 15c.**

### Arabis, Rock Cress

**2581 ALPINA. R. G.** These flowers will greet you in April and May, a sheet of pure white fragrant flowers over low carpet-like plants. A fine flower for edging or for covering bare spaces as it will grow in any sunny place. **6 in. tall. Pkt. 10c; 1/4 oz. 25c.**

**2582 ROSEA. R. G.** A lovely variety of Arabis only an inch or two taller than Alpina with flowers of vivid rose. **Pkt. 20c.**

### 2586 Arenaria, Sandwort

**Montana.** A very desirable trailing sort of nearly evergreen foliage forming a dense carpet of green foliage covered with large white flowers in Spring. A fine subject for the rock garden. **Pkt. 15c.**

### Armeria, Sea Thrift

**2591 FORMOSA.** Attractive dwarf plants that will succeed in most any soil, forming evergreen tufts of bright green foliage. Many rose-pink flowers appear in June and July. **2 1/2 in. tall. Pkt. 10c; 1/4 oz. 30c.**

**2592 MARITIMA SPLENDENS. R. G.** A dwarfier variety growing 6 inches high and producing beautiful bright rose flowers in May and June. **Pkt. 15c.**

**2593 LAUCHEANA, DWARF THRIFT. R. G.** Best of the Armerias for Rock Gardens. Grows only 6 inches high with heads of Rosy crimson flowers in July and August. **Pkt. 15c.**

**2594 MAURITANICA.** A new strain of Armeria in clear pink. Flowers measure 2 to 3 inches across on stems 18 to 24 inches tall. Heaviest bloom in June and July, later blooms also. **Pkt. 15c.**

**2601 Asperula, Sweet Woodruff Odorata.** An herb, the leaves used for making beverages, or when dried to lay among linens. Nice for carpeting shady places, growing 6 to 8 inches high. From May to July the plants bear heads of sweet scented snowy-white flowers. **Pkt. 10c; 1/4 oz. 30c.**

The letters "R.G." after a name mean that it is especially good for Rock Gardens.

Dobbie's Imperial Hybrids

- 2555 COERULEA.** The Rocky Mountain Columbine. The beautiful long blue spurred Columbine native of our Western States. Pkt. 10c; 1/8 oz. 30c.
- 2566 CHRYSANTHA YELLOW.** Large canary yellow flowers with long spurs. Blooms from May to August. 3 to 4 ft. Pkt. 15c; 1/8 oz. 35c.
- 2567 RED SPURRED (Jaetschul).** A lovely large flowered yellow with most attractive Peach Red long spurs, an extra good new variety. Pkt. 10c; 1/8 oz. 40c.
- 2571 FINE MIXED.** A lovely mixture of all colors single and double short spurred varieties. Pkt. 10c; 1/4 oz. 30c.

## Asclepias

- 2596 Butterfly Weed** *Tuberosa*. A native plant bearing during July and August very showy umbels of bright orange flowers. Flowers are followed by long curious pods containing white feathery seeds. The opened seed pods may be dried for winter decorations. Easy to grow, but start where plants are to stand as plants have long tap roots and dislike moving. 2 to 2 1/2 ft. Pkt. 15c; 1/8 oz. 40c.

## Asphodeline, Jacob's Rod

- 2600 LUTEA.** Stately plants 3 to 4 feet tall, with beautiful foliage, producing large spikes of golden yellow fragrant flowers in June and July. A very striking and attractive plant for the perennial border. Pkt. 10c; 1/8 oz. 30c.

## Hardy Asters

Michaelmas  
Daisy

- 2602 Wartburg Star, Subcoeruleus.** A spring flowering aster of bright lavender-blue with yellow centers. Plants 2 to 2 1/2 feet high, flowers 3 to 3 1/2 inches across. Blooms May and June. Pkt. 20c.
- 2605 SUBCOERULEUS BLUE, R. G.** A distinct variety bearing daisy-like azure blue flowers with golden centers. Flowers often 2 1/2 to 3 inches across on long slender stems well above the foliage. Blooms during June and July. 15 inches. Pkt. 10c; 1/8 oz. 25c.
- 2603 LARGE FLOWERED MIXED.** The hardy Asters are among the best of the late summer and fall flowering plants. They do much to lighten up the perennial and shrub borders, with their graceful masses of bright flowers. Excellent for cutting. Pkt. 10c; 1/8 oz. 30c.
- 2604 ALPINUS MIXED, R. G.** Excellent species for rock gardens, growing 12 to 15 inches high and bearing light airy flowers of rose, lavender, and blue shades. Contains many of the early May and June flowering varieties. Pkt. 15c; 1/8 oz. 35c.

## 2613 Baptisia, Wild Indigo

- Australis*. This is a good blue flower for June and July. The plants reach up 2 to 3 ft. high, carrying racemes of pretty pea-shaped indigo blue flowers. Pkt. 10c; 1/8 oz. 30c.

## 2626 Bocconia, Plume Poppy

- Cordata Japonica*. Great handsome plants 5 to 8 ft. tall with attractive foliage and large plumes of small pinkish-white flowers. A mass of color in July. Fine as a background. Pkt. 10c; 1/4 oz. 20c.

## Hardy Candytuft, Iberis

- 2701 Sempervirens** *R. G.* One of the prettiest of the hardy low border plants. In April and May the low compact plants are covered with white flowers, resembling the annual Candytuft. Excellent for rock garden, naturalizing, or as a border to taller plants. It does well in sun or shade and on practically all soils. The foliage is evergreen. 8 inches tall. Pkt. 10c; 1/8 oz. 35c.

Hardy Candytuft

- 2702 Gibraltarica** *R. G.* A lilac white flowering variety, blooming in April and May. 10 to 12 inches high. Pkt. 10c; 1/8 oz. 25c.

## 2731 Cerastium Snow in Summer

- Tomentosum*. The foliage is a pretty silvery white; the stems rather creeping, loaded with small single snow-white flowers in May and early June. Ideal for a ground cover. 4 to 6 in. tall. Pkt. 10c; 1/8 oz. 35c.

# Aquilegias or Columbines

You are all familiar with these graceful beauties which bloom in spring and early summer. They are excellent for cutting or massing in clumps in the border. Will succeed in partial shade. 2 1/2 to 3 ft.

## 2556 Templin-Bradley's Long Spurred Hybrids

See Color Plate on Page 51. A selection of the finest long spurred Columbines including the famous strain known as Mrs. Scott Elliotts, which has received many awards wherever exhibited. Many rare and pleasing color shades and combinations. Pkt. 15c; 1/8 oz. 25c; 1/4 oz. 45c.

**2565 DOBBIE'S IMPERIAL HYBRIDS.** A very fine strain of English origin, sure to charm you with the excellence of the color assortment, of the long spurred beauties. Pkt. 20c; 1/8 oz. 60c.

**2564 Crimson Star** A new long-spurred variety having deep blood-crimson sepals and spurs and white petals, a very delightful and attractive color effect. Plants are erect and vigorous, 2 1/2 feet tall and very free flowering. Pkt. 25c.

## Long Spurred Hybrids

Separate Colors

- 2557 BLUE SHADES.** Very beautiful.
- 2558 ORANGE and SCARLET.** Brilliant.
- 2559 PINK SHADES.** Very delicate.
- 2560 ROSE QUEEN.** Rich darker pink.
- 2561 SNOW QUEEN.** Very fine pure white.
- Price any above Pkt. 15c; 1/8 oz. 60c.

## Rock Garden Varieties

- 2569 AQUILEGIA ALPINA BLUE, R. G.** A dwarf variety of much value and charm. Plants grow from 12 to 18 inches tall quite compact and branching. Flowers of beautiful clear blue, are freely produced and are unusually fine for cutting. Pkt. 10c; 1/8 oz. 30c.

**2570 AQUILEGIA COMPACTA**

**ERECTA EDELWEISS, R. G.** Beautiful snow-white blooms borne in profusion on neat compact plants. An excellent variety both for the garden and for use as a cut flower variety. Pkt. 15c; 1/8 oz. 50c.

**2573 FLABELLATA NANA, Dwarf White, R. G.** A very early flowering variety, growing one foot high. Pure white flowers. Pkt. 25c.

Aquilegia, Long Spurred Hybrids

## Bellis, Double English Daisy

The double, ball-shaped flowers of white, pink, rose and red show their faces in spring—April to early June. Perhaps the most popular for low edgings in cool shady spots. For best results raise new plants from seed each year. Good rock garden subjects.

**2617 MONSTROSA DOUBLE MIXED.** Large flowered strain, All shades. Pkt. 10c; 1/8 oz. 40c.

Hardy Aster

## Boltonia, False Camomile

The *Boltonias* grow 6 to 8 feet tall and are a showy perennial, excellent for a tall border or for a background planting. They bear great quantities of star or daisy-like flowers in August and September. Easy to grow.

**2632 LATISQUAMA.** Lavender-pink. Pkt. 10c; 1/8 oz. 25c.

## 2634 Calamintha

*Alpina, R. G.* A splendid dwarf rock plant about 6 inches high with small blue flowers in June, and spreading tufts of foliage. Equally good for the front of the border. 6 in. tall. Pkt. 20c.

## Callirhoe, Poppy-Mallow

**2635 INVOLUCRATA, R. G.** A trailing perennial with bright attractive foliage and bearing saucer-shaped rosy crimson flowers almost all summer and fall. Very useful in the rockery where it enjoys creeping about among the rocks. Pkt. 15c.

## Hardy Centaureas

The hardy *Centaureas* are showy perennials with large thistle-like flowers on stems 2 1/2 ft. tall. They are easy to grow and are not particular as to soil.

**2715 MONTANA BLUE.** Large flat flowers 2 inches in diameter, called Perennial Cornflower or Blue Bottle. June to September. 2 ft. Pkt. 10c; 1/4 oz. 30c.

**2719 MACROCEPHALA.** Has very large, globular, bright yellow flowers often 3 or more inches in diameter. One of the most showy *Centaureas*, in bloom during July and August. 4 ft. Pkt. 10c; 1/4 oz. 35c.

**2720 DEALBATA Persian Centaurea.** Bears striking rose pink flowers. July to September. Graceful silvery foliage. 1 1/2-2 ft. Pkt. 10c; 1/8 oz. 30c.

## Chelone Turtlehead Shellflower

**2736 BARBATUS TORREYI.** This variety has slender, tube-like, deep scarlet red flowers on graceful branching stems. Foliage rich dark green and very attractive. July and August. 2 feet. Pkt. 10c; 1/4 oz. 25c.

**2737 HYBRIDA PRAECOX.** An early flowering variety which produces large flowers in great profusion and in a great variety of rich color shades of pink, rose and red. The flowers are greatly desired for cutting because of their beauty and gracefulness. 3 to 3 1/2 ft. Pkt. 10c; 1/4 oz. 30c. See also Penstemons (Chelone) Color page 51.

## Cheiranthus

See Wallflower, page 41

## Crucianella, Crosswort

**2764 STYLOSA, R. G.** Trailing plant producing masses of elegant bright green foliage, making an unusually fine rock garden subject. Flowers are rosy-red and produced in clustered heads above the rich foliage. Blooms June to September. Pkt. 10c; 1/4 oz. 25c.

Hardy Centaurea Montana

10. Mme. Butterfly. Each 65c.

## 8504 **BLAZE** NEW HARDY CLIMBING ROSE

For vividness of color, frequency of blooming periods, free-flowering and all around, "I-Must-Have-One-ness," no hardy climbing rose can approach BLAZE.

To the best of our knowledge, it has outsold any other rose ever offered in its first three years on the market.

We feel fortunate in being able to offer it at a reduced

price this year for the first time.

BLAZE is a real Rose Show for any arbor, trellis, porch or fence that will support a good Hardy Climbing Rose.

This pleasing new Climbing Rose,

8504 Blaze Postpaid for only \$1.50

See page 77

### 8355 My Favorite Roses

If you need just a few roses, this MY FAVORITE set of 5 of the more modern colors will give you real pleasure and plenty of colorful flowers.

5 Above Roses Value \$3.25 Only \$ 2.75

See page 76

A Mighty Fine Lawn established by the use of Templin-Bradley's Seed. You can have such a lawn if you prepare the soil well and use Templin-Bradley's Lawn Mixtures; correctly blended by experts and conveniently packed for you. For more lawn seed information and complete prices see page 35.

### Watch-Em-Grow Plant Food Grows Healthy Plants

Watch-em-Grow is Easy to Use. Watch-em-Grow is a clean, odorless powder that readily dissolves in water. It can be easily applied to plants just as you would water them. Complete instructions are printed on each can, both for house plants and for all other uses.

4300 Big 8-Ounce Can for only 50c.

### Antirrhinum Maximum Giant Snapdragons

Snapdragons are among the most valuable of all flowers for garden display or for cutting. The Maximum type includes the tall growing varieties with extra large spike and flower development, and pictured here are six of the best colors.

1. Cerberus. Crimson with white tube.
2. Canary Bird, bright canary yellow.
3. The Rose, most popular rose pink.
4. Old Gold, Gold and bronze shades.
5. Apple Blossom, light pink and white.
6. Indian Summer or Copper King, Very rich.

Prices: any above varieties. Pkt. 10c; 1/8 oz. 35c.

Collection No. 59. One pkt. each of the above six color plate Antirrhinums, regular value 60c; for 50c postpaid.

41 Antirrhinum Maximum Mixed Colors contains a splendid assortment of all available shades. Pkt. 10c; 1/8 oz. 30c.

#### Other Types of Antirrhinums

On page 11 of this catalog you will find complete description of all types and colors of Antirrhinums that we have to offer.

Antirrhinum Maximum  
Giant Snapdragon

See page 11

The First Step to a Successful Garden is the Selection of Good Seed

Giant Dahlia Zinnias See page 28

### Dahlia Flowered Zinnias

The largest and most gorgeous of all Zinnias are included in the Dahlia Flowered Type. Six of the most popular and distinct colors we picture in color here.

1. Canary Bird, Bright yellow.
2. Lavender Dream, Lavender and purple.
3. Polar Bear, best white variety.
4. Oriole, rich orange and gold.
5. Exquisite, most popular rose pink.
6. Crimson Monarch, best deep red.

Prices: Any of the above varieties Pkt. 10c; 1/8 oz. 35c.

Collection No. 2219. One pkt. each of the above 6 color plate Dahlia Zinnias, regular value 60c; for 50c; postpaid.

2201 Gold Medal Dahlia Zinnias Mixed. An extra fine mixture of the above and many other shades. Pkt. 10c; 1/8 oz. 30c.

#### Quality Zinnia Seed

We are offering you the finest Zinnia seed obtainable. Seed carefully grown so that it will produce beautiful, true to type blooms. See page 28.

This Catalog Contains Hundreds of Good Varieties of Seeds, plenty at 5c per pkt.

# Lawn Seeds To Beautify Your Home Grounds

Your lawn is the foundation for all of your other plantings. The trees, shrubs and flowers that you have planted around your home cannot produce the perfect picture of beauty that you desire without the foreground of well-kept lawn.

A good lawn is not difficult to produce.

## Templin - Bradley's Fine Lawn Mixtures

Any one variety of grass alone will not make a completely satisfactory lawn, as each variety has its peculiar advantage. Thus when several varieties are blended in the proper proportions the advantages of all are combined in your lawn. We have spent years of experimental work in securing the proper varieties and proportions to use in each mixture for very best results. **One pound of our lawn mixtures will sow 200 to 250 sq. ft. of new lawn.** For filling in an old lawn use one-half that amount.

Full directions for planting and the care of your lawn will be sent with every 5 lbs. or larger package of seed or will be sent free on request.

### 4201 Ideal, Our Best Regular Mixture

For a fine permanent lawn. It is a carefully blended mixture of the following varieties of hardy grasses best suited to growing a compact durable evergreen sod; Kentucky Blue Grass, Red Top, Fescues, White Clover and Bent Grass, a combination that insures a fine velvety lawn that will withstand the heat of summer and the cold of winter. **Lb. 55c; 3 lbs. \$1.60; 5 lbs. \$2.50; 10 lbs. \$4.80; 25 lbs. \$11.25, delivered.**

### 4202 Shady Nook Mixture, Best for Shade

A special mixture containing varieties that naturally grow in shaded places. Suitable for sowing under shade trees and in shady corners, where the ordinary mixture will not do. The shady lawn must have special care as well as the right kind of seed. Our Lawn Leaflet explains what is necessary. **1/2 lb. 35c; lb. 60c; 3 lbs. \$1.75; 5 lbs. \$2.75; 10 lbs. \$5.25; 25 lbs. \$12.50, delivered.**

**4203 Quick Growth Mixture** Makes a good lawn quickly. While not composed of as fine or expensive grasses as Ideal, nevertheless Quick Growth contains enough of these grasses to insure a good lawn after the biennial varieties have run out. Contains white clover. Compares favorably with many of the "best" mixtures on the market. **Lb. 45c; 3 lbs. \$1.30; 5 lbs. \$2.25; 10 lbs. \$4.00; 25 lbs. \$9.50, delivered.**

**4204 Superfine Bent or "Golf Turf" Mixture** We highly recommend the use of this mixture as it is made up of the best strains of fine leaved grasses suitable for the "Putting Green" or Lawn. It contains a liberal proportion of Bent Grass as well as other varieties to secure a fine velvety sod throughout the season from early spring until late fall. **Lb. 90c; 3 lbs. \$2.60; 5 lbs. \$4.25; 10 lbs. \$8.25, delivered.**

**4235 Pure White Clover** Many prefer to add more Clover when sowing a new lawn or for filling in an old lawn. White Clover flourishes well in almost any soil. **Best Quality. 1/4 lb. 25c; 1/2 lb. 40c; lb. 70c; 5 lbs. \$3.25; 10 lbs. \$6.00, delivered.**

Make Your Lawn as Beautiful as This Golf Green

## Separate Grasses for Special Purposes

Prices on Separate Grasses are subject to change should market conditions warrant. Write for quantity prices.

**4222 SUPERFINE KENTUCKY BLUE GRASS.** One of the best fine leaved grasses, a true perennial that improves from year to year and lasts indefinitely. Leaf blades very narrow and pointed and of a deep vivid green. It is one of the very best grasses. **Superfine Quality, weight extra heavy. Lb. 60c; 5 lbs. \$2.75; 10 lbs. \$5.00 delivered.**

**4223 SUPERFINE RED TOP.** A long lasting true perennial grass with a creeping habit of growth. Leaf blades are narrow and become more narrow and fine with cutting of turf. Very hardy and adapts itself to nearly any soil, will do well on wet soil and is not averse to any acid soil. **Superfine Quality. Lb. 45c; 5 lbs. \$2.10; 10 lbs. \$4.00, delivered.**

**4227 Poa Trivialis** Rough-Stalked Meadow Grass. One of the few grasses that will succeed in the shade and maintain a good turf under this condition. This grass is a quick grower and preserves its bright green color from early spring until late autumn. An excellent grass to fill out thin spots under trees, etc. **Lb. 70c; 5 lbs. \$3.10; 10 lbs. \$6.00, delivered.**

**4224 German Bent Grass** This is produced and imported from Europe as German Mixed Bent and is a natural mixture of several varieties of this type of grass. Contains a certain percentage of the true carpet or creeping Bent, the balance being other closely related varieties. **Ask for prices.**

**4228 Astoria Bent** A very fine variety of Bent grass that is being produced in Oregon. This is perhaps the best variety for those who wish to install a Bent lawn by seeding. Astoria Bent produces a lawn of very fine texture, good color and uniform growth, preserving its quality and fine appearance without excessive maintenance. Growth is dwarf and compact, spreading by runners close to the ground. We offer a very select strain. **Lb. \$1.35; 5 lbs. \$6.50; 10 lbs. \$12.50, delivered.**

**4229 Seaside Bent** (Coos County Strain). A close heavy turfing grass especially well fitted for putting greens or fine lawns. It is quick growing, spreading by runners or stolons which quickly cover the ground and maintain a thick turf of fine, even texture. **Lb. \$1.50; 5 lbs. \$7.25; 10 lbs. \$14.00, delivered.**

**4230 Rhode Island Bent** A native American variety that produces a thick fine turf of good color and texture. Quite hardy, enjoying plenty of moisture and tolerant of rather poor soils. **The seed is scarce. Ask for prices.**

### About Bent Grass Lawns

We will be glad to send on your request our special leaflet on the making and maintenance of Bent Lawns.

## TEMLEY'S Watch-em-Grow PLANT FOOD

Will Solve Your House Plant Problems  
You Feed Your Pets--Don't Starve Your Plants  
Easy To Apply and the Results Will Please You

Potted plants and ferns soon use up the food in the soil given them when potting, and unless more food is supplied to them when this is exhausted, they merely stand still or gradually decline.

With small applications of Watch-em-Grow at regular intervals, applied according to prescribed directions, these plants will continue luxuriant, healthy, new growth and produce their beautiful bloom regularly as nature intended.

Watch-em-Grow is a clean odorless powder that quickly dissolves in water and is applied just as you water the plants. No trouble, no bother and no mess.

When potting plants a teaspoonful of Watch-em-Grow mixed with a gallon of soil will supply sufficient food for the plants for six or eight months.

On rose bushes or other choice plants in the garden Watch-em-Grow is extremely beneficial.

### The Proof in the Photograph

The plant on the left was started with regular potting soil and some fertilizer. The plant on the right in addition was treated with a small amount of "Watch-em-Grow." These two Cineraria plants were started at the same time under exactly the same conditions, with the single exception of the "Watch-em-Grow." Looks almost too good, doesn't it?

8 oz. Can, 50c.

The Plant on Right Had Watch-em-Grow

See Watch-em-Grow in Color, Page 34

## Peat Moss

### Improved Granulated

An organic material that contributes humus content to the soil. It assures moisture to the soil, is capable of absorbing 12 times its weight in moisture. Peat Moss lightens heavy clay soil, binds sandy soil, is free from weed seeds or fungus growth of any kind. It is clean, odorless and pleasant to work with. Make fine winter mulch, is fine medium for packing and storing dahlias and other tubers, roots and fruit. Economical to use. One large bale will spread 300 sq. ft. Splendid for lawn top dressing.

### Peat Moss Prices

F. O. B. Cleveland by Freight or Express  
Small Bale, 2 bushels. 18 lbs. Ea. \$1.25.  
Large Bale, 20 bushels. 180 lbs. Ea. \$1.00.

A soft pliable all-leather glove that gives almost bare handed freedom with complete protection from dirt, scratches, bruises and stains. For use around the greenhouse, garden, yard, garage or furnace. Outwear 6 to 8 pair of fabric gloves. Be sure and state size. **Ladies—small, medium, large. Mens—small, medium, large. Price per pair 75c; 2 pair \$1.40; postpaid.**

It requires several car loads of Lawn Seed Annually to supply our customers.

Campanula Medium

## Popular Campanulas

There are few groups of plants which possess such beauty as do the Campanulas. Some are perennials, other biennials. They like sunny situations and the seed may be sown any time from spring until August. Sow seed of the biennials each season. To prolong blooming season, cut off flowers as they fade. Give protection over winter.

### Canterbury Bells

#### Campanula Medium

Very showy plants growing 2 to 3 ft. high and bearing quantities of large bell shaped flowers, popularly known as "Canterbury Bells."

See Color Plate on Page 51

**2637 Dark Blue** **2639 Pink**  
Price either color: Pkt. 10c;  $\frac{1}{4}$  oz. 25c.

**2636 Medium Single Mixed.** Pkt. 10c;  
 $\frac{1}{4}$  oz. 25c.

**2641 Medium Double Mixed.** Pkt. 10c;  
 $\frac{1}{4}$  oz. 30c.

### Cup and Saucer

#### Campanula Calycanthema

The flowers are tubular bell-shaped with a saucer-like petal fringed at the base, giving the appearance of a cup and saucer. They bloom in June and early July on plants  $2\frac{1}{2}$  ft. tall. Biennials blooming the second year from seed sown in June.

**2652 Dark Blue** **2654 Pink**  
Price either color: Pkt. 10c;  $\frac{1}{8}$  oz. 30c.  
**2651 Campanula Calycanthema Mixed.**  
Pkt. 10c;  $\frac{1}{4}$  oz. 35c.

Campanula Rotundifolia Olymplea

**2660 TEMPLIN-BRADLEY'S PRIZE MIXTURE.** A splendid mixture of Medium and Calycanthema, both singles and doubles in all available shades. Pkt. 10c;  $\frac{1}{8}$  oz. 25c.

See Campanula  
Color Plate Page 51

### Campanula Persicifolia, Peach Bells

One of the finest Campanulas with large handsome bell-shaped flowers of blue or white. A delightful addition to the garden. 2 ft. June and July.

**2666 Campanula Persicifolia Mixed.** Pkt. 15c;  
 $\frac{1}{8}$  oz. 50c.

## Hardy Carnations

See Color Plate on Page 51

Every garden should have room for some of these fragrant beauties which rival in charm, the greenhouse sorts. They like some protection over winter if left in the open, or winter them in the cold frames. You may also pot them for indoor bloom.

**2708 CHABAUDS.** Produces large double and semi-double flowers on stems 16 to 20 inches long and in a great variety of colors. A tender Perennial which for outdoor growing in northern states, must be treated as an annual. An excellent greenhouse strain. Pkt. 10c;  $\frac{1}{8}$  oz. 35c.

**2709 EARLIEST DWARF VIENNA.** An early strain of dwarf growth, 12 to 15 inches high. The color range is magnificent, including the lightest pink, yellows, rich reds and purples. Flowers are large and a great proportion double. Pkt. 10c;  $\frac{1}{8}$  oz. 35c.

Carnation, Chabauds

**2711 WHITE GOLD.** A new variety of soft yellow shade. It produces a large percentage of full size, perfectly double flowers. Pkt. 15c;  $\frac{1}{8}$  oz. 40c.

Grenadin in Separate Colors

**2703 HARDY ROSE-PINK SHADES**

**2705 SCARLET**

**2710 GRENADIN MIXED COLORS**  
Price on any above; Pkt. 10c;  $\frac{1}{8}$  oz. 35c.

**2704 HARDY YELLOW.** Pkt. 15c;  $\frac{1}{8}$  oz. 60c.

### Carnation Grenadin

A valuable class of Carnations blooming the first year from seed sown early. Large double flowers, with good stems and rich colors. Grow 18 to 20 inches tall.

Bleeding Heart, Dicentra

Double Coreopsis

## Hardy Chrysanthemums

### Shasta Daisy, Leucanthemum

See Shasta Daisy, Page 40

### Chrysanthemum Japonica

#### JAPANESE MOUNTAIN OR CASCADE CHRYSANTHEMUMS

**2747 JAPONICA SINGLE AND DOUBLE MIXED.** White, yellow, bronze, pink, rose, red and crimson. Single, semi-double and double flowers 2 to  $2\frac{1}{2}$  inches across on drooping stems. Fine for hanging baskets as well as for garden display. Not absolutely hardy so are best treated as annuals. Pkt. 10c;  $\frac{1}{8}$  oz. 25c.

## Doronicum, Leopardbane

See Color Plate, Page 51

Very early blooming perennial producing large yellow daisy-like flowers on long wiry stems. While the Doronicums begin to bloom with the earliest bloomers in the spring, they continue to produce their flowers until mid-autumn.

**2831 CAUCASICUM.** A semi-dwarf variety growing  $1\frac{1}{2}$  to 2 feet tall and producing its large yellow flowers in profusion. See color plate on page 51. Pkt. 20c.

Doronicum

### Campanula Carpatica, Harebells

A dwarf Campanula forming compact clumps only 8 to 10 inches high. The flowers are dainty, cup-shaped,  $1\frac{1}{2}$  inches across and evident from June to October.

**2682 Blue.** **2683 White.**  
Either color. Pkt. 10c;  $\frac{1}{4}$  oz. 35c.

**2681 Campanula Carpatica Mixed.** Pkt. 10c;  
 $\frac{1}{4}$  oz. 35c.

### Coreopsis Lanceolata Tickseed

Large golden yellow fringed flowers on long wiry stems fine for cutting, and blooming practically all summer. One of the showiest and best of all perennials, and you should plant several masses of them in your border. They grow about 2 ft. high.

**2754 GRANDIFLORA SINGLE.** Large single yellow flowers fine for cutting and a fine addition to the garden. Pkt. 10c;  $\frac{1}{4}$  oz. 15c.

**2755 GRANDIFLORA DOUBLE Improved.** Similar to Grandiflora single, except that each flower has double row of petals. Pkt. 15c;  $\frac{1}{4}$  oz. 35c.

**2756 Mayfield Giant** A splendid new strain growing 3 to 3 $\frac{1}{2}$  ft. tall and bearing masses of extra large golden yellow flowers on long firm stems. Superior to original semi-double. See Color Plate on Page 51. Pkt. 10c;  $\frac{1}{4}$  oz. 30c.

### Corydalis CHINESE BLEEDING HEARTS

**2761 CHEILANTHIFOLIA.** A dainty little plant related to the Bleeding Heart, with yellow flowers in terminal racemes and with fernlike foliage. Plants 10 to 12 inches high, growing easily in rich, well drained soil. Does well in shade. Blooms April to June. Pkt. 25c.

### Dicentra DIELYTRA BLEEDING HEART

See Color Plate on Page 83

**OLD FAVORITES,** with their long graceful racemes of beautiful heart shaped rose and white flowers. Excellent for the perennial border and do well in the shade.

**2812 SPECTABILIS.** These beautiful flowers are at their best in May and June. Hardy and easy to grow. Bloom from April through June.  $2\frac{1}{2}$  to 3 feet tall. Pkt. 20c.

**2813 EXIMEA—Plumy Bleeding Heart.** The flowers are rosy-pink and bloom from June to September. Very lovely foliage, much dwarfer than Spectabilis, growing only 10 to 15 inches tall. Pkt. 20c.

### 2810 Dictamnus, Gas Plant

**FRAXINELLA.** Forming bushy plants bearing long showy spikes of flowers which are suitable for cutting. The foliage is fragrant. The seeds are slow to germinate, but once established the plant is practically permanent. The pink and white flowers are borne in June and July. In still hot weather the leaves give off a lemon scented gas which will ignite in a puff of flame from a match. 3 ft. Pkt. 10c;  $\frac{1}{8}$  oz. 35c.

### 2826 Dodecatheon, Shooting Star

**Clevelandi.** R. G. Sometimes called the American cowslip, bearing umbels of drooping flowers, formed like small cyclamen. Flowers are of a delicate lilac tint and borne from April to June. They like cool moist soil and a shady location. 1 foot. Pkt. 15c.

### Edelweiss, Alpine Snowflower

**2854 LEONTOPODIUM, Alpinum.** R. G. This is the famous Edelweiss of the Swiss Alps. Silvery gray leaves almost flat on the ground. Stalk, spring up from the center, bearing 3 to 4 starlike flowers. Plants easy to grow in any good sandy garden soil. 4 in. tall. Pkt. 20c.

### Euphorbia Flowering Spurge

**2879 COROLLATA.** A branching plant 2 feet tall, with fine stems and foliage. Bears loose umbels of pretty white flowers from June to August. Very lovely for cut-flowers by itself or with mixed flowers. Pkt. 15c.

# Delphinium, Hardy Larkspur

Their popularity is growing each year because of the stately magnificence of the flower spikes, and their beautiful shades of coloring. Belladonna, Bellamosa, and Hybrids with good culture grow 3 to 6 ft. tall, bloom in June and July, and if cut back and fertilized after bloom, will give more flowers in late summer or early fall.

## 2775 Templin-Bradley's English Hybrids

### BLACKMORE AND LANGDON'S PRIZE STRAIN DELPHINIUM

This strain is the product of many years of patient hybridizing and selection by one of the outstanding horticulturists of England. It is the best strain seen in Europe's wonderful Delphinium plantings, on a personal trip by Mr. Bradley. The recipient of many gold medals and awards, a real prize strain. The shades of coloring and the size and refinement of the flowers are unexcelled. Pkt. 25c; 1/2 oz. 50c.

## 2774 Hollyhock or Wrexham Strain Delphinium

A distinct new type of Delphinium with massive yet refined spire-like spikes that taper to the tip. The individual florets are very large and closely arranged on the stems. The flowers are in the most beautiful shades of blue, lavender and purple, singles, semi-doubles and doubles. Pkt. 25c; 1/2 oz. 40c; 1/4 oz. 75c.

### WREXHAM TYPES IN SEPARATE SHADES.

We offer this splendid strain this year in separate shades for the discriminating grower.

2776 ART SHADES.

2777 BLUE SHADES.

2778 DARK BLUE SHADES.

Price, any of above shades. Pkt. 25c.

## Separate Shades

2770 BELLADONNA. The most continuous blooming of all, blooming from early June until frost. The clear turquoise-blue flowers are very popular. Pkt. 10c; 1/8 oz. 40c.

2771 BELLADONNA IMPROVED. A very carefully selected strain of the popular Belladonna type giving excellent uniformity of type and color. Pkt. 15c; 1/8 oz. 35c.

2772 BELLAMOSA. Similar to Belladonna in form and habit but with a color of much deeper and richer blue. Price 10c; 1/8 oz. 40c.

## 2773 Gold Medal Hybrids

A good strain at a low price. These hybrids embrace a nice collection of hybrid Delphiniums. The shades range from pale lavender to deep indigo blue, a glorious mixture. Pkt. 10c; 1/8 oz. 30c.

Perennial

Chart on

Page 78

## 2780 Regal Hybrids

A new and outstanding strain of hybrids which we believe is the equal of many of the very high priced strains. Large double flowers of the richest color tones and of the finest flower forms, yet achieved in the Delphiniums.

Plants are vigorous and hardy growing to 6 feet in height. We inspected the field of blooming plants from which this seed was harvested and assure you it was one of the finest displays of Delphiniums we ever saw. If you buy this seed you will certainly have a strain of the finest parentage. Pkt. 15c; 1/8 oz. 45c.

## Dianthus, Hardy Garden Pinks

### Rock Garden Pinks

Spice or  
Clove Pinks

The following varieties of Hardy Pinks are especially well fitted for use in the Rock Garden and they seem to give their best results in such a situation.

2793 CAESSIUS, CHEDDAR PINKS. R. G. A dwarf compact form producing very dense green mats of foliage. The bright rosy-pink fragrant flowers are produced freely in May. 6 in. tall. Pkt. 10c; 1/8 oz. 30c.

2794 DELTOIDES BRILLIANT. R. G. A delightful small compact plant with narrow leaves producing an abundance of glowing crimson red flowers during May and June. 4 in. tall. Pkt. 10c; 1/8 oz. 35c.

2800 NEGLECTUS, or Glacier Pinks. R. G. Bearing in May and June very attractive cherry red flowers. Splendid for your rockery. 6 in. tall. Pkt. 25c.

2805 GRANITICUS. R. G. Very lovely dwarf variety with deep red flowers 4 to 5 inches across. Blooms May and June. Pkt. 10c; 1/8 oz. 40c.

2799 ROCK GARDEN PINKS MIXED. R. G. A mixture of the species best adapted for rock garden plantings. Suitable for border plantings also of course. Pkt. 10c; 1/8 oz. 40c.

2792 ALLWOODI ALPINUS. R. G. A most excellent hybrid of the Allwoodi type producing diminutive plants useful in rockery. Fine color assortment and free blooming. 9 inches. Pkt. 25c.

Every garden should contain at least a few clumps of these old fashioned fragrant pinks. Excellent for border, blooming in June. 15 to 18 inches tall.

2798 DOUBLE MIXED COLORS. A very fine mixture of all shades. Pkt. 10c; 1/8 oz. 30c.

2796 SEMPERFLORENS (Florist's Perpetual Pinks). R. G. These beauties are almost everblooming and come in a nice variety of colors, in double, semi-double and single blooms. 15 in. tall. Pkt. 10c; 1/4 oz. 30c.

2802 SCOTICUS, DOUBLE SCOTCH MIXED. Large double fringed flowers profusely borne during spring and early summer. Flowers are very fragrant. A very fine color assortment. Pkt. 20c.

2801 HIGHLAND QUEEN. R. G. One of the most brilliant of all Dianthus, bearing an abundance of lustrous scarlet. Blooms over a long period, June to November, so exceptionally good for bedding, borders, and the rock garden. Pkt. 20c.

2791 ALLWOODI MIXED. Large and for the most part fully double, almost like carnations. Splendid clusters of bloom borne in June and throughout the summer, splendid color assortment. 15 inches. Pkt. 25c.

## Digitalis or Foxglove

Foxgloves are biennials, so after blooming cut down and sow more seed each season. Wherever planted Foxgloves give the appearance of dignified beauty. Bloom June and July.

2815 The Shirley It is agreed among experts that this is the finest strain of Digitalis ever introduced. Of the same form as common types but with still longer and larger flower spikes, the flower head often being 3 ft. long, covered with big bell-shaped flowers. The color assortment is rich indeed, from white and shell-pink to deepest rose, many dotted with crimson or chocolate. 5 to 6 feet tall. Pkt. 10c; 1/4 oz. 25c.

2816 Good Mixed A good mixture of white, pink, rose and mottled colors. Pkt. 10c; 1/4 oz. 20c.

2817 Salmon Hybrids (Lutzii). Attractive salmon shades. 4 ft. tall. Pkt. 15c; 1/8 oz. 30c.

## Eupatorium

Hardy  
Ageratum

Dainty little flowers produced in dense heads at the top of the branches. Make adorable cut flowers.

2877 COELESTINUM. Light blue flower heads, bloom during September and October. 3 feet. Pkt. 15c.

Digitalis, Shirley

English Hybrids Delphinium

## Chinese Delphinium, Butterfly Varieties

The Chinese Delphinium or Delphinium Chinensis are perfectly hardy perennials but are sometimes classed as Annuals because if the seed is sown early they will fully develop and bloom the first year. Their flowers are borne as loose sprays rather than in spike form. They are fine for garden display or cutting.

2781 CHINENSIS, BLUE and WHITE 2782 DWARF BLUE BUTTERFLY 2783 CHINENSIS, CAMBRIDGE BLUE. Pkt. 10c. See Also Annuals Page 17.

## 2779 Iceberg THE WHITE DELPHINIUM

A new perennial variety of Delphinium producing lovely white bloom on spikes 18 to 20 inches long and growing 3 to 4 feet tall. Plants are of strong healthy growth and will produce by their second year tall heavy spikes of bloom. Pkt. 25c; 1/8 oz. \$1.00.

2787 YELLOW ZALIL. Yellow Delphiniums are rare and Zalil is worth trying. About 3 ft. tall, with flower formation quite similar to the blue kinds. Seed germinates slowly. Pkt. 15c; 1/8 oz. 60c.

2788 SCARLET CARDINALE. Having bright scarlet flowers, but dwarfier plants than the other strains, about 2 to 2 1/2 ft. tall. Germinates slowly. Pkt. 15c; 1/8 oz. 40c.

## Echinops Globe Thistle

2846 RITRO. Globe shaped bristly flowers of metallic-blue, borne in July and August. Popular for drying for winter bouquets. Grow 2 to 3 feet tall. Pkt. 10c; 1/4 oz. 20c.

## Erinus, Liver-Balsam

2859 ALPINUS R. G. In May and June these little plants with their rosettes of leaves, bear pretty rosy-purple flowers. Fine for planting in the crevices of old walls or between steps or in the Rock Garden. Grow 4 to 6 inches high. Pkt. 15c.

## Erigeron, Fleabane

2856 SPECIOSUS GRANDIFLORUS. Bright purple Aster-like flowers, freely produced all summer. Fine for cut-flowers, desirable for the perennial border. Pkt. 15c; 1/8 oz. 35c.

## Gentiana, Gentian

Beautiful low edging plants that produce their welcome flowers in the spring. They are also among the best plants for rockeries. They like moist shady location and light loam soil, and are rather difficult to establish and once established they should not be disturbed. Use no lime in the soil.

2896 ACAULIS, Blue Gentian. R. G. Best variety of rich gentian blue. 4 in. tall. Pkt. 15c; 1/8 oz. 40c.

## Hedysarum French Honeysuckle

2923 CORONARIUM. Attractive shrubby border plant, bearing in July, racemes of deep red, fragrant flowers. Does best in well drained soil in full sun. Grows 2 feet tall. Pkt. 10c; 1/4 oz. 30c.

## Helleborus

Christmas Rose

2948 NIGER. A delightful perennial with pure white flowers that bloom early, often blooming in the snow and continuing through March. Grows 9 inches high and prefers a location that is partially shaded in the summer. 9 in. tall. Pkt. 15c; 1/4 oz. 30c.

Echinops Ritro

The letters "R. G." after a name mean that it is especially good for Rock Gardens.

## Hardy Gaillardias

Gaillardia Dazzler

Easily grown, very showy, fine for cut-flowers and almost perpetual bloomers, July to November. If sown early, will bloom the first year. 1½ to 3 feet tall.

**2890 BURGUNDY.** Solid maroon except slight tips of yellow. Grandiflora type. Pkt. 20c; ⅓ oz. 35c.

**2891 MAXIMA.** Flowers of solid color in yellows and golds. 2½ to 3 feet tall. Pkt. 10c; ¼ oz. 35c.

**2889 TANGERINE.** Beautiful tangerine orange flowers of good size. Pkt. 15c; ⅓ oz. 30c.

**2887 DAZZLER.** An improved strain with immense flowers of bright, golden yellow with rich maroon center. Pkt. 15c; ⅓ oz. 30c.

**2888 PORTOLA HYBRIDS (In color, page 49).** Extra large flowers, often 3½ inches across. The petals are broad and overlapping. Brilliant scarlet, tipped yellow. 2¼ to 3 feet tall. Pkt. 10c; ⅓ oz. 25c.

**2886 GRANDIFLORA MIXED.** Combinations of yellow and maroon-red. Rich for garden display. Pkt. 10c; ¼ oz. 25c.

## Gypsophila Hardy Baby's Breath

A class of hardy perennial flowers that is almost indispensable to the garden from which cut-flowers are gathered. Gypsophila gives a daintiness to all bouquets.

**2914 PANICULATA SINGLE.** See picture. Immense panicles of white gauze-like flowers. 2 ft. Pkt. 10c; ¼ oz. 25c.

**2915 DOUBLE FLOWERING, "Snow White."** Popular for winter bouquets. Showier than the single. Pkt. 20c; ⅓ oz. 45c.

**2919 PACIFICA.** Tall bushy plants with tiny pink flowers. Blooms after Paniculata so prolongs cutting period. Pkt. 20c; ⅓ oz. 40c.

## Gypsophila for your Rock Garden

**2916 REPENS, Prostrata, R. G.** Grows 6 inches tall, prefers a dry open place. Graceful white flowers. Pkt. 10c; ⅓ oz. 30c.

**2917 REPENS ROSEA.** Pink flowers of dwarf trailing habit. Beautiful for Rock Gardens. Pkt. 15c; ⅓ oz. 30c.

## Heleniums

Heleniums are large, Daisy-like flowers in shades of yellow, bronze and orange with conspicuous centers. Grand for cutting or for garden display.

**2932 AUTUMNALE HYBRIDUM PRAECOX.** Highly developed strain of hybrids producing beautiful shades of yellow, bronze, crimson and brown. 3 feet. Pkt. 15c.

**2933 RIVERTON GEM.** Old gold, suffused with terra-cotta, changing to Wallflower-red. August to October. 3 to 4 feet. Pkt. 15c.

## Helianthemum, Sun Rose

**2936 MUTABILE HYBRIDS, R. G.** An excellent ground cover and rock garden plant for dry sunny slopes and terraces. Tolerates very hot dry soil. A shrubby plant growing 12 inches high with evergreen foliage. Flowers of pale rose, lilac, and white—pretty with their yellow stamens. Blooms June and July. 1 ft. Pkt. 10c; ¼ oz. 35c.

Helianthemum

## Helianthus Hardy Sunflower

**2939 AUGUSTIFOLIUS or Autumn Glory.** Excellent for back ground, clump in the border, with its branches bearing masses of clear golden yellow flowers in October and November after most flowers are past. 5 to 6 ft. Pkt. 10c; ¼ oz. 35c.

## 2954 Hesperis Sweet Rocket

**2954 MATRONALIS MIXED.** One of the old-fashioned hardy perennials that have always remained in favor. A very useful plant for naturalizing among shrubs or planting in the permanent border. Bears multitudes of very fragrant flowers of white violet and purple in loose spikes or heads similar to Phlox. Blooms May and June. 2 to 3 ft. Pkt. 10c; ¼ oz. 20c.

Heuchera

Gypsophila Paniculata

Double Hollyhocks

## Hollyhocks

These stately, majestic, handsomely colored flowers, growing 5 to 7 feet tall are attractive for screens and backgrounds and are one of the most popular of all the hardy garden flowers. They are necessary for the old-fashioned garden and with their colossal spikes of rose-like blooms, produce bold and showy effects. They are easily grown from seed but it is best to treat them as biennials, sowing fresh seed early each spring. They bloom July and August.

## Lovely New Hollyhocks

**3003 TRIUMPH DOUBLE FRINGED.** New, of branching habit, waved and fringed flowers in shades of crimson, pink, white, yellow and purple. Early bloomer. 4 to 5 feet tall. Pkt. 15c; ⅓ oz. 40c.

**3002 IMPERATOR.** Color ranges through shades of pink to salmon. Flowers 6 inches across, frilled and fringed with central double rosette. Pkt. 10c; ⅓ oz. 35c.

**3001 EXQUISITE FRINGED MIXED.** Contains the most artistic shades of pink, rose and red. Striking semi-double variety. Pkt. 10c; ⅓ oz. 35c.

## Geums Avenas Color Page 51

The Geums are becoming more popular each year, for their free flowering and attractive plants are a valuable addition to any hardy garden. Very easily grown from seed and produce a continuous supply of flowers for cutting.

**2901 MRS. BRADSHAW.** This variety bears double bright red flowers 1½ inches across during May and June on stems about 18 inches tall. The foliage is at the base. Pkt. 10c; ⅓ oz. 35c.

**2902 LADY STRATHEDEN.** A beautiful new variety similar to Mrs. Bradshaw in growth, but bearing bright golden yellow flowers. Pkt. 10c; ⅓ oz. 35c.

Geum Color Plate, Page 51

To make Healthy and Vigorous Plants

See Page 79

## Heuchera

Coral Bells

**2961 SANGUINEA SPLENDENS, R. G.** Very desirable plants, the foliage in compact masses 8 to 10 inches high. The flower stems reaching up 18 to 24 inches bear graceful spikes of the showiest bright coral red flowers. Excellent for the hardy border and especially good for the rock garden. Blooms fine for cutting, borne during July and August. 2 ft. Pkt. 15c.

**2962 SANGUINEA GRANDIFLORA HYBRIDS.** Includes all the attractive shades known to Heuchera, white, pink, scarlet and crimson. 2½ ft. Pkt. 15c.

## Hibiscus, Mallow

Large free growing shrub-like plants forming clumps 4 to 5 ft. high, with handsome green foliage bearing throughout the late summer immense single flowers 4 to 6 inches across. Plants are easily grown from seed.

**2972 MALLOW MARVELS MIXED.** Produces giant flowers in August and September, white, pink and crimson. Mixed Pkt. 10c; ¼ oz. 20c.

**2971 GIANT GOLDEN BOWL or SUNSET.** Very large flowers of rich cream yellow with maroon center. Pkt. 10c; ¼ oz. 25c.

## Iberis Handy Candytuft

See Page 32

## Incarvillea Hardy Gloxinia

Comparatively new in American gardens, but it well deserves a place as it produces many showy fine flowers throughout the summer. The flowers are trumpet-shaped, attractive and gloxinia-like.

**3007 VARIABILIS HYBRIDS.** Colors ranging from white and yellow to deep pink. 2½ to 3 ft. Pkt. 15c; ⅓ oz. 40c.

**3008 DELAVAYI.** Bright rosy purple flowers borne freely in June and to a less extent throughout the summer. Likes sun and need light protection over winter. 2 to 2½ ft. Pkt. 15c.

## Lavendula Sweet Lavender

**3026** A shrubby perennial about 1½ ft. high with grayish green foliage, and bearing during July, August and September whorls of small blue flowers. The leaves have a very pleasant aromatic odor, much sought for. The plant requires some winter protection in most Northern States. Pkt. 15c; ¼ oz. 35c.

## Leontopodium See Edelweiss Page 36

## Lewisia

**3030 HOWELL, R. G.** A rare and lovely creeping plant forming a rosette of narrow crinkled leaves. Flower stems 6 inches above foliage, carry star-like flowers of apricot, streaked rose. Spring sown seeds will bloom the following year. Give the seedlings a well drained, sunny place and do not over-water them. Pkt. 25c.

Helianthus

Incarvillea

**Lathyrus Latifolius**

Also called **Blazing Star**. Showy and beautiful when massed in the perennial border. Leaves are slender and grass-like, thickly covering the stems, tall graceful spikes of flowers.

**3034 PYCNOSTACHYA**. Brightest rosy-purple, bloom in July and August. Grow 6 feet tall. Pkt. 15c; 1/8 oz. 35c.

## Lathyrus Hardy Sweet Peas

**Latifolius** Hardy perpetual blooming Sweet Peas, fine for covering old stumps, fences, etc. Perfectly hardy, increasing in beauty each year. Bloom June to August.

**3017 WHITE PEARL 3018 PINK BEAUTY 3019 SPLENDENS RED** Price each any of above colors. Pkt. 10c; 1/4 oz. 20c.

**3022 COLLECTION**. 1 Pkt. each of above three colors 25c.

**3016 HARDY SWEET PEAS MIXED**. A mixture of the above. Pkt. 10c; 1/4 oz. 20c.

## Liatris Kansas Gay Feather

## Linaria Toad Flax

**3047 MACEDONICA**. Speciosa Hybrids. R. G. Spikes 3 feet tall, bright yellow flowers resembling Snapdragons. Foliage of silvery tint. Will bloom the first year if seed is sown early. Pkt. 10c; 1/8 oz. 30c.

**3048 ALPINA**. Alpine Toadflax. R. G. A trailing plant, bearing flowers of violet-blue, blotched orange, in July and August. 6 inches tall. Pkt. 15c.

**2413 CYMBALARIA**. Kenilworth Ivy. R. G. A trailing plant or vine with foliage throughout the summer and an abundance of small lavender flowers in the fall. Pkt. 10c; 1/8 oz. 40c.

## Linum Perennial Flax

**3055 PERENNE BLUE**. R. G. Small flat flowers of azure blue, borne in May and June. Erect plants with branching leafy stems. 1 1/2 to 2 feet tall. Pkt. 10c; 1/4 oz. 20c.

**3056 FLAVUM, GOLDEN FLAX**. R. G. Masses of yellow bloom in July and August. 15 to 18 inches tall. Pkt. 15c; 1/8 oz. 30c.

**3058 FLAVUM NANUM COMPACTUM**. R. G. A new dwarf strain only 6 inches high with golden yellow flowers in June and July. Pkt. 15c.

**3057 NARBONENSE**. R. G. Azure blue flowers with white eye, freely borne in May. Spreading clumps of foliage. 2 ft. Pkt. 15c; 1/8 oz. 30c.

## Lobelia Cardinal Flower

**3061 CARDINALIS**. A native perennial used frequently for naturalizing in swampy spots. Flowers are intense cardinal red, slender about 1 inch long, borne in spikes on erect leafy, unbranching stems. Blooms July to September. Grows 2 to 2 1/2 feet tall. Pkt. 15c.

## Lythrum, Loosestrife

**3092 ROSEUM SUPERBUM**. Tall erect plants producing graceful spikes of bright red flowers during July and August. An excellent cut flower. 4 to 6 ft. Pkt. 10c; 1/4 oz. 25c.

## Lychnis Maltese Cross Campan

**3086 CHALCEDONICA**, Scarlet Maltese Cross. From June until the middle of July the plants are covered with the most fiery scarlet flowers, and it is sometimes called Burning Star. Each individual flower forms a small Maltese Cross. The plants will bloom the first year from early sown seed. 2 ft. Pkt. 10c; 1/4 oz. 20c.

**3085 CHALCEDONICA SALMON QUEEN**. Large flower of glowing salmon, a new shade in Lychnis. Pkt. 15c.

**3087 ARKWRIGHT HYBRIDS**. A valuable variety the result of a cross of Chalcedonica with Lychnis Haageana. These hybrids attain a height of 2 ft. and produce in midsummer an abundance of large flowers of brilliant colors, varying from orange scarlet to soft salmon pink. Pkt. 10c; 1/8 oz. 30c.

**3088 VISCARIA SPLENDENS**. R. G. Also called Viscaria and German Catchfly. The bright rose flowers are most useful for cutting. Blooms in May and June. 15 in. tall. Pkt. 10c; 1/4 oz. 30c.

**3089 ALPINA**. R. G. In April the tufted little plants with attractive olive green foliage bear clusters of pretty rose pink flowers. 6 in. tall. Pkt. 15c.

**Lillium Philippense**

## Lillies To Grow From Seed

See Lillies in Color on Page 62

**3041 LILIU REGALE**, Regal Lily. See this Lily in color on the back cover. Easily grown from seed, blooms the third year. One of the loveliest of all lilies. Pkt. 10c; 1/8 oz. 25c.

**3012 PHILIPPINENSE FORMOSANUM**. A wonderful new lily grows easily from seed. At the Arnold Arboretum seed produced flowering plants in seven months. Similar to the Easter lily, white trumpet-shaped flowers, slightly marked with reddish brown on base of petals. Perfectly hardy. 2 to 3 feet. Pkt. 15c.

**3045 PRAECOX WHITE QUEEN**. A beautiful lily of the Longiflorum family, producing long snow-white trumpets. Under good conditions will bloom in 12 months from seed. Pkt. 30c.

**3044 TENUIFOLIUM**, Coral Lily. Bears quantities of small, glossy scarlet flowers with recurved petals. Perfectly hardy, blooming in June and July. Seed is sometimes slow to germinate but well worth patience as it is beautiful. 2 ft. Pkt. 15c.

## Hardy Lupines

See Color Plate on Page 51

Hardy Lupines produce long spikes of softly colored flowers, the individual flowers resemble Sweet Peas, the spikes grow 3 to 4 feet tall. The leaves are palm-like and form thick ornamental clumps of light green. Bloom May and June.

**Inoculate Lupine Seed with Nitragin**. By treating Lupine seed before planting, you will get better growth of plants. Garden size pkg. Postpaid, 25c.

**3080 New Hybrids Mixed**. Wonderful new strain. Long beautiful spikes. Colors range through blue, rose, buff, flesh, salmon to white. Pkt. 10c; 1/4 oz. 30c.

**3083 Downers Hybrids**. Early and perpetual blooming, fine range of colors, bold spikes. Sometimes bloom first year from seed if sown early. Pkt. 10c; 1/4 oz. 25c.

**3081 Polyphyllus Sunshine**. Bright yellow. Pkt. 10c; 1/8 oz. 25c.

**3076 Polyphyllus Blue**.

**3077 Polyphyllus White**.

**3078 Polyphyllus Rose**.

**3079 Polyphyllus Mixed Colors**.

Prices on Above 3 Colors and Mixed, Pkt. 10c; 1/4 oz. 20c.

**A Clump of Lupines**

## Lunaria Honesty St. Peters Penny

**3068 BIENNIS**. This is grown for the beautiful silver pods which are used for winter decorations. Purple flowers are borne in the summer and the plant is a biennial which self sows. It may be grown as an annual. 2 ft. Pkt. 10c; 1/4 oz. 30c.

## Matricaria See listing with Annuals, Page 19

Although Matricaria is a perennial, it is best grown as an annual and is listed under annuals.

## Meconopsis Blue Poppy

**3098 BAILEYI**. This beautiful blue perennial Poppy from Tibet, throws from its root stock, half a dozen leafy stems 3 feet high with broad sea-green leaves. The flowers are four-petaled and a glorious sky-blue with golden yellow anthers. Awarded a Certificate of Merit from the Royal Horticultural Society. Blooms in July. Pkt. 15c.

**CULTURE**. Being rather difficult to grow, we will give you a leaflet on Culture of Meconopsis free, if you ask for one.

## Monarda-Bergamot

**3106 DIDYMA HYBRIDA MIXED**. Bee Balm, Oswego Tea. Flowers of brilliant scarlet-crimson, rose or purple, born on coarse stocks 3 feet high. Makes a showy display, excellent for massing and for naturalizing. Pkt. 15c; 1/8 oz. 50c.

## Myosotis, Forget-me-not

**3126 Isolde Krotz** Bright, heavenly blue with yellow eye. 1 foot high and semi-trailing. Though it is a perennial, it needs slight protection over winter. A lovely flower for a ground planting for Spring-flowering bulbs. Sometimes grown as an annual. Pkt. 15c.

**3120 Everblooming Palustris** Semperflorens. Blooms all summer. Small bright blue flowers, borne in clusters on half creeping stems. Fine for carpeting shady and moist places. The best Forget-Me-Not for naturalizing. Pkt. 10c; 1/8 oz. 30c.

## Nepeta

**Mauve Catmint**

**3146 MUSSINI** R. G. Dwarf edging plant with blue-gray foliage and pale mauve flowers during practically the whole summer. Very delightfully effective. 9 to 12 inches tall. Pkt. 10c.

## Oenothera Evening Primrose

**3161 YOUNGII**. Fragrant, bright lemon yellow flowers 1 1/2 to 2 inches across, borne in clusters. Sturdy plants 1 1/2 to 2 feet tall. This variety blooms in the daytime except in bright sunlight, as well as in the evening. Pkt. 15c; 1/8 oz. 50c.

**3163 MISSOURIENSIS** R. G. Dwarf species, only 10 inches tall, solitary flowers, often 5 inches across from June to August. Pkt. 10c; 1/8 oz. 30c.

## Phlox

**3197 DECUS-SATA GRANDIFLORA MIXED**. Lovely colors taken from named varieties of Hardy Phlox. Large blooms on 3 foot stems. Seeds slow to germinate but worth waiting for. Pkt. 10c; 1/8 oz. 30c.

**Myosotis, Everblooming****Linaria Macedonica**

## Hardy Poppies

### Papaver

For a gorgeous display, few flowers can compete with the brilliant Poppies in June and July. Immense silken cups of glowing colors with black blotch at base of petals.

If, after blooming, the tops are carefully taken off, not to injure the crown, they often bloom again in the fall. Height 2½ to 3 feet.

**3176 ORIENTAL SCARLET.** Tremendous cup of brilliant scarlet, with purple-black blotches. Pkt. 10c; ⅛ oz. 25c.

**3178 BEAUTY OF LIVERMERE.** Deep oxblood-red with black throat. 3 ft. Pkt. 15c; ⅛ oz. 30c.

**3179 THE FELTHAM.** New distinct strain with various colors, scarlet, orange, apricot and salmon but with no black blotches. Pkt. 15c.

**3180 MRS. PERRY.** Shrimp pink or apricot. The best of the pink Orientals. Pkt. 15c.

**3177 ORIENTAL HYBRIDS.** Some brilliant new shades have been developed, running through orange, salmon to scarlet. Pkt. 10c; ⅛ oz. 25c.

### Alpine Poppy, Papaver Alpinum

**3187 ALPINUM MIXED.** R. G. A charming miniature Poppy in brilliant shades of scarlet, orange, yellow, apricot, pink and white. Rock Garden Poppy. 6 inches high. Pkt. 15c; ⅛ oz. 45c.

### Nudicale, Iceland Poppy

Iceland Poppies are fine Rock Garden subjects. They bloom practically all summer and form neat plants with tufts of attractive foliage. Make lovely table decorations. Stems stand about 1 foot high.

**3185 COONARA PINK.** New variety in shades of pink, salmon and apricot. Pkt. 10c; ⅛ oz. 25c.

**3181 SUNBEAM GIANT MIXED.** Fine color mixture, ranging from white, through straw yellow to orange and orange-scarlet. Like the finest paper in texture. Pkt. 10c; ⅛ oz. 25c.

**3182 DOUBLE MIXED.** A selected strain. A large percentage will produce double flowers. Pkt. 10c; ⅛ oz. 35c.

**3183 EL MONTE.** An excellent cut-flower with long stiff stems. Flowers extra large of rich tangerine orange. Pkt. 15c; ⅛ oz. 30c.

**3184 SINGLE MIXED.** Variety of colors. Pkt. 10c; ⅛ oz. 25c.

**3186 Fakenham Hybrids.** These gorgeous new Poppies are almost twice the size of other Iceland Poppies. Bloom later, have long, stiff stems. Colors cover the whole range known to Poppies with many new shades and tints. Pkt. 15c; ⅛ oz. 35c.

### Penstemon See Color Page 51

**3192 SENSATION GLOXINOIDES.** Resembles. Gloxinias and comes in lovely shades of pink, rose, red, lilac and purple. Grows 2 feet tall. Pkt. 10c; ⅛ oz. 35c.

**3194 BLUE GEM.** A dwarf or prostrate form, excellent for the Rock Garden. Rich shade of blue. Pkt. 10c; ⅛ oz. 25c.

**3195 GRANDIFLOUS MIXED.** One of the showiest Penstemons, with its leathery leaves and stems that rise up 2½ to 3 feet with spikes of pretty lilac and pink flowers during May and June. Fine for cutting. Pkt. 10c; ⅛ oz. 30c.

### Polemonium, Jacobs Ladder

**3236 COERULEUM GRANDIFLORUM BLUE.** Produce during May, June and July, erect stems bearing terminal heads of attractive violet blue flowers. The leaves are clustered mostly at the base of the stem. They like partial shade and considerable moisture. 2 ft. tall. Pkt. 10c; ⅛ oz. 25c.

### Pyrethrum See Color Page 51

Low compact growth with lace-like foliage of bright green, quantities of Daisy-like flowers. They bloom during June and July.

**3261 SINGLE MIXED.** White, rose and pink. Pkt. 10c; ⅛ oz. 30c.

**3262 DOUBLE MIXED.** (See illustration.) They are not all double flowers but percentage increases as plants become older. White, pink and rose. Pkt. 15c; ⅛ oz. 50c.

**3264 HYBRIDUM GRANDIFLORUM.** Single. Large flowered, fine for cutting. Very attractive. Pkt. 10c; ⅛ oz. 25c.

**3263 ATROSANGUINEUM.** Select strains of dark, blood-red. Excellent quality. Pkt. 10c; ⅛ oz. 30c.

Ranunculus, Buttercup Daisy

Single Pyrethrum

Stokesia

Polyanthus Perfection Primula

Sidalcea

## Primulas—Hardy Primroses

Delightful little flowers in all the brilliant colors that mean so much to your garden in April and May. They have few rivals for planting along shady paths or in the Rock Garden. Seed germinate slowly and fall planting is preferable. You will enjoy their beauty.

**3251 AURICULA ALPINA MIXED.** Combinations of yellow, brown and red. Early, 6 inches tall. Pkt. 15c.

**3252 JAPONICA MIXED or Japanese Primrose.** Sometimes called "Queen of Primroses," very showy, blooms in June. Mixed colors, purple, lilac and pink. 18 to 24 inches tall. Pkt. 15c; ⅛ oz. 40c.

**3253 CASHMIRIANA.** Large lilac, 1 foot tall. Pkt. 20c.

**3255 LITTONIANA.** Large spikes, similar to Red Hot Poker. Heads before opening are bright red, opening to lilac and purple shades. 2 feet tall. Pkt. 20c.

**3250 VULGARIS, The True English Primrose.** Fragrant canary-yellow, 6 to 8 inches tall. Pkt. 10c; ⅛ oz. 40c.

### Polyanthus Primulas

**3248 PERFECTION MIXED.** Select strain of large flowering Polyanthus, containing all available colors and combinations of white, pink, rose, crimson, yellow and gold. Pkt. 10c; ⅛ oz. 40c.

**3247 GIANT MUNSTEAD.** Large flowered variety, early blooming and includes pleasing shades of yellows and white. Pkt. 15c; ⅛ oz. 40c.

### Physostegia, False Dragonhead

An attractive flower for the Perennial border. Long blooming season, rich foliage, easy to grow and lovely spikes of delicate rosy pink flowers. Excellent for cut-flowers. Prefers rich soil and sunshine.

**3208 VIRGINIA PINK.** July and August. 3½ feet tall. Pkt. 10c; ⅛ oz. 35c.

**3210 COMPACTA ROSEA.** R. G. Compact, deep pink, 12 to 18 inches tall. Pkt. 10c.

### Physalis, Chinese Lantern

**3204 FRANCHETTI.** An interesting plant with its pods of bright orange-red. They greatly resemble Chinese Lanterns and make gay and colorful winter bouquets. Pkt. 10c; ⅛ oz. 30c.

### Ranunculus, Buttercup Daisy

**3278 ASIATICUS SUPERBISIMA.** Large semi-double and double flowers. Brilliant colors, the center often differing from the balance of the red and yellow of the flowers. May and June. Like partial shade. 1 to 1½ ft. tall. See illustration. Pkt. 10c; ⅛ oz. 30c.

### Romneya, Bush Poppy

**3283 COULTERI.** Also called California Tree Poppy. Shrubby growth, woody stems and large Poppy-like white, fragrant flowers. Satiny in texture, golden yellow stamens. June and July. 4 to 5 feet tall. Pkt. 10c; ⅛ oz. 35c.

### Rudbeckia, Cone Flower

**3287 PURPUREA (Echinacea) Purple Cone Flower.** Rosy purple with dark central disk. Blooms in September. 3 feet tall. Pkt. 10c; ⅛ oz. 35c.

### Hardy Scabiosa

Perennial Scabiosa are quite like the Annuals, though a little more graceful in form. Long blooming season, June to September. In the extreme Northern states, give a slight mulch for winter protection.

**3297 CAUCASICA BLUE. Blue Bonnet.** Single row of broad petals, center consisting of many tiny florets. Clear lavender-blue, very dainty. Extra long stems. 2½ to 3 ft. Pkt. 10c; ⅛ oz. 30c.

**3306 JAPONICA.** This Japanese variety forms bushy plants 2 feet high and bears beautiful lavender-blue flowers on long wiry stems. Long blooming season. Pkt. 10c; ⅛ oz. 25c.

**3300 ISAAC HOUSE HYBRIDS.** See these in color on page 51. An improved Caucasia, having longer stems and larger flowers, in lovely shades from light lavender to deep heliotrope-blue. Petals are ruffled and fringed. Attractive. Pkt. 10c; ⅛ oz. 40c.

**3301 COLUMBARIA PINK.** A South African Scabiosa, dwarfier than Caucasia. Short, compact flowers 2 to 2½ inches across on long stiff stems. Pkt. 10c.

### Sidalcea

A desirable hardy perennial that is very little known. Well worth a place in every garden. Produces spikes 2½ to 3 ft. in height, densely covered from July to September with pretty single rosy-pink flowers. Each flower about an inch across.

**3327 ROSE QUEEN.** Bright Rose. Pkt. 10c; ⅛ oz. 30c.

**3328 Hybrids.** Many shades. Pkt. 10c; ⅛ oz. 45c.

A Few Heads of Templin-Bradley's  
Giant Sweet William

## Sedum, Stone Crop

Sedums are excellent for Rock Gardens and for border plants. They prefer sandy soil.

**3316 ACRE. R. G. Gold Moss or Wall Pepper.** Leaves of bright green and peppery in taste. In June the plants are covered with small bright yellow flowers. This variety makes a splendid ground cover as it grows only 2 to 3 inches high. Pkt. 10c;  $\frac{1}{8}$  oz. 60c.

**3317 SPECTABILE. R. G. Showy Stonecrop.** Fine tall variety. Bears flat clusters of rosy-red flowers in August and September. Leaves are thick and ornamental. Fine for barren spots. 1  $\frac{1}{2}$  to 2 ft. Pkt. 20c.

## Sempervivum

**3321 HEN AND CHICKENS, Perennial Specles Mixed.** Very useful border and Rock Garden Plants. A mixture of a great many sorts which will enable you to raise a fine collection of plants at low cost. Grow 4 to 6 inches high. Pkt. 25c.

## Silene, Catchfly

Charming rock plants, blooming nearly all summer. Easy to grow under ordinary conditions.

**3338 SCHAFFA. R. G.** Masses of bright pink double flowers from July to October. Very easily grown from seed. 4 to 6 inches tall. Pkt. 10c;  $\frac{1}{8}$  oz. 40c.

**3339 ASTERIS GRANDIFLORA.** Globular heads of carmine scarlet flowers. 1  $\frac{1}{2}$  ft. tall. Pkt. 10c;  $\frac{1}{8}$  oz. 30c.

## Stokesia, Stoke's Aster

**3354 CYANEA BLUE.** Another very fine subject for the blue garden, the plants bearing large flowers (3 to 4 inches) of lavender blue that resemble the Aster and also the Cornflower. The long blooming season of Stokesia (July to October) is rare in perennials. Plants of erect growth. 1 to 2 ft. high. Pkt. 10c;  $\frac{1}{8}$  oz. 30c.

## Thalictrum

Stately plants with foliage resembling Maiden Hair Fern, fine for bouquet trim. Dainty flowers in terminal clusters. Protect slightly for winter as they are not extremely hardy.

**3396 DIPTEROCARPUM.** Rosy-purple, in August and September, 4 to 5 feet tall. Pkt. 15c;  $\frac{1}{8}$  oz. 30c.

## Veronica, Speedwell

A beautiful and desirable family of plants at home anywhere in your garden but exceptionally fine for the border or Rock Garden. Thrive well in a well drained soil in an open location where they receive plenty of sun.

**3441 LONGIFOLIA BLUE. R. G.** Graceful, slender spikes of lavender-blue from July to September. Naturalize well, make beautiful cut-flowers and grow 2 to 3 feet tall. Pkt. 10c;  $\frac{1}{8}$  oz. 30c.

**3442 SPICATA MIXED. R. G.** Smaller type, 1 to 1  $\frac{1}{2}$  feet tall, blooms in July. Bear pretty spikes of blue, rose and white flowers. Pkt. 10c;  $\frac{1}{8}$  oz. 40c.

**3443 TEUCRIUM BLUE. R. G.** Delightful dwarf variety only 1 foot high and one of the finest blue plants for the Rock Garden. Beautiful Gentian Blue with ornamental foliage. Pkt. 10c;  $\frac{1}{8}$  oz. 40c.

**3444 REPENS. R. G.** Creeping Speedwell. Fine carpet, bedding or Rock Garden plant with its attractive trailing stems and small white flowers, blooming July and August, 4 inches tall. Pkt. 15c;  $\frac{1}{8}$  oz. 40c.

# Sweet Williams, Dianthus Barbat

Sweet Williams need no long description, they are so well known and popular. Easy to grow, splendid for massing in perennial border, make a gorgeous display during May and June. Plants are normally 15 to 18 inches high.

**3372 SINGLE MIXED. Pkt. 5c;  $\frac{1}{4}$  oz. 20c.**

**3373 DOUBLE MIXED. Pkt. 10c;  $\frac{1}{4}$  oz. 30c.**

Single Giant Sweet Williams in Separate Colors.

**3366 DARK CRIMSON. 3364 SCARLET BEAUTY. 3365 WHITE.**

**3362 HOLBORN GLORY.** Giant flowering in many colors with white eye.

**3363 PINK BEAUTY or NEWPORT PINK.** Watermelon or rosy-pink. Large trusses.

Price any of above varieties. Pkt. 10c;  $\frac{1}{4}$  oz. 25c.

**3370 Sweet William Collection** One packet each of five separate colors of Single Giants listed above. A 50c value for only 40c.

## 3361 Single Giant Mixed Sweet Williams

Fine mixture of brightest colors and shades, not present in other mixtures, and Margined and Auricula varieties. Pkt. 10c;  $\frac{1}{4}$  oz. 25c.

## Thymus or Thyme

**3399 SERPYLLUM. Mother of Thyme. R. G.** A tiny Rock Garden plant with creeping purple scented foliage. Fine for stepping stones. Violet, white and rose. 2 to 3 inches tall. June and July. Pkt. 15c.

## Trollius Globe Flower or Golden Ball

Beautiful gold and yellow perennials. Stems 18 inches long, flowers large double globe-shaped, usually 1  $\frac{1}{2}$  inches across. Bloom in May and June, sometimes a second crop is produced in the fall. Like moist, cool spots in partial shade. Seed slow to germinate, sometimes not starting until the year following the sowing.

**3404 FINEST HYBRIDS.** Rich shades of yellow, gold and orange. Pkt. 15c;  $\frac{1}{8}$  oz. 50c.

**3405 EUROPEUS GOLDEN BALL.** Large globular flowers of soft, rich yellow. 20 inches tall. Pkt. 10c.

**3403 LEDEBOURI.** Deep orange. 2 ft. Pkt. 15c.

## Tunica, Coat Flower

**3410 SAXIFRAGA. R. G.** A neat little plant producing small light pink flowers all summer. It somewhat resembles Gypsophila and if started early will bloom the first season. It is suitable for edgings in almost any location and for rock gardens. 5 to 6 inches tall. Pkt. 10c;  $\frac{1}{4}$  oz. 25c.

## Hardy Violas See Color Plate on Page 51

**Viola Cornuta, Hardy Tufted Pansy**

Hardy Violas combine the free blooming habits of the Pansy with the hardy character of the Violets. Plants will not run out like the Pansy nor are the flowers as large, but are produced in profusion during the entire season.

**3449 JERSEY GEM, CORNUTA HYBRID.** Compact plant, flowers of deep violet-blue with an occasional variation in tint. Continuous bloom over long period. 8 inches. Pkt. 25c.

**3452 APRICOT.** Cornuta Hybrid of rich yellow, suffused orange. Very showy. Pkt. 15c;  $\frac{1}{8}$  oz. 40c.

**3457 ARKRIGHT'S RUBY.** Beautiful Viola of bright ruby-crimson with terra cotta shadings can now be produced true to color from seed with only a slight variation in shade. Pkt. 15c; Large Pkt. \$1.00.

**3450 ADMIRATION.** Rich rosy-purple. Pkt. 10c;  $\frac{1}{8}$  oz. 40c.

**3453 ROSE QUEEN.** Beautiful rose. Pkt. 15c;  $\frac{1}{8}$  oz. 50c.

**3448 Viola Cornuta Mixed** A splendid assortment of all available colors in the large flowering varieties. Pkt. 10c;  $\frac{1}{8}$  oz. 35c.

**3460 Viola Bosniaca** A very lovely small growing variety, very desirable for the border or Rockery. Small deep purple flowers freely produced all summer. 3 inches. Pkt. 15c;  $\frac{1}{8}$  oz. 30c.

## New "GEM" Violas

These are the Jersey Gem type of flower as shown in the illustration. Free and long blooming.

**3465 Lavender Gem.** Brilliant lavender blue.

**3466 Rosy Gem.** Rich deep rose.

**3467 White Gem.** Pure white.

**3468 Yellow Gem.** Bright pure yellow.

Price of any variety, 25c. Any 3 packets 60c.

Statice

## Statice Sea Lavender

**3346 LATIFOLIA BLUE.** See illustration above. Graceful panicles or sprays of light purplish-blue that cover the plants in July and August. Prized for winter bouquets, lovely for the Rock Garden. 2 ft. tall. Pkt. 10c;  $\frac{1}{8}$  oz. 35c.

**3347 DUMOSA.** Bushy plants, carrying cushions of silvery gray flowers. Provide a wealth of cutting material and fine for winter bouquets. Stiff, wiry stems. 2  $\frac{1}{2}$  ft. tall. Pkt. 15c;  $\frac{1}{8}$  oz. 35c.

**3348 CASPIA.** Long graceful sprays of delicate minute flowers of lilac-blue. Desirable for cut-flowers for summer or winter bouquets. 2 to 2  $\frac{1}{2}$  feet tall. Pkt. 15c;  $\frac{1}{8}$  oz. 35c.

## Tritoma, Red Hot Poker See Color Page 52

Flame flower or Torch Lily. Tritomas are really perennials but the roots are tender and in the Northern States should be taken up and stored like Dahlias.

**3406 HYBRIDA MIRABILIS.** 3 ft. Bright yellow, will bloom the first year from seed sown in February or March, transplanted out in May. They will bloom August to late Autumn. Pkt. 10c;  $\frac{1}{8}$  oz. 25c.

**3407 ELEGANS MULTICOLOR.** Early flowering Hybrids in a rich variety of shades flaring orange, yellow and scarlet. Pkt. 15c.

## Valeriana, Garden Heliotrope

**3426 OFFICINALIS.** Charming hardy plants, producing quantities of rose tinted white flowers in showy heads on tall strong stems. Delightfully fragrant with strong heliotrope odor, borne freely during June and July. Easily grown and very hardy. 3  $\frac{1}{2}$  ft. Pkt. 10c;  $\frac{1}{8}$  oz. 30c.

**3427 RUBRA MIXED.** Produces an abundance of old rose and white flowers, from June to October. 2 ft. Pkt. 10c;  $\frac{1}{4}$  oz. 30c.

## Hardy Violets

**Viola Odorata.** Fragrant hardy English Violets. Require abundant moisture and partial shade. Seed may be sown in late fall, early spring and transplanted or sown in a cool shady place after cold weather is over.

**3458 THE CZAR.** Blue. Pkt. 15c;  $\frac{1}{8}$  oz. 40c.

**3459 SNOWFLAKE.** White. Pkt. 15c;  $\frac{1}{8}$  oz. 30c.

## Wallflower, Cheiranthus

Well known, delightfully fragrant perennials, blooming in the spring with spikes of beautiful flowers in many colors. In the Northern states, they will need protection during the winter.

**3462 TALL DOUBLE BRANCHING MIXED.** Colors like the above, flowers double. Pkt. 15c;  $\frac{1}{8}$  oz. 40c.

**2734 ALLIONI.** Siberian Wallflower. Bears an abundance of dazzling orange flowers during June and July. Excellent for Rock Gardens, growing only about one foot high. Treat as a biennial. Pkt. 10c;  $\frac{1}{4}$  oz. 25c.

**2735 LINIFOLIUS.** Alpine Wallflower. A dwarf variety especially fine for bedding or Rock Garden use. Very free flowering from June to August. Lilac flowers in compact heads. 9 inches tall. Pkt. 10c;  $\frac{1}{8}$  oz. 30c.

## Two Fine Perennial Mixtures

**3471 Tall Sorts** Most desirable varieties for border planting or for cut-flowers. Most all grow 2 to 3 feet tall. Very interesting to grow. Pkt. 15c.

**3472 For Rock Gardens** This mixture includes the varieties that are best for Rock Garden use. All semi-dwarf and low growing and will thrive well in the rockery. Pkt. 20c.

# VEGETABLE PLANTING TABLE

If you are in doubt about how or when to sow the seed or plant the plants of certain vegetables, this table will give you the required information. Full cultural instructions are given for each vegetable on the page where it is listed. We are always interested in providing any information that will enable our customers to achieve the greatest possible success with their gardens. Caution: Don't cover the seed too deep. It will germinate more quickly if only a little soil is on the seed.

# 1935 Vegetable Novelties

## Which We Especially Recommend

It is the new and special varieties that help to make your garden of more interest, more pleasure and more profit.

### Vegetables for Your Own Table

There is no more satisfactory way of obtaining good fresh vegetables of the best quality for your own use than to grow them in your own garden, and gather them just as you need them. Vegetables begin to lose their tenderness and good flavor very soon after they have been gathered, and when they have lain in the market for a day or even several hours they have lost much of their best qualities. Consider also the convenience of being able to step into your garden and select a nice fresh lot of several varieties just when you are ready to prepare your dinner.

### Templin-Bradley's Vegetable Seeds

One of the essentials of a good vegetable garden is good seed. In our selection of varieties and strains within varieties we are looking through the eyes of the planters of vegetable seeds, the home gardeners and commercial growers. Every possible care is taken to provide you gardeners with the finest vegetable seed obtainable.

All-American  
Gold Medal  
1935

## All-American Vegetable Selections

All-American  
Award of Merit  
1935

### Have You Been Reading In The Magazines About The All-American Flower & Vegetable Selections?

For the past three years, the All-American Selections Committee of the American Seed Trade Association, have conducted trials of new introductions in ten widely scattered locations in the United States for the purpose of determining the usefulness of all new varieties of seeds offered in this country. Gold Medals, Awards of Merit and Honorable Mention have been distributed on the basis of merit by unbiased judges. All new varieties so honored in the past three years appear in this catalog with the indication of the exact award in the description. This will guide you in keeping your garden up to date on the really worthwhile new things. The purpose of this All-American Selection is to prove the worthiness of a new variety before offering it to you and is therefore directly in your interest.

**3516 Bean-Tendergreen** All-American Gold Medal 1933. Long round, tender, meaty, light green snap bean of finest flavor. Matures early and the vines are exceptionally strong and vigorous, a delicious Bean.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

**3578 Beet-Perfected Detroit** All-American Award of Merit 1934. Considered the best strain of blood beet yet created. Early, round, dark red, no white rings. Produced by inbreeding and reselection over a period of 8 years. Pkt. 15c; oz. 25c;  $\frac{1}{4}$  lb. 65c; lb. \$1.75.

**3620 Cabbage-Just Right** All-American Special Mention 1935. A first early Cabbage with flat-tish round heads and short stems. Pkt. 10c;  $\frac{1}{2}$  oz. 35c; oz. 60c;  $\frac{1}{4}$  lb. \$2.00.

**3631 Cabbage-Penn State Ballhead** All-American Award of Merit 1934. A short stem dark bluish green Ballhead type, 12 inches high. Heads are extremely hard, heavy, uniformly globe-shaped and with small cores. Pkt. 10c;  $\frac{1}{2}$  oz. 30c; oz. 50c;  $\frac{1}{4}$  lb. \$1.50.

**3673 Carrot Morse's Bunching** All-American Gold Medal 1934. Roots almost cylindrical with rounded shoulders and well stumped, 2 inches in diameter and 9 inches long. Color deep red-orange, roots free from wrinkles. A fine bunching Carrot. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 50c; lb. \$1.50.

**3712 Corn-Kingcrost Bantam** All-American Special Mention 1934. This is a double cross among four inbred strains. Early and uniform, 4½ to 5 feet tall, yellow grained ears 7½ inches long, 10 to 12 rows each. More uniform and better quality than Golden Bantam.  $\frac{1}{4}$  lb. 15c; lb. 50c; 3 lbs. \$1.25.

**3876 Muskmelon-Imperial** All-American Award of Merit 1935. A luscious new melon, orange flesh, excellent flavor. See page 53. Pkt. 10c; oz. 35c;  $\frac{1}{4}$  lb. \$1.00; lb. \$3.00.

### 4010 Radish-Glowing Ball

All-American Gold Medal 1934. Bright fiery scarlet with a suffusion of orange. Perfectly round, small top and a thread-like tap-root. Recommended by the Royal Horticultural Society. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 45c.

**4094 Tomato-Scarlet Dawn** All-American Gold Medal 1935. Wilt-Resistant, Rust-Resistant. Wonderful new Tomato of deep Marglobe red color, globe-shaped. Ranked second in the All-American trials. Pkt. 15c;  $\frac{1}{2}$  oz. 70c; oz. \$1.25.

**4091 Tomato-Pritchard** or Scarlet Topper. All-American Gold Medal 1933. Disease-Resistant. The plant is comparatively small but branching and a true self top. Fruits are medium size smooth, solid, heavy, globe-shaped, rich dark red. Pkt. 8c;  $\frac{1}{2}$  oz. 25c; oz. 45c;  $\frac{1}{4}$  lb. \$1.40.

**4052 Spinach-Viking** All-American Award of Merit 1935. A meritorious variety, medium to dark green, longstanding, giant leaved. The leaves are smooth in summer but inclined to crinkle in cool weather. Oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

**4050 Spinach-Nobel Giant Leaved** All-American Award of Merit 1933. The best smooth leaved variety for spring and summer sowing. Leaves extra large, smooth and of good texture. Round seeded. Oz. 8c;  $\frac{1}{4}$  lb. 20c; lb. 50c.

The New Pea Giant Early Cropper

Creamy Hearts

Yellow Ox-heart Tomato

Hybrid White Spine

For Your  
1935 Garden

## Other Vegetable Novelties

### 3501 Asparagus, Mary Washington

This is the best of the newly developed Rust Proof varieties, and is recommended by the U. S. Dept. of Agriculture. It is a selection from Martha Washington and produces large straight tender green stalks of excellent quality.

**SEED.** Asparagus is not hard to grow from seed though the results are not as quick as though you had started by planting the roots. Start seed in early spring, covering an inch deep. Cultivate well during the summer, transplanting the roots to their permanent bed the following spring. One ounce should sow a 60 ft. row and produce 200 to 300 plants. Pkt. 10c; Oz. 15c;  $\frac{1}{4}$  lb. 30c; lb. 75c.

### 3854 Lettuce, Creamy Hearts

One of the easiest to head and best quality to eat of all the head lettuce. The heads are medium large, the leaves are thick and buttery yet crisp. Really a splendid home garden variety. Pkt. 10c; Oz. 15c.

### 3764 Cucumber, Hybrid White Spine

A much improved type of white spine. The fruits are much longer, slender and of a deep rich green, the color being retained well after gathering. An excellent cucumber for slicing for your table, or if you grow vegetables to sell, the appearance of Hybrid White Spine is all in its favor. Pkt. 10c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.

### 3706 Corn, Top Cross Bantam

A new Hybrid Sweet Corn a few days earlier than Golden Cross. Ears 7 to 7½ inches long, 10 to 12 rowed. Resistant to Stewart's disease. Far better than the standard strains of Bantam.  $\frac{1}{4}$  lb. 15c.

### 4120 Tomato, Yellow Ox-Heart

Has all the qualities of the Ox-Heart with its big heavy meaty fruits but the flesh and skin are a rich golden yellow. Pkt. 10c;  $\frac{1}{2}$  oz. 40c; oz. 70c.

### 3972 Peas, Giant Early Cropper

An extra early, very heavy cropping new variety of much merit. The pods are large, dark green, 4 inches long and contain usually 7 large, sweet, light-green peas. Earliness, heavy bearing and fine table quality make this a most desirable variety both as a home garden variety and for market growing. See illustration above.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

### 3973 Peas, New Giant Wonder

A new Pea similar to Nott's Excelsior. Vines grow 15 inches tall, pods are plump, straight, blunt-ended, 3 inches long.  $\frac{1}{4}$  lb. 15c; lb. 45c.

### 3979 Peas, Morse's Market

Best mid-season Pea for home garden. Vines are robust, 24 to 30 inches tall. Pods 5 to 5½ inches long, ¾ to ⅞ inches broad, straight, pointed, smooth, dark green, well filled.  $\frac{1}{4}$  lb. 12c; lb. 40c.

## Beans

**TO HAVE PLENTY OF BEANS THROUGHOUT THE SUMMER**—A fine idea is to plant both early and late varieties every two weeks from early Spring through the Summer. As most beans are ready to eat in from 45 to 50 days, keep planting just as long as there is that much time left before frost. This will give you plenty of the luscious health-giving beans for your table and for canning from early Summer to late Fall.

**CULTURE**—Make your first planting as soon as the soil is warm and danger of frost is past. Plant in rows 2 feet apart, dropping the seed 3 to 4 inches apart and 2 inches deep. Cultivate thoroughly but not when the vines are wet.

**QUANTITY OF SEED**—One pound of beans (except Limas) should plant a 100 foot row, 90 pounds will be required for an acre of ground. Bush Lima beans—one pound will plant 75 hills and 40 pounds will plant an acre.

### Dwarf Green Pod Beans

#### 3516 Tendergreen

**All-American Gold Medal 1933**

(Round pod.) If you want a wonderfully delicious early snap Bean, plant **Tendergreen**. It is long, round, tender, meaty, light green and the finest flavor. Our customers friends tell us it is the best bean they ever ate. It matures early and the vines are exceptionally strong and vigorous.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

#### 3510 Full Measure

(Round Pod). One of the best round podded varieties. Yields large quantities (even more than Tendergreen) of fine-grained, large, dark green tender pods. Very good table quality.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

#### 3507 Burpee's Stringless

(Round Pod). The most popular of the round podded varieties. Early, very productive—pods tender, fleshy and free from strings. Ready in 50 days.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

#### 3509 Giant Stringless

(Round Pod). Similar to Burpee's Stringless, but pods are a trifle longer, straighter, and a shade lighter green. Exceedingly productive.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

#### 3515 Early Red Valentine

(Round Pod). An excellent and dependable early variety. Pods are round, fleshy, of medium green color and average  $4\frac{1}{2}$  to 5 inches long.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

#### 3508 Early Bountiful

(Flat Podded.) Best flat-podded stringless variety. Pods  $6\frac{1}{2}$  to 7 inches long, stout, flat and nearly stringless. Color light green. Very early, vigorous, hardy, productive. Fine quality.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

#### 3514 Refugee Stringless

(Round Pod). A very desirable stringless strain of the popular Refugee. Pods round, light green, stringless and of high quality.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

#### 3513 Ruby Dwarf Horticultural

A good variety for green shell beans, or can be used early as a green pod snap bean. Plants are productive and mature pods are broad five inches or more long, color yellow splashed with red. They are about equal to Limas in quality.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

## Lima Beans

### Two Fine Pole Limas

**3546 King of the Garden** A favorite with gardeners because of the great size of pods, which contain 4 to 5 very large fine quality green beans. The vines produce continually until killed by frost. An improved strain of Large White Lima.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

**3547 Siebert's Early Pole Limas** The earliest of the and remarkably productive of large curved pods about 5 inches long. The beans are very easy to shell and of excellent quality.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

## Dwarf or Bush Lima

**3536 New Wonder or Burpee's Improved Bush Lima.** The recognized standard of Bush Lima Bean quality. Large robust, compact, plants; productive. Pods uniformly large, produced in clusters and maturing in midseason. Large flat beans of superior quality. Pkt. 5c;  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

**3537 Fordhook** The plant is ideal for productivity and disease resistance, bearing the large pods in clusters of 4 to 6 well up above the ground. The pods and beans are of the Potato Lima type, large, thick and handsome. Early, being ready to eat in 75 to 80 days yet productive over a long period. Pkt. 5c;  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

#### 3538 Henderson's Early

The earliest of all Lima Beans—by planting it gardeners in even the northernmost States can enjoy Limas from their own gardens. Pods are small but borne so plentifully that the yield is large. Beans of excellent flavor.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

Burpee's Stringless

Sure Crop Wax Beans

### Dwarf Wax Pod Beans

**3521 Sure Crop Wax** (Oval Round Pod). Certainly one of the best black seeded varieties as it is early, has attractive tender pods  $5\frac{1}{2}$  to  $6\frac{1}{2}$  inches long, nearly straight and is a "sure cropper."  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3525 Unrivalled Wax** (Oval Flat Pod). A new extra early bean of great value and well named. Long, slim almost transparent, nearly round, only slightly flattened, quite straight, a little curved at tip, very tender.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3526 Wardwell's** (Flat Pod). Yields heavy pickings of the finest looking, largest and best quality pods imaginable. Long, straight, broad and golden yellow, fleshy but brittle and fine-grained. Delicious flavor and tender.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3530 Stringless White Wax** Davis Wax has long been a favorite because of the handsome appearance of the pods. This new strain has much better eating quality, being free from fibre or stringiness.  $\frac{1}{4}$  lb. 15c; lb. 50c; 3 lbs. \$1.25.

#### 3522 Webber or

#### Cracker Jack Wax

(Flat Pod). Broad, flat, golden yellow, gracefully curved. In our experience, Webber is invariably ready to pick before any other wax bean and will yield more than any other except Sure Crop Wax. It is very vigorous, healthy and wonderfully productive.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

#### 3523 Improved Golden

(Flat Pod). Pods perfectly straight, very broad, flat, but thick through, fleshy and stringless. An early abundant cropper. It is a greatly improved strain of the old style Golden Wax. It will pay you to plant this strain of Golden Wax.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

Webber

#### 3527 Stringless Refugee Wax

(Round Pod). Tender enough to melt in your mouth and absolutely stringless. Better in all ways than the old Refugee Wax. Early and productive. Round pods 5 inches long, very fleshy and curved.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

#### 3528 Pencil Pod Black Wax

(Round Pod). The best of the black-seeded wax varieties. Early. Pods large, round,  $6\frac{1}{2}$  to 7 inches long, straight and entirely stringless.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

#### 3529 Round Pod Kidney Wax

(Round Pod). Also called Brittle Wax. An excellent variety that deserves much attention. Produces handsome pods 5 to 6 inches long, bright, rich yellow in color and absolutely stringless. For table use this variety is hard to equal, its tender fleshy, yet brittle pods are of the finest quality and are freely produced. Seeds are white with brownish-black eye.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

Inoculate Your Beans with Nitragin see page 55

## Field or Baking Beans

**3552 New Robust** The best white bean for baking. Also called "1000 to 1" Field Bean. The dry beans are the same shape and color as the popular Boston Pea Bean, but it has been proven by Experimental Stations that the New Robust out-yields all other white beans.  $\frac{1}{4}$  lb. 10c; lb. 30c; 3 lbs. 75c.

**3555 White Marrow** Large, plump, oval-shaped, white beans for baking. Vigorous vines that are very productive of the highest quality beans.  $\frac{1}{4}$  lb. 10c; lb. 30c; 3 lbs. 75c.

**3553 White Kidney** Also called Royal Dwarf. Produces large upright plants, bearing plenty of pods, which are dark green and about 6 inches long. Seed large, white, kidney-shaped and of excellent quality. Use as green, shelled or dry.  $\frac{1}{4}$  lb. 10c; lb. 30c; 3 lbs. 75c.

**3554 Red Kidney** Quite like White Kidney except that the beans are deep red in color.  $\frac{1}{4}$  lb. 10c; lb. 30c; 3 lbs. 75c.

New Wonder Bush Lima

# Pole or Cornhill Beans

**CULTURE**—Same as bush lima beans except that they must be provided with something to climb upon. If planted in hills, poles will answer the purpose, or if planted in rows a continuous wire or heavy twine trellis is good. Pole Beans yield many more pods per plant than dwarf varieties. One pound will plant 100 hills.

**3557 Kentucky Wonder** or **Old Homestead**. The most satisfactory of all the green podded Pole Beans. Early, wonderfully prolific, bearing continually until frost. Long pods in clusters. May be planted with corn.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

**3563 Kentucky Wonder Wax** One of the earliest and most productive of the wax Pole Beans. Pods  $7\frac{1}{2}$  to 8 inches long, thick, fleshy and brittle. Light yellow, seed chocolate brown.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3558 Golden Cluster Wax** A splendid Wax Pole Bean. Pods 6 to 8 inches long, golden yellow, thick, fleshy and stringless. White seeded.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3559 Lazy Wife** Popular for snaps, shell beans or for beans for winter use. The pods are borne in clusters, long, broad, thick, fleshy, green pods, white seed.  $\frac{1}{4}$  lb. 15c; lb. 40c; 3 lbs. \$1.00.

**3561 Horticultural Cranberry Wren's Egg**. Used for shell beans, either green or dry. Dry seed speckled.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3562 Yard Long** Asparagus Bean. An interesting novelty from the old country. Long, slim, round pods, often 2 to 3 feet long. The pods are edible. Pkt. 10c.

Golden Cluster Wax Bean

## Beets

**GROW YOUR OWN BEETS**—Root crops give more food value for the space occupied than any other vegetable. Beets are the most popular of all root crops. Beets may be stored for winter use. Best of all, the small beets pulled and used soon after, are much sweeter and more tender than any you could buy. Try some buttered tender baby beets from your own garden this year. Make at least two plantings of beets so that you have plenty for early use and for winter storage as well.

**3576 Detroit Dark Red** The most popular of all beets. Detroit makes a beautiful appearance served on the table or bunched for market, as it retains its deep red color. A big cropper with small upright tops, permitting close planting. The roots are globe shaped, see picture at left. Skin and flesh dark, blood red with very little lighter zoning. An excellent winter keeper. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 50c; lb. \$1.25.

Detroit Dark Red

### 3578 Perfected Detroit

An improved strain with which we are coming close to perfection in uniformity of size and shape of roots and extreme depth of color. Pkt. 15c; oz. 25c;  $\frac{1}{4}$  lb. 65c; lb. \$1.75. All American 1934.

**3571 Early Wonder** A fine beet for extra early or very late planting as it produces edible roots quickly. Slightly more rounded than Crosby's Egyptian. Color of flesh is deep red, zoned with lighter red. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 50c; lb. \$1.25.

Early Wonder—Best Early Beet

**3579 Extra Early Egyptian** One of the very earliest, especially valuable for forcing for early market. Tops small, roots distinctly flat and moderately thick. Flesh dark red with lighter zones. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.00.

**3580 Edmand's Blood Turnip** Roots nearly round, dark red. Flesh purplish-red with very little zoning. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.00.

**3573 Crosby's Egyptian** An improved strain of old Egyptian and now the standard for early market. The roots are flattened globe shaped (see picture below). Skin deep red, flesh slightly zoned. This strain of Crosby's Egyptian is suitable for the most critical market gardeners planting. Much extra work has been done on this to perfect uniformity in shape and color of roots. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 50c; lb. \$1.25.

## Broccoli, Hardy Cauliflower

**3601 Large White Broccoli** A vegetable very similar to Cauliflower, but harder and less particular of conditions. Produces large white compact heads, tender and of delicate cauliflower flavor. Grow like Cauliflower. Pkt. 10c; oz. 35c;  $\frac{1}{4}$  lb. \$1.25; lb. \$4.00.

Italian Green Broccoli

### 3602 Italian Green Sprouting

A distinct variety and a vegetable that has become very popular. Served as Asparagus it is very tasty, some considering it better than Cauliflower, yet it is easier to grow than Cauliflower. Grows quickly producing a cauliflower-like bluish green head in about 90 days. After the head is removed the plant produces branches bearing smaller terminal heads, which may also be used. Pkt. 10c; oz. 35c;  $\frac{1}{4}$  lb. \$1.25; lb. \$4.00.

Crosby's Egyptian

## Mangel Beets for Poultry and Stock

Sludstrup

**QUANTITY OF SEED.** One ounce should sow a 75 to 100 ft. row. 5 to 6 pounds an acre.

**3586 Mammoth Long Red** The heaviest yielding of all mangels, often 2 $\frac{1}{2}$  ft. long and very heavy. Grows half out of ground, easy to harvest. Oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

**3589 Danish Sludstrup** Produces large oval orange colored roots that grow more than half above ground. Flesh white tinged yellow and of extremely high sugar content. An unusually valuable dairy beet. Oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

**3588 Giant Half Sugar** The richest of all mangels in sugar content and feeding value. Ready to harvest earlier than others. Skin rose colored; flesh white. Oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

## Brussels Sprouts

### 3612 Long Island Improved

Small heads of delicious quality are abundantly produced along the stem, the plants growing about 2 ft. high. Cultivate same as late cabbage. Produces tender little heads from October to December. Pkt. 5c; oz. 30c;  $\frac{1}{4}$  lb. 90c; lb. \$2.50.

Brussels Sprouts

## Swiss Chard or Spinach Beet

No other vegetable will produce more nutritious greens from a small space than Swiss Chard. It grows rapidly forming large leaves with broad flesh stems and mid-ribs. Sow the seed in April or May and thin the plants out to stand 1 $\frac{1}{2}$  ft. apart.

**3596 Lucullus** Has very large heavily crumpled, thick leaves and creamy white stalks. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

**3597 Large White Ribbed Dark Green.** Has enormous leaves not quite as crumpled as Lucullus and pearly white stalks extremely thick and broad. Pkt. 5c; oz. 20c;  $\frac{1}{4}$  lb. 15c; lb. \$1.25.

Swiss Chard

Good Beet Seed is scarce this year. Ask for quantity prices.

Early Jersey Wakefield

leaves allows close planting so many heads can be grown in small space. Has a pleasing flavor, distinct from the round head varieties and we strongly recommend it for the home garden. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

**3616 Golden Acre** The earliest round headed variety, forming a good solid round head one week earlier than Copenhagen market. Absence of large outer leaves permits close planting. Pkt. 10c; oz. 35c; ¼ lb. \$1.10; lb. \$3.25.

**3620 Just Right** All-American 1935 Special Mention. A first early, flat-tish round, short stemmed variety. See Page 43. Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ lb. \$2.00; lb. \$6.00.

**3631 Penn State Ballhead** All-American 1934 Award of Merit. Short stemmed variety, large, hard, solid, blue-green flattened globe. See Page 43. Pkt. 10c; ½ oz. 30c; oz. 50c.

**3619 Copenhagen Market** The standard early round variety, only a few days later than Wakefield, but much larger and heavier. Heads averaging 8 to 10 lbs. each. Very compact in habit, with few outer leaves, which permit close planting. Earliness, compact growth, large heads and superior quality have made this cabbage very profitable. Pkt. 8c; oz. 25c; ¼ lb. 80c; lb. \$2.50.

**3621 Glory of Enkhuisen** A round, solid head and early but about one week later than Copenhagen Market. Matures in about 90 days. A very profitable cabbage both for the early market and for Fall use. Desirable variety for Kraut making. Heads medium sized, close leaved and very good keepers. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

Copenhagen Market

## Red Cabbages

**3636 Red Delicious** Early. This is the earliest of all red cabbages and yet it has hard, solid heads, round and very uniform. A delicious cabbage to eat and attractive in color. Pkt. 10c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.50.

**3637 Mammoth Rock Red** Late. The largest and surest heading late Red Cabbage. Deep red in color at the heart. Large, vigorous plant, very hardy with medium length stem. A favorite for coldslaw. Pkt. 5c; oz. 25c; ¼ lb. 80c; lb. \$2.50.

## Chinese Cabbage

While not a true cabbage this vegetable is as easily grown as the true cabbage, and is considered by many superior in quality. It resembles celery to some extent in its habits of growth as well as in flavor. Much esteemed for salads. Sow either early for spring crop or in late summer for fall crop.

Chihli

**3648 Chihli** Produces a long slender head 15 to 18 inches tall, solid and crisp. This is a self-folding variety and hearts are well blanched tender and sweet. Early and very sure heading. Superior to Pe-Tsai. Pkt. 8c; oz. 30c; ¼ lb. 90c; lb. \$2.50.

**3647 Wong-Bok** Shorter and much thicker heads only 8 to 10 inches long, but firm and tightly folded. The thick hearts are full, crisp, and tender and of excellent quality. A self-folding variety. Much esteemed for salads. Pkt. 5c; oz. 25c; ¼ lb. 75c; lb. \$2.25.

# Cabbage—Selected Strains

Many inferior strains of Cabbage are offered on the market at low prices because prices on the super-selected strains seem high. However, in Cabbage seed, the best is the cheapest in the long run. Therefore, we offer only the highest quality that it is possible to obtain from the most reliable growers.

**CULTURE**—Sow the seed of early varieties in hot beds or boxes indoors in February and March, transplanting to the open ground in April and May at which time seed of the mid-season varieties may be sown for later transplanting. Seed of the late varieties should be sown in good garden ground early in May and transplanted later. Cabbage should stand 18 to 24 inches apart in rows 30 to 36 inches apart. Cabbage should be thoroughly cultivated throughout the season.

**QUANTITY OF SEED.** An ounce should produce about 2,500 plants, ¼ lb. enough for one acre.

## Early Cabbages

**3617 Early Jersey Wakefield** This is the most popular of the pointed heads. It forms an edible head very early, about the same as Golden Acre in season. The absence of large spreading outer leaves allows close planting.

**3616 Golden Acre** The earliest round headed variety, forming a good solid round head one week earlier than Copenhagen market. Absence of large outer leaves permits close planting. Pkt. 10c; oz. 35c; ¼ lb. \$1.10; lb. \$3.25.

**3620 Just Right** All-American 1935 Special Mention. A first early, flat-tish round, short stemmed variety. See Page 43. Pkt. 10c; ½ oz. 35c; oz. 60c; ¼ lb. \$2.00; lb. \$6.00.

**3631 Penn State Ballhead** All-American 1934 Award of Merit. Short stemmed variety, large, hard, solid, blue-green flattened globe. See Page 43. Pkt. 10c; ½ oz. 30c; oz. 50c.

**3619 Copenhagen Market** The standard early round variety, only a few days later than Wakefield, but much larger and heavier. Heads averaging 8 to 10 lbs. each. Very compact in habit, with few outer leaves, which permit close planting. Earliness, compact growth, large heads and superior quality have made this cabbage very profitable. Pkt. 8c; oz. 25c; ¼ lb. 80c; lb. \$2.50.

**3621 Glory of Enkhuisen** A round, solid head and early but about one week later than Copenhagen Market. Matures in about 90 days. A very profitable cabbage both for the early market and for Fall use. Desirable variety for Kraut making. Heads medium sized, close leaved and very good keepers. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

Drumhead Savoy

## Disease Resistant Cabbage

In sections where Cabbage "Yellows" is damaging, it pays to plant strains bred for disease resistance. The seed of the two disease-resistant varieties listed below, is gathered from plants grown on diseased soil and which proved immune.

**3623 Marion Market** Early. This is the disease-resistant Copenhagen Market. It is a few days later but otherwise it has all the good points of that variety. Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.10; lb. \$3.50.

**3629 Wisconsin No. 8 Hollander** Late. A "Yellows" disease-resistant strain of the popular Hollander, being slightly larger and more leafy than the parent. The heads are round or somewhat flattened and more solid, with splendid keeping qualities. Especially valuable in sections where cabbage plants are effected by "Yellows" disease, as it is practically 100% immune. Pkt. 10c; ½ oz. 18c; oz. 30c; ¼ lb. \$1.00; lb. \$3.00.

## Cauliflower

Many inferior strains of Cauliflower are offered on the market because prices of the best super-selected strains seem high. However in Cauliflower seed, the best is by far the cheapest in the long run and we offer you only the best that our growers can produce. We could have Cauliflower seed grown for us at half the prices but you would not get half as good results.

**CULTURE**—Cauliflower is grown much the same way as early Cabbage, the seeds started in hotbeds or boxes in February or early March. An extra transplanting into other boxes or cold frames before setting outdoors is beneficial. In these set 2 inches apart each way. When the heads begin to form gather the outer leaves and tie together to protect from the hot sun.

**QUANTITY OF SEED.** One ounce will produce 2000 plants, 5 ounces an acre.

## 3651 Early Snowball, Temley Strain

Snowball is the earliest and best for the home gardener who has rich, moist soil, for market and for the greenhouse grower. The plants are compact, with closely growing outer leaves, heads solid, medium large and snowy white. Pkt. 15c; ¼ oz. 30c; ½ oz. \$1.00; 1 oz. \$1.75; 2 ozs. \$3.25; ¼ lb. \$5.50.

## 3652 Dry Weather or Danish Giant

This is a valuable strain that possesses the quality of forming good heads on dry soil and during stretches of dry weather, when other varieties fail. The head is beautiful, large, snow white and is protected by large leaves making it easier to "whiten" than Snowball. Only a trifle later than Snowball, perhaps not quite as good for greenhouse growing, but a wonder for the open ground. A sure header. Pkt. 12c; ¼ oz. 30c; ½ oz. \$1.00; 1 oz. \$1.75; 2 ozs. \$3.25; ¼ lb. \$5.50.

## Late Cabbages

**3626 Danish Ballhead** For quality, no other winter cabbage equals Ballhead. It is a sure header, very heavy, solid and fine grained. Always brings the highest market prices. One of the best keepers, coming out of the pit in March or April fresh and solid. This is the short stemmed strain which is considered the most desirable. Pkt. 8c; oz. 25c; ¼ lb. 80c; lb. \$2.50.

**3641 Drumhead Savoy** Many consider Savoy the finest quality of all cabbages. The leaves are finely curled and the heads solid. If you have never grown Savoy Cabbage, try it this year, you'll like it immensely. Pkt. 5c; oz. 25c; ¼ lb. 80c; lb. \$2.50.

**3630 Early Flat Dutch** An early and especially fine Flat Dutch, 10 days to 2 weeks earlier than Premium Flat Dutch. Heads are round, flat and very solid and average a little smaller than the Premium Flat Dutch. It is a very good keeper. Stems are of medium length. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

**3628 Premium Late Flat Dutch** Probably more largely grown than any other late variety, because everybody knows it is always reliable. Uniform, large flattened heads of fine quality and a good keeper. Largely grown to supply Kraut factories. Beats all others in tonnage per acre. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

**3622 All Head Early** As early as most of the early summer cabbages; the deep, flat heads are remarkably solid and uniform in color as well as in shape and size. Also makes a fine winter cabbage if planted late and a splendid sort for kraut-making. Pkt. 5c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

Premium Late Flat Dutch

## 3742 Chives

A small perennial plant of the onion family, readily propagated from seed. The leaves have a delicate onion flavor and are much used in salads and for flavoring soups, stews, etc. Plant forms a small clump which produces an abundance of foliage for frequent cutting. Pkt. 10c; ¼ oz. 30c; oz. \$1.00.

## "French Endive" or

## 3739 Witloof Chicory Winter Salad.

This French Endive or Witloof Chicory is a most delicious and appetizing salad and is easily grown. Sow the seed in the open June 1st and lift the roots in the fall. For forcing, pack the roots closely together in boxes and cover with 6 inches of sand or light earth, water and place near heater to keep warm. When sprouts break through the surface, they are ready for the table. Serve with French dressing. Pkt. 10c; oz. 40c; ¼ lb. \$1.20.

Early Snowball Cauliflower

Chantenay

Scarlet Nantes

## Carrots

### Grow Your Own and Enjoy Their Lusciousness

Carrots deserve a space in your garden. In fact make several plantings so that you can have some early, midseason and late.

**CULTURE**—For the earliest crop sow seed in April, as soon as the soil is in good workable condition. Later plantings can be made in May and June. The soil should not be heavily fertilized, especially with manure. Cover the seed about  $\frac{1}{2}$  inch deep, spacing the rows 12 to 16 inches apart. It is important to thin the plants to stand not closer than 3 inches. Give frequent hoeing and cultivation. Carrots pulled just as soon as sizeable are at their best, without a hard core.

**QUANTITY OF SEED.** One ounce should sow a 200 ft. row, 2 to 3 lbs. an acre.

**3666 Chantenay or Model** The name suits this variety as it is a model all around carrot. The illustration is typical of its shape and it is smooth, fine grained, of very good eating quality. When fully developed the roots are about 6 inches long and  $2\frac{1}{2}$  inches in diameter at the shoulder. Though a medium early variety the roots may be pulled while small so it gives you baby carrots with the earliest. An excellent fall and winter keeper. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.25; 5 lbs. \$5.50.

### 3670 Red Cored Chantenay

Also called "Coreless" Chantenay. A selection from the regular Chantenay with decidedly deeper orange color and with small, very tender cores of almost uniform color with the surrounding flesh, making it very desirable for salads or dicing. Size and shape very similar to the regular Chantenay and very uniform in size and appearance. Pkt. 8c; oz. 20c;  $\frac{1}{4}$  lb. 55c; lb. \$1.40.

### 3667 Scarlet Nantes

One of the best table carrots, tender and delicious. Nantes is half-long or stump rooted, but instead of tapering like Danvers it is cylindrical in shape and grows about 6 inches long, slender and fine looking. The flesh is orange red, fine grained and free from hard fibre or core. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 50c; lb. \$1.50; 5 lbs. \$6.75.

### 3671 Long Orange

An excellent, heavy producing, intermediate-season variety. Roots 10 to 12 inches long about  $2\frac{1}{2}$  inches broad at the shoulder, tapering regularly to a point. Color deep orange. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00; 5 lbs. \$4.25.

**3672 Imperator** A beautiful Carrot of deep, rich orange. Long, and smooth with sloping shoulders and tapered to semi-blunt end. 7 to 8 inches long. The orange flesh is tender and with indistinct core. Of excellent table quality and with the attractiveness to make it a splendid market and shipping variety. The tops are strong enough for good bunching. Pkt. 8c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.25.

All-American  
Award of Merit  
1933

**3664 Oxheart or Guerande** A splendid second early variety of short stocky shape two to three inches in diameter and with abrupt blunt tip making it an excellent variety for shallow or heavy soils. Keeps well in storage holding its quality well, and is a very heavy yielder often producing 15 to 20 tons per acre. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00; 5 lbs. for \$4.25.

**3662 Danvers Half-Long** The roots average  $1\frac{1}{2}$  inches in diameter and 5 to 6 inches long, holding their thickness well to the point. A favorite with market gardeners for bunching as size, shape, color and sweetness are ideal. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.25; 5 lbs. \$5.50.

**3668 Orange Coreless** This is a beautiful carrot for the home garden and market. In shape it is quite like Nantes but a trifle more tapering, smooth, 7 to 8 inches long and  $1\frac{3}{4}$  to 2 inches across at the shoulder. On real good deeply worked soil the roots are longer (10 to 12 inches). Color is orange red. This carrot is a remarkably good keeper, yet is tender, with a very small core (practically coreless). Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 60c; lb. \$1.65.

### 3673 Morse's Bunching

All-American  
Gold Medal  
1934

A new type developed to fill a demand for a longer and better colored bunching Carrot. Roots are almost cylindrical with rounded shoulders and well stumped, 2 inches in diameter and 9 to 10 inches long. Color deep red-orange, roots free from wrinkles. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 50c.

**3676 Mastodon or Giant White** Best and largest stock and poultry feed Carrot grown, and wonderfully heavy yielder. It grows partly out of the ground, making it easy to harvest. Oz. 10c;  $\frac{1}{4}$  lb. 30c; lb. 90c; 5 lbs. \$3.75.

Danvers Half-Long

Orange Coreless Carrot

## Celery

**CULTURE**—Sow seeds early in hotbed or cold frame. As soon as the plants are about 3 inches high, transplant to a nicely prepared bed in the border, or to boxes, setting them 4 to 5 inches apart. When about 8 inches high, and stocky, set them out 6 to 8 inches apart in rows 3 ft. apart and cultivate well during summer. Earth up for blanching in autumn, but never hoe or earth up when the foliage is moist or wet. The late crop may be set out in July.

**QUANTITY OF SEED.** One ounce should produce 5000 to 7500 plants, 4 ounces enough plants for an acre.

**3686 Golden Detroit** A selection from Dwarf Golden Self-Blanching which brings out the good points of that variety and eliminates the faults. Plants heavy, compact and full hearted. Especially valuable for shipping. Pkt. 10c;  $\frac{1}{2}$  oz. 30c; oz. 50c;  $\frac{1}{4}$  lb. \$1.50.

**3681 Golden Plume or Wonderful** Golden Plume or Wonderful is really a wonderful new celery. It grows quickly, produces semi-dwarf, heavy stalks, thicker than Self-blanching, with a well blanching solid heart. The color is a beautiful golden, and the flavor is par excellence. Not a winter keeper or long shipper, but excellent for nearby markets and home garden. Pkt. 10c;  $\frac{1}{2}$  oz. 30c; oz. 50c;  $\frac{1}{4}$  lb. \$1.50.

**3682 Dwarf Golden Self-Blanching** Original Strain. It is of dwarf compact growth, with thick, heavily ribbed stalks, which blanch easily to a clear waxen yellow. More extensively grown for both home and market than any other variety. Original strain, best quality. Pkt. 5c;  $\frac{1}{2}$  oz. 25c; oz. 40c;  $\frac{1}{4}$  lb. \$1.25; lb. \$1.00.

Giant Paschal

**3684 White Plume** The earliest and most easily blanched celery in cultivation, hence its popularity. Foliage light green shading to nearly white at tips. Blanching silvery white. Pkt. 5c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.50.

**3685 Giant Pascal** A standard fall and winter variety of vigorous, compact growth. Stalks short, thick and broad. Excellent quality for home use, but too tender to stand shipping. Golden yellow heart, and fine nutty flavor. Pkt. 5c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.

**3693 Celeriac, Large Smooth Prague** Turnip-rooted Celery. The large, solid, turnip-like roots are highly esteemed for serving like parsnips or turnips or flavoring soups, etc. For winter use store same as turnips. Pkt. 5c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.50.

Golden Plume

Celeriac

## Cress

**3749 Cress Curled or Pepper Grass.** Grown extensively as a small salad plant. Sow thickly in rows 1 ft. apart. Ready for table in 30 days so make successive sowings. The leaves are finely cut and feathery with a very refreshing pungent flavor. Pkt. 10c; oz. 15c.

**3750 Water Cress** A hardy perennial water plant, the leaves of which are used for salads or garnishing. May be grown in a stream of water or small pond. Full directions are printed on each packet. Pkt. 10c;  $\frac{1}{2}$  oz. 25c; oz. 40c.

**3746 Corn Salad or Fetticus** A delicious salad plant for late fall, winter or spring use. The plant somewhat resembles Spinach, and is just as easy to grow, being of quick growth and hardy. The leaves form a compact rosette. The leaves are made tender by frost. Serve as Lettuce, or cook like Spinach. One ounce will sow a 50 foot row. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 60c.

**3781 Dandelion Improved Thickleaved** This sort is much better than the common cultivated Dandelions, being very thick in leaf and of a deep green color. Grows into an upright compact tuft of leaves, easy to bunch and tie for blanching. Pkt. 10c; oz. 50c;  $\frac{1}{4}$  lb. \$1.50.

Early Mayflower

**3712 Kingcrost Golden Bantam** See Novelty page 43. All-American 1934.

**3700 Golden Bantam** The good quality of Golden Bantam is too well known to need long description. Our sales of the past few years show it to be the most popular variety we list. Ears 6 inches long, with 8 rows of broad kernels as sweet as honey.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3708 Golden Giant** This valuable Golden Sweet Corn was introduced to combine size and earliness. It is a cross between Golden Bantam and Howling Mob, producing heavy stalks, usually carrying two 12 to 14 rowed ears.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.00.

**3697 Wonder Bantam** A larger, more prolific type of the favorite Golden Bantam. Ears are 8 to 10 inches long and are borne higher on a sturdy stalk.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.00.

**3710 Whipple's Early Yellow** This variety is shown on the front cover. Ears large, 8 to 10 inches long having 14 to 16 rows of deep, tender kernels of very fine eating quality. Ready to use only a few days later than Golden Bantam—larger eared and more productive.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.15.

**3719 Golden Evergreen** The product of a cross between Golden Bantam and Stowell's Evergreen, this variety combines the fine flavor and quality of the Bantam with the size and uniformity of the Evergreen. Producing 7 to 8 inch ears of 12 to 14 rows of rich golden yellow kernels.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.15.

Japanese Hulless

## Pop Corn

**CULTURE**—Grown like Sweet Corn, but may be planted closer in the row, or hills 18 to 24 inches apart. Allow the ears to mature thoroughly before cutting. Store on the ear in a cool attic or barn, away from rats or mice. One pound will plant 500 to 600 hills.

**3726 Japanese Hulless** Australian Hulless or Tom Thumb. A dwarf-growing corn, a heavy yielder of attractive ears, peculiar in form, being nearly as thick as long. The kernels are similar to the best strain of White Rice, only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality, fine flavor and absence of hull or shell. Seed Stock.  $\frac{1}{4}$  lb. 10c; lb. 25c; 3 lbs. 65c.

**3732 South American Mushroom** Also called T.N.T. or Dynamite. A sensational new variety of Pop Corn, that has met with immediate popularity. Of vigorous growth, 6 to 8 feet tall producing two and often three ears, 8 to 9 inches long of deep orange kernels, smooth and round, which pop larger than any corn known, and of a rich creamy yellow, deliciously tasty. Seed Stock.  $\frac{1}{4}$  lb. 10c; lb. 25c; 3 lbs. 65c.

**3734 Golden Baby Rice** or Golden Hulless. An excellent small-kernelled variety of pop corn which pops entirely hullless, large and flaky. Of finest quality and flavor. Ears medium short and stocky with closely arranged kernels of a rich golden yellow color. Seed Stock.  $\frac{1}{4}$  lb. 10c; lb. 25c; 3 lbs. 65c.

**3728 Mammoth White Rice** Standard white variety, early and heavy yielding but in quality, superseded by Japanese Hulless, Seed Stock.  $\frac{1}{4}$  lb. 5c; lb. 25c; 3 lbs. 65c.

**3730 Queen's Golden** Standard yellow kernelled variety that pops out creamy white. Seed Stock.  $\frac{1}{4}$  lb. 10c; lb. 25c; 3 lbs. 65c.

## Sweet Corn

**DO YOU KNOW WHY HOME GROWN SWEET CORN ALWAYS TASTES BEST?** Because within a few hours after the tender ears are pulled off the stalk they begin to lose their sugar and they rapidly deteriorate in flavor. You can seldom buy absolutely fresh sweet corn—so unless you have grown your own, you probably do not realize how deliciously sweet it can be.

**Culture.** A constant supply of sweet corn may be had from your garden by planting a succession of early, midseason and late varieties and by planting each of the kinds every week or ten days. Plant after all danger of frost is past and the ground is warm, in rows 2 to 3 feet apart and 8 to 10 inches apart in the row. Corn likes frequent cultivation until the ears are formed.

**Quantity of Seed.** 1 lb. will plant about 300 hills or 400 to 500 feet of row. 12 to 15 lbs. will plant an acre.

**3713 Bradley's Golden Early Market** The earliest large true sweet corn of golden color. The ears are of good size, 12 rows, 7 to 8 inches long, well filled with broad butter-yellow kernels. Plenty of good qualities—early, yellow, large and delicious.  $\frac{1}{4}$  lb. 15c; 1 lb. 45c; 3 lbs. \$1.15.

## Yellow Varieties

**3705 Golden Gem** The earliest yellow or golden eared corn, being one week earlier than Sunshine, of more dwarf habit and producing a sweet, 8 rowed ear equal in size to Golden Bantam, although two weeks earlier.  $\frac{1}{4}$  lb. 15c; lb. 50c; 3 lbs. \$1.25.

**3701 Early Golden Sunshine** Has good sized 12 rowed ears 7 to 8 inches long and is one week to 10 days earlier than Bantam. Sunshine was developed at North Dakota Experiment Station, where earliness and hardiness are necessary qualifications.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.00.

Tempting Ears of Country Gentleman Corn

## New Hybrid Sweet Corns

We are now able to offer for the first time, new strains of Hybrid Sweet Corn that are the results of many years of experimental crossing and breeding.

### Increase Yields 50% or more

The advantages to you in planting Hybrid Corns are briefly as follows: They produce vigorous sturdy and disease resistant plants, no weak plants, no nubbins. These desirable features enable this kind of corn to outyield the standard varieties under all sorts of conditions.

The stalks are very uniform and there is a much larger proportion of marketable ears of even size and shape. The uniformity and vigor of the plant growth means uniform maturity so that the gardener can harvest the crop with a minimum of immature or over ripe ears.

We recommend the following varieties:

**3699 Golden Cross Bantam** A true hybrid produced by the Purdue Experimental Station. The stalks are sturdy. Ears  $7\frac{1}{2}$  to 8 inches long, 10 to 12 rowed and are extremely uniform. Highly resistant to Stewart's disease.  $\frac{1}{4}$  lb. 15c; 1 lb. 50c; 3 lbs. \$1.25.

**3707 Top Cross Sunshine** A much improved strain of Sunshine. Not quite as early as standard Sunshine but a few days earlier than Golden Cross Bantam. Produces a 12 rowed ear of excellent quality.  $\frac{1}{4}$  lb. 15c; 1 lb. 50c; 3 lbs. \$1.25.

**3706 Top Cross Bantam** See Novelty page 43

**3712 Kingcrost Bantam** See Novelty page 43

**Listing of Varieties.** We have listed all the varieties of sweet corn in the order of earliness. Of course the length of time from planting to the edible stage varies with conditions, but the listing is as accurate as possible.

## White Varieties

**3696 Early Mayflower** The ears are surprisingly large for an early variety, averaging 10 rows of the tender sweet kernels and about 7 inches long. It is of excellent quality.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.00.

**3698 Mammoth White Cory** The old favorite

extra early sweet corn. Ears 10 to 12 rowed, 7 to 8 inches long, fairly sweet, tender and white. Stalks about 4 feet high, usually producing two nice ears on each stalk.  $\frac{1}{4}$  lb. 10c; lb. 30c; 3 lbs. 80c.

**3711 Howling Mob** A large eared, early corn of fine quality. Usually producing two ears on stalk. Ears 7 to 9 inches long with 12 to 14 rows of kernels. Pure white and very sweet.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3709 Black Mexican** By many considered the tenderest and sweetest of all. Cooks pure white while young and tender, turning to bluish-black when ripe. Ripens medium early.  $\frac{1}{4}$  lb. 12c; lb. 35c; 3 lbs. 90c.

**3720 Early Evergreen** A very desirable home and market garden sort about one week earlier than Stowell's Evergreen. Ears average  $7\frac{1}{2}$  to 8 inches long, with 14 to 16 rows of white kernels, deeper and slightly narrower than Stowell's.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.00.

**3716 Country Gentleman** Or "Shoe Peg." A well known variety which is par excellence when quality is desired. The kernels are so deep that there is little room left for cob. Market gardeners who supply hotels and high class restaurants depend on this for their main crop. The ears are 6 to 7 inches long, small white cob.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.15.

**3718 Stowell's Evergreen** Select Strain. The standard main crop variety, much used for the home garden, market and canning. It is very tender and sugary, remaining in condition a long time. Our stock is the true deep, broad kernelled strain.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.15.

## Egg Plant

**CULTURE**—Egg plant likes rich moist soil. Start seed early in hot beds or boxes and transplant once before setting out in the open ground, which should not be until the ground is thoroughly warm. In the garden the plants may be set 2 feet apart in the rows which are  $2\frac{1}{2}$  to 3 ft. apart.

**QUANTITY OF SEED.** One ounce should produce 1500 to 2000 plants, 4 ounces enough for an acre.

**3784 New York Spineless** The best main crop variety about 10 days later than Black Beauty, but larger and more prolific. Each plant often bears 8 to 10 nice "Eggs" of deep rich purple. Fruits perfectly spineless. Our strain of seed is of Superfine Quality. Pkt. 10c;  $\frac{1}{4}$  oz. 18c; oz. 50c;  $\frac{1}{4}$  lb. \$1.50.

**3785 Black Beauty** The earliest good variety, so best for the Northern States. A dwarf growing variety bearing fruits 2 to 3 lbs. in weight. Holds the dark purple color for a long time. About 10 days earlier than New York and not quite as large. Pkt. 10c;  $\frac{1}{4}$  oz. 18c; oz. 50c;  $\frac{1}{4}$  lb. \$1.50.

\$2.00 or more—It will help you.

## Cucumbers

**DO YOU LIKE SLICED CUCUMBERS IN HOT WEATHER?** When you can go out in your garden and pick a few nice slicers just before meal time, they taste ever so much better than those purchased outside.

**CULTURE**—A light warm soil is best for Cucumbers, although they will do very well in most any good well drained garden soil. After all frost danger is past sow the seed in hills 4x4 or 4x6 feet apart. Cover  $\frac{1}{2}$  inch deep planting 8 to 10 seeds in each hill. Later when the danger of insects is over remove all but 3 or 4 of the strongest plants.

**QUANTITY OF SEED.** One ounce should plant about 50 hills, 2 lbs. an acre.

Splendid  
Slicer

A Basket of Improved White Spine

Extra Long Green Cucumber

## Best Pickling Cucumbers

**3780 National Pickling** A superior strain of pickling cucumber developed by the Michigan Agricultural College under the supervision of the National Pickle Packers Assn. Fruits straight and symmetrical, 6 inches long when mature. Pkt. 10c; oz. 25c;  $\frac{1}{4}$  lb. 80c; lb. \$2.50.

**3775 Jersey Pickle** Very prolific and exceedingly popular. Largely planted for pickles. The fruits are short, smooth, light green and of excellent quality. We recommend Jersey Pickle for the home garden, as it is a good slicer as well as a pickler. Has tapering ends. Pkt. 8c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.

**3776 Chicago Pickle** Meets the most exacting requirements of critical pickle makers. It is the right size, shape and color, and is a heavy yielder. Has square ends. Pkt. 8c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.

**3774 Express Pickler** Express is the earliest picking cucumber, bearing a remarkable number of small uniform fruits. Only  $3\frac{1}{2}$  to 4 inches long when fully grown. Pkt. 8c; oz. 25c;  $\frac{1}{4}$  lb. 80c; lb. \$2.50.

**3777 Boston Pickle** Green Prolifer. A short fairly smooth symmetrical variety, extremely early and productive. Pkt. 10c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.

Hybrid White Spine

**3756 Improved White Spine** The standard and universally satisfactory variety more extensively grown than any other. Normal size 6 to 7 inches long and  $2\frac{1}{2}$  inches in diameter. Pkt. 5c; oz. 20c;  $\frac{1}{4}$  lb. 70c; lb. \$2.00.

**3758 Davis Perfect** Long, slim, smooth and especially attractive for its dark green color. Fruit 10 to 12 inches long and the tender, sparkling, white flesh makes it most desirable for slicing for the table. Pkt. 8c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.50.

**3761 Early Fortune** The fruits are of good length, rich dark green, well shaped and with thick white flesh and small seed cavity. A great improvement over White Spine in length and color, retaining its color long after picking. Pkt. 10c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.

**3762 Long Green Improved** A model in size, form and color. Uniformly long and smooth, deep green in color. A money maker for the market gardener and a universal favorite for home use. Fruit 12 to 15 inches long, flesh solid and crisp with few seeds. Extensively planted as a pickling variety as well as a slicer. Pkt. 10c; oz. 30c;  $\frac{1}{4}$  lb. 90c; lb. \$3.00.

Chicago  
Pickle

Cucumber Longfellow

## Endive

**3794 Green Curled** The best known variety. Highly prized as a salad during autumn and early winter. Also may be served like Spinach. Seeds should be sown in July and transplanted in rows in last of August. For early summer use, sow seed in early spring. Blanching may be done by tying up the outer leaves or by covering with straw. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 45c; lb. \$1.25.

**3795 Batavian Broad Leaved** Full Hearted. Escarole. Broad, deep green waved leaves and thick creamy white midribs. Inner leaves form a cluster head which blanches white, crisp and tender. A distinctly improved type of Batavian with very compact full heart of fine quality. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 45c; lb. \$1.25.

Green Curled Endive

## Kale or Borecole

**3826 Dwarf Green Curled** Quickly grows a mass of tender fleshy green leaves that are popular for boiling greens. The plant is quite hardy and freezing seems to improve the quality. The plants with their moss curled, rich green leaves are ornamental to the garden also. Start some seed in early spring and another planting in midsummer. Pkt. 8c; oz. 12c;  $\frac{1}{4}$  lb. 35c; lb. \$1.10.

**3827 Tail Green Curled Scotch** Produces an abundance of dark green heavily curled and wrinkled leaves of excellent quality. Grows 24 to 30 inches tall. Pick the lower leaves as they mature allowing plant to grow on to furnish a continuous supply. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.25.

Kale, Dwarf Green Curled

for  
**Vegetable Planting**  
See Page 42

## Kohlrabi Turnip-Rooted Cabbage

Forms turnip-like bulbs on the stem above the ground. These grow quickly and should be used while young and tender when they are very sweet and nutritious. Simply sow in rows covering  $\frac{1}{2}$  inch deep, and thin the plants to stand 6 or 8 inches apart.

**3831 Early White Vienna** The bulbs are very light green, early and tender, with small tops—a good forcing strain. Pkt. 5c; oz. 20c;  $\frac{1}{4}$  lb. 70c; lb. \$2.00.

**3832 Early Purple Vienna** The bulbs are purple on surface; the flesh light green. A few days later than white Vienna, a little larger and more heat resistant. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 70c; lb. \$2.00.

Kohlrabi, White Vienna

Our Vegetable Seeds have been bred to grow the highest quality produce.

A single head of Grand Rapids Lettuce. Large but crisp and tender.

## Lettuce

**CULTURE**—To be of best quality, Lettuce should be quickly grown. It likes plenty of moisture and fertility and will stand cool, even quite cold soil and weather. Sow seed thickly covering  $\frac{1}{8}$  to  $\frac{1}{4}$  inch deep in rows 12 to 16 inches apart, thin as soon as well started to stand 6 to 8 inches apart. Heading varieties need slightly more room and transplanting is beneficial. Plants for extra early may be started under glass or in a box in a sunny window. Any sunny corner of the garden may be prepared early and a little lettuce started.

**QUANTITY OF SEED.** One ounce should sow about a 125 ft. row and produce around 3000 plants, 3 lbs. will produce enough for an acre.

### Curled or Loose Leafed Heading Lettuce

Creamy Hearts

New York or Wonderful

#### 3839 Extra Select Grand Rapids

(Black Seed). In our trial grounds each season this is the first lettuce to reach edible or marketable stage. The big loose heads with bright green crinkled and curled leaves are very attractive, tender and crisp. Used almost exclusively for forcing during the winter, as well as for early crops outdoors. The heads remain fresh several days. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.20.

**3840 Early Prize Head** "The Red Lettuce." (White Seed). One of the best of the thin-leaved varieties for the home garden. Leaves very large, curled or crimped, bright green, tinged with brownish-red at the edges, tender, crisp and sweet. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.20.

#### 3841 Early Curled Simpson

(White Seed). One of the most satisfactory varieties for early outdoor planting, forming large, loose heads of an attractive light yellowish green. The leaves are ruffled and curled, and always very tender. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.20.

**3842 Black Seeded Simpson** A standard variety with hunching, non-heading, crisp, light yellowish green leaves. Grows quickly and is of fine quality. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.20.

### Crisp Heading Varieties

The varieties of this group have distinct brittle or crisp glossy texture in the leaves and the leaves usually have curled edges.

Cos or Celery Lettuce

**3849 New York** (Los Angeles or Cabbage or Wonderful). White Seed. One of the largest varieties grown, forming im-

mense heat-resisting heads, during the summer months. Outer leaves dark green, but the heart blanches white, crisp and tender. This variety is shipped and sold by produce men and grocers as Iceberg. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 60c; lb. \$1.75.

**3851 Improved Hanson** White Seed. In table quality the Hanson is perfection itself, being free from bitter taste. Forms medium sized, tender, crisp heads. Leaves curly with fringed edges. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.20.

**3853 True Iceberg** White Seed. A large crisp heading variety, very firm and solid. Leaves light green, fringed and wavy with edge tipped bronze. The heart is white. Of very good flavor and excellent for home garden but not a shipping variety. Pkt. 8c; oz. 18c;  $\frac{1}{4}$  lb. 50c; lb. \$1.40.

### 3911 Mushroom Spawn

American Spore Culture, Brick Form

This spawn is produced from original spore culture under the French process which permits the indefinite reproduction of selected varieties without dilution of the strain, and free of any trace of parasitic disease. Each brick weighs  $1\frac{1}{4}$  to  $1\frac{1}{2}$  lbs. and will spawn about 10 square feet of bed. Full cultural directions are supplied with each Brick. We offer the cream white variety which is the preferred. Prices: 1 brick 45c; 5 bricks \$2.00; 10 bricks \$3.50 postpaid.

Easy To Grow

This Book  
"Modern  
Mushroom  
Culture"

by J. F. Styer  
is a modern  
work on the  
subject of mush-  
room growing.  
\$1.60 per  
copy.

Dill

**3860 Mixed Lettuce** This is certainly a bargain packet and very interesting as well. Both loose leaf and heading varieties. Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 30c; lb. \$1.00.

## Aromatic & Pot Herbs

Most of the varieties of herbs thrive best in sandy soil and some are stronger and better flavored when grown on that which is rather poor.

Sow as early as the ground can be made ready, in drills sixteen to eighteen inches apart, taking pains that the soil is fine and pressed firmly over the seed, or they may be planted as a second crop—the seeds sown in beds in April and the plants set out in June. Most of them should be cut when in bloom, wilted in the sun and thoroughly dried in the shade.

**3815 Mammoth Dill** An annual herb of foliage growing to 2 or 2½ feet. Seeds are much used for seasoning. Most popular for making Dill pickles. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 35c; lb. 90c.

**3811 ANISE.** An annual. Seeds used medicinally and in cooling cordials.

**3812 SWEET BASIL.** An annual. The leaves and tender tips used in soups, stews and sauces.

**3813 CARAWAY.** A well known herb. Seeds used in confections, cakes and also medicinally.

**3814 CORIANDER.** A hardy annual. Seed used for flavoring confections and for garnishing.

**3816 SWEET MAJORAM.** The leaves and tender shoots used for flavoring either when green or dried.

**3817 SAGE.** A hardy perennial. Leaves used either green or dried for flavoring.

**3818 SUMMER SAVORY.** The young shoots, leaves and flowers are used for seasoning, especially with string beans. Price any above Herbs: Pkt. 10c; 1 pkts. 25c.

**3810 A mixture** of the most popular varieties of Herbs. Pkt. 10c.

## Cos, Romaine or Celery Lettuce

An entirely distinct type of lettuce with stiffly upright leaves and prominent mid-ribs.

**3857 Paris White or Trianon** A medium large self-folding variety with smooth dark green leaves. Heads compact and solid with well blanched interior. Crisp, sweet and tender. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.25.

#### 3909 Mustard Southern Giant Curled.

This Mustard grows nearly 2 feet high and has fine curled leaves which are very tasty for salad. This is the variety that is so popular in the South for fall planting and is much used for winter and spring greens. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 35c; lb. 90c.

#### 3912 Mustard Spinach "Tendergreen"

A Japanese plant of the mustard family which has become popular with gardeners for its extremely quick production of edible crop of excellent, mild, tender, mustard-like greens. The large green leaves are ready for use in 4 weeks from planting of seed, and are prepared and used the same as Mustard or Spinach greens. A planting every three or four weeks will insure a continuous supply of greens throughout the season. Pkt. 10c; oz. 15c. Also listed under Spinach.

#### 3861 American

**Flag Leek** This vegetable belongs to the onion family and is a fine fall and winter substitute for green onion. The leaves are flat and the stems large and hullous. Pkt. 8c; oz. 15c;  $\frac{1}{4}$  lb. 50c; lb. \$1.50.

## Tuberous Rooted Begonias

Read what Mr. Martin Said

Salamanca, N. Y.  
"Templin-Bradley Co. August 31st.  
Gentlemen:—

The dozen Mixed Tuberous Rooted Begonia Bulbs I bot from you last spring have been just as full of flowers as it is possible for them to be for several weeks. Several measured six inches across. No two colors alike, surely a gorgeous lot. We are surely more than pleased.

A. W. Martin."

# Muskmelons—Cantaloupes

**CULTURE**—Muskmelons delight in warm, rather rich soil, and it will pay you to dig in each hill a shovelful of well rotted manure. Do not start outside until the soil and weather are warm—for extra early crops plant some seed in the hotbed or window box. When it is warm enough to plant outside make the hills 3x4 ft. apart. Put ten or a dozen seeds in each hill, covering about 1 inch, and when the plants are well up thin to three or four plants.

Melons left on the vines until they are dead ripe are immeasurably better than any you can buy in the stores. When ready the melons should be a little soft and they will part readily from the stem.

**QUANTITY OF SEED.** One ounce will plant about 60 hills, 2 to 3 lbs. an acre.

## 3864 Golden Lake Champlain

The Golden Lake Champlain is without question the earliest yellow fleshed melon on the market today. Its vigorous growth, productiveness, hardness and good quality have been proved beyond any doubt. The flesh is golden yellow, deep and so temptingly sweet. In shape nearly round—medium size and heavily netted. Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Golden Champlain

yellow, deep and so temptingly sweet. In shape nearly round—medium size and heavily netted. Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

**3865 Golden Hearts** Here is a melon to make your mouth water, the deep golden salmon flesh is so sweet. The melon is medium small, the size much in demand for the fancy hotel trade, averaging 5 to 6 inches in diameter, yet heavy because of the thick flesh and small seed cavity. It ripens right down to the rind. Often there will be as many as twelve melons to the vine. Pkt. 10c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Golden Hearts

Just the right size for the table

**3866 Emerald Gem** Grows just the right size for your table, and is sweet as honey. The melon is not large, but very prolific and early. In shape it is round, slightly flattened at the ends. Skin emerald green under the netting. Flesh bright orange-yellow. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

## 3876 Imperial Muskmelon

All-American  
Award of Merit  
1935

A luscious new melon with orange flesh, netted yellow fruit of Rocky Ford size and of excellent flavor and texture. It can be vine-ripened and still keep indefinitely, making it a splendid melon for both home and market gardeners. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

Halbert's Honey

**3901 Wondermelon** Improved Kleckley's Sweets. Best for general use. Shape and color of Kleckley's Sweets but larger, tougher, stronger rind and of unsurpassed sweetness and flavor. You will like it. Medium early. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

**3902 Stone Mountain** New, of finest quality, claimed to be sweetest of all large sized melons. Round, dark green, with medium thick rind and flesh of rich crimson, solid and free from stringiness. Prolific, matures in 90 days. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

**3895 Kleckley's Sweets** A better melon than old type Kleckley's. Harder rind, suitable for short distance shipping or market and of uniformly large size. Exceptionally sweet and luscious, crisp and of bright scarlet color. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

**3898 Halbert's Honey** Medium large, oval, bright crimson, sweet and melting, without trace of pulp. Rind very thin, flesh ripens uniformly throughout. White seeded. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

**3900 Tom Watson** One of the old favorite varieties but still retaining its popularity. Long green, heavy and of large size. Flesh light red and of fine quality. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

**SLUG SHOT**—lb. for 25c.

Will Destroy Melon and Cucumber Beetles.

## 3868 Osage or Miller's

**Cream** Sometimes called the Queen of Melons. One of the best known and most desirable melons to plant. Size medium, large, oval, deeply ribbed. Color dark green, with lighter bands between the ribs. Flesh very thick, orange salmon, and of superb quality. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

**3870 Extra Early Osage** Our own strain for the gardener who wants the top prices for the earliest Osage, or who wants the first Osage on his own table. A week earlier than Miller's Cream, a trifle smaller and just as good quality. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

## Green Fleshed Muskmelons

**3879 Ohio Sugar** Sweetest green fleshed Melon.

Ohio Sugar is really a green fleshed Tip Top and the best to eat of any green fleshed melon in the market. The flesh is very thick, tender, yet firm and sugary. The melon is round or slightly oval, distinctly

ribbed and netted. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Emerald Gem

Osage or Miller's Cream

## 3872 Sugar or Honey Rock

A well named melon with deep orange flesh of a delightful flavor that must be eaten to be fully appreciated. Fruits are oval, medium in size, not ribbed but finely netted. Flesh is deep and well colored to the rind. Rind is extremely tough and the flesh firm making it a very fine market melon and one that will hold well on the vines until fully ripe. Pkt. 10c; oz. 18c; ¼ lb. 50c; lb. \$1.50.

All-American  
Gold Medal  
1933

**3878 Rocky Ford** The best known green fleshed variety. Flesh rich green, thick, juicy and of delicious flavor. Our seed is Northern grown, insuring early maturing crops. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

**3885 Honey Dew** The Honey Dew is sometimes called a winter melon as it matures 3 to 4 weeks later than the other varieties and it will keep for quite some time in storage. It is not adapted to short seasons but where it can be grown to maturity it is certainly delicious. The fruit is quite large, 8 to 10 lbs., nearly round, smooth skin, color almost white turning to a light lemon-yellow as it ripens. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.

Cole's Early

# Watermelons

Of late years some very early varieties have been introduced fully equal to the late ones in quality. Even in the northern states it is now possible to grow your own watermelons. Early varieties ripen in about 75 days.

**CULTURE**—Watermelons are grown very much like Muskmelons, but the hills require more space, 6x6, or 6x8 ft. After the soil and weather is warm drop a dozen seeds in each hill, covering one inch deep and later thinning out to the three strongest plants. Cultivate as long as possible before the vines cover the ground.

**QUANTITY OF SEED:** 1 ounce will plant about 30 hills.

Wondermelon

**3894 Cole's Extra Early** Also called Harris Early. The best variety to grow where seasons are short as it is ready to eat 10 days earlier than the late varieties like Tom Watson. Very hardy and productive, of medium size and nearly round. Skin mottled dark and light green, flesh dark red and very sweet. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

**3907 New Winter** Round, pale yellow when ripening, bright red, sugar-sweet flesh. Take the melons from the garden before frost and store in a cool cellar and they will keep until Thanksgiving Day. Pkt. 5c; oz. 12c; ¼ lb. 30c; lb. 90c.

**3908 Citron, Red Seeded** Make delicious preserves. Cultural directions printed on packet. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

# Peanuts

**CULTURE**—Plant the same time as corn, in rows 2½ ft. apart. Drop the shelled nuts 8-10 in. apart, cover 1 in. deep. When the plants are nearly full grown throw earth up to them. This will cause the nuts to form.

**3948 Extra Early Spanish** With this variety it is possible even in the North to mature a nice crop of peanuts. The nuts are not extremely large but are solid and sweet. Plant on light sandy soil in full sunshine. Pkt. 10c; ¼ lb. 20c; lb. 50c.

Melons direct from your Garden to your table are delicious.

Prizetaker and Red Wethersfield

## Onion Seed

**DO YOU LIKE ONIONS?** There is no reason why you cannot grow plenty for early bunching as green onions and the big bulbs for cooking in fall and winter also. A small space will yield lots of onions and they are easy to grow. The first requisite is good seed, and the second, early sowing. Get your onion seed in as soon as the soil is workable.

**CULTURE**—Onion seed should be sown as early in the spring as the ground can be worked as they will stand considerable cold weather. Cover in rows  $\frac{1}{4}$  to  $\frac{1}{2}$  inch deep, the rows 12 to 16 inches apart. Thin the young plants to stand about 2 inches apart or more, depending on the variety and the richness of the soil. Onions like a rich moist loam and will develop more and larger bulbs per foot on that kind of soil.

**QUANTITY OF SEED.** One ounce should sow a 150 ft. row, 4 to 5 lbs. per acre.

White Portugal

## Yellow Varieties

### 3913 Sweet Spanish or Valencia

A variety that will grow immense bulbs in your own garden as tender and sweet as the Spanish Onions that are imported for you. This new onion is globe shaped with light yellow skin and pure white flesh, mild and sweet. A much better keeper than the original Spanish types. From seed planted directly outdoors you can grow bulbs of great size. You can also start the seed inside in flats. They transplant very easily. **Pkt. 10c; oz. 40c;  $\frac{1}{4}$  lb. \$1.25; lb. \$4.00.**

**3914 Prizetaker** A splendid large growing variety for fall markets or home use. With favorable conditions they may begrown from seed to weigh two pounds or more. Handsome straw-yellow skin, resembling the imported Spanish Onion. The flesh is mild and tender. **Pkt. 8c; oz. 30c;  $\frac{1}{4}$  lb. \$1.00; lb. \$3.00.**

**3924 Ebenezer or Japanese** An excellent variety for producing sets, exceptional keeping quality. The bulbs are deep but flattened and of medium size. Dark yellow skin, with firm flesh. **Pkt. 5c; oz. 30c;  $\frac{1}{4}$  lb. \$1.00; lb. \$3.00.**

**3927 Yellow Dutch or Strasburg** The full grown onions are bright yellow bulbs, somewhat flattened, with mild, sweet flesh and fine keeping qualities. A most popular variety for growing yellow onion sets. **Pkt. 5c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.**

### Three Splendid Yellow Globe

**3918 Yellow Globe Danvers** This popular variety is very extensively grown for market, in the great onion growing sections. The bulbs are flattened, globe-shaped, of good size, and bright straw-yellow in color. Flesh is white, tinged yellow. Slightly earlier than Southport. **Pkt. 10c; oz. 40c;  $\frac{1}{4}$  lb. \$1.25; lb. \$4.00.**

**3922 Ohio Yellow Globe** This type is so named because it helped to make sections of Ohio famous for Onions. It is almost perfect globe sometimes slightly oblong in upper half and flattish at the bottom. The color is a pure deep yellow. Has firm hard flesh and excellent keeping qualities. This type is popular all over the country. It is identical with Michigan Yellow Globe. A trifle later than Danvers. **Pkt. 10c; oz. 40c;  $\frac{1}{4}$  lb. \$1.25; lb. \$4.00.**

**3923 Southport Yellow Globe** An excellent late or main crop variety similar in size and shape to the other Southports, but with bulbs of rich yellow. Flesh is white, of mild flavor and of very fine keeping quality. A very heavy producer of fine handsome bulbs. **Pkt. 8c; oz. 35c;  $\frac{1}{4}$  lb. \$1.15; lb. \$3.50.**

Southport Red Globe

## Red Varieties

**3916 Red Wethersfield** This is a popular variety for winter markets. The skin is deep purplish red; flesh white, sometimes slightly tinged pink; mild and sweet. **Pkt. 8c; oz. 30c;  $\frac{1}{4}$  lb. \$1.00; lb. \$3.00.**

**3915 Southport Red Globe** A beautiful large Red Onion for fall and winter markets, being an excellent keeper. Medium size, globe-shaped, slightly oblong, deep purplish red in color. **Pkt. 8c; oz. 35c;  $\frac{1}{4}$  lb. \$1.15; lb. \$3.50.**

### Southport Globe Onions

The Southport Onions are excellent and dependable general purpose onions for the home or market garden. They are all of fine appearance, excellent quality and especially good keeping varieties.

Yellow Globe Danvers

## White Varieties

### 3917 Southport White Globe

The most attractive white onion grown. Perfect globe shaped, and clear, transparent skin; flesh crisp, fine grained and mild in flavor. **Pkt. 10c; oz. 40c;  $\frac{1}{4}$  lb. \$1.25; lb. \$4.00.**

**3921 White Portugal Or Silver-skin.** Of medium size, flattened and pure white and the most widely planted of the white varieties. Flesh fine grained, firm and hard, and long keeping. Much planted for sets. **Pkt. 10c; oz. 35c;  $\frac{1}{4}$  lb. \$1.20; lb. \$3.75.**

**3925 White Welsh** The best variety in all respects for early green Onions for bunching or home use, forming fine long white onions of excellent quality and of fine appearance when bunched, but forming no bulb. **Pkt. 5c; oz. 30c;  $\frac{1}{4}$  lb. \$1.00; lb. \$3.00.**

### 3929 Extra Early White Barletta

One of the earliest. Largely grown for pickling but also makes a good bunching onion. Bulbs small, almost round at pickling stage, becoming slightly flattened as they mature. Flesh white, mild and sweet. Skin silvery white. **Pkt. 8c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.**

### Onions For Sets

For those who wish to grow their own onion sets from seed, we would recommend the following varieties: Yellow Dutch or Strasburg, which produces, quickly, sets of exceptional uniformity. Ebenezer or Japanese, for smaller yellow sets or Yellow Globe Danvers.

## Okra or Gumbo

A very easily grown vegetable that produces a large crop of fine healthful food. Okra needs a rich well drained soil to give the best results. Sow when apple trees are in bloom and thin to 10 to 12 inches apart. Okra is excellent either stewed or fried and when used for Gumbo soup is very delicious. An ounce of seed will sow 100 feet.

**3933 White Velvet** Bears long, slender, white, fleshy pods, which may be cooked like Asparagus or cut up into soups, stews, catsup, etc. The pods are in the best condition if used when 2 to 3 inches long. **Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 25c; lb. 70c.**

Okra

## Parsley

**CULTURE**—Parsley seed is slow to germinate and soaking a day before sowing will hasten growth. Cover only  $\frac{1}{4}$  inch deep and do not let the soil crust over the surface. Thin the plants to stand 4 to 6 inches apart, and you can start cutting the leaves as soon as they are sizable. Make several sowings of Parsley seed to have a continual supply of fresh leaves.

**QUANTITY OF SEED.** One ounce should sow a 150 ft. row. Our standard packets will contain  $\frac{1}{2}$  to  $\frac{3}{4}$  ounce of seed.

**3936 Lincoln Green Parsley** The finest curly strain of Parsley imaginable. The seed has been very carefully selected from exhibition plants. For an extra fine curled Parsley you should choose Lincoln Green. The plants are compact. **Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 50c; lb. \$1.50.**

**3937 Champion Moss Curled** The standard curled leaf variety for garnishing soups or stews. Our strain is extra nice fine curled. **Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 30c; lb. \$1.00.**

Parsley, Lincoln Green

**3939 Plain Leaved** The leaves are flat and deeply cut, but not curled, and of deep green color. Used for flavoring and drying. The plant is very hardy. **Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.**

**3938 Turnip Rooted** Forms an edible small parsnip, which is used in flavoring soups, etc. The foliage is like the plain parsley. **Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.**

### This Book Will Help You

**4743 1001 GARDEN QUESTIONS ANSWERED** by Hottes. Answering everyday garden questions in a practical way, covering practically every field of gardening. 320 pages. Cloth \$2.10. Paper \$1.60.

## Parsnip

**CULTURE**—Parsnips are easily grown though the seed is slow to germinate. The soil should be worked fine and the seed covered not more than  $\frac{1}{2}$  inch. Keep the surface moist to prevent the soil crusting over the seed. It is a good thing to sow a little radish seed right in with the parsnip. These come up quickly breaking the soil and marking the row so that cultivating may begin. Thin out to stand 3 inches apart.

**QUANTITY OF SEED.** One ounce should sow a 150 ft. row, 5 to 6 lbs. an acre.

**3944 Large Sugar** Improved Hollow Crown or Guernsey. An improved strain of the well known Hollow Crown. Roots are not as long but of greater diameter. Very productive. Large white roots, tender and sweet. Generally considered the best. Then why should we confuse the buyer by listing 3 or 4 other varieties. **Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.**

**3945 Short Thick** Decidedly distinct with short thick roots, only 6 to 8 inches long in the thickened part. Desirable for shallow soil and easy to pull. Flesh tender and sweet. **Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 50c.**

### 1935 Vegetable Novelties See Page 43

Large Sugar Parsnips

# Garden Peas

**PEAS FROM YOUR OWN GARDEN** picked only an hour or two before eating are twice as sweet as those you would purchase. Try them and you will be convinced.

**CULTURE**—A planting should be made every 10 days from earliest spring until hot weather. Another planting in late summer for fall often gives good results. The extra early smooth seeded varieties are hardy and may be planted as early as the soil can be worked, the wrinkled varieties a little later.

**QUANTITY OF SEED.** One pound should sow a 50 ft. row, 120 to 180 lbs. an acre.

## Early Dwarf Varieties

### THE LAXTONIAN GROUP

A group of varieties of comparatively recent introduction. They have very large pods for dwarf varieties and peas of supreme quality.

#### 3953 Laxton's Progress

See Back Cover

Perhaps the best of the Laxtonian group. It is a few days earlier than Hundredfold. Pods, 4 inches long, containing 7 to 9 peas. The pods are curved, pointed and of deep green color. 10 to 20 inches tall. This variety will give you edible peas in 8 to 9 weeks after planting.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

**3971 Hundredfold** An early large podded dwarf variety, 18 to 20 inches tall. A strain of Laxtonian and to be preferred to Laxtonian or Blue Bantam. The pods are 4 inches long containing 6 to 8 large dark green peas of excellent quality. Ready for picking in about 60 days, only a few days later than Progress.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

#### Laxtonian, Peter Pan and Blue Bantam

#### Extra Early Alaska

We have discontinued these varieties considering Laxton's Progress and Hundredfold the best of the group. If you have been growing either one of these three, you may safely shift to Progress or Hundredfold and you will be more than pleased.

**3952 May Morn** Plant as early as you would Alaska as the seed will stand cold, wet soil. It pods up quickly also, so it is possible to have May Morn in edible stage before any other large podded high quality pea, 15 to 18 inches tall, broad 4 inch pods.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

**3956 Little Marvel** A very fine early dwarf wrinkled pea, with blunt very dark green, 3 inch pods, filled with good quality peas. Only 15 inches high.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

**3955 Nott's Excelsior** The standard early dwarf wrinkled pea. A sure cropper, the pods are smaller than the Laxtonian group but are very freely produced and they hear well, even under adverse conditions. A very fine, highly bred variety of sturdy, compact, dwarf growth, 15 to 18 in. high. Pods chock-full of luscious peas of unusually sweet flavor.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.15.

Hundredfold

**3957 Sutton's Excelsior** Only a few days later than Nott's Excelsior, but larger podded and of greater total productivity.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.15.

## Edible Podded Peas

**3981 Mammoth Melting Sugar** Height 4 feet. Well deserves its name. Should be cooked and eaten pods and all, the same as wax beans. Gather the pods when half grown.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

**3982 Dwarf Gray Sugar** Height 30 inches. Similar to Melting Sugar but of dwarf growth,  $2\frac{3}{4}$  to 3 inches in length. The seeds are round and gray.  $\frac{1}{4}$  lb. 10c; lb. 35c; 3 lbs. \$1.00.

Alderman

## Early Tall Varieties

As the varieties in this group grow  $2\frac{1}{2}$  to  $3\frac{1}{2}$  feet tall, they are better when given supports on which to grow. As a rule they hear more pods over a larger period than the real dwarf varieties.

#### 3972 Giant Early Cropper

**A Fine New Pea.** This is an exception to the rule that the larger podded varieties require a longer season as it is practically as early as Alaska, ready with edible pods in about 8 weeks. The seed is smooth and hardy and can be planted extra early. The pods are large, dark green, 4 inches long and usually contain 7 large, sweet, light-green peas.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

#### 3970 Gradus

An early variety of very fine quality, bearing very profusely pods averaging 4 inches in length, filled with 6 to 9 peas, exceedingly sweet and tender. Vines are vigorous, growing 3 to  $3\frac{1}{2}$  feet tall. Peas are ready to use in 55 to 60 days. Seed large and wrinkled.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

#### 3969 World's Record

An Improved Gradus from which it gets its superb quality, but it is a much heavier and surer yielder. Vines 2 to  $2\frac{1}{2}$  ft. tall, pods handsome dark green  $3\frac{1}{2}$  inches long.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

**3968 Thomas Laxton** The best quality and heaviest yielding of all early tall peas, only a few days later than Alaska, vines  $2\frac{1}{2}$  ft. tall. Pods long, broad, handsome, packed full of delicious sweet peas. You can pick enough for a nice meal in short order. Out yields the old Gradus by 25 per cent.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

#### Two Smooth Seeded Extra Early

**3966 Extra Early Alaska** or Earliest of All. The hardiest of the extra-early varieties. Very productive. Peas smooth, bluish green, very fair quality. Height  $2\frac{1}{2}$  ft.  $\frac{1}{4}$  lb. 10c; lb. 35c; 3 lbs. \$1.00.

**3967 First-in-Market** Extra-early, smooth white seeded, height  $2\frac{1}{2}$  ft. Well filled pods 2 to  $2\frac{1}{2}$  inches long.  $\frac{1}{4}$  lb. 10c; lb. 35c; 3 lbs. \$1.00.

## Main Crop and Late Peas

**3978 Improved Stratagem** Large pods of the Telephone type borne on sturdy vines about  $2\frac{1}{2}$  feet tall. An ideal late variety to follow the earlier ones. An excellent home garden and a profitable market variety. The long pointed pods average  $4\frac{1}{2}$  inches.  $\frac{1}{4}$  lb. 10c; lb. 35c; 3 lbs. \$1.00.

**3975 Telephone** The old favorite with very large light green pods which will measure 4 to 5 inches long and contain 8 to 10 very large peas of delicate light green color and very excellent quality. Vines 4 to  $4\frac{1}{2}$  feet tall, very vigorous and productive. A very fine second early variety.  $\frac{1}{4}$  lb. 10c; lb. 35c; 3 lbs. \$1.00.

#### 3977 Daisy or Dwarf Telephone

A dwarf variety ripening somewhat later than Telephone but quite similar in all respects except height of vine and maturing time. Vines about 2 feet tall, bearing an abundance of large full pods of large fine quality peas. Pods 4 to  $4\frac{1}{2}$  inches long containing 8 to 9 large dark green peas.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

**3974 Alderman, Best Tall Main Crop** Height  $3\frac{1}{2}$  feet. Of the well known telephone type, but of a darker green color. Very robust and productive. Peas of large size and unsurpassed in quality. Best of the large main-crop varieties.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.15.

The New Pea Giant Early Cropper

Nott's Excelsior

## Inoculate your Peas, Beans and Sweet Peas

All Legumes-plants that bear their seed in pods form a partnership at the base of the roots with bacteria that are able to secrete nitrogen and give it to the plant.

Peas, Beans and Sweet Peas belong to the Legume family and therefore should be inoculated with NITRAGIN to stimulate the germs. The Bacteria will form on the roots like lumps or nodules, making more productive crops.

NITRAGIN is an old reliable Inoculator and is used by Agricultural Colleges. It is packed in a rich soil-like granular medium, easy to mix with your seed. Inoculate for Good Yield.

**4340 Garden Package** Plenty for a family garden 25c

Note the mass of nodules on the roots.

## Two Delicious New Peas

**3973 New Giant Wonder** A new variety of Pea of similar form and habit to Nott's Excelsior, though even better as it is not susceptible to wilt. Vines grow 15 to 18 inches tall. Pods are plump, straight, blunt-ended, 3 inches long and thickly filled with large round Peas, deliciously sweet and delicately flavored.  $\frac{1}{4}$  lb. 15c; lb. 45c; 3 lbs. \$1.25.

**3979 Morse's Market** We consider this to be the very best early mid-season Pea for home garden and market purposes. The vines are robust, grow 24 to 30 inches tall. Pods 5 to  $5\frac{1}{2}$  inches long and  $\frac{3}{4}$  to  $\frac{7}{8}$  inches broad, straight, pointed, smooth, dark green and well filled with 8 to 11 Peas per pod. Received an Award of Merit from British Royal Horticultural Society.  $\frac{1}{4}$  lb. 12c; lb. 40c; 3 lbs. \$1.15.

California Wonder

Perfection Pimiento

Early Giant Pepper

Tomato Salad

Ruby King Pepper

## Peppers

**CULTURE**—Pepper seed must be started early in the hot bed or boxes in the house. The plants cannot stand cold and so should not be planted out in the open until May 15th, or all frost danger is past. Space the plants 18 to 24 inches apart each way, and keep well cultivated. Any good garden soil if not too dry will grow peppers. Do not plant hot varieties next to sweet ones.

**QUANTITY OF SEED.** One ounce should produce 1500 plants, one packet enough for family garden.

**3988 California Wonder** The Pepper with the thickest flesh. Exceptionally thick flesh, usually  $\frac{1}{4}$  inch and often  $\frac{3}{8}$  inch thick. It is blocky in shape, square in cross section, 4 inches wide and  $4\frac{1}{2}$  inches long. Some specimens weigh as much as a pound, deep green then changing to crimson. It reaches full growth with the late sorts, marketable size fruits are ready with the early sorts. A heavy bearer of fruits of fine quality, being free from pungency, sweet and tender. Pkt. 10c;  $\frac{1}{2}$  oz. 35c; oz. 65c;  $\frac{1}{4}$  lb. \$2.00; lb. \$6.00.

**3995 Chinese Giant** An early and prolific variety whose large shapely fruits are often 5 to 6 inches through and  $4\frac{1}{2}$  to 5 inches deep. Fruits are bright green when young, maturing to a rich scarlet. Pkt. 10c;  $\frac{1}{4}$  oz. 25c;  $\frac{1}{2}$  oz. 40c; oz. 75c;  $\frac{1}{4}$  lb. \$2.35; lb. \$7.00.

**3991 Hungarian Long Hot Wax** An early hot variety much used for canning and pickling. A light yellow when young, turning to red when mature. The fruits are 2 to 3 inches in diameter and 6 to 7 inches long, with thick flesh. Sometimes called "Banana" pepper, Pkt. 10c;  $\frac{1}{4}$  oz. 25c; oz. 55c;  $\frac{1}{4}$  lb. \$2.50.

**3992 Small Hot Varieties** A mixture of small fruited hot varieties, excellent for pickling peppers, sauce, etc. Pkt. 5c;  $\frac{1}{2}$  oz. 20c; oz. 35c;  $\frac{1}{4}$  lb. \$1.00.

**3989 Early Giant** Only very large but produces enormous fruits maturing earlier than others of the large varieties. A sweet pepper that will produce big crops even in the northern states where seasons are short. Peppers 5 inches high and  $3\frac{1}{2}$  inches thick, deep green turning to brilliant red; flesh thick with sweet, pleasant flavor. Altogether a most valuable market or home garden variety. Pkt. 10c;  $\frac{1}{2}$  oz. 30c; oz. 55c;  $\frac{1}{4}$  lb. \$1.65; lb. \$5.00.

**3990 Oshkosh** A new and very fine yellow pepper, producing uniform, smooth, only slightly ribbed, heart-shaped fruits. Plants are of semi-dwarf growth but very productive. Fruits medium sized, rich bright green, maturing to a bright canary-yellow. This is one of the finest salad peppers grown. Pkt. 10c;  $\frac{1}{2}$  oz. 30c; oz. 55c;  $\frac{1}{4}$  lb. \$1.65; lb. \$5.00.

**3985 Perfection Pimiento** When ripe the fruit is bright crimson, of medium size and shape, ideal for stuffing. The flesh is very thick; and the fruit is smooth. Pkt. 5c;  $\frac{1}{2}$  oz. 20c; oz. 35c;  $\frac{1}{4}$  lb. \$1.00; lb. \$3.00.

**3993 Long Red Cayenne** Large Type. Well known, early maturing. Fruits 4 inches long,  $1\frac{1}{4}$  to  $1\frac{1}{2}$  inches in diameter and tapering. Pkt. 5c;  $\frac{1}{2}$  oz. 25c; oz. 45c;  $\frac{1}{4}$  lb. \$1.35; lb. \$4.00.

**3986 Ruby King** We have an improved strain of this popular standard variety. It is a very heavy bearer, thick-meated, and of mild flavor. Fruits average about 5 inches long, dark green when young, turning to ruby red when mature. Pkt. 10c;  $\frac{1}{2}$  oz. 25c; oz. 45c;  $\frac{1}{4}$  lb. \$1.35; lb. \$4.00.

**3987 Red Chili** Grow bushy plants with numerous small, hot peppers of waxy yellowish green, changing to rich red. Fruits 2 to  $2\frac{1}{2}$  inches long,  $\frac{3}{8}$  to  $\frac{1}{2}$  inch thick and tapering. Pkt. 10c;  $\frac{1}{2}$  oz. 30c; oz. 55c.

### 3984 Tomato Salad, Sunnybrook

This pepper is almost like a tomato in appearance, being smooth, nearly round and bright scarlet. It is exceptionally mild and sweet and very thick meat. Pkt. 10c;  $\frac{1}{2}$  oz. 25c; oz. 45c;  $\frac{1}{4}$  lb. \$1.35; lb. \$4.00.

**3994 World Beater** A fine variety in which is combined earliness and large size. The fruits are freely produced, and will measure 3 to  $3\frac{1}{2}$  inches through by  $4\frac{1}{2}$  to 5 inches in length. Pkt. 5c;  $\frac{1}{2}$  oz. 25c; oz. 45c;  $\frac{1}{4}$  lb. \$1.35; lb. \$4.00.

## Pumpkins

Small Sugar Pie Pumpkin

**CULTURE**—Grow same as winter squash. One ounce should plant 25 hills, 8 seeds per hill; about 3 pounds an acre.

**4000 Winter Luxury** A very popular and satisfactory variety for the home garden, producing abundantly. The fruits are slightly oval in shape, 10 to 12 inches in diameter and weigh 8 to 10 pounds. The skin is golden russet and finely netted. Flesh is thick, sweet and rich creamy yellow. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 45c; lb. \$1.25.

**3996 Small Sugar Pie** Is so well known as the best pie pumpkin it requires little description. The fruit is small to medium, with solid fine grained flesh. Pkt. 5c; oz. 12c;  $\frac{1}{4}$  lb. 30c; lb. 90c.

**3998 Jumbo** or King of Mammoths. Fruit enormous size—often 150 to 200 pounds. So grow a few for the county fair. Fair quality for pies and great for stock food. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 45c; lb. \$1.25.

**3999 Connecticut Field or Big Tom** The standard variety grown so often in corn fields to provide feed for cows. A fair pie pumpkin also. The vines bear well of large pumpkins with hard reddish orange shell. Oz. 8c;  $\frac{1}{4}$  lb. 25c; lb. 75c; 5 lbs. \$3.25.

**4753 GARDEN GUIDE.** Fourth edition. A delightful book of 384 pages full of practical information. Chapters devoted to the Flower, the Vegetable, and the Fruit Gardens, also Bulbs, Trees, Lawns, Shrubs, and Water Plants. When and how to plant, prune, spray, harvest, etc. A gem of garden literature. Illustrated. Cloth \$1.60, Paper \$1.05.

## Spinach

### Selected Strains Eat Plenty of Spinach

There is no more healthful vegetable than Spinach and it is so easy to grow that everyone should plant it.

**CULTURE**—Sow the seed in April for spring use, in August for fall use and in September for wintering over. Sow thinly in rows 12 to 15 inches apart, covering the seed about one-half inch; thin the plants to four inches apart in the rows. Spinach delights in cool, moist weather.

**QUANTITY OF SEED** One ounce should sow a 100 ft. row, 10 lbs. per acre.

Selected Bloomsdale Savory Spinach

All-American  
Award of Merit  
1935

### 4052 Viking

A new Spinach of  
Outstanding Quality

This new Viking Spinach is a meritorious, medium to dark green, longstanding, giant leaved variety that promises to be far above the average in quality. It is comparable to Nobel Giant Leaved, though darker green and larger leaved. Smooth leaved in summer but inclined to crumple in cool weather. Oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

### 4049 Reselected Bloomsdale Savoy

This is a very valuable variety, with vigorous, rapid growing, hardy plants, compact in growth. The leaves are large, thick, fleshy and savoyed or crumpled. It produces its first leaves quicker than any other variety of Spinach. Gives big crop in 6 weeks after early spring sowing outdoors. Oz. 5c;  $\frac{1}{4}$  lb. 20c; lb. 50c.

### 4047 Long Standing Bloomsdale

Not quite as early as Reselected but stands without going to seed 2 to 3 weeks longer. Heat resistant and with dark foliage. Oz. 5c;  $\frac{1}{4}$  lb. 20c; lb. 50c; 5 lbs. \$2.00.

**4045 Princess Juliana** Ten days later than Bloomsdale but a distinctly long standing variety, very slow to develop flower stalks. Large, crumpled, rich dark green leaves. Valuable for both spring and fall planting. Oz. 5c;  $\frac{1}{4}$  lb. 20c; lb. 50c.

**4050 Nobel Giant Leaved** The best smooth leaved variety for spring and summer sowing. Leaves extra large, smooth and of good texture. Its season is between Bloomsdale Savoy and Long Standing Bloomsdale. Round Seeded. Oz. 5c;  $\frac{1}{4}$  lb. 20c; lb. 50c; 5 lbs. \$2.00. All American 1935.

**4048 New Zealand** Tetragonia or Ever-bearing Spinach. The only variety that will give you good cuttings of spinach greens all summer. Of fine quality producing its tender leaves throughout the hottest weather without going to seed. This is an entirely distinct species, with smaller leaves, produced in very great abundance. Oz. 10c;  $\frac{1}{4}$  lb. 30c; lb. 90c; 5 lbs. \$3.75.

**4046 King of Denmark** As compared with Long Standing Bloomsdale, it is a trifle earlier and remains in condition for use longer. The plants are larger, flatter and more spreading in habit. Oz. 5c;  $\frac{1}{4}$  lb. 20c; lb. 50c; 5 lbs. \$2.00.

### An Entirely New Vegetable 3912 Mustard Spinach "Tender-green"

A new vegetable of Japanese origin, related to the Mustard family. Has a most delicious flavor, combining the fine qualities of both Mustard and Spinach.

Chemical analysis of Mustard Spinach shows plenty of Protein, Mineral Matter, Lime and Iron. You'll like this new "greens" for its flavor and healthful qualities. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

# The Finest Radishes

Extra Select  
Scarlet Globe

**CULTURE**—Radishes are easily grown in nearly any soil but to be at their best they should grow quickly. For this purpose a light sandy loam is perhaps the best, rich but not recently fertilized with stable manure. A freshly manured soil produces ill shaped and often wormy roots. Sow as early as soil can be worked  $\frac{1}{2}$  inch deep, the rows 12 to 16 inches apart.

**QUANTITY OF SEED**—One ounce should sow a 100 ft. row, 8 to 10 lbs. an acre.

## 4005 Extra Select Scarlet Globe

A strain grown from transplanted roots, that is as near 100 percent perfection as it is possible to get. It has a fine scarlet color, sparkling white flesh, tops just large enough for bunching. This is a beautiful oval rooted type—you will be delighted with the uniformity of the roots as you pull them. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

Icicle

## 4010 Glowing Ball

This new forcing Radish is well named. It is a bright fiery scarlet-red with a suffusion of orange, making it an unusually brilliant color. It has a perfect round shape, a small top and a thread-like tap-root. Recommended by the Royal Horticultural Society of England. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 45c; lb. \$1.25. All-American 1931.

## 4015 Brightest Long Scarlet

The standard long red or scarlet variety. Flesh pure white, crisp, tender and mild. Roots long slim bright scarlet with white tips, averaging about 6 inches in length. Small tops and quick maturing. Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

## 4016 Long White Icicle

The finest White Radish grown. Long slender roots which remain tender and crisp until grown. Matures early, has small top which permits close planting. Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

French Breakfast Radish

## 4006 French Breakfast

A most beautiful Radish of true olive shape. Color bright carmine with clear white in the lower portion. Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

## 4004 Earliest Scarlet Globe

This is the most popular of the extra-early globe varieties. It is of rapid growth, brilliant scarlet in color. Regular strain. Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

## 4003 Saxa

Ready for the table very quickly, sometimes in 20 days from seed. The roots are bright scarlet, round as a marble, smooth, with very little tap root and a small top. Flesh crisp and juicy. Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

## 4007 Sparkler, White Tip

A very early and attractive variety of the globe or turnip shaped class. Bright scarlet with a distinct white tip. Very popular for home and market. We have a strain that shows a very distinct white base, so that it is one of the prettiest radishes for hunching in existence. Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

## 4008 Crimson Giant Globe

also called Giant Butter. While Giant Globe is not really quite as quickly as the other round varieties, it grows much larger often  $1\frac{3}{4}$  to 2 inches in diameter, and yet still crisp and firm. These long standing qualities make it valuable for the home gardener or grower. Pkt. 5c; oz. 10c;  $\frac{1}{4}$  lb. 25c; lb. 75c.

## Three Popular Squashes Summer Varieties

## 4055 Cocomelle Italian Vegetable Marrow.

This is the most delicious and fine flavored summer squash yet grown. It is a bush type of plant, without runners and the fruit is long and slender, marbled with light and dark green. Is best used when 6 to 8 inches long and can be cooked like other summer squashes or sliced and fried in butter. Pkt. 10c; oz. 15c;  $\frac{1}{4}$  lb. 40c; lb. \$1.15.

## 4057 Giant Summer Crookneck

The largest and one of the earliest of the summer varieties. Very productive of large, deep, orange, warty fruits often 2 feet long. Flesh is thick, firm and tender. Pkt. 5c; oz. 12c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

## 4058 Yellow Bush Scallop

Golden Custard. A mammoth strain of the Yellow Bush Scallop. Fruits are round and flat with scalloped edges, rich golden yellow and with thick tender flesh of finest quality. Very early. Pkt. 5c; oz. 12c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

## 4060 Giant Summer Straightneck

This novel squash has the "crook" taken out of the neck, having all the good qualities without the defects of its parent, Golden Giant Summer Crookneck. It is much easier to pack. The native fruits measure 18 to 20 inches long, deep orange in color, thickly warted, with deeper flesh and thicker more meaty neck than the old "Crookneck" type. Pkt. 5c; oz. 12c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

## 4061 Early White Bush Scallop

Patty Pan or Cynling. Very early, fruits flattened and scalloped about 8 inches in diameter, comparatively smooth on the surface and creamy white in color. Flesh white, tender and sweet. Pkt. 5c; oz. 12c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

## 4038 Rhubarb, Victoria

A few plants of Rhubarb in a corner of your garden will furnish a surprising amount of material for delicious pies and sauces. Rhubarb is very healthful and is easily grown from seed. Sow in early spring, transplanting in early fall to permanent location. Do not pull the stalks the first year after transplanting, thus allowing the plants to become well established. Pkt. 10c; oz. 20c;  $\frac{1}{4}$  lb. 50c; lb. \$1.50.

## 4077 Sunflower, Mammoth Russian

The best egg-producing food known for poultry. Every farmer should plant some of the seed in any out-of-the-way place at any time in May or June. Single heads will often measure 15 to 18 inches across and contain an immense quantity of seed. Hang the heads in the poultry house, where the hens can reach them. Seed for planting, oz. pkt. 5c;  $\frac{1}{4}$  lb. 10c; lb. 25c; 3 lbs. 60c.

## Squashes

## 4056 Acorn, Table Queen

De s Moines, Queen Ann. The best little squash for "individual" baking or steaming. Dark green, 6 to 8 inches long and 5 to 6 inches in diameter, deeply ribbed, smooth hard shell. Just cut it in half, take out seeds, cook for 20 minutes and enjoy the delicious nutty flavor of this little "Table Queen". It stands ace high among the squashes. Try it, you'll like it. Pkt. 5c; oz. 12c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

## 4068 Chicago Warted Hubbard

A new type of Hubbard produced by careful selection of the large, dark green, warted specimens of good stock. Strong healthy vines, hard, warty, dark green fruit with flesh of rich golden yellow, fine grained and dry. Excellent for winter use. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 45c; lb. \$1.25.

## 4069 Blue Hubbard

The size and shape of old warted Hubbard, but clear blue green in color. Excels the old Hubbard in flavor and dryness of the flesh. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 45c; lb. \$1.25.

## 4070 Improved Hubbard

The most popular Winter Squash. Delicious for baking and rivaling the best pumpkin for pies. Has deep orange flesh. Our strain grows large, has dark green, moderately warted shell end and has been selected to give fruit of greater weight and food value than the ordinary Hubbard. Pkt. 5c; oz. 12c;  $\frac{1}{4}$  lb. 35c; lb. \$1.00.

## 4071 Golden Hubbard

Earlier and Smaller than our Improved Hubbard. Flesh thick, deep orange-yellow. Of splendid quality. Pkt. 5c; oz. 15c;  $\frac{1}{4}$  lb. 45c; lb. \$1.25.

## Salsify or Vegetable Oyster

**CULTURE**—Salsify is grown very much like Parsnip though the rows may be spaced a little closer. Do not plant in freshly manured soil as this has a tendency to produce ill shaped roots.

**QUANTITY OF SEED.** One ounce should show a 50 ft. row.

## 4041 Mammoth Sandwich Island

It is one of the most delicious and nutritious vegetables. In soup it has a delicious oyster flavor. Also fine if fried in butter, or boiled and made into fritters. It is perfectly hardy and may remain in the garden for spring use. Dig early in the spring however before growth starts. Pkt. 10c; oz. 25c;  $\frac{1}{4}$  lb. 75c; lb. \$2.25.

Make several plantings of radishes and enjoy them all Summer.

Tomato Marglobe

## Scarlet Fruited Tomatoes

**4084 Special Strain Earliana** Seed from Crown Fruits. This strain has been especially selected for depth, smoothness and uniformity of fruit and yet is earlier than the regular strain. Order Special Strain Earliana Superfine Quality. Pkt. 10c; ½ oz. 30c; oz. 50c; ¼ lb. \$1.50; lb. \$4.50.  
**4083 EARLIANA, REGULAR.** Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

**4081 Everbearer** Valuable for its long bearing season. You can pick as early as Earliana, and yet keep on picking for a long season after. That is just how the Everbearer behaves. Pkt. 8c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; lb. \$3.75.

**4082 New Burbank** Burbank is attractive with bright red fruits, medium size, smooth, well formed and ripening evenly all over. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; lb. \$3.75.

**4087 Red River** An extra early with very firm flesh. This variety was developed at the North Dakota Experiment Station, where they find it one of the very earliest, and the most solid and meaty early sort ever on trial. At a Canadian Station it outyielded all other sorts. The fruits are slightly flattened, smooth, bright scarlet with solid meat of splendid flavor. Pkt. 10c; ½ oz. 35c; oz. 65c; ¼ lb. \$1.75; lb. \$5.50.

**4089 Bonny Best** In season this fine tomato is right after the first earlies, such as Earliana. One of the very best scarlet varieties for home garden or market. Fruits are round, smooth, medium size and ripen evenly. Flesh is firm, and vines very productive. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

**4097 New Stone** King of the Reds. The standard main crop variety. The fruit is uniformly large size, smooth, and very solid, and of best table quality. Fine for canning. Pkt. 8c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

Everbearer

Purple Top White Globe

## Tomatoes

**CULTURE**—Tomato seed should be started early, by March or at least early April in hot beds or in boxes or pots in the house. An extra transplanting into other pots or cold frames is beneficial for root development before finally setting outdoors, when it is warm. Do not crowd tomato plants. You want short stocky plants rather than tall spindly ones.

**QUANTITY OF SEED.** One ounce should produce 2500 to 3000 plants. If set 36x24 inches apart you will need about 7200 per acre.

Can Your Own Tomato Juice

Ponderosa

## Disease Resistant Tomatoes

All-American Gold Medal 1935

**4094 Scarlet Dawn** Wilt-resistant, rust-resistant. A wonderful new Tomato of the deep Marglobe red color, globe-shaped, earlier and rounder than Pritchard, Scarlet Topper. Received Honorable Mention at the Cornell and the Connecticut Experimental Station trials as well as ranking second in the regular All-American trials. Pkt. 15c; ½ oz. 70c; oz. \$1.25.

**4095 Marglobe** Disease Resistant. This variety was introduced by the U. S. Dept. of Agriculture for its resistance to "wilt" and "nail head rust." It is a scarlet fruited main crop variety; the result of a cross between Marvel and Globe, and has retained the best characteristics of each. Pkt. 8c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25; lb. \$3.50.

All-American Gold Medal 1933

**4091 Pritchard** or Scarlet Topper. Pictured in color on back cover. A recently introduced disease resistant variety developed by the late Dr. Pritchard of the U. S. Dept. of Agriculture. The plant is comparatively small but branching and a true self toppler. The fruits are medium size, smooth, solid, heavy, globe shaped, rich dark red both outside and inside. Ripens only a few days later than Earliana. Superior tomato in yield and quality. Pkt. 8c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; lb. \$4.00.

**4099 Break O'Day** A new wilt-resistant Tomato produced by Dr. Pritchard of the U. S. Dept. of Agriculture. Of the same color, shape and size as Marglobe but somewhat earlier. Bright red, extra early and deep globe shaped. Pkt. 8c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; lb. \$4.00.

Small Fruiting Tomatoes  
Grow your own Preserves

**4123 Small Preserving** A mixture comprising Red and Yellow Cherry, Peach, Pear, Plum, Currant and Husk Tomatoes. Very desirable for preserves and canning. Pkt. 10c; ½ oz. 25c; oz. 40c; ¼ lb. \$1.25.

Tomato, Acme

## Purple-Pink Fruited Varieties

**4103 Acme** The popular purple variety, early ripening of medium size slightly oval and smooth. Acme is a reddish-purple with deep scarlet flesh which is very solid and meaty. Pkt. 5c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

**4111 Beauty** A very popular purplish pink variety for medium early or main crop. Vines are vigorous and heavy bearing, while the fruits are medium to large, solid, very smooth and of excellent flavor, and they ripen up well around the stem. Pkt. 5c; oz. 35c; ¼ lb. \$1.00; lb. \$3.00.

**4110 Livingston's Globe** The most popular purple-pink sort for market and canning. A very vigorous grower and heavy producer of firm solid fruits. The fruits are very deep, large and heavy of a glossy pink tinged with purple. Pkt. 5c; ½ oz. 25c; oz. 45c; ¼ lb. \$1.40; lb. \$4.00.

**4108 Ponderosa** This is not only the largest, but also the heaviest Tomato grown. Color glowing purple-crimson. Considered by many the best table variety. Pkt. 8c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.65; lb. \$5.00.

**4112 Oxheart** Oxheart is very large and heavy with thick flesh and few seeds. Gardeners, who have tried it, say it is the best tomato they ever had in flavor and all around quality. Pkt. 10c; ½ oz. 30c; oz. 55c; ¼ lb. \$1.65; lb. \$5.00.

## Yellow Fruited Tomatoes

**4120 Yellow Oxheart** Has all the qualities of the Oxheart with its big heavy meaty fruits. Color of flesh and skin is rich golden yellow. Pkt. 10c; ½ oz. 40c; oz. 70c; ¼ lb. \$2.25.

**4118 Golden Colossal** The Best yellow tomato. You should see the great big delicious fruits of this variety. As large as Ponderosa and quite like it in every way except color, which is golden yellow. The flavor is very sweet. Fine for preserving. Pkt. 10c; ½ oz. 35c; oz. 65c; ¼ lb. \$2.00.

Small Fruited Preserving Tomatoes

## Turnips and Rutabagas

**CULTURE**—For the early crop sow as early as possible to prepare the soil, covering ½ inch deep in rows 8 inches apart, thinning when small to stand 6 inches apart. A continual supply of tender turnips may be had by sowing a few every two or three weeks until late spring. The seed for the main crop of winter turnips is started in July. Sow either in drills or broadcast.

**QUANTITY OF SEED.** One ounce should sow a 150 ft. row, 1½ lbs. an acre if drilled, 3 lbs. if broadcast.

**4137 Purple Top White Globe** This is one of the handsomest and most desirable varieties grown. Our strain has been selected for smoothness, depth of roots and uniformity. Flesh is fine grained and firm. It is best to eat before roots reach full size. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c; 5 lbs. \$3.25.

**4138 Extra Early White Ball** The earliest turnip we have ever seen. Medium sized bulbs crisp and tender, pure white and almost perfectly round are produced in six weeks from seed. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c; 5 lbs. \$3.25.

**4135 Extra Early Purple Top Milan** Flat, smooth, of medium size, with bright purple top and few leaves. Flesh white and sweet. The best for early spring planting, also suitable for fall planting. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c; 5 lbs. \$3.25.

**4136 Purple Top Strap-Leaf** The standard for this part of the country. Superior for early or late planting. Flattened, good sized, small top with but few leaves; flesh very fine. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c; 5 lbs. \$3.25.

**4139 Golden Ball or Orange Jelly** One of the most delicate and sweetest of yellow-fleshed Turnips yet introduced. Medium in size. Uniformly smooth and solid. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c; 5 lbs. \$3.25.

## Two Rutabagas or Swede Turnips

Rutabagas have firm flesh and keep well as a winter vegetable. Pack in moist sand in cellar or in pits. Plant Seed in July for winter use.

**4145 American Purple Top** American Swede. Produces uniformly large, globe-shaped roots. Purple above ground and yellow below. Flesh very solid, rich yellow, fine-grained and very sweet. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00; 5 lbs. \$4.25.

**4147 Early Neckless** A yellow purple top variety 15 to 20 days earlier than others. Of excellent quality and fine appearance, the roots are round slightly flattened and neckless. Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00; 5 lbs. \$4.25.

## What This Department Offers You

The things you will wish to plant for a lasting effect in your garden are the bulbs, shrubs, roots, vines, roses and small fruits offered on the following pages. Because all of this stock is of a different nature from seeds, we have to handle it in an entirely separate department. That is also the reason they require different packing and weather conditions to insure delivery to you in first class shape. Gladiolus, dahlias and cannas must be kept dry and cannot be allowed to freeze, even while in mail and express cars. On the other hand, shrubs, vines, roses, roots and small fruits must be packed with damp moss about their tender roots.

**Roses**  
**Plants**  
**Vines**

### Summer Flowering Bulbs

Among the bulbous and tuberous rooted flowering plants are some of the most satisfactory for garden display and cut flower material throughout the summer. The Dahlias, Gladiolus, Tuberous Begonias, Cannas, and other bulb rooted plants all give a marvelous display with their many bright flowers from mid-summer until frost and with almost certain success for they are all very easily grown. While not hardy they may be taken up in the fall, stored in the cool basement and planted again the next spring. Only the finest and most satisfactory varieties are offered here.

### Hardy Perennial Plants

This class is most useful and desirable in every garden and supplies more material for our gardens than any other class of hardy plants. From this class we get material for the hardy border, for the perennial garden, for the rock garden and for many situations in our permanent ornamental plantings. They, while hardy enough to survive the cold of winter, die to the ground and each year send up new top growth increasing in size and vigor. Their adaptability to almost any situation and their interesting forms and habits in rockeries and borders make them most attractive and interesting.

### Hardy Shrubs and Vines

The hardy flowering shrubs are the plants of greatest permanence and perhaps greatest value in adding permanent beauty and harmony to the home grounds. Their great value lies in their ability to give so much of beauty and attractiveness with so little attention. Variety should be a feature in every planting of hardy shrubs; this will not only avoid monotony but will increase the beauty and attractiveness of the entire planting. Each shrub with its particular season of bloom, its different color, its individual form of growth will add its part in making the entire planting an attractive and interesting feature of the garden through each month of the season. The hardy vines have an important use in the planting of the home grounds and their attractive foliage and bloom are not only beautiful but also useful for shade or screen.

### Roses

Of the many classes of roses, the Hybrid Perpetual, the Hybrid Tea and the Climbing Roses are in greatest demand. We offer you only top grade, hardy, field grown plants. You can not buy better roses, anywhere. The price you pay determines what you get in roses. You can raise your eyebrows at cheap rose offers.

### A Nursery Before 1876

Long before Mr. Templin and his father and brothers started to sell seeds by mail, to American Gardeners in 1876, they operated a beautiful, complete nursery here in Ohio, the real nursery center of America.

Naturally, this branch of our business, therefore, is far from being a side line with us. In the days prior to 1915 we used to import car loads from European growers as well as growing great quantities of our own nursery stock. Since 1915, when imports were prohibited, we enlarged our own growing to take care of the demand. On our own property at Medina and at Painesville, expert growers who have spent their lives at this delicate work, are at your service.

### New Facilities

To further improve our service to the hundreds of thousands of customers in all parts of America, we shall ship direct to you from our Painesville Nursery, all Perennial Plants, Iris and Peonies, Hardy Pblox, Hardy Shrubs, Hardy Vines, Roses and Small Fruits, instead of bringing these plants into Cleveland as in the past. This will remove one handling and get the plants to you freshly dug. All Seeds, Begonia, Gladiolus, Canna, Dahlia and miscellaneous Summer Flowering Bulbs will be shipped from Cleveland as in the past. We know you will appreciate this improved service.

### The Rock Garden

Many interesting little plants from all corners of the earth have been made available to us by the demand created by the rock gardens. Plants that seem more nearly fitted to this type of gardening than to any we had previously undertaken. What a delight it is to become acquainted with these wonderful little perennial plants that have for years been awaiting our demand in the mountains and valleys of remote countries. Among the first to recognize the charm of these plants in the rock gardens, Mr. and Mrs. Bradley, seeing them during their visits to European gardens as they began to be used there, at once felt that the American gardeners should be able to obtain them to add their charm and interest to the gardens of America. Since that time their influence has been great in helping to bring you these new and delightful garden subjects. You need not forego the pleasure of these plants and a rock garden because of limited space. Did you know that a charming little rockery may be built with a dozen rocks and as few as ten plants?

**DORMANT NOT DEAD.** Practically every item in this section of this catalog is in a dormant state. It is due to their ability to "sleep" over each winter that they are of really permanent worth to you. They lose their foliage in winter just as the trees do. Some of them like gladiolus, dahlias and cannas, must be taken indoors in the winter and stored in a cool place. Others like vines, roses, shrubs and small fruits may be left outdoors.

**GIVE THEM TIME.** Remember after planting, that all plants will not begin to show signs of development in the same length of time. This word of caution is added because now and then, people will write in to advise us that some of their plants have not begun to leaf out and they are afraid that they are not alive. After waiting sufficiently long, they find the leaves begin to take shape and that their conclusion was made too hastily. So, be sure to give your newly planted stock **plenty of time.**

**CULTURAL INSTRUCTIONS.** Every order filled in our Nursery Department will have packed with the goods, a pamphlet which tells you how to keep the plants until the ground is ready, how to prepare the soil and all necessary information to aid you in the right start.

## A Bronze Medal Free For Your Garden Club

Any Garden Club or Horticultural Society in the United States may obtain one of these Floyd Bradley Horticultural Achievement Medals in Bronze, free of all charge. The Club to award it as a prize at Flower Show, Garden Contest or similar meeting.

All that is necessary is for the Club at a regular meeting to pass a resolution, authorizing an officer to apply to us for one. Tell the officer to send us a copy of the resolution, preferably on Club letter head, giving date of show and to indicate class of exhibit for which it is to be a prize. It is not necessary for the Club or any member to be a customer of ours. We do this solely to encourage the work of Garden Clubs, which we consider the greatest single factor in the growing love of finer gardens by the American people. This offer is for Clubs only and not for individuals. It is not for sale and can be obtained only as outlined above.

## Floyd Bradley's Own Garden "How" Book

This 48 page book has been prepared for the use of our customers who wish more information than can be crowded into a seed and nursery catalog.

The subjects it covers are of every day interest to you, whether you have a vegetable, flower or fruit garden—a rock garden or pool—a landscaping job of beautifying all or part of your home grounds.

### You May Have A Copy, Free

If your order amounts to \$2.00 or more, and you request us to do so, we will send you a copy of this book, Free. If your order is for less than \$2.00, add 25c for your copy. Or, if you wish a copy before you send us your order, just send us 25c and ask for Floyd Bradley's Own Garden "How" Book.

Hardy Chrysanthemums

The well-known autumn flowers of our grandmothers' gardens that produce such an abundance of beautiful flowers at a time when they are most appreciated. In the following we have selected varieties that have proven hardy in the North with slight protection. An assortment of the hardy "Mums" certainly should be in your garden, they give such a wealth of bloom in the fall when flowers are scarce. Bring bouquets into the home where they will keep fresh for a week or more.

## Beautiful New Hardy Mum

See color plate on next page

**6065 Aladdin** A new, extra early, very hardy Chrysanthemum of gleaming, burnished copper and gold. Awarded two gold medals and many certificates of merit. This wonderful new Mum sold for \$1.00 per plant, two years ago. Now, by producing them in large quantities in our own greenhouse by our method, we are able to offer them for the very low price of **Each 35c; 3 for 90c; 6 for \$1.60; 12 for \$2.75.**

# Hardy Chrysanthemums

**PRICES these 10 Kinds** Each 20c; 3 for 55c; 6 for \$1.00; 12 for \$1.90.

**6070 Old Homestead** (No. 1 on Color Plate.) A very fine large flowered decorative type of lively whitish or buff-pink with reverse of petals a deeper pink or light purple which reflects into the entire color tone of the flower.

**6078 White Doty** (No. 2 on Color Plate.) A very splendid pure white of finest quality and habits. An upright grower with strong stems and vigorous plant. The long petals are somewhat pointed and slightly inclined to quill.

**6068 Indian** (No. 3 on Color Plate.) A well named variety of rich coppery-red tone, a somewhat unusual color among outdoor Chrysanthemums. A medium tall vigorous plant producing its beautiful fully double blooms very freely.

**6063 Autumn Glow** (No. 4 on Color Plate.) A very beautiful variety of rosy-crimson, which might almost be called a light purple. Plants are hardy and vigorous and heavy producers of large fully double blooms.

**6074 Skibo** (No. 5 on Color Plate.) A button type, producing great clusters of miniature golden yellow buttons. A very fine cut flower variety.

**6079 Set of above 5 only 85c.**

**6067 Golden Queen** (No. 6 on Color Plate.) Plentiful bloom of a rich Strontian-yellow with just a touch of pale orange at the base of petals. Flowers are large and of fine substance keeping a long time when cut.

**6061 Adironda** (No. 7 on Color Plate.) A medium sized flower of unusual attraction, its color is the most pleasing bronze, a combination of orange, old gold and yellow, that is very beautiful and attractive.

**6064 Fred Peele** (No. 8 on Color Plate.) The petals are a rich yellow with crimson reverse, the opened center showing full crimson producing a beautiful crimson and gold effect.

**6062 L'Argentilis** (No. 9 on Color Plate.) A dull velvety crimson with petals quilled and tipped golden. The reverse of petal is yellow which, with the curling of the long petals flashes here and there in the face of the flower.

**6069 Little Bob** (No. 10 on Color Plate.) A late free flowering variety producing immense clusters of pretty bronze button type flowers.

**6080 Set of above 5 only 85c.**

**6083 Set 10 Mums Value \$2.00 for only \$1.50.**

Mrs. I. De Ver Warner

## Beautiful Dahlias

It is not many years since the only dahlias were comparatively small and quite uniform in type. By careful breeding, new forms, giant size and remarkable colorings have made the old types obsolete and today there are hundreds of splendid varieties, worthy of a place in any flower show. Dahlia lovers have formed strong Dahlia Societies in almost every state as well as the American Dahlia Society of national scope. These organizations encourage the introduction of new kinds and grade them according to merit. We offer you the following varieties at moderate prices. They have been carefully grown to bring out the best in each variety. Instructions for growing, packed with each order, free.

### Century of Progress Dahlia Collection

See color plate on opposite page

At the Century of Progress two days were dedicated to Dahlias. Sept. 18th was Jane Cowl Day and the next day was Jersey's Beauty Day. No other Dahlias were so honored. If you saw these two varieties on display, you surely liked them. So our back cover color plate collection offers both of these with two other varieties at a bargain price. Plant them in your own garden and show your friends as nice flowers as they saw at the Century of Progress Dahlia Show last summer in Chicago.

**5328 Jersey's Beauty** The most beautiful and satisfactory pink decorative dahlia in existence. A delicate eosine pink of rare and rich coloring. The flowers are of fine substance and keeping qualities. **Each 35c; 3 for \$1.00.**

**5331 Jane Cowl** An unusual combination or bronze buff orange and salmon. A flower of such distinction both in form and color that it immediately attracts the admiration of everyone. **Each 50c; 3 for \$1.35.**

**5475 Century of Progress Dahlia Collection. Value \$1.60 for only \$1.00**

**A Fine Combination** Here is a beginner's collection of our fine, dahlias of striking colors, all large flowering, no two alike which will include the four leading types of Show, Peony-Flowered, Decorative and Cactus. These are all desirable and popular varieties which we do not name. Each tuber is worth much more than the 12½c represented in one-fourth the collection price. Every year we sell great numbers of this famous collection because our customers have confidence that we will give them their money's worth and more. **5473—4 Dahlias for 50c.**

## Six Giant Flowering Dahlias

**5325 Mrs. I. de ver Warner** A beautifully formed flower of glowing mauve pink. The flowers are freely produced on good upright stems and are ideally fitted for a cut flower. Flowers are large, uniform and of excellent substance. **Each 35c; 3 for \$1.00.**

**5332 Judge Marean** A fine informal decorative of rich color and fine form. It is a flaming salmon pink overlaid with faint scarlet and blending to iridescent orange. **Each 30c; 3 for 80c.**

**5356 Cleopatra** A duplex or peony type of bright red and gold, a very showy combination. Fine size, early and free flowering. **Each 35c; 3 for \$1.00.**

**5362 Bashful Giant** F. D.—One of the largest Dahlias ever introduced; a great attractive exhibition flower. Color, apricot with golden suffusion and shading, with the flowers slightly drooping. **Each 30c; 3 for 80c.**

**5377 Kentucky** A giant decorative of the same style as Jersey's Beauty, except for color which is a brilliant salmon-orange, shading to grenadine-pink on outer petals, giving an unusual effect of richness. **Each 50c; 3 for \$1.25.**

**5392 Snowdrift** Decorative. Giant deep blooms of pure white with waxy petals. **Each 25c; 3 for 60c.**

**5466 Set of 6 Giant Dahlias, Value \$2.05 for \$1.50**

**Dahlia Don'ts** Don't condemn a small tuber. Don't plant too early. Don't unwrap tubers until ready to plant. Don't store in light, hot or dry room. Don't plant over 6" deep.

Judge Marean

**5366 Giant Ruby** A big ruby-red or scarlet decorative of good size, shape and substance. Just what you will like to round out color combinations. Long, stiff stems with head held high. **Each 35c; 3 for \$1.00**

**5378 Laura Morris** This is the largest deep yellow of any Dahlia we have seen in the decorative class. Makes a wonderful cut flower. **Each 40c; 3 for \$1.10.**

**Dollar Box** This Dollar Box will contain ten good dahlias which would cost you much more if you bought them separately. This is the collection which enables us to balance our stock of a great many varieties grown in large quantities. Many choice types and colors will be included. One of these collections planted in your garden will give you plenty of cut flowers for your house and a show in your garden from early August until frost.

**5472 Ten Fine Unnamed Dahlias Only \$1.00**

## The Best Six Pompon Dahlias

A Bouquet of Pompons

This delightful class of miniature show or ball Dahlias is coming into great demand. Their beauty and usefulness as table decoration is exceptional. They are very free blooming and produce much material for this use.

**5404 Clause** The best long stemmed Orange Pompon for cutting. Usually has open center. **Each 30c; 3 for 80c.**

**5407 Elizabeth** A beautiful Golden-yellow, edged with brownish red. A very free bloomer so you can have plenty of cut flowers. **Each 35c; 3 for \$1.00.**

**5413 Johnny** A very bright red. Johnny is hard to heat as a cut flower variety. **Each 30c; 3 for 80c.**

**5414 Little Beauty** A charming pink of about the same shade as the old favorite A. D. Livoni. Nice substance. **Each 30c; 3 for 80c.**

**5417 Madeline** Delicate primrose, edged with rosy purple. Named after the famous Cathedral in Paris. **Each 25c; 3 for 65c.**

**5418 S. Van Glitter** With the color of autumn leaves, it makes the best long stemmed Pompon we ever saw. Very early and continuous bloomer. A favorite with florists. **Each 35c; 3 for \$1.00.**

**5469 Set of 6 Pompons, Value \$1.85 for \$1.50**

# Templin-Bradley's Famous Gladiolus

## A Rainbow of Color for Your Garden

Do you realize the garden and cut-flower possibilities stored up in the easy to grow Gladiolus Bulbs? There is a wealth of color and beauty in the tall, straight spikes of wide open, wonderfully marked flowers, which last so long and make such ideal bouquets.

We started producing our own Gladiolus bulbs in 1915 and in these twenty years many new and unusual varieties have been hybridized so that today it is possible for you to fill your garden with Glads of every color of the rainbow, except of course green which is supplied in the long graceful leaves.

You will want to order many of the carefully selected varieties listed here to make your garden a riot of color and to have plenty of cut-flowers for your house and for your shut-in friends.

## Color Plate Gladiolus, See Opposite Page

**CULTURE:** Plant the bulbs or "corms" as they are called, in trenches or in holes about six inches deep and from six to eight inches apart, covering them with loose fine earth, pressing it down well around the bulb. Gladiolus bulbs do well in any good, well drained garden soil, providing it is in a sunny location. Plant the first bulbs right after the last frost in the spring, plant more every two weeks until July 1st and you will have flowers from mid-July until the first frost next Fall.

**5533 Betty Nuthall** Slightly ruffled flowers of warm coral-pink with orange throat and light featherings of carmine. One of the best of the late introductions. **Each 10c; 3 for 25c; 12 for 80c.**

**5548 Charles Dickens** A purple-violet of great richness and depth of color. Blooms are freely produced on long tall spikes, often 5 feet or more tall. A very popular variety of attractive color and form. **Each 10c; 3 for 25c; 12 for 80c.**

**5632 Golden Dream** A pure golden yellow flower, of Golden Measure form but of better and richer color. The deep throat is slightly striped wine and the anthers carry a wine stripe. The best yellow to date. **Each 7c; 3 for 20c; 12 for 55c.**

**5726 Mr. W. H. Phipps** A delicate La France pink over-laid with salmon-rose. Lower petals lightly striped and splashed ruby. Large flowers, long spikes. **Each 7c; 3 for 20c; 12 for 55c.**

## 5986 Color Plate Gladioli Collection

**5732 Mary Frey** A delicate lavender-pink almost a lilac tone, soft and pleasing. An excellent cut flower and a good garden variety. **Each 10c; 3 for 25c; 12 for 80c.**

**5734 Mrs. P. W. Sisson** A clear light pink with just a suggestion of creamy tint. Flowers of large size well arranged on tall spikes. **Each 7c; 3 for 20c; 12 for 55c.**

**5783 Pfitzer's Triumph** One of the best Gladiolus ever introduced. Very large wide open flowers of a deep orange-salmon overcast scarlet with small velvet red marking in throat. **Each 12c; 3 for 30c; 12 for 95c.**

**5984 Veilchenblau** A large flowered Gladiolus of richest Iris blue coloring. An exceptionally vigorous grower. **Each 12c; 3 for 30c; 12 for 95c.**

**1 Bulb each of 8 varieties Total Value 75c, Only 50c**

## Four New Gladiolus

**5724 Mildred Louise** Large florets,  $5\frac{1}{2}$  inches across, 18 to 22 buds to a spike. Beautiful triangular shaped, salmon-pink upper petals with lower petals tipped strawberry-pink, blending to pinard-yellow in the throat. **Each 50c; 3 for \$1.25.**

**5800 Picardy** Sensational flower of delicate apricot-pink. Florets extremely large, slightly ruffled. **Each 25c; 3 for 65c.**

**5826 Red Phipps** Tall fine spikes of soft, rich red. Eight or more large florets open at one time. A very fine new variety of charming beauty. **Each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.**

**5848 Schwaben Girl** Pure pink, without any other shade or blotch. A fine self-color. Huge spike, 8 to 10 big open flowers with round petals. One of the earliest Glads. **Each 50c; 3 for \$1.25.**

**5880 Set of 4 New Glads, \$1.50**

## Ten Lovely Gladiolus

**5508 Albatros** One of the very best of the white Glads. It is large, sparkling snow-white. **Each 15c; 3 for 40c.**

**5514 America** Immense flowers of Peach-blossom pink. One of the most popular Glads. **Each 7c; 3 for 20c; 12 for 55c.**

**5651 Autumn Fascination** (Herbstzauber) Wonderful shade of copper-salmon. An adorable flower. It fascinates you. **Each 15c; 3 for 40c.**

**5558 Commander Koehl** The wing petals form a triangle  $6\frac{1}{2}$  inches across. Dark red, warm shade of glowing brilliancy. **Each 10c; 3 for 25c; 12 for 80c.**

**5642 Heavenly Blue** Clear, delicate lavender-blue of dainty refinement. A heavenly shade and a large flower that will make choice cut-flowers. **Each 15c; 3 for 40c; 6 for 70c; 12 for \$1.20.**

**5722 Minuet** Delicate, clear lavender. Very large flowers on strong spikes. **Each 12c; 3 for 30c; 12 for 85c.**

**5723 Morocco** The darkest of all the dark red Glads. Well formed large blossoms of beautiful deep velvety dark red, almost black, without any other shade. Flowers are well set on long, straight spikes. A real beauty. **Each 15c; 3 for 40c; 6 for 70c; 12 for \$1.20.**

**5733 Mrs. Frank Pendleton** Deep rose-pink, shading to pale pink. Throat of bright rose with red blotch. **Each 5c; 3 for 15c; 6 for 25c; 12 for 40c.**

**5740 Mrs. F. C. Hornberger** Tall fine spike and placement. Flowers are pure white. A lovely white Glad. **Each 7c; 3 for 20c; 6 for 30c; 12 for 55c.**

**5775 Orange Wonder** A gorgeous flower of rich, glowing orange. A most unusual shade in Glads and one that will give delightful tone to your garden. **Each 15c; 3 for 40c.**

**5989 10 Glads for \$1.00**

**1 each of above 10 varieties**

**10 Sets-100 Bulbs-\$7.50**

## 100 Gladiolus Bulbs for only \$2.00

**10 Each of 10 Leading New Varieties. No Changes.**

**Postpaid. Each variety separately labeled.**

**The most valuable assortment you can buy.**

**5531 Berty Snow** Large flowers of soft lavender with a slight tinge of pink. Excellent substance and well spaced on a good spike. Eight or more open at once. A flower of unusual delicate beauty.

**5571 Dr. F. E. Bennett** A very striking Glad. A large flower of peach-red overlaid with flame-scarlet. Throat speckled ruby and white. An outstanding variety that will give you gay color for the garden and house. Tall heavy spike.

**5633 Golden Measure** Rich yellow lower petals deeper yellow with crimson circle around base of anthers. Slightly ruffled, large flowers, many open at a time.

**5739 Mrs. Von Konynenburg** Good blue Glads are extremely scarce and this new Holland variety is most welcome. It is a beautiful lilac-blue, large, good substance, splendid spike and good form.

**5715 Marmora** A most intriguing gladiolus. It is large, stately, and most unusual in colors which are lavender-gray with petunia colored blotch. Heavy substance and perfect placement. 8 flowers open at once.

**5542 Caruso** The earliest of all red Glads. Produces a large flower of orange-red on a fine spike with stiff stem. Originated in Holland and is one of the finest bright reds. You'll like its color.

**5838 Ruth Huntington** Beautiful violet-blue with deeper lilac markings on lower petals. Large flowers on tall, strong spikes. A lovely flower of dainty color.

**5602 Fay Lanphier** A rich coral with cerise blending, in a large fine formed flower. Produces fine spikes with many flowers open at the same time. An unusual shade.

**5796 Purple Glory** This variety is unequalled with its massive growth and beautifully ruffled flowers. It is dark amaranth-purple, lower petals deep purple. Throat speckled white and purple.

**5737 Mrs. Leon Douglas** Begonia-rose striped with flame and brilliant scarlet and speckled with ruby-red. Extra strong spikes with many flowers open at a time.

Each year we received many letters telling of the great pleasure and satisfaction our customers have had from our Gladiolus Mixtures. These letters praise the very high quality and splendid assortment, the health, vigor and free blooming of the Gladiolus bulbs. We are justly proud of the mixtures we offer you here.

## Templin-Bradley's Glory Mixture

A fine mixture of selected varieties of recent origin which have proven themselves most desirable and satisfactory for general garden use.

This Glory Mixture has brought immense pleasure to thousands of our customers during the past few years. You will like these for cut-flowers.

**5981 Templin-Bradley's Glory Mixture. 12 for 50c; 25 for 90c; 50 for \$1.75; 100 for \$3.00.**

## Superfine Gladiolus Mixture

This excellent mixture is made from the popular well known varieties. They are all large blooming size bulbs equal to those in the above mixture, except that the varieties are not quite as new.

**5983 Superfine Gladiolus Mixture. 12 for 40c; 25 for 75c; 50 for \$1.35; 100 for \$2.50.**

## Garden Beautiful Mixture

This mixture is made for those who wish the very best available in Gladiolus Mixtures. The color array will please you and you will be delighted with the varieties we give you. If sold separately by name, you would have to pay many times the price we ask in mixture.

**5985 Garden Beautiful Mixture. 12 for 70c; 25 for \$1.25; 50 for \$2.25; 100 for \$4.00.**

**You are offered in this Collection, the leading show winning varieties of carefully grown, clean, healthy, blooming size bulbs. Not sold separately.**

**5991 10 Bulbs each above 10 kinds for only \$2.00.**

**Gladiolus make stately, colorful and lasting bouquets. Plant many bulbs this summer.**

# Tuberous Begonias

Single and Double in Many Colors  
For The Garden or Window Boxes

If you long for a beautifully colored flower which is different from any other class. Tuberous Rooted Begonias will please you. There are two classes—singles which often grow six inches or more across and doubles up to five inches.

The rich, velvety, crinkled foliage is prettier than any other begonia. They do best when direct sun does not hit them from ten to three in mid-summer. But they should not be grown in total shade. Colors are variations in pink, yellow, orange, red, crimson and white. You will seldom find two of exactly the same shade if you plant a hundred bulbs so the more you plant the more interesting they become.

## LONG LIFE

Every year, customers tell us of having kept their Begonia bulbs for many years by digging them in the fall and storing them in fruit or potato cellars.

## EASY TO GROW

Tuberous Begonias are easy for the home gardener to handle and florists make big money in growing them. I start mine in shallow boxes of soil in the house about a month before time to set them out in the garden. This permits about three leaves to get fully formed by the time danger from frost has passed. I should hate to have to do without Tuberous Begonias and I know you will feel the same way after you have tried them. You can plant them in the garden or in porch and window boxes.

## Single Begonias

We have seen many flowers over 6 inches in diameter. The texture of the petals is not like any other Begonia flower, waxy, yet looks like velvet.

5001 Pure White 5004 Orange, Salmon  
5002 Rose or Pink 5005 Red and Scarlet  
5003 Shades of Yellow 5006 Dark Crimson  
Price any color. Each 25c; 3 for 65c; 6 for \$1.25; 12 for \$2.00; 100 for \$15.00.

The 6 bulbs in these sets will be all of different colors. Some will be singles and some doubles.

About Half  
Actual Size.  
Many Pleasing  
Shades.

All good, blooming size bulbs, big and vigorous enough to give you excellent results. We do not guarantee definite shades as they vary in color.

# Plant Hardy Native Ferns

Hardy Native Ferns are rapidly growing in popularity as their value is becoming better known. They are easily grown, and so well adapted for shady locations where little else will succeed. There are usually nooks and corners around the home grounds where the sun seldom strikes, just the place for assorted clumps of Hardy Ferns. The illustration below is from an assorted planting in front of a north porch. Our plants come from northern New England where the temperature often registers away below zero, a guarantee of their hardiness.

6165 Ostrich Plume Fern (Onoclea) R. G. Very handsome fern, as graceful as a palm, and one of the most satisfactory to grow. Makes a most effective background for other ferns. The fronds reach a height of two to three feet, with a width of six to eight inches. Sometimes called "The Palm of the North." In the illustration below the tall ferns in the background are of this variety. One of the most satisfactory ferns for the amateur to grow, always giving satisfaction. Grows in beautiful crowns, requiring considerable room. For a background plant two feet apart, or as single specimens, in partial shade.

6155 Evergreen Wood Fern (Aspidium Marignale) R. G. A desirable evergreen variety. Its large green fronds have a bluish tinge and are very durable. Cut fronds will keep a long time. It is easily grown and can be adapted to varying conditions. A desirable variety for general use.

6153 Christmas or Dagger Fern (Polystichum) R. G. A widely known evergreen species, the fronds being largely used by florists. One of the easiest to grow and about the best evergreen, hardy fern we know. Fine for forming an undergrowth among shrubbery. A good fern to plant with other varieties.

## 6158 Hayscented or Gossamer Fern

(Dicksonia) R. G. One of the varieties that will grow in either sun or shade. It propagates itself by underground root stalks, and if planted in rich, porous soil, will soon form masses. This is the best variety to plant where a mass of from 15 to 18 inches high is desired.

## Soil for Ferns

Ferns succeed best in a rich, light, loose, fibrous soil, with good drainage. If the soil is inclined to be soggy, raise the fern bed two or three inches above the surrounding surface. Before planting make the soil fine, and if possible incorporate some leaf mould from the woods, Peat Moss or soil from around some old building, but never use fresh manure of any kind.

A touch of the woods, right at your door step.

# Dazzling Cannas

See Color  
Page 52

## 5179 Six Choice Cannas

**5126 Apricot** Broad compact trusses freely produced. Strong rich apricot passing to silvery-pink with gold and coral center. Green foliage. Height 4 ft.

**5135 Canary Bird** Pure canary-yellow, exceedingly attractive, fine size and substance, good sized trusses. Habit of growth and fine foliage makes it fine for mass planting. Foliage green. 3 1/2 to 4 ft.

**5137 Crimson Bedder** Very desirable blooms of intense crimson, good quality and substance. A mass of clear green foliage. Good bedding variety. Flowers are produced in great trusses on strong stems. Height 3 1/2 ft.

**5145 Eureka** By far the best white Canna. Flower large with a slight creamy tint when opening, but gradually becoming whiter. Vigorous grower and free bloomer. Height 4 to 4 1/2 ft.

**5150 Golden Gate** Beautiful blooms opening almost pure gold and gradually becoming richly rayed with orange-crimson and apricot centering at the throat. Green foliage, thick and heavy. Height 4 ft.

**5170 Venus** A truly beautiful and distinct variety, with flowers of a gay rosy pink, with a well defined border of creamy yellow. The immense blooms are borne in grand clusters above the rich green foliage, Height 4 ft.

**5179 Set of 6** One each of preceding Cannas for 85c.

**5180 Set of 10** One each of all Cannas on this page for \$1.25.

What could be more charming than a nice bed of Cannas against a green lawn? These stately, dazzling colored, giant flowers, are so inexpensive that you can afford all you have room for. The luxuriant foliage would be worth the effort even if they bore no flowers. But they do bear flowers in profusion from July until frost. Perhaps it is the tropical effect which makes them such great favorites.

Easy to grow in any garden soil. Work the soil up well and keep them watered. Plant about 12 inches to 18 inches apart to allow plenty of room. We give you average height of each variety, color of flower and color of foliage. With this information, you can work out a color scheme which will suit your individual taste. Order your Canna Roots early so you can start them indoors for later transplanting.

Cannas are fine for shielding unsightly house foundations, fences, garages, etc. Make nice beds in the middle of your lawn.

Price of all Cannas, Each 20c; 3 for 55c; 12 for \$1.50

**5178 Color Plate Cannas** 1 each of 4 Varieties below 60c

**5163 Queen Helen** The flowers of rich golden yellow, beautifully blotched red, form grand clusters of bloom of very attractive coloring. Green foliage. 4 ft. See Color Plate.

**5160 The President "Fiery Cross"** The most sensational largest flowering red Canna to date. The immense flowers 6 to 7 inches across in mammoth clusters are of the most intense penetrating fiery-scarlet. Green foliage. 4 to 5 ft. See Color Plate.

**5136 City of Portland** Warm rose pink, holding its tone through both hot and cool weather. The great, full-petaled trusses are borne very freely. Green foliage. Height 3 1/2 ft. See Color Plate.

**5155 King Humbert** Orange-scarlet. Orchid flowering. Its flowers measure six inches in diameter, gigantic trusses, a brilliant orange-scarlet with bright red markings, foliage rich coppery bronze. Height 4 1/2 to 5 ft. See Color Plate.

## Summer Flowering Bulbs

### Amaryllis

**5112 Tritoma Pfitzer** Red Hot Poker.

Flame Flower or Torch Lily. Most handsome and showy plants for the border or for bedding. Surpassing all others in brilliancy of color, which is a rich orange-scarlet. Blooms continuously from July to October. The flower spikes are made up of a multitude of small tubular flowerettes and are borne on strong tall stems often 3 to 4 feet high. Unless in a very warm protected location where they may be mulched well they should be lifted in the late fall and packed in sand. Each 30c; 3 for 80c; 6 for \$1.50; 12 for \$2.50. See Color Plate Page 52.

**6379 Yellow Calla Lily**

**Golden Yellow. Calla Elliottiana.** The best yellow Calla. The flowers are as large as the White Calla. The foliage is a deep green with cream-white spots which makes it showy in your garden. Flowers have a lustrous, velvety texture. This variety does well in the garden. Each 35c; 3 for 90c; 12 for \$2.80.

**5085 Elephant's Ear, Caladium**

**Esculentum.** One of the most effective tropical-like plants. Beautiful for lawn decoration, whether planted singly, in clumps, or for borders of subtropical groups. Especially nice when planted with Cannas. They like a rich deep soil and plenty of water. A single plant will often grow six feet tall with leaves four feet long and three feet wide. Each plant should have at least a pail of water every day that it does not rain. Plant Caladiums as a background for shorter growing annual flowers in your garden and you will like the effect. Each 20c; 3 for 50c; 12 for \$1.50.

**5077 Giant Hybrid** These are the finest

of all the Amaryllis for pot growing. They come in many rich colors from rose and white to deep maroon both self colors and variegations. The large lily like flowers are very beautiful. We cannot separate the colors, so if a variety is wanted the more you order the greater variety you will get. The Amaryllis is fast becoming one of the most appreciated flowering bulbous plants, producing gorgeous showy blooms with a minimum of care. They give universal satisfaction when their requirements are understood. Strong bulbs Each 35c; 3 for 90c; 6 for \$1.60.

**Culture**—Pot Amaryllis bulbs in 6 or 7 inch pots filled with good garden soil. Add a bit of bone meal. Keep in a dark, warm place 4 to 5 weeks for rooting. Then to a sunny window for flowering period. Give plenty of water from the beginning.

**5116 Double Dwarf Pearl Tuberose**

One of the most delightfully fragrant and beautiful of the summer flowering bulbs. A long succession of bloom may be secured by starting them in pots early in the greenhouse or hot bed and setting them in the garden as soon as weather permits and also planting other bulbs directly in the garden at the same time. The Pearl is a distinct type of dwarf habit and much larger flowers. It is of strong growth with dark broad foliage. Each bulb produces a spike of beautiful waxy white flowers. If planted in the garden in May they will produce their delightful bloom in August and September, but started in pots as above suggested they will bloom considerably earlier. Strong bulbs, 3 for 25c; 6 for 40c; 12 for 75c.

**5115 Single Albino Tuberose** This single, pure white variety begins to flower in July and continues thru season. Not so fragrant as double but has 2 to 5 flower spikes per bulb. Store inside over winter. Price 3 for 25c; 6 for 40c; Doz. 75c.

## German Iris

## Japan Iris

Very popular old-fashioned, hardy garden favorites, requiring little attention. Splendid for permanent borders along the driveway or edge of shrubbery, where they furnish an immense amount of brilliant color in early spring.

The letter S. means standing petals, F. means drooping petals. **6279 Ambassadeur** S., a fascinating smoky, velvety purple. F., purple-maroon. Beards and style, yellow. Magnificent and regal flower.

**6280 Gold Imperial** A fine self-colored chrome-yellow. Conspicuous orange beard.

**6281 Lent A. Williamson** S., Campanula-blue. F., rich royal purple.

**6282 Lord of June** Handsome Iris of largest size. S., broad and floppy, chicory blue. F., drooping lavender-violet, marked old gold.

**6283 Queen Caterina** A mid-season variety of clear orchid-purple, veined with brilliant gold. Bright orange beard. Gorgeous flower.

**6284 Shekinah** A delightful shade of pale yellow, shading to amber in the throat, with a lemon yellow beard. This is a true yellow Pallida and the first of the type. A most unusual and beautiful Iris.

**6285 Tamerlan** S., cupped and floppy, light lavender-violet. F., reflexed, hyacinth-violet. Beard of deep orange, half buff at edges. Vigorous growth, with well branched stalks.

Prices on the above German Iris. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

**6290 Set of 7 German Iris.** Value \$2.10 Only \$1.50.

Finest of all the Iris family. The flowers are of immense size, from 6 to 8 inches, in diameter, and of the most beautiful, delicate shades. Are perfectly hardy and will flower in profusion during June or July. These plants prefer a moist, cool place, but do well in most any location.

**6316 SKY NO RYO.** Double blue and white. Very attractive.

**6317 ASTARTE.** Beautiful dark violet. Double flower.

**6318 EUMEE.** Single dark violet.

**6319 GEKK NO NAMI.** Earliest to bloom and the best glistening pure white with creamy stigmas.

**6320 HERCULE.** Double, clear lilac-blue.

Prices on the above Japan Iris. Each 35c; 3 for 90c; 6 for \$1.60; 12 for \$2.80.

**6321 Set of 5 Japan Iris.** Only \$1.25

Cannas and Irises will add color to your home grounds.

Japanese Iris

Auratum Lily

## 6398 Lily-of-the-Valley

Lily of the Valley

Universally admired for their dainty little pure white bell shaped flowers and exquisite fragrance. Easily grown, perfectly hardy everywhere, preferring a moist shady location. If the bed is given a liberal top-dressing of well-decayed manure in fall or early spring, it will show the effect by increasing size, number and vigor of the flowers. We have 50,000 fine Holland grown plants ready to fill your orders. Clumps, each 35c; 3 for 90c; 6 for \$1.60; 12 for \$2.80.

Winedot Phlox

Phlox  
Subulata,  
Moss Pink

Fine for Rock  
Gardens

A dwarf creeping variety of Phlox with pretty moss-like foliage which remains green nearly the whole year through. Its bloom which is produced in early spring fairly covers the plants with a blanket of color. They are excellent for edging or rock garden.

6553 **Alba** A beautiful variety of pure white bloom and clean rich green foliage make a combination that is indeed refreshing.

6559 **Atropurpurea** Rich satiny Amaranth red with a darker eye. Striking color, deepest red of all the Subulata Phlox. Free bloomer.

6560 **Blue Hill** Uniform compact grower. Beautiful deep blue. Early and late crop of flowers. You'll like it.

6556 **G.F. Wilson** A very desirable variety of soft lavender. Free bloomer and lovely spring color. Combines well with other Subulata and other Rock Garden plants.

6562 **Rosea** Charming rose-pink. Fine for covering banks, thrives in hot, dry situations and blooms profusely.

6563 **Vivid** Bright pink with fiery red eye. Said to be the finest free-flowering dwarf Phlox in existence.

Prices on Subulata Phlox. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6564 Set of 6 Subulata Phlox 85c.

# Hardy Lilies

See Lilies On Color Plate On Page 62

Everyone wants some of the Hardy Lilies in the garden. Their stately loveliness, rich colors, and delightful fragrance place them among the most popular of hardy garden flowers. They succeed best in the hardy border where the soil is well drained and where other foliage shades the soil from the hot sun of midsummer.

6415 **Tenuifolium Lily** No. 1 Color Plate. A very lovely little Lily growing only 12 to 18 inches tall and producing an abundance of bright scarlet flowers with much recurved petals. Blooming in June, this pretty little Lily is well adapted to almost any position in the garden. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6381 **Chinese Regal** No. 2 Color Plate. This beautiful new Lily comes from Northwestern China, which is a guarantee of its hardiness. The exquisite blending of tints and colors form a charming contrast with the rich, deep green foliage. The large trumpet-shaped, fragrant flowers are pure, transparent white, with a distinct, rich canary-yellow throat and orange stamens. The buds and outside of petals are delicate pink which is often reflected through the petals. Height 3 to 4 ft.; mature bulbs producing 5 to 10 flowers in June and July. Blooming size. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6409 **Rubrum Lily** No. 3 Color Plate. This is one of the joys of August; ruby spots informally distributed over a broad expanse of white. Many consider this the most beautiful of all Lilies. Each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

6377 **Auratum Lily** (The Gold Banded Lily of Japan.) No. 1, Color Plate. Excellent for cut flowers, blooming in July and August. Flowers pure white, background dotted with crimson spots, while through the center of each petal runs a golden band. Flowers immense, sometimes 6 inches across, of delicious fragrance. Plant grows 3 to 5 feet tall and will bear up to 20 flowers. Large bulbs, each 50c; 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

6416 **New Cernum Lily** No. 5 Color Plate. This rare and beautiful new lily comes from Northeast China, so it is perfectly hardy. It has the habit of Tenuifolium Lily but is a pleasing shade of salmon with orange shadings and occasionally, deep wine colored spots. Blooms freely, often ten or more flowers on a single stem. Makes a nice companion to the Tenuifolium, which is a deep red. This is a stem-rooting lily which grows to a height of about two feet. A distinct Novelty which you can show to your friends with pride. Each 50c; 3 for \$1.25; 12 for \$4.00.

6384 **Davuricum Lily** (Umbellatum) No. 6 Color Plate. Of strong, sturdy habit, growing from 2 to 3 feet high, having large showy, orange-red flowers in clusters at the summit, flowering in June. Each 35c; 3 for 90c; 6 for \$1.60; 12 for \$2.80.

6427 Set of 6 Color Plate Lilies, Value \$2.35 for \$2.00

## Lemon Lily

Well known family resembling Hardy Lilies in character and bloom, usually sweet scented and bearing a great quantity of yellow flowers during long periods of summer. They run in height from 2 to 4 ft.

6386 **Hermerocallis Flava** Beautiful lemon colored flowers 3 to 4 inches in diameter and delightfully fragrant. This popular variety is well worth a permanent place in every garden. We sell annually more than 2,000 of this variety. Blooms in May and early June. Each 15c; 3 for 40c; 6 for 70c; 12 for \$1.20.

## Hardy Phlox

One of the most useful flowers for summer decorations. Colors vary from pure white to deep crimson. Exceedingly hardy. Once planted, they require no further attention for several years, but it is advisable to renew them about every fifth year. They flower from early July to middle of September and 1 to 4 ft. tall. Cut off the first flower spikes as soon as over, give the plants a good soaking and a second crop of bloom extending until late in the fall may be expected. This is especially true of the beautiful Miss Lingard.

6541 **Admiral** Very large trusses of reddish pink.

6523 **Betty Lou** Without question the outstanding salmon-pink.

6543 **Colonial** Extra large light blue. Blooms over a long period. Strong grower, unique color.

6525 **Electra** Brilliant red, blooms July to September.

6542 **Feurbrand (Fireglow.)** New, brilliant orange-scarlet, sometimes almost vermilion. Flowers freely throughout entire season. One of the showiest Phlox.

6545 **L'Innocence** Pure snow-white, large and very tall.

6546 **Mrs. Milly Van Hoboken** Fine soft pink, suffused with mauve. No eye markings. Long erect stems, large, loose spikes.

6547 **Nicholas Flammel** Beautiful new variety of carmine lake red with crimson eye.

6544 **Painted Lady** Delicate and very pleasing silvery-pink with salmon shadings and cherry red eye.

6548 **Special French** Lovely shade of glowing pink with salmon eye. Mammoth trusses.

6549 **Mrs. W. G. Harding** A most wonderful shade of salmon-red. Unusual color in Phlox.

6550 **Winedot** Similar to the old Phlox Bridesmaid. White with crimson eye, which is encircled with a pleasing tone of mauve. Prices on above Hardy Phlox. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6551 Set of 12 Hardy Phlox \$2.00.

## Peonies

6514 **Avalanche** Magnificent Peony opens like a rose bud. Pure white with pencillings of carmine on edge of center petals. Waxy, chaste and fragrant. Crown type. Each 40c.

6515 **Karl Rosenfeld** Rich, velvety crimson, brilliant and striking flower. Semi-rose type. Mid-season. Tall and stately habit. Each 50c; 3 for \$1.25; 6 for \$2.25.

6516 **Kelway's Queen** A most delicate and lovely Peony of flesh-pink. Rose type, late. Each \$1.00; 3 for \$2.50.

6517 **Longfellow** Bright crimson with a cherry tone. Perhaps the most brilliant red Peony. Golden stamens surround center petals. Each \$1.00; 3 for \$2.50.

6518 **Milton Hill** Large, cup-shaped flowers of clear soft flesh color. Creamy center, rose type, late. Each \$1.00.

6519 **Mons Jules Elie** King of all Peonies. Immense, globular flowers of glossy lilac-pink, shading to deep rose. Overlaid with silver. Each 40c; 3 for \$1.00.

6520 **Pres. Roosevelt** Deep, rich, brilliant red. A grand Peony. Mid-season, semi-rose type. Each 50c; 3 for \$1.25.

6521 **Pres. Taft** Delicate Hydrangea-pink, completely enveloped with halo of white. Fragrant, rose type, mid-season. Profuse bloomer. Vigorous grower. Each 75c; 3 for \$1.90.

6522 **Primevere** "Springtime." Large, full blooms of bomb type. Outer petals sulphur-white, center petals sulphur-yellow. The nearest approach to a yellow Peony. Mid-season bloom. Each \$1.00; 3 for \$2.50; 6 for \$4.50.

6523 **Walter Faxon** Distinct, delicate bright rose-colored flower with salmon-pink shading. A charming variety. Semi-rose type, mid-season. Each \$1.00.

6524 Set of 10 Peonies Value \$7.55 Only \$6.00.

# Hardy Perennial Plants

In talking and writing to us, a great many people each year, say something like this—"I want flowers in my garden but I don't want to have to replant completely every year." That must be why our Hardy Perennial Plant Department has grown so large and remained large even during the depression years.

A garden of Hardy Perennial Plants may be added to from year to year. Plant enough this spring to make a reasonable showing, then round out the planting as time goes on. No home is complete without a well selected assortment of Hardy Perennial Plants. They require little attention, get bigger and better as time goes on and provide an abundance of color in your garden and cut-flowers for your home. They fit into borders, make nice beds by themselves, look well along the foundation of your house, are a necessity for Rock Gardens and round out plantings of flowering shrubbery and roses. Our Hardy Perennial Plants have been carefully grown for you by our own skilled nurserymen. Prices are so low that you cannot afford to omit what you need when you send us your order. Remember, these prices include delivery.

Hardy Perennial Plants such as we produce for you, are the types which will do well under the widest range of climatic and soil conditions.

Study carefully the five pages devoted to these Hardy Perennial Plants. Remember, the index in the front of this catalog gives both the common and the botanical names of all plants, so that you can easily locate varieties.

## Note! Rock Garden Plants, "RG"

Not every plant is suitable for rock gardens. Some are too large, others require a better foot-hold than the small amount of soil between the rocks or over them provides. For this reason and to help you in making your selection if you have a Rock Garden, those Hardy Perennial Plants in the following five pages, which are suitable for Rock Gardens, are indicated by the letters, 'RG' after the name. We were just about the first firm in this country to encourage the making of Rock Gardens and you will find our assortment for this purpose is unexcelled.

**6004 Achillea Perry's White. R.G. (Yarrow).** A choice variety of Achillea. Snow-white flowers, an outstanding favorite for a filler in mixed bouquets for mid-summer use. It blooms from June to August on plants about two feet tall. Easy to grow, prefers a sunny location and good garden soil. Showy for Rock Garden and border plantings. Each 20c; 3 for 50c; 6 for 90c.

**6007 Aconitum FISCHERI. (Monkshood)** This beautiful perennial should be in every garden. Its blue flowers and dark glossy foliage will add attraction and charm to any part of your garden. They bloom at a time when color is needed and continue for a long period. They will succeed in any good garden soil. A dwarf variety, growing to 30 inches high, producing very large pale blue flowers in September and October. Foliage is very decorative. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

**Artemisia Silver King**

Makes Attractive Winter Bouquets

**Artemisia—Silver King**

**6012 Anemone, Windflower**

**Pulsatilla Rubra.** Grows from 9 to 12 inches high and produces reddish-purple flowers during April and May. Very beautiful for mass planting or as a specimen plant in the Rock Garden. Especially fine for borders. Anemones quickly adapt themselves to any locality. Each 20c; 3 for 50c; 6 for 90c.

## Is Your Garden Going to the Dogs?

If so, spray with **DOGZOFF** Season's Supply 69c.

**Hardy Astilbes**

Herbaceous Spirea

They succeed best in a rich, deep, moist soil and should be watered freely during their growing season. They will form large clumps, increasing in size and beauty from year to year. They are all very desirable for the garden among other perennials.

**6029 GRANDIS ROSEA.** Large graceful plumes of light lilac rose. A very fine variety. 4 to 6 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

**6031 KRIEMHILDE.** Strong vigorous habit producing large plumes of delicate salmon pink. 4 to 6 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

**6033 QUEEN OF HOLLAND.** A new variety of large and strong growth. Very fine pure white plumes 4 to 6 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

**6027 SET OF THREE ABOVE ASTILBES.** Good strong roots. A total value of 90c, will be sent for only 75c.

The following three are of dwarfier habit and besides being exceptionally fine for the garden are fine for forcing in pots indoors where they produce lovely blooms. They may later be transferred to the garden.

**6021 AMERICA.** Delicate light lavender-pink. One of the most popular varieties, 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

**6024 GLORIA.** A new and beautiful variety. Dense feathery spikes of deep pink. 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

**6026 PEACH BLOSSOM.** Soft delicate peach blossom pink. One of the most popular. 18 to 24 inches. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

**6036 SET OF THREE ABOVE ASTILBES.** Value 90c, for only 75c.

**6184 Hardy Aster Michaelmas Daisy**

These are among the showiest of our late flowering hardy plants, producing an abundance of flowers during September and October, when most other hardy flowers are past. They grow freely in any soil and require very little care. Sold only in sets of three colors; white, pink, lavender. Set of 3 for 40c; 3 sets for \$1.00.

Perennial plants are useful in odd corners.

Artemisia Lactiflora

Hardy Astilbe  
They make fine pot plants, too.

**6008 Alyssum ARGENTEUM. R. G. (Rock Madwort).** For early and continuous bloom the Alyssum is near the head of the list. Their beautiful foliage and plant form adapts them to use in any part of the garden. An especially fine form for the Rock Garden or edging. Lovely yellow flowers in clustered heads produced all summer. Foliage is silvery beneath. 12 to 15 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6009 Anchusa MYOSOTIDIFLORA. R. G.** The dwarf Anchusa is indeed a charming plant and very useful in any mixed planting, harmonizing well with any of the other perennials. The most dwarf of this family, producing clusters of beautiful blue Forget-Me-Not like flowers during May and June. 12 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Anemone Windflower

## Perennial Chart

On Page 78

Color, Height, Blooming Season and other details to help you.

**6183 Hardy Ageratum Eupatorium, R. G.** Resembles the Annual Ageratum in flower and plant form. This species produces in August and September lovely lavender blue flowers on plants 1½ to 2 feet tall. The foliage is very bright and ornamental throughout the entire season. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**Note** Both common and Botanical names of all seeds and plants appear in the Index on page 5.

Achillea

## Seeds

We offer a complete assortment of the world's best perennial seeds on pages 31 to 41.

## Artemisia

See Color Plate, Page 83

As beautiful decorative foliage plants for the hardy border or perennial garden, the Artemisias are without equal. They produce an abundance of light airy foliage that is equally as fine for bouquet use as it is decorative in the garden. Useful as winter bouquets when dried. They will succeed in any good garden soil that is well drained.

**6015 Silver King** A most beautiful silvery white foliage is produced in long slender sprays, making Silver King the most decorative plant in the entire garden list. When combined with cut flowers it adds a beauty to the bouquet that is amazing. Wherever Silver King is grown it at once makes many enthusiastic friends, you too will like it. Grows to 24 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6016 Lactiflora** A most desirable and effective hardy plant for the border, or to plant among shrubbery. Of strong, free growth, with erect stems 3 to 4 feet high, terminated with great panicles of fragrant, creamy-white flowers from late August to October. Quite distinct and desirable. This variety is not hard to grow, thriving best in moist rather rich soil and full sun. Water the plants freely. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6045 Set of 2 Artemisias Only 35c.**

Long Spurred Aquilegia

Digitails, Foxglove

## Delphinium, Hardy Larkspur

Without doubt the finest and most popular hardy perennial plant known to our garden today. Every garden should have a number of these plants with their beautiful blue flowers.

**6106 BELLADONNA.** The beautiful "Belladonna" with its large spikes of clear sky-blue flowers always attracts attention. They bloom continually from July to frost, in delicacy and beauty. Perfectly hardy everywhere. 1 year blooming size 20c; 3 for 50c; 6 for 90c; doz. \$1.60.

**6107 BELLAMOSUM.** This is a dark blue form of the popular light blue Belladonna, with which it is identical in habit of growth, freedom of bloom and other good qualities, but with intensely rich, deep blue flowers. 1 year blooming size 20c; 3 for 50c; 6 for 90c; doz. \$1.60.

**6108 Blackmore & Langdon's GOLD MEDAL HYBRIDS.** Unquestionably the finest strain of mixed hybrids offered. The plants are of strong, vigorous habit, with large flowers on spikes two feet and over long; a grand assortment of colors from delicate sky-blue to deep purple. 1 year blooming size 25c; 3 for 65c; 6 for \$1.15; doz. \$2.00.

**6128 Set of 3 Delphiniums, 50c; 2 Sets 90c.**

## Campanula, Canterbury Bells

See Color Plate Page 51

These beautiful hardy plants are a beautiful addition to the garden and add much color and charm to the border in late June and July with their masses of beautifully colored bell-shaped flowers.

**6056 CAMPANULA BLUE.** A beautiful blue.

Campanula

**6057 CAMPANULA PINK.** Delicate pink.

Either color. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

**6058 SET OF TWO CANTERBURY BELLS FOR 45c.**

**6059 ROTUNDIFOLIA SUPERBA. R. G.** Blue Bells of Scotland. A fine border or rock garden Campanula about 1 foot tall. Flowers of pendant nature borne from June to August. Superba has deep blue flowers. Each 30c; 3 for 75c; 6 for \$1.35.

Burbanks Shasta Daisy

# Hardy Perennials

## Long Spurred Columbine, Aquilegia

The popular old-fashioned Columbine, that everybody knows and loves, but greatly improved in form and color. See Color Plate, Page 51.

**6019 MRS. SCOTT ELLIOTT HYBRIDS.** It is quite generally agreed that there is no better strain of Aquilegia grown than this. Its vigorous growing plants produce a marvelous amount of lovely blooms for a long season. The colors are marvelous and the long graceful spurs add much charm and interest to the blooms. They grow to 2½ feet. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6022 BEE'S HYBRIDS.** An unusually fine strain producing large long-spurred flowers in a very beautiful color mixture. Vigorous healthy plants that succeed in almost any location. A fine cut flower variety. 2½ ft. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6050 Boltonia** Among the showiest hardy plants with large single Aster-like flowers. The plant is in bloom from July through September, with its thousands of flowers open at one time, producing a very striking effect. The flowers are a pleasing shade of pink. Clumps of Boltonia are effective in the rear of the hardy border, as they reach up to a height of 4 to 5 ft. They are excellent also for cutting. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

## 6185 Japanese Aster MAUVE CUSHION.

**R. G.** A distinct type forming a dense circular cushion 12 to 15 inches across, 9 inches high at the center tapering to 3 to 4 inches at the edge and completely covered with silvery-mauve daisy like flowers during late fall until killed by freezing. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Hardy Larkspur, Delphinium

## 6090 Chinese Lantern Plant

**Physalis Franchetti.** A very delightful and popular hardy perennial useful for its bright colored seed pods which are produced in the fall and with the first frosts turn to a brilliant orange red. These pods are quite freely produced at intervals along the branches and when colored resemble a string of fantastic Chinese Lanterns. The stems with the seed pods on can be dried and kept for winter decorations by cutting them after they have turned color and hanging them to dry in a cool airy place that is not too light. As winter decorative bouquets they are unexcelled; they mix well with any of the other dried flowers. Plants grow to 3 feet and should be planted in a location somewhat sheltered from wind. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Chinese Lantern

## 6100 Digitalis, Foxglove

**SHIRLEY.** A grand display of thimble-shaped flowers in immense spikes during June and July. Tall growing with large rough foliage.

Very showy in the garden. They are of extraordinary size and vigor, growing 5 to 6 ft. tall. The flower heads are over 3 feet long crowded with big, bell shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted with crimson or chocolate. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**Daisies Chrysanthemum Maxmum.** The Daisies are always welcome additions to the garden; their decorative effect in the garden is pronounced because of their free flowering habits and good foliage, and as cut flowers they are always useful.

**6053 BURBANKS SHASTA.** An improved type, having immense single glistening pure white flowers 3 to 4 inches across on tall stems. Hardy and of easy culture. A wonderfully profuse bloomer, giving you great quantities of good long stemmed flowers. Starts to flower in June and continues more or less freely all summer and fall. 2 to 2½ feet tall. See Color Plate Page 51. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6122 KOREAN DAISY.** A lovely new daisy from Korea, bearing large white flowers with golden centers somewhat resembling a glorified Shasta. Extremely hardy, blooming from early October to December. 30 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

## Bleeding Hearts Dicentra

See Color  
Page 53

The Bleeding Hearts are among the most popular and most desirable of our hardy plants. They are perfectly at home in any part of the garden and especially desirable in partial shade. They like a well drained soil.

Bleeding Heart

**6047 SPECTABILIS.** The old fashioned garden favorite of our grandmothers gardens. Its long graceful racemes of heart shaped flowers of beautiful pink and white are very attractive in April and May. The foliage is fern like and very decorative. This variety is used for forcing in pots with good success. 2 to 3 feet. Each 50c. 3 for \$1.25; 6 for \$2.25; 12 for \$4.00.

**6102 EXIMA (Plumy Bleeding Heart.)** Somewhat more dwarf with more finely cut foliage. Produces an abundance of pink and white heart shaped flowers in graceful racemes in April and May and often at intervals throughout the season. 1½ to 2 feet. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

**6103 SET OF TWO BLEEDING HEARTS—For only 65c.**

**Rock Garden Plants** All of these Hardy Perennial Plants suitable for your Rock Garden are marked "R. G."

## 6096 Double Buttercup RANUNCULUS.

**R. G.** The double yellow buttercup seems to enjoy a location in the garden and produces its lovely fully double golden yellow blooms in great profusion. They are very effective in the hardy border or among the medium height plants in the rock garden. They are very beautiful and graceful as a cut flower. They bloom from July to September growing about 18 inches tall. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Ranunculus, Buttercup Daisy

See  
Perennial  
Chart  
Page 78

## 6088 Chinese Corydalis CHEILANTHIFOLIA. R.

**G.** A lovely little plant with beautiful fern-like foliage bearing long racemes of rich yellow blooms somewhat resembling the bleeding heart. Of Chinese origin this plant is very hardy and of easy culture in any well drained soil. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

## 6357 Hardy Candytuft IBERIS, GIBALTARICA. R. G.

Desirable dwarf plants 8 to 10 inches high with evergreen foliage that is completely covered with dense heads of white flowers in early spring. The hardy Candytufts are very useful and pretty plants for edging the hardy border or for use in the rockery. They are fine also for carpeting among shrubs, tulips or any other similar location. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Hardy Candytuft

## Hardy Perennial Plants Continued

### 6133 Echinops Globe Thistle

Wonderfully interesting hardy perennial plants 3 to 4 feet tall, having handsome, silvery, thistle-like foliage, and very attractive globe-shaped steel blue flowers 1 to 2 inches in diameter. The flower heads if cut when first open and hung in a dark closet to dry, make very attractive winter bouquets. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

### 6183 Eupatorium Hardy Ageratium, Coclestinum.

A useful hardy perennial resembling Ageratum and bearing clusters of lovely lavender-blue flowers from August to frost. Height 12 to 24 inches. Fine for perennial border and makes adorable bouquets because of its delicate form and unusual color. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Echinops, Globe Thistle

**6148 Day Lily Funkia, Undulata Variegata.** A very beautiful plant, broad fluted pale glossy leaves with a broad creamy-white central band and loose racemes of blue flowers; makes a very attractive border for beds. Funkias do well in shady corners or under overhanging shrubs. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

### Gaillardia, Blanket Flower

**6176 Grandiflora.** One of the showiest hardy plants growing about 2 ft. high and beginning to flower in June, they continue the entire season. The large flowers are of gorgeous coloring. The center is dark red-brown, while the petals are marked with rings of brilliant crimson, orange and vermilion. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6351 Magnificent.** A tall strong growing variety with immense flowers. Many consider this the most brilliantly colored combination of golden yellow and red of any of the Gaillardias. Each 50c; 3 for \$1.25.

Gaillardia Grandiflora

### Geum, Avens See Color Plate, Page 51

The Geums are very delightful and ornamental plants that are too little known in American gardens. Fine plant form, pretty foliage and brilliantly colored blooms. They enjoy a loamy soil and plenty of moisture during blooming season. Bloom nearly all summer.

**6177 LADY STRATHEDEN.** Similar to Mrs. Bradshaw except in color which is a rich golden yellow. See Color Plate Page 51.

**6178 MRS. BRADSHAW.** A splendid variety with large double flowers of a rich fiery red. See Color Plate Page 51.

Price either variety. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

**6175 SET OF TWO GEUMS FOR 40c.**

**6169 Heuchera** The Shirley R. G. Beautiful plants, producing clusters of bright foliage and slender fairy-like spikes of bright red flowers. Bloom in July and August and make very attractive cut-flowers. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.10.

Gay Feather

### Kansas Gay Feather Liatris, Blazing Star

**6371 Pycnostachya Gay,** perfectly hardy perennial which will attract much attention, fill a big place in your border and make exquisite cut-flowers for a tall vase. Rich purple spikes 1 foot long on plants 6 feet tall. Blooms July and August.

**6372 Scariosa** September blooming type of Kansas Gay Feather. Large, showy purple heads, very imposing form. 4 to 5 feet tall.

Prices on both varieties. Each 25c; 3 for 65c; 6 for \$1.15.

**CULTURE**—Both varieties thrive well in any good garden soil, in sun or in shade and look best if planted in groups of three or more. May be grown by the pool for an effective color scheme. Bees love their unusual sweetness.

### 6130 Doronicum (Leopardbane) Excelsum.

This beautiful perennial produces large bright yellow daisy-like flowers in early Spring. Flowers are often 2½ to 3 inches across. A very fine border or garden plant and one of the very earliest good cut flowers. 30 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Gypsophila Paniculata

### Hardy Gypsophila

A class of hardy plants that is almost indispensable to the garden from which cut flowers are gathered. Gypsophila is one of the finest bouquet trims, being equally good with any flowers.

**6181 PANICULATA (Baby's Breath).** Perhaps the best of the hardy Gypsophilas for producing that "mist" effect when used in bouquets. Its numerous tiny white flowers are produced in light feathery panicles with delicate foliage from July to September. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6182 BRISTOL FAIRY.** A double flowered form of this beautiful flower, with greater vigor and more continuous blooming habit. The tiny double white flowers are produced almost continuously as cut. These are grafted plants and will give you the best results. Each 40c; 3 for \$1.00; 6 for \$1.80; 12 for \$3.20.

**6174 SET OF 2 GYPSOPHILAS ONLY 50c.**

### Helianthemum, Sun Rose

A very delightful little plant having evergreen foliage and forming dense clumps of rich green from which during July and August, spring a multitude of bright colored blooms borne on stems six to eight inches tall, fairly hiding the plant itself. They especially delight in a sunny Rock Garden location.

**6195 The Fireball** Bright scarlet, double.

**6354 Sudbury Gem** Crimson bronze, single.

Prices on either variety of Helianthemum. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Heuchera

11 Plants, Value \$2.75 for \$2.25.

Hardy Forget-Me-Not

### 6444 Hardy Forget-Me-Not Myosotis, Palustris.

The true "Forget-Me-Not" appealing in its modest azure beauty and cherished for its sentiment. Bushes up to 12 inches high and blooms profusely during early summer. Few spring flowers are more admired than the lovely Forget-Me-Not, and few flowers are so well adapted to so many uses and locations. For low borders or mass bedding they are invaluable, and for Rock Garden work they are unexcelled. Succeeds best in deep, rich soil and partial shade. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

### Double Hollyhocks

Stately, majestic hardy plants, from 6 to 8 feet high, which are a necessary part of every old-fashioned garden, and should also find a place interspersed with shrubbery, as clumps on the lawn or in the mixed border, where their colossal spikes of bloom produce bold and showy effects, which cannot be secured with any other flowering plant. The Hollyhock requires a deeply dug, well drained soil. We offer an exceptionally fine strain of Double Hollyhocks in the following colors: White, Newport, Pink, Sunset, Crimson, Lilac and Yellow. Sold only in sets of six, one of each color as above.

**6192 Set of six colors, not separately labeled, \$1.00.**

Double Hollyhocks

A rock garden may be large or it may be small and there are perennials to fit

All Plants suitable for Rock Gardens have "R. G." after the name.

## Hardy Perennial Plants

A Clump of Lupines

## Lupines

See Color Plate  
Page 51.

**Polyphyllus.** One of the most attractive and beautiful hardy perennial plants we know is the Hardy Lupine. They form large clumps 2 feet across, often having 20 to 30 beautiful spikes open at one time. They are at their best in May and June.

**6431 BLUE 6432 ROSE 6430 WHITE**  
Price any of Above: Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

**6429 SET OF 3 LUPINES FOR ONLY 50c.**

**6438 Mertensia Virginia Blue Bells**

An early spring-flowering plant, growing about 1 to 1½ feet high, with drooping panicles of handsome light blue flowers, fading to clear pink, one of the most interesting of our native spring flowers. May and June. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6441 Monarda, Bergamot**

Brilliant flowers of crimson scarlet produced on showy plants growing 2 to 3 feet high, and succeeding in any soil or location. The whole plant is aromatic. The bloom is produced throughout July and August. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Penstemon See Color Page 70

## Hardy Pinks, Dianthus Plumarius

A great deal of the charm of the old fashioned gardens of our grandmothers day was due to the Hardy Sweet or Spice Pinks that were then so popular and held a prominent place. The pinks we offer are improved varieties of this same delightful species.

**6111 PRINCE BISMARCK. R. G.** A lovely new Dianthus producing its bloom in good sized clusters on upright stems eight to ten inches tall. The flowers are a beautiful bright rosy pink. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

**6110 IPSWICH CRIMSON.** A beautiful new variety of deep crimson with sweet-scented flowers. 6 to 8 inches. Each 25c; 3 for 65c.

**6116 MARGARET MARTIN. R. G.** A new introduction by our perennial grower who has thought so well of this variety that he named it for his little daughter. It is a beautiful flower of rich mahogany crimson, very sweetly scented and a continuous bloomer. 6 to 8 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

**6119 BRISTOL JEWELL. R. G.** An extremely fine variety of the sweet scented Grass Pinks, with lovely semi-double, very fragrant crimson flowers, distinctly centered with white eye. Flowers are freely produced from early June until frost. 8 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

**6120 Set of 4 Hardy Garden Pinks Only 90c.**

Oenothera

## Oenothera, Evening Primrose

The Evening Primroses are among the most interesting plants for the garden. They are especially fine in a sunny location where their brilliant yellows glisten in the sun light with a brilliancy of gold.

**6456 MISSOURIENSIS. R. G.** A delightful variety of dwarf habit producing rich yellow flowers often 3 to 4 inches across from early June to August. 8 to 10 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Platycodon

Hardy Primrose, Perfection  
Oriental Poppy

**Papaver Orientale.** These are the royal representatives of this popular genus, growing about 3 feet high and far surpassing in magnificence of bloom all the other types.

Almost any kind of soil suits them. For a display of brilliant coloring nothing equals them during their time of flowering, May and June, whether planted singly or in masses.

**6458 ORIENTAL SCARLET.** Large cup shaped blooms of brightest crimson-scarlet with large purplish-black blotch at base of petals.

**6468 ORIENTAL MRS. PERRY.** A very fine variety of orange-apricot.

**6467 SET OF TWO ORIENTAL POPPIES FOR 45c.**

Prices on Oriental Poppies. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

## 6465 Platycodon, Chinese Bellflower

**Balloon Flower.** A splendid hardy perennial, having tuberous roots and forming bushes 2 feet high, with profusion of pretty five petaled bell-shaped, star-like flowers, 1½ to 2 inches across. The flower buds before opening resemble small balloons. A very desirable plant for every garden. The color varies from dark blue to white. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

## 6466 Plumbago Larpentae R. G.

One of the most desirable border and rock plants, and a very persistent bloomer from July until freezing weather. It grows 6 to 8 inches high and of very spreading habit. During blooming season it is fairly covered with lovely dark blue flowers. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

Oriental Poppy

## Hardy Primrose, Primula Elatior

While the Primulas are among the most beautiful and interesting of all early blooming plants for the border and rock garden they are still little known and appreciated in American gardens. Give them partial shade and a moist but well drained soil.

**6567 MUNSTEAD RED. R. G.** Rich mahogany-red flowers often gold laced and borne in clustered heads.

**6568 MUNSTEAD YELLOW. R. G.** Beautiful large flowered yellow shading darker. Very good bloomer.

**6470 POLYANTHUS PERFECTION. R. G.** The pretty flowers of yellow, crimson, red and brown are borne in clusters 8 to 10 inches above the fine foliage. In a sunny spot they are among the first to bloom in spring.

Price any of above Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

**6582 Set of 3 above Primulas Only 60c.**

## 6460 Pachysandra Terminalis

**Japanese Spurge.** Low trailing plants growing 6 to 8 inches high and forming dense mats of practically evergreen foliage. A very desirable ground cover. Pachysandra thrives under trees, under shrubs, even in the densest shade it produces an abundance of its bright glossy green foliage. **Strong 2 year field grown plants.** Each 20c; 6 for 90c; 12 for \$1.60; 50 for \$5.00; 100 for \$8.00; 1000 for \$60.00.

## Penstemon, Beards-Tongue

Beautiful border plants with bright attractive foliage and brilliant showy blooms. Very hardy and free-blooming adding much color to the perennial border planting during mid-summer. The tall slender spikes bear many trumpet shaped blooms with hairy-throat, hence the name. See Color Plate, Page 51.

**6454 SHELL PINK.** Flowers of a delicate shell pink on tall graceful spikes. Very beautiful and bright colored. 30 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

## Physostegia, Dragon Head

One of the most beautiful of our midsummer hardy perennials, producing its spikes of colorful bloom in July and almost continuously until frost.

**6164 VIRGINICA VIVID. R. G.** A dwarf compact type producing flowers of deep pink. Free blooming, continuing until frost. A fine rock garden plant. 18 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Hardy Pinks

## 6469 Pyrethrum, Painted Daisy

See Color Plate Page 70.

Of low compact growth with feathery fernlike foliage of bright green. During June and July they bear multitudes of long stemmed daisy-like flowers in shades of pink, rose and white. Excellent subjects for the hardy border or for bedding. 15 to 18 inches. This is the plant from which many Insecticides derive their most important ingredient. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

Pachysandra Terminalis

## Perennial Plants (Continued)

## 6586 Hardy Salvia, Meadow Sage

**Azurea Grandiflora.** A variety of great beauty bearing light azure colored bloom in great profusion upon tall slender spikes. The plants grow from 3 to 4 feet tall and bloom from August until killed by frost. Spreading plants, with swaying flower wands which arch gracefully clear from the crown. Salvia Azurea is an excellent border plant and its graceful form of growth fits well in any planting. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6579 Saxifraga *Crassifolia*. (Rockfoil) R. G.

A vigorous spreading type with dense racemes of deep pink flowers borne well above the foliage. Blooms profusely from April to June. 12 to 15 inches. A most desirable class of plants for rock garden use, having attractive deep green foliage which takes on most beautiful tints in the fall. They are at their best when growing among rocks. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40.

## Statice, Sea Lavender

**6591 LATIFOLIA.** Low clumps of thick leathery foliage forming a rosette from which rise the flower stems to a height of 15 to 18 inches bearing large loose panicles of pretty little purplish blue flowers. Fine for bouquet use or for drying. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6595 DUMOSA.** A new variety forming bushy plants and bearing large heads or closely arranged silvery gray flowers. The finest for drying. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

## 6588 Sidalcea, Rose Queen

A desirable hardy perennial that is very little known. Well worth a place in every garden. Produces spikes 2½ to 3 ft. in height, densely covered from July to September with pretty single rosy-pink flowers. Each flower about an inch across. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

## 6593 Hardy Sweet Peas

**Lathyrus Latifolius.** Hardy perpetual blooming Sweet Peas, fine for covering old stumps, fences, etc. They are perfectly hardy, increasing in beauty each year. Valuable for cutting. Three colors: White Pearl, Pink Beauty, and Splendens Red. Sold only in sets of three varieties.

SET OF THREE NOT SEPARATELY LABELLED FOR ONLY 50c; 3 sets for \$1.25.

## Veronica, Speedwell

**6614 LONGIFOLIA.** One of the most attractive of all the blue flowers for the border or perennial garden. Violet-blue flowers are produced in spikes 6 to 12 inches long on graceful stems from July to September. 2 feet.

**6613 ELEGANS.** R. G. A semi-dwarf variety producing large pink flowers. May be used to fine advantage in the Rock Garden. Blooms July to Sept. 12 inches.

**6612 TEUCRIUM RUPESTRIS ROSEA.** R. G. Similar to Teucrium except in color of flower which is a rich rosy-pink. 12 inches.

Price Any of Above Veronicas. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

6621 SET OF THREE VERONICAS FOR 65c.

## Viola Cornutas See Color Plate Page 51

**6616 JERSEY GEM.** R. G. Not only a gem for the Rock Garden, but also one of the most valuable hardy bedding plants of recent introductions. The plant is of compact sturdy habit, forming neat clumps. It is in bloom continually from May to October. The flowers are pure violet-purple, and borne on stems 5 to 6 inches long. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

**6618 APRICOT.** R. G. The plants are small and of compact growth but very colorful with their large blossoms of various shades of apricot-yellow. They bloom almost continuously from May until frosts. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

6619 SET OF TWO VIOLAS FOR 35c.

## 6617 Violet, Prince of Wales, R. G.

These are the popular English Violets, with their fragrant blooms of rich violet-purple produced very profusely on long stems. They are perfectly hardy everywhere, prefer a rich moist soil and partial shade. They bloom in April and May. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

## 6641 New Variegated Yucca

**Adam's Needle.** Among stately hardy ornamental foliage and flowering plants, there is nothing more effective and striking for isolated positions on the lawn than this splendid type of YUCCA. Its broad sword-like evergreen foliage and immense branching spike of drooping, creamy-white flowers during June and July make an attractive plant for any position. This valuable new variety is identical with the popular old variety, except that each sword-like leaf is broadly margined creamy white, adding much to its beauty. EXTRA STRONG PLANTS, Each 40c; 3 for \$1.00; 6 for \$1.80.

12 Hardy Plants Value \$2.65 for \$2.25

All plants suitable for Rock Gardens have "R. G." after the name.

Trollius, Globe Flower

Statice

**6601 Teucrium Chamaedrys.** Germander R. G. A handsome little plant with shrub like habit, having glossy green foliage. The flowers are produced in loose whorls on spikes which rise above the foliage, they are reddish-purple produced in July and August. Excellent in the Rock Garden or as an edging. 12 inches. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60.

## 6602 Thymus, Sweet Thyme

**Citriodorus.** R. G. A delightful little plant or subshrub with fragrant lemon scented foliage. Rarely grows over eight inches tall making a delightful Rock Garden plant. The flowers are lilac or purplish and produced in May and June. 6 to 8 inches. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

## Trollius, Globe Flower See Color Plate Page 53.

The large richly colored Globe Flowers are indeed beautiful and charming. When in full bloom, a group of them with their large nodding heads in rich yellows and orange is a wonderful sight. They grow to 2 feet, begin blooming in May and continue until August. Their foliage is a beautiful dark green with palm-like leaves making very attractive plants for the garden even when out of bloom. Trollius seems to delight in a moist but well drained soil blooming more profusely and continuously with a regular supply of moisture. They are lovely in the Rock Garden where their height is not too great. We are offering five of the finest colors.

**6604 SALAMANDER.** Large richly colored flowers of a lively rich orange. Very free flowering.

**6605 METEOR.** Heavy dark orange, several shades darker than Salamander. The richest color of all.

**6606 EMPIRE DAY.** A lighter shade of orange of great lustre. A very popular and beautiful variety.

**6607 GOLDQUELLA.** A very rich yellow-orange. Bright and clear. This variety was recently voted an Award of Merit by the R. H. S. of England.

**6608 EUROPIUS SUPERBUS.** A light lemon yellow, soft and pleasing. Europius Superbus was also voted an award of Merit by the R. H. S. of England. Price Any of Above Trollius. Each 40c; 3 for \$1.00; 6 for \$1.80; 12 for \$3.20.

6609 Set of 5 Above Trollius for \$1.75.

## 6611 Valeriana, Centranthus

**Cocclnea rubra.** R. G. This beautiful and useful perennial plant produces an abundance of showy flower heads of a delicate old-rose shade from June to October. Its foliage is excellent, lacy and rich colored making it adaptable to any location in the rockery or garden. 2 feet. Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$2.00.

## 6620 Myrtle, Vinca or Periwinkle

**Minor.** R. G. A beautiful and useful trailing evergreen plant, excellent for carpeting the ground under shrubs or trees, on a terrace or embankment or in any location where it is not desirable to maintain a mown lawn. Especially well adapted to cemetery use, and in Rock Gardens about the larger rocks. The flowers are blue and produced at intervals throughout the season. Strong nursery grown clumps. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60; 25 for \$2.65.

# Hardy Flowering Shrubs

Double Althea

## Add Beauty To Your Home

Permanent and increasingly beautiful results are more easily obtained from plantings of hardy flowering shrubs and vines than from any other sort. The small cost in time and money necessary, is well spent in securing a well-kept and attractive home grounds, adding to the beauty and comfort of home and increasing the value of property. Plantings of hardy shrubs once established become an established part of your property almost as permanent as your house and lend that beauty and harmony to the house and surrounding landscape necessary to produce the complete picture of beauty and comfort, interesting and inviting to all who pass by.

Quick results and low cost are two features of the shrubs that we list in the following pages. Strong, healthy roots direct from our nursery that will quickly grow into plants of beauty and at a price that is only possible because of the great number of them that we grow and sell. Just a small amount invested in hardy flowering shrubs, vines or hedge plants will give you results far beyond your expectations and add more in beauty and satisfying comfort to your home than any investment of equal amount. To start right, buy the best.

Buddleia

## Altheas, Rose of Sharon

Very attractive hardy shrubs or small trees, very easily grown and forming very symmetrical plants whether grown as a shrub or to tree form. The Altheas are a very fine hedge subject and with their large gay flowers from July to October are very attractive.

**6701 Double White (Jeanne de Arc).** The best of the pure white double flowering Altheas and very fine for any location. **1 year size. Each 20c; 3 for 50c; 6 for 90c.**

**6702 Double Red (Boule de Feu).** Very beautiful, and the freest blooming of all the double Altheas. Excellent for hedge or group use. **1 year size. Each 20c; 3 for 50c; 6 for 90c.**

**6708 Set of Two Altheas** One each of Double White and Double Red for **35c.**

## 6740 Buddleia or Butterfly Bush Variabilis Magnifica

One of the most desirable summer flowering shrubs, beginning to bloom in July, it continues until cut by severe frost. The flowers are of a pleasing shade of violet mauve. Succeeds everywhere and blooms freely the first season. In the North it dies down to the ground in winter, forming a new bush each year, 5 to 6 ft. high. In August and September every branch carries a beautiful spike of fragrant flowers that attracts many butterflies, hence the name "Butterfly Bush." See Color Plate Page 83.

**6740 Strong blooming size plants. Each 30c; 3 for 75c; 6 for \$1.35.**

## 6739 "Ile de France" New Improved Buddleia

This wonderful new French introduction is a thrilling beauty with its brilliant, rich, rosy-purple flowers of such fragrance that it attracts hives of beautiful Butterflies. The plant grows 3 or 4 feet in height, forming a symmetrical, bushy shrub, every growth of which is terminated by a graceful spike of the lovely flowers, 9 to 12 inches long. Blooms from late July to the end of autumn. Strong blooming size plants. **Each 50c; 3 for \$1.25.**

## 7056 Cornus, Florida Rubra

**Flowering Dogwood.** This very desirable variety of flowering Dogwood bears a mass of deep pink blooms in early Spring before the foliage appears. The foliage throughout the Summer is a very handsome rich green, in the Autumn turning to a bright crimson. They grow into tree form reaching the height of 20 to 30 feet with very graceful and attractive branches. Their bright flowers, handsome foliage and crimson coloring in the Autumn make them very ornamental and attractive throughout a long season. They are an especially attractive tree for the lawn or yard creating much attention. The Cornus likes a moist but well drained soil and does well in either sun or semi-shade. We are offering them this year at very reasonable prices. **Strong. Each \$1.00; 3 for \$2.50; 6 for \$4.50.**

## Calycanthus, Sweet Scented Shrub

A universal favorite for a hundred years or more. Also called "Spice Bush" as the bark is quite fragrant. Blooms in June and intermittently throughout the Summer. Delightfully fragrant, chocolate-brown flowers. Height 5 to 6 feet.

**7012 2 year, well branched, 15 to 18 inch. Each 40c; 3 for \$1.00; 6 for \$1.80.**

## 7016 Hardy Chinese Azalea Mollis

See Azalea Mollis in Color on Page 83

The Azaleas are one of the most beautiful and popular families of hardy flowering shrubs in cultivation, and the Chinese Mollis is perhaps the most satisfactory and most easily grown of all. Their great charm is in their wonderful array of color, they vary from light yellow to salmon and dark orange, scarcely two plants exactly alike in color. For best effect we suggest planting in groups as the yellow, orange and salmon blend beautifully together. They are perfectly hardy thriving under ordinary garden conditions but do best in a protected location where they will be in partial shade. For best success, prepare the soil to the depth of 15 to 18 inches, using 50 per cent of well rotted leaf-mold from the woods or decayed peat from a swamp or both. Be careful that there is no lime in the soil. Water freely. The plants we offer are strong healthy plants that will give you lovely flowers the following spring.

**7016 Strong 12 to 15 inch size. Each \$1.25; 3 for \$3.15; 6 for \$5.75.**

## 7022 New Red Barberry

See This Barberry in Full Color on Page 83

The foliage is rich bronzy reddish, purple. This new Barberry will form neat, symmetrical clumps that will be an ornament to any lawn. To produce the most brilliant colors it should be planted in full sunshine. As autumn approaches, it becomes more brilliant in color. Perfectly hardy and easy to grow.

**Price 2 year, 12 to 18 inch, each 35c; 3 for 90c; 6 for \$1.60.**

## Japanese Barberry

**Berberis Thunbergi.** One of the most useful and desirable of all shrubs. Equally as well adapted to border or group planting either mixed with other shrubs or by themselves. And especially valuable as a hedge subject. Their thick luxuriant foliage graceful and informal and the bright red berries carried through the winter make this a very attractive shrub.

**7020 JAPANESE BARBERRY. 12 to 18 inch. Each 20c; 3 for 50c; 6 for 90c; 12 for \$1.60; 25 or more at 12c each.**

**7021 JAPANESE BARBERRY. 18 to 24 inch. Each 30c; 3 for 75c; 6 for \$1.35; 12 for \$2.40; 25 or more at 18c each.**

## 7014 Double Pink Flowering Almond

**Amygdalus.** Very desirable and attractive. Extra early flowering shrubs of rather dwarf habit. Usually 3 to 4 ft. in height. The branches are completely covered with pretty little double pink flowers in early spring before the leaves appear. This is an unusually valuable shrub but not grown as widely as it should be. Adapts itself well to any location but is probably best as a single specimen in a position where it may develop to its fullest beauty. See Color Plate Page 83.

**7014, 2 yr. 2 to 3 ft. Each 50c; 3 for \$1.25; 6 for \$2.25.**

## 7029 Bechtel's Double Flowering Crab

This is not a shrub, but rather develops into a small tree. It is perfectly hardy everywhere, succeeding nicely in all soils and climates. It would be difficult to describe its wonderful beauty when in bloom, the branches bending under a profusion of delicate pink delightfully fragrant rose-like flowers. The only sweet scented double flowering crab. It will require a little more room than the ordinary flowering shrubs on account of its tree-like habit of growth, and its full beauty can only be known and appreciated when it has plenty of room to develop. It is very often used as a single specimen plant for lawn planting and in this location during its blooming period in May and June presents one of the most gorgeous sights imaginable. See Color Plate Page 83. **Our price, 2 year, only 60c; 3 for \$1.50.**

Our Garden "How"  
Book is free with orders  
of \$2.00 or more

Chinese Azalea, Mollis

## Hardy Flowering Shrubs, Cont. Bush Honeysuckle, Lonicera

See Honeysuckle in Color Plate Page S3.

The upright Honeysuckles have bright pretty flowers followed by showy berries that last through the fall. Make very desirable bushy screening hedges, and the nucleus of tall shrub groups. These shrubs are not particular as to soil or conditions. They always seem to do well. They will also do well in the shade.

**Tatarica Rosea** 6-8 feet. This is very attractive when in blossom, being one of the few early pink-flowering shrubs, followed by bright red berries that stay on all summer.

**6737** 1 year size, Each 20c; 3 for 50c; 6 for 90.

**7037** 2 year size, Each 35c; 3 for 90c; 6 for \$1.60.

## Deutzia, Pride of Rochester

The Deutzia is a fine showy shrub of great ornamental value coming to us from Japan. Their luxuriant foliage and profusion of attractive flowers have given them a front rank among flowering shrubs. Pride of Rochester is a very profuse bloomer bearing pretty double flowers of pinkish white. The flowers are produced in May and June and frequently to a smaller extent at later intervals.

**7065** Heavy 2 year, Each 30c; 3 for 75c; 6 for \$1.35.

Deutzia, Pride of Rochester

**7108 Hypericum, Goldflower Moserianum** A very desirable shrubby perennial for the border or lawn, producing long, slender, much branched stems, which are of free, graceful and pendulous habit. The flowers are borne freely from July to late September and are a rich golden yellow, 2 inches or more in diameter, resembling immense single buttercups. The numerous yellow stamens and crimson anthers add much to the attractiveness of the flowers. Of very easy culture and especially useful and desirable for a sunny location. Hypericum is herbaceous dying to the ground each year. 2½ ft. tall. One year, 12 to 18 inches. Each 30c; 3 for 75c; 6 for \$1.35.

## Scarlet Japanese Quince

**Cydonia Japonica** Very popular and desirable shrub completely covered with dazzling scarlet flowers in early spring, May, before the leaves appear, followed by small fruits which are quite fragrant when ripe. The plants have protecting thorns and are very desirable grown as hedges, producing a most brilliant effect when in bloom. The plants grow to a height of 5 to 6 ft. The foliage is dark glossy green. One very nice feature of this shrub is the fact that the branches can be cut any time after the first of the year and brought indoors for forcing into bloom.

**7193** 1 year, heavy plants, Each 30c; 3 for 75c.

## Japanese Rose-Flowering Cherries

Tokio presented Mrs. Taft with 3,000 of these beautiful trees which bloom each spring on the banks of the Potomac in Washington.

The fame of these Flowering Cherries has spread all over our country and we know you will be glad to see that we have listed three of the best varieties here and at a price which makes it possible for you to plant several of them and make your home grounds attractive like Japan and Washington in "Cherry Time."

**7260 Hisakura** Double deep, apple - blossom pink.

**7261 New Red** Fine double, deep rose.

**7262 Shirofugen** Double, soft pale pink.

Prices on Japan Flowering Cherries. Each \$1.00; 3 for \$2.50.

**7264** Set of 3 Cherries for \$2.50.

## Japan in "Cherry Time"

You, too, can have a lovely Japanese Garden if you'll plant some Flowering Cherries.

## Forsythia or Golden Bells

An upright growing shrub, often reaching eight feet, with deep green foliage and pendulous trumpet shaped flowers of bright clear yellow. A strong grower and profuse bloomer with long and gracefully arching branches. Blooming in April or early May before foliage has appeared the branches are veritable masses of golden flowers, brightening up the border or garden very attractively long before any other shrubs are ready to bloom. Forsythias are easy to grow, thriving in most any soil, in sun or shade.

**7087** Heavy 2 year, Each 40c; 3 for 1.00; 6 for \$1.80.

## New Double French Lilac

Here is an opportunity to procure some of these wonderful Hybrid French Double Lilacs for your home. They are quite distinct from our common single Lilacs, being of dwarf, compact growth, and producing their large clusters of perfectly double flowers when only 2 or 3 feet high. Often blooming the second year after planting. They are absolutely sure to bloom freely every year. See Color Plate Page S3.

**6846 Madam Casimir Perier** Large compact panicles of pure white, double, very fragrant flowers.

**6847 Michael Buchner** Dwarf, stocky growth and delicately beautiful trusses of fragrant lilac-blue flowers.

**6845 Pres. Grevy** Very large panicles often 8 to 10 inches long of beautiful double rich blue flowers.

Price any variety, Strong 1 year, Each 50c; 3 for \$1.25; 6 for \$2.25.

**6848** Set of 3 Double Lilacs, One of each variety for \$1.25.

Bush Honeysuckle

## Hardy Hibiscus Mallow Marvels

The most valuable acquisition in hardy herbaceous plants introduced in recent years. Forms large plants or clumps 5 to 6 feet high, and 3 to 4 feet across which produce their many large blooms in the most beautiful colors from white through various shades of pink and red to brilliant crimson. We cannot offer in separate colors.

**7103** Strong 2 year plants, 18 to 24 inch. Each 25c; 3 for 65c; 6 for \$1.15.

Hardy Hibiscus

## Hydrangeas

These magnificent hardy American shrubs are of outstanding merit among all flowering shrubs. Their beautiful luxuriant foliage and their attractive massive clusters of bloom, their ease of culture and their adaptability to any use are only part of their valuable characteristics.

## Oakleaved Hydrangea Quercifolia. See Color Plate Page S3.

A little known shrub, but of such great merit that it is deserving a place in every garden. Its foliage is heavy and large resembling the oak-leaf in shape. The flowers are produced in large panicles of creamy white which turn as the season advances to vinaceous orange and bronze and finally to a brownish purple. They are quite hardy and will thrive in any good soil. 5 to 6 feet.

**6804** Strong plants. 1 year. Each 30c; 3 for 75c; 6 for \$1.35.

## Arborescens Grandiflora 3 to 4 ft. White. May and June.

Also called Hills of Snow or Snowball Hydrangea. The blooms are of the very largest size, of pure snow-white color and the foliage is finely finished. One of its most valuable characteristics is its long period of bloom from early June through August making it doubly valuable.

**6805** One year. Each 20c; 3 for 50c; 6 for 90c.

**7105** Two year. Each 40c; 3 for \$1.00; 6 for \$1.80.

**Paniculata Grandiflora** Grows 4 to 5 ft. high and is very bushy and compact. Blooms in July at a time when few other shrubs are in flower; the flowers remain until destroyed by frost. The flowers are pure white, changing to pink and are borne in immense clusters. Fine for hedges or for foundation plantings.

**6806** One Year. Each 20c; 3 for 50c; 6 for 90c.

**7106** Two year. Each 40c; 3 for 75c; 6 for \$1.35.

Hydrangea, Paniculata

Bechtel's Flowering Crab

We will be glad to quote special prices on larger quantities of shrubs.

Rhus, Smoketree

## Hardy Flowering Shrubs, Cont.

### Rhus, Purple Smoketree

**Purple Fringe.** A curious large growing shrub forming a broad round-headed hush. Delicate fringe like or feathered flowers in early summer very freely produced. Leaves are a bright pea-green. When in full bloom the appearance is like a cloud of smoke. Very novel and decorative.

**6896** One year. Each 30c; 3 for 75c; 6 for \$1.35.

### Kolkwitzia or Beautybush

**Amabilis.** A handsome new shrub which has been introduced to American gardens from China, becoming at once most popular. Will grow 5 to 7 feet tall, very dense and hushy with long arching branches which are densely covered in May with the beautiful lively pink bell shaped flowers. Has all the merits of one of the best decorative ornamentals, excellent form and habits, beautiful profusion of bloom and finest foliage. Will succeed in nearly any location.

**6831** Strong plants. Each 50c; 3 for \$1.25.

Mock Orange, Philadelphus Virginialis

### Snowberry

*Symphoricarpos Racemosus*

3 to 4 ft. Neat shrubs of slender, graceful medium growth, having pretty small pink flowers in June or July, followed by large clusters of waxy-like snow white berries throughout the late summer, autumn and early winter. A very effective shrub for masses in the shrub border, or for foundation planting. Does well under most soil conditions and stands the smoke and dirt of cities.

**6915** Strong one year size, 12 to 18 inch. Each 25c; 3 for 65c.

**7215** Two year, 2 to 3 ft. Each 35c; 3 for 90c; 6 for \$1.60.

### Coral Berry

*Indian Currant*

Although related to Snowberry and similar to it in many ways, Coral Berry is not so upright in growth, and the branches sweep gracefully to the ground, almost trailing in habit. An excellent subject for planting on dry terraces and banks where it thrives in spite of dry and adverse conditions. It also makes a pretty hedge or border. Grows about 4 ft. tall and bears pink flowers in July. The beauty, however, is in the racemes of currant-like scarlet berries which follow the flowers during the fall and winter.

**7055** Two year heavy, 2 to 3 feet. Each 30c; 3 for 75c.

Snowball, Viburnum

### Snowball or Viburnum

**Opulus Sterilis.** The well known and always popular snowball or sometimes called the Guelder Rose. Its large globose clusters of snow white flowers in May and June and its rich dark green foliage have made it one of the most attractive and conspicuous shrubs in the gardens for many generations. They do well in nearly any location even in very dry soil, sun or semi-shade and will often develop to 8 to 10 feet in height and very symmetrical in shape.

**7213** Strong Two Year, Each 50c; 3 for \$1.25.

### African Tamarix

Strong slender shrubs, growing to a height of 8 to 10 feet. Sprays of delicate pink flowers appear in early spring, April and May, before the leaves appear. Blooms at intervals throughout the summer. The foliage is light green, fine and feathery. Very attractive. Excellent in masses with tall shrubs.

**6912** One year strong plants, 12 to 18 inch. Each 25c; 3 for 65c.

### French Pussy Willow

**Salix Capre.** A cultivated variety of Pussy Willow that is becoming quite popular. Cut the branches during the winter months, place in a vase in a warm room and watch them develop. The buds will begin to unfold and disclose the pretty catkins and in a few days more they will be loaded with a golden pollen. Very easily grown. They delight in a moist soil.

**6890** Price extra strong plants, 3 to 4 ft. cut back. Each 25c; 3 for 65c.

See Shrubs in Colors on Page 83.

### 7253 Vitex Large Leaved Chaste Tree

**Macrophylla.** An interesting flowering shrub. Forms graceful, shapely attractive plants 3 to 4 feet high with nicely divided foliage with aromatic odor. The pretty lavender-blue flowers on long terminal spikes or racemes, begin blooming in July, continuing without interruption until frost.

If you want a really pretty shrub that your neighbors do not have, try this, as we feel sure you will like it. The shrub will bloom better if the tops are cut back to within about 6 inches of the ground each spring.

Price, Strong 2 year Plants 50c; 3 for \$1.25.

### How to Landscape

Weigela Rosea

Free Cultural Instructions packed with all nursery orders.

Snowberry

For real beauty of plant and flower few shrubs excel the Hydrangeas—See Page 73.

French Pussy Willow

## Hardy Flowering Shrubs, Cont. Spireas

The Spireas are among our most useful and popular shrubs. They are all perfectly hardy and do well under any fair condition. You will find them satisfactory for specimen planting or massing. We offer several of the best varieties as described below.

**Van Houtte** Bridal Wreath. 4 to 8 ft. White, May. This is the most useful hardy shrub. The flowers are in flat clusters, usually an inch or more across, produced on spreading, pendent branches often drooping to the ground. In full bloom they are a mass of white and never fail to attract attention. See Color Plate Page 83.  
6937 One year, Each 20c; 3 for 50c; 6 for 90c.  
7237 Two year, heavy. Each 40c; 3 for \$1.00; 6 for \$1.80.

**Anthony Waterer** Desirable dwarf growing, profuse blooming shrub, forming neat, round bushes two feet high. Large, flat sprays of rosy crimson flowers from June to September. Useful for bordering porches or clumps of large shrubs.  
6921 One year, Each 25c; 3 for 65c; 6 for \$1.15.  
7221 Two year, Each 35c; 3 for 90c; 6 for \$1.60.

**Thunbergii** A dense fluffy bush, 3 to 5 ft. One of the earliest. A mass of snow white flowers in early May.  
6935 1 year, Each 20c; 3 for 50c; 6 for 90c.

Anthony Waterer Spirea

Spirea Van Houtte or Bridal Wreath

## Hardy Climbing Vines

The attractive beauty that may be added to a home by planting a few hardy climbing vines around the porch or on a trellis, arbor or fence is unsurpassed by any other plantings. Their usefulness in covering unsightly fences and buildings and turning them into objects of beauty is far in excess of their small cost. They fit in and grow well in locations where no other plants will grow with success. Every home should have a few, and our list includes only those which will succeed in nearly any location.

### 8003 Boston Ivy *Ampelopsis Veitchii*

Once it is established it grows rapidly and will stay indefinitely needing only an occasional trimming to keep it within bounds. It is not attacked by disease or insects and the foliage is not injured by smoke and dirt of cities. The glossy leaves turn to a brilliant orange scarlet in the fall. Its greatest value is in its clinging to any brick or stone wall, and will completely cover any house or other building even to the height of 30 to 40 ft. or more. Two year size 35c; 3 for 90c; 6 for \$1.60.

Boston Ivy

### Scarlet Trumpet Vine

**7907 Bignonia Radicans** A robust climbing vine. Its orange scarlet trumpet-shaped flowers cluster at the tip of branches. Blooms in July. Produces an abundance of beautiful dark green foliage which makes it very desirable for covering summer houses, arbors or rustic fences. It clings tightly with its twining tendrils, which are borne at intervals along the branches. Easily established and grows luxuriantly. Grows to a height of 15 to 20 ft. Strong one year plants 30c; 3 for 75c; 6 for \$1.35.

### Honeysuckle, Lonicera

A very popular hardy deciduous climbing vine unsurpassed for use in shading porches or on arbors. They quickly cover any unsightly object over which they may climb. The flowers are delightfully fragrant.

**8030 Hall's Japan** This is a very rapid climber and very popular. Produces an abundance of rich green foliage, which in mild locations is evergreen. Its creamy-white flowers are produced from June to August and are very fragrant. Each 25c; 3 for 65c; 12 for \$2.00.

**8031 Coral** A distinct variety which produces large trumpet shaped flowers in clusters. The flowers are a coral scarlet of mild fragrance and very showy. The foliage is rich and glaucous, making a beautiful covering wherever used. Strong, 2 year plants each 30c; 3 for 75c; 6 for \$1.35.

**8033 Set of 2 Varieties**, 1 root each for 50c.

Hall's Japan Honeysuckle

### 7966 Silver Lace Vine

**Polygonum Auberti** One of the most desirable and valuable rapid climbing, hardy vines introduced in many years. The plant is a quick growing vine of twining habit, often attaining a height of 25 to 30 ft. in a season, producing more flowers than any other hardy vine we know, throughout the summer and fall months, literally covered with silvery-white foamy sprays. The illustration from a photograph gives a very good idea of the great beauty. This splendid vine is usually offered in growing plants, which are rather difficult to transplant. We are fortunate in having a supply of heavy, dormant pot plants, which are 2 year field grown plants, guaranteed to give you satisfaction. If you have a place for a beautiful permanent hardy vine, you will be delighted with this variety. Strong vines 50c; 3 for \$1.25.

### Climbing Bitter-Sweet

**8009 Celastrus Scandens** Handsome glossy foliage and large clusters of beautiful orange crimson fruits retained all winter. Its graceful sprays of berries make charming winter house decorations. A popular vine for covering rough fences, or other unsightly places. 2 year roots. Each 25c; 3 for 65c; 12 for \$2.00.

### Clematis

#### 8014 Paniculata or Snowbank

Sweet-scented Japanese Clematis. Completely covered in September with a mantle of pure-snow-white fragrant flowers. Strong Plants, each 25c; 3 for 65c; 6 for \$1.15.

**7911 Coral Coccinea** An interesting rapid climbing species producing very ball-shaped, coral-red flowers from early June until late fall. Strong roots, each 35c; 3 for 90c; 12 for \$2.80.

Clematis, Paniculata

### Large Flowering Clematis

These desirable large flowering Clematis require more careful culture than the small flowered varieties. They require rich deep soil, good drainage, and an abundance of water. They should be planted with the crown 2 to 3 inches below the surface and spread the roots out horizontally.

**8012 Jackmanii** The best of the purple flowered varieties. Flower large 4 to 5 inches across and of rich velvety purple, produced more or less through July to September. Each 75c; 3 for \$1.90.

**8013 Madame Ed. Andre** Large flowers of rich crimson. Each 75c; 3 for \$1.90.

**Chinese Wisteria** Large pendulous clusters of pea-shaped blossoms of rich purple, which fairly laden the vine in May and early June. They are most beautiful when covering the porch or a large arbor where they will climb higher and higher seemingly with no limit. We are offering grafted roots from blooming vines which are much quicker to establish themselves and bloom than seedling plants.

**7975 Strong plants**. Each 40c; 3 for \$1.00; 6 or \$1.80.

Wisteria

Beautiful effect obtained with Silver Lace Vines.

Cover fences, sheds, garages and porches with Hardy Vines.

Frau Karl Druschki Rose

## Hardy Hybrid Perpetual Roses

The plants we offer are all strong, healthy, two year old, field grown, budded stock.

These are the beautiful "June Roses" so universally popular. They are the largest and richest in colors of all Roses, and are perfectly hardy everywhere. In accordance with our established policy, we have selected only six of the best varieties.

**8211 Frau Karl Druschki** (P. Lambert 1900.) A recent referendum among the members of the American Rose Society brought out the information that this is the most popular Rose in America. Its pure, snowy-white, unshaded blooms are of immense size, sometimes reaching almost 6 inches in diameter and they are of lasting quality, on fine stems, though without fragrance. In addition to its abundant bloom in June, will, if kept growing, produce many flowers throughout the summer and in the autumn. No substitute for "Druschki" has yet appeared.

**8213 General Jacqueminot** A rich velvety crimson, changing to a scarlet-crimson. This is the best known of all hybrid perpetuals, and is without rival in fragrance and richness of color. Blooms freely.

**8221 Magna Charta** Flowers are very large and double, of bright pink, suffused with carmine. Deliciously fragrant, growth is strong and erect, foliage good.

**8222 Mrs. John Laing** Large flowers of clear pink, cup-shaped, fragrant and double. Strong growth, healthy foliage and free flowering. One of the best Hybrid Perpetual Roses, giving some flowers in the autumn.

**8230 Paul Neyron** The largest Rose in cultivation, sometimes called the Peony Rose. Color bright, fresh clear pink. Flowers are very double and full, delightfully fragrant. Blooms almost continuously June to October.

**8243 Ulrich Brunner** Large, full flowers of cherry-red, very fragrant. Strong, erect growth, large foliage. Flowers freely in early summer. An old and well known variety, almost thornless.

Prices on the above Hardy Perpetual Roses. Each 60c; 3 for \$1.50; 6 for \$2.70.

**8248 Rose Collection**  
6 Roses 1 each of above  
6 Hybrid Perpetual  
Total Value \$3.60 for \$2.75

## Everblooming Hybrid Tea Roses

The Hybrid Tea or Monthly Roses produce their beautiful bloom almost continuously from June until frost. They are the popular roses so much used for bedding and as cut flowers. Our list below includes some of the finest varieties known.

See page 33. The big number after the name refers to the color plate. These are all hardy, field-grown right here in Northern Ohio and number one grade, which is the finest rose produced. Do not confuse this with cheap, department store roses which are largely produced in the south and not strong enough to stand our Northern winters. They are well worth the price we ask for you cannot buy better roses anywhere, at any price.

**8261 Columbia** Lively Pink. Large, fully double. Shades darker at maturity. Fragrant and free blooming. Each 75c; 3 for \$1.90.

**8263 Dame Edith Helen** Clear Pink. Blooms are very large, pure glowing pink, intensely fragrant and lasting. Each 75c; 3 for \$1.90.

**8266 Duchess of Wellington (4)** Yellow. Opens a rich orange yellow and turns to red-dish-gold and lemon. Each 65c; 3 for \$1.65.

**8276 Gen. MacArthur** Crimson. Large, fine flowers, free blooming and fragrant. Each 75c; 3 for \$1.90.

**8275 Gruss an Teplitz** Crimson. Blooms from early June until frost in great clusters. Each 75c; 3 for \$1.90.

**8318 Herbert Hoover (9)** Pink and Yellow. Beautiful pointed buds opening to large flowers of cerise pink, flame, scarlet and yellow. The most dazzling color effect. Each 65c; 3 for \$1.65.

**8296 Lady Hillington** Beautiful slender buds, opening to semi-double flowers of deep apricot-yellow, slightly fragrant. Free flowering but needs thorough protection in winter. Especially fine in autumn. Each 75c; 3 for \$1.90.

**8299 Los Angeles (5)** Coral Pink. Produces continuous bloom on long-stemmed, luminous flame-pink flowers toned with coral and shaded translucent gold. Each 65c; 3 for \$1.65.

**8302 Madame Butterfly (10)** Light Pink. A symphony of bright pink, apricot, gold and white. Full-petalled, prolific and great color-appeal. Each 65c; 3 for \$1.65.

**8304 Mme. Edouard Herriot** Coral Red. A beautiful variety. Large flowers of coral red, shaded with yellow and bright, rosy-scarlet. Large, long, pointed buds. Each 75c; 3 for \$1.90.

Lady Hillington Rose

**8306 Mrs. Aaron Ward** Orange-yellow. Long, shapely buds opening into semi-double, cup-shaped flowers of deep Indian yellow, varied and shaded. Each 75c; 3 for \$1.90.

**8326 Red Radiance (8)** Crimson. Blooms globe shaped, very full and almost continuously. Each 65c; 3 for \$1.65.

**8328 Rev. F. Page-Roberts** Long buds, varying in color from deep coppery-pink to orange and red. Petals of open blooms are golden yellow on the inside and stained with copper and red on the outside. Long stemmed flowers, dwarf plants. Each 75c; 3 for \$1.90.

**8330 Souv. de Claudius Pernet** Clear yellow. A clear, untinted, sunflower yellow. Holds color well in bud and full bloom in brightest sun. Each 75c; 3 for \$1.90.

**8333 Talisman** Copper Yellow. Richly colored flowers, extremely fragrant, of golden yellow and copper. One of the most popular of the new roses. Each 75c; 3 for \$1.90.

**8339 Wilhelm Kordes** Long pointed buds of oriental red and gold. Fully double, high-centered blooms are of rich golden-salmon tinged with copper. A sensational new variety. Each 75c; 3 for \$1.90.

**8355 Set of 5** See Color Page 33.  
**My Favorite Roses**  
Total Value \$3.25 for \$2.75

## Beautiful Hardy Climbing Roses

No other class of Roses is so easily grown and adds so much to the beauty of the home grounds. Whether it be on a trellis or arbor or at a porch pillar they so quickly make a fine growth and give such a great quantity of delightful bloom, that the place is transformed to a spot of beauty. Our list below includes only those that we know will give you the best results and the greatest beauty.

**8505 Climbing American Beauty** Color rosy crimson similar to its popular parent, and with same exquisite fragrance, a quality rarely found in climbing roses. Strong growth. Flowers from 3 to 4 inches in diameter, of fine form, and produced in great profusion in May and June. Each 40c; 3 for \$1.00; 6 for \$1.80.

**8523 Gardenia** Hardy Marechal Niel. A delightfully beautiful variety of very vigorous growth and with rich dark green foliage. Produces an abundance of fine flowers which are a bright yellow in the bud opening to a creamy white with a yellow center. Each 40c; 3 for \$1.00; 6 for \$1.80.

**8526 Mary Wallace** Introduced by the late Dr. Van Fleet and highly indorsed by The American Rose Society. A strong rapid climber of the Pillar-rose type, and a wonderfully free bloomer. Beautiful pointed buds, and large semi-double flowers 4 inches across. Color clear bright rose pink. Each 40c; 3 for \$1.00; 6 for \$1.80.

**8535 Silver Moon** Different from all other Roses with beautiful semi-double flowers, pure white in color, petals of great substance and beautifully cupped. The large bunch of yellow stamens in the center add to its attractiveness. Each 40c; 3 for \$1.00; 6 for \$1.80.

**8508 Doctor Van Fleet** A climber which combines absolute hardness with flowers large as the tender sorts of Tea and Noisette classes. This variety shows a mass of beautiful clustered buds, which open out into large, shapely flowers delicate flesh white. Fine for cutting, stems 12 to 18 inches long. Each 40c; 3 for \$1.00; 6 for \$1.80.

**8528 Mme. Gregoire Staechelin** A new climbing rose of very vigorous habit. Flowers are very large moderately fragrant and of a delicate pink with attractively curled petals and, borne on long strong stems. The vigorous foliage of this new variety makes it a very fine subject for trellis or arbor. Each 50c; 3 for \$1.25; 6 for \$2.25.

The Climbing American Beauty

## Hardy Climbing Roses Continued

**8530 Paul's Scarlet** Most dazzling scarlet rose ever grown. Winner of the gold medal at the National Rose Society Exhibition. Semi-double flowers, in clusters of 3 to 20 Roses each. Perfectly hardy, continues to bloom long after many other Roses have disappeared. Startlingly attractive. **Each 40c; 3 for \$1.00.**

**8507 Dorothy Perkins** The best known of all the Climbing Roses. Healthy (not subject to mildew) and so easily grown. Beautiful rose-pink, a vigorous, rapid climber with rich glossy green foliage and clusters of lovely double Roses. **Each 30c; 3 for 75c; 6 for \$1.35.**

### 8504 **Blaze** See Color Page 33

Blaze Climbing Rose is the sensation of the day and you just must have it in your garden. It is a blazing scarlet, similar in color tone to Paul's Scarlet and blooms almost continuously like Grus or Teplitz, making it a most unusual and attractive Rose. Blaze can be pruned low for bedding, medium high for shrub use or allowed to grow into a trailing Rose as a climber. Perfectly hardy and a vigorous grower. **Each \$1.50.**

## Hardy Rugosa Roses Eskimo Beauties

This valuable new type of Hardy Rugosa Rose called "Eskimo Beauties" is becoming very popular. They have perfectly double flowers and bloom at intervals throughout the entire season. They are absolutely hardy and are not susceptible to many of the diseases and insects that attack other roses, keeping their foliage clean and fresh throughout the season. All the pruning you need to do is to trim out dead and superfluous wood. The plants bloom intermittently through the summer.

**8551 Agnes** A fine Rugosa Rose with fragrant yellow flowers and fine crinkled foliage of rich dark green. The flowers appear at intervals along the branches making it very attractive. **Each 50c; 3 for \$1.25; 6 for \$2.25.**

**8555 F. J. Grootendorst** Bearing many flowers with fringed petals, this variety is a mass of color when in bloom. A sturdy and healthy plant, one of the best of the Rugosas. Bears its bright flowers more or less all Summer. **Each 35c; 3 for 90c; 6 for \$1.60.**

**8561 Hansa** A quite distinct color among Rugosa Roses. Large showy flowers very double of a reddish violet, very freely produced on a strong typical Rugosa plant. Very hardy and dependable. Makes a splendid hedge. **Each 35c; 3 for 90c; 6 for \$1.60.**

**8565 New Century** Considered by many as the best Rugosa yet introduced. Splendid, very large fully double flowers of clear flesh pink with light red center and each petal bordered with creamy white. Very fragrant. Erect strong growing plants with tough foliage. **Each 35c; 3 for 90c; 6 for \$1.60.**

**8569 Sir Thomas Lipton** Snowy white flowers of good size and unusual quality borne in utmost profusion in spring and to some extent throughout the summer and fall. The plant is large and vigorous making an excellent specimen plant or massing variety. **Each 35c; 3 for 90c; 6 for \$1.60.**

**8554 Dr. E. M. Mills** Light primrose with pink suffusion which becomes more pronounced in the later blooms. Cup shaped flowers, semi-double. It flowers along the stem like Hollyhocks. **Each 35c; 3 for 90c; 6 for \$1.60.**

**8574 Set of 6 Rugosas only \$1.50**

## Everblooming Hardy Cluster Rose

**8578 Baby Rambler** Entirely distinct from all other Roses. Neat, dwarf, compact habit, in bloom continually from June until frost. Pretty, little perfectly double flowers in large clusters. Color brilliant crimson. Perfectly hardy, retaining its glossy green foliage all summer. Grows about 18 inches high. One of the finest ever introduced. 2 year field grown plant. Don't confuse this with the Climbing Ramblers. We have seen a number of beautiful hedges of this variety. **Each 35c; 3 for 90c; 6 for \$1.60.**

## 4 Grape Vines Only 80¢

Concord

Agawam

Niagara

Worden

No item in this catalog will give you greater satisfaction than this splendid set of Hardy Grape Vines. Every home, if only on a city lot, will provide room to plant them.

**8601 Agawam** A rich, deep red, almost maroon. The large, meaty berries are borne in huge bunches. An excellent grape; you'll like it.

**8603 Concord** The best known and the most popular grape. Its large black berries are most delicious and of finest quality.

**8611 Niagara** This large amber-white grape is the finest of all the white grapes. The clusters are very compact and the berries sweet and juicy. It ripens at the same time as the Concord.

**8618 Worden** Similar to Concord but slightly darker, sweeter, and ripens about ten days earlier. A fine variety for the home garden.

Price Above Vines Each 30c; 3 for 75c; 12 for \$2.40

Write for Quantity Prices for Larger Plantings

**8619 Set of 4 Strong, Well Rooted, 1 year old Grape Vines** illustrated above Only 80c.

## Three New Hardy Hybrid Grapes

See Color Plate on Page 52

**8602 Caco (Red)** The berries are unusually large, bunches of good size, compact and of good form. Very strong, vigorous growers, hardy, healthy, and prolific. A cross of the two well-known grapes, Catawaba and Concord, has all the good qualities of both without the defects of either. Ripens in September. Price, strong well rooted vines, **Each 40c; 3 for \$1.00; doz. \$3.20.**

**8606 Fredonia** A new early blue developed by the New York State Experiment Station. Heavy bearer, good shipper, picks as late as Concord. Big, compact bunches. **Each 50c; 3 for \$1.25; 12 for \$4.00.**

**8614 Portland** A new extra early white, also developed at Geneva. Very sweet. Not a good shipper but fine for home table. **Each 50c; 3 for \$1.25; 12 for \$4.00.**

The New Caco Grape

## Berry Plants

**8646 Early King Raspberry** This is an extra early red Raspberry. The berries are very large, bright-red, firm and easily picked. The canes are strong and perfectly hardy. As a market variety it is a money maker as you get the early market ahead of other varieties. Price: **6 for 45c; 12 for 80c; 25 for \$1.50.**

**8656 St. Regis Everbearing Raspberry** A splendid new early Red Raspberry that is well worthy of a place in every garden. It produces an abundant main crop like the common varieties. Remove old canes 1st of August to make room for young canes, which are already ripening fruit, continuing until October. Berries large, bright red and of excellent quality. Strong well-rooted plants. Price: **6 for 50c; 12 for 90c; 25 for \$1.75.**

Cumberland Raspberry

### 8644 Cumberland Black Raspberry

**Eldorado Blackberry**  
The "BUSINESS BLACK CAP." The best black Raspberry grown. Very hardy everywhere. Heaviest bearing variety in cultivation. Fruit is extra large, jet black, and of superior quality. Ripens medium early. Price: **6 for 45c; 12 for 80c; 25 for \$1.50.**

**8664 Eldorado Blackberry** This popular hardy Blackberry is known everywhere and more largely grown than any other because of its extreme hardiness and dependability. Eldorado can always be depended on for an abundant crop. It is the Blackberry for every fruit grower. Large, sweet and free from core. Price: **6 for 60c; 12 for \$1.10; 25 for \$2.00.**

**8653 Latham Red Raspberry** Large size, fine red color, firmness and good quality make the Latham a favorite with growers, merchants and consumers. The plants we offer are absolutely free from "Mosaic Disease," the great enemy of raspberry growers. Price: **6 for 50c; doz. 90c; 25 for \$1.75; 100 for \$5.50; 1000 for \$50.00.**

## Vegetable Roots

**8684 Asparagus, New Washington** A few roots of Asparagus planted in your garden will in a short time yield you many fine juicy stalks for your table use, and what is more delicious than Asparagus tips, fresh from your own garden. This variety is highly recommended by the U. S. Department of Agriculture as being nearer rust proof than any other variety. It is the product of continual selection of the best plants of the Washington strain, and produces large tender shoots of excellent quality. Price: **12 for 75c; 25 for \$1.35; 50 for \$2.20; 100 for \$3.60; 1000 for \$27.00.**

**8689 Rhubarb, Early Victoria** A few clumps of Rhubarb in a corner of the garden will furnish a continual supply of material for pies and sauces during the early summer months. The Early Victoria is generally considered the best variety for general use. Stems are very large, tender, and of delicious flavor. Yields abundantly and is ready for use early in the season. May be grown in a corner of the flower garden if desired for the foliage is very decorative. Price: **6 for 90c; 12 for \$1.60; 25 for \$3.00; 100 for \$8.50.**

Grapes are going to be worth real money again. We recommend that you plant plenty.

# Perennial Flower Chart

Because of the increased interest in perennial plantings we have compiled this chart in the hope that it will be of help to you in making better plantings of this valuable class of flowers.

[illegible]

# Antrol

## Kill Ants in the Nest!

Antrol is the simplest method for getting rid of Ants. It kills them in the nest, destroying the queen and the entire colony. It is easy to use, controls the sweet and the grease eating Ants, is safe to use and is the most economical and permanent Ant protection to your home. **Price Antrol Sets, 4 glass containers and one 4 oz. bottle of Antrol Syrup for \$5c.**

Antrol Syrup Separately. 4 oz. Bottle 40c; Pint 95c.

Antrol Powder. Shaker twist-top can, Each 2½ oz. can 30c; 3 cans for 75c.

# ATLACIDE

CHLORATE WEED KILLER

## "Dust Away Your Weeds"

Atlacide is a NON-POISONOUS Weed Killer in dry powder form used to dust on vegetation. The moisture from the air and weeds dissolves the chemical and produces a highly concentrated weed killing solution directly on the weeds. For use in paths, driveways, tennis courts, brick walks, gutters, etc. **Price 1 lb. Sifter Can 55c; 3½ lb. \$1.65; 15 lb. \$3.80.**

## "Black Leaf 40"

### Safeguard Your Lovely Flowers

Tiny green, red or black Aphis feed upon the tender foliage in your garden and rob your flowers of their beauty.

Have on hand some "Black Leaf 40," the spray that kills Aphis, Thrip, Leaf-Hopper and similar insects.

"Black Leaf 40" is a concentrated solution of Nicotine Sulphate. Mixing 1 part of it with 800 to 1000 parts of water, makes an excellent contact spray. Directions on each container. **Price 1 oz. 35c; 5 oz. \$1.05; 1 lb. \$2.35; 2 lbs. \$3.40; 5 lbs. \$6.00.**

## New Improved CERESAN for Wheat, Oats, Barley

If your seed is smutty, treat it with Ceresan to control the smut, if it is clean, treat it anyway and increase the yield. **One-Half Ounce Treats a Bushel. Price 1 lb. can 85c; 5 lb. can \$3.25.**

## COLLOIDAL SULPHUR

A General Fungicide and Contact Insecticide for Fruits, Vegetables, Flowers, Shrubs, Trees

The most effective Sulphur Fungicide known. It is not an ordinary ground sulphur, but a true colloid, chemically made. A widely usable spray. **Price ½ lb. tube 95c; 3 lb. jar \$2.25.**

## "DOGZOFF"

If you are bothered with dogs, cats or rabbits, "Dogzoff" is the spray you need. A most efficient animal repellent, non-poisonous to plants and animals and not offensive to humans.

"Dogzoff" is applied with any small insect sprayer and one application lasts three to four weeks. It will save its cost many times over around the garden and home.

Price for Season's Supply 69c

# Insecticides and Fungicides

## Our Prices Include Delivery To Your Door

## EVERGREEN

Non-poisonous Insecticide

New Ever Green Spray will protect the beauty of your garden. It will kill chewing and sucking insects, is approved by noted scientists and is used by leading florists.

Ever Green contains pyrethrum which is fatal to destructive insects but is not injurious to man, pets and birds.

**Price 1 oz. 40c; 6 oz. \$1.10; 1 qt. \$2.15; 1 gal. \$12.50.**

## FRAIM'S

Tree Dressing  
Will Save Your Trees

Treatment of cuts and injuries are far more important than the use of fertilizers on trees.

Use Fraim's Tree Dressing and give your trees a chance to live their normal life. A tree's bark is to it the same as the skin to the human body. Save this bark with Fraim's Tree Dressing. **Price 1 qt. 60c; 1 gal. \$1.75.**

## FORMALDEHYDE DUST

A very simple, effective control for "Damping off" in flower and vegetable seedlings. The dust is mixed with soil at the rate of 1½ oz. per sq. ft. of area when the soil is approximately 3 inches deep. **Price 1 lb. can 85c; 5 lbs. \$2.15.**

## Fungtrogen

For Mildew  
or Black Spot

Fungtrogen is a complete spray when mixed with 60 times its volume of water. It is a highly concentrated fungicide, invisible on the foliage or blooms, fertilizing the plant through the leaves. A wonderfully spray for ROSES. **Price 4 oz. 50c; ½ pt. 80c; pt. \$1.35; qt. \$2.20.**

## GRAPE and ROSE DUST

Controls  
Fungus Diseases

A fine greenish fungicide dust for control of Mildews, Black Spot and other fungus growths, widely used by Rose and Grape growers everywhere.

Easy to use and is non-poisonous to children, pets or birds. Try it this year. **Price 1 lb. 45c; 5 lbs. \$1.65; 25 lbs. \$6.85.**

## NITRAGIN

Inoculator

See Page 55

Inoculate your Garden Peas, Beans, Sweet Peas and Lupines with Nitragin. They need Bacteria Fertilizer. Nitragin is an old reliable Inoculator, well known and widely used by Agricultural Colleges. It is highly recommended for Lupine seed and for use in watering the soil around the roots of Hardy Lupines. **Price Garden Pkg. 25c; Large size 50c.**

## RED ARROW

Perfected  
Pyrethrum

Red Arrow is a perfected Pyrethrum contact spray that gives a complete kill, destroying every insect it strikes. It is fatal to both chewing and sucking insects.

Red Arrow is absolutely non-poisonous to children, poultry or pets. It will not burn the tenderest leaf, flower or petal. May be sprayed on vegetables before eating.

Red Arrow will kill fleas on dogs and cats. Use at rate of two tea spoons to one gallon of water.

**Price 1 oz. 35c; ¼ pt. \$1.05; pt. \$2.25; qt. \$4.00; gal. \$12.25.**

## ROSE AID

The most efficient dusting compound ever developed for the control of Black Spot, Mildew and Chewing Insects.

Rose Aid is a combination of fine Sulphur, Dry Lime, Sulphur-Bentonite and Arsenate of Calcium.

Everyone loves healthy, vigorous Roses. You can grow them if you use Rose Aid. The results will be satisfactory for Hybrid Teas, Hybrid Perpetuals or Climbers, just dust them with Rose Aid. **Price 2 lb. can 60c.**

## ROTECIDE

The Standard Rotenone Spray

Non-Poisonous  
Economical

Rotocide is a complete spray. No soap or spreader is needed. Contains an excellent penetrant which spreads each drop of spray over a maximum area. This feature insures a complete kill. **Price 1 oz. 35c; 8 oz. \$1.10; pt. \$1.85; qt. \$3.15; gal. \$8.25.**

## SELOCIDE

Kills Red Spider

Selocide kills 90% to 100% of Red Spiders in just one application. It also kills the eggs and does not harm the tender plants when properly used.

Selocide contains Selenium, the only material yet found that is a sure kill for Red Spider.

Selocide contains a spreader and is to be sprayed thoroughly on upper and lower sides of the leaves to kill Red Spider only. **Price 1 qt. \$1.40; 1 gal. \$3.50.**

## SEMESAN

### A Superior Disinfectant

Authorities stress the importance of planting clean seeds, free from disease and infection. Semesan is highly recommended as a disinfectant and can be used as a DUST or in LIQUID form.

Why not lay the foundation for a heavy-yielding, healthy and profitable crop this year by using Semesan on all seeds, bulbs, roots and potatoes?

SEMESAN comes under three formulas and we list them as follows:

**SEMESAN Regular, for Vegetable Seeds. Price 2 oz. 55c; 1 lb. \$2.60; 5 lbs. \$12.00.**

**SEMESAN JR. for Seed Corn. Price 4 oz. 55c; 1 lb. \$1.60; 5 lbs. \$7.50.**

**SEMESAN BEL, for Seed Potatoes. Price 4 oz. 55c; 1 lb. \$1.85; 5 lbs. \$8.25.**

## TREE TANGLEFOOT

### Safe, Dependable, Long Lasting

Tree Tanglefoot is a sticky material for applying in bands around the trunks of trees and vines to combat the climbing and creeping type of destructive insect pests. It remains three to four months, outlasting ten to twenty times any other material. **Price 1 lb. can 70c; 5 lbs. \$2.95; 10 lbs. \$5.60.**

## VOLCK A Powerful Spray

for Insect Pests

Volck is a spray for Scale Insects, Mealy Bugs, White Flies, Red Spiders, Rust Mites and similar insects. It is suitable for all kinds of plants, flowers, vegetables, berries, shrubs, ornamental trees, deciduous and citrus fruits. **Price ½ pt. 40c; pt. 60c; qt. 90c; gal. \$2.80.**
